"The physician attending me prescribed, on my rallying from an attack of rheumatism, your Scott's Emulsion, which I have been taking every winter since. I find it most valuable in strengthening and building up one after a severe illness. I have not had rheumatism since the time mentioned above and I owe it to your most valuable Emulsion. It is my life now, and makes me strong and healthy."-R. PICARD, Grand Ligne, Quebec.

### Anty Drudge on Politics.

1.7rs. Clubwoman-"Anty, what do you think is the greatest political issue of the day?"

Anty Drudge-"Don't know and don't care! The most important issue in my mind is how to tell the greatest number of women about the better and easier way of washing clothes with Fels-Naptha. That'll do the women more good than all the political questions men over gabbled about."

Some people think Fels-Naptha is a Summer soap because it cleanses clothes in cold as well as lukewarm water.

Know this: Fels-Naptha is sold and used in every State and Territory in the United States, including Alaska-and in every Province of Canada. It is sold and used in Winter as well as in Summer.

And here's why: It gets mighty cold cometimes in Alaska and Northern Canada. The colder it gets the more reason women have for washing clothes with Fels-Naptha

in lukewarm water. The more reason for not risking a cold by filling the house with vapor or bending over steaming suds.

The more reason for protecting hands from becoming red and chapped.

The more reason for getting the washing done in half the time with one-fourth the work.

Use Fels-Naptha in your washing this Winter and see how much easier and better it is. Just as effective for flannels, woolens and colored goods as for white clothes.

Use only lukewarm water and follow. directions printed on the red and green wranger.
