

Flatulency or Wind On Stomach

As It Is Commonly Named, Means That Decaying Food Is Making Gas.

This most serious condition is very prevalent and results most distressingly and fatally oftentimes. The stomach in cases of flatulency is unable to digest the food properly. Decay sets in, gases form, extend the stomach, force their way downward into the bowels, and if not relieved it extends upward pressing against the lungs, liver and heart, causing shortness of breath, belching, foul odors and many times sudden death.

Foods which are filled with gases, when taken into a deranged stomach cause flatulency rapidly, vegetables being especially given to this quality. Against such a condition the stomach can do but little, because these foul and poisonous gases affect its glands, muscles and tissues to such a degree as to incapacitate it almost at once.

These gases distend the stomach in all directions, preventing the contracting muscles from doing their regular duties, or if they do force the gas from the stomach it goes elsewhere in the system with even more harassing results, and then the decaying mass still remains to generate more gases.

The most effective methods for allaying flatulency is to remove the cause of gas making. An emetic will do this, but the stomach will have the same trouble the moment new food enters it.

Stuart's Dyspepsia Tablets get at gas food at once, digest it, prevent decay, quickly reduce food to nourishment, make good rich gastric fluid and pass the digested food to the intestines, giving the stomach its rest and the system its nourishment. Flatulency simply cannot exist where these little tablets are used. They build up the stomach fluids so that matters not how many vegetables you eat or food containing quantities of gas, the stomach does its work well and quick.

Stuart's Dyspepsia Tablets are sold everywhere and used the whole world over by sick stomachs and stomachs that want to eat heartily and yet not get sick.

Every druggist carries Stuart's Dyspepsia Tablets, price 50c. per box. The demand for these little fighters is constantly increasing. Forty thousand physicians in America and Canada use them, and prescribe them. Send us your name and address and we will send you a trial package by mail free. Address F. A. HE URGED UNITY

SIR WILFRID LAURIER REMAINS WITH OLD LOVE.

There Will Not Be a Vacancy in Ottawa For Some Time—To Watch Legislation in Regard to Boundaries of Manitoba.

Ottawa, March 12.—Sir Wilfrid Laurier, to-day, told a deputation of the Ottawa Liberal Association that he will elect to sit for Quebec East. He hesitates to go back on an old love. He intimated that there would not be a vacancy in Ottawa for some time and counselled unity in the ranks when it did occur.

Hon. Robert Rogers, minister of public works, and Hon. Colin Campbell, attorney-general of Manitoba, arrived in the city, this morning. They have come particularly in connection with the legislation with reference to the extension of the boundary of Manitoba. "We are a small province, you know, and are entitled to more area," observed Hon. Mr. Rogers.

There are several phases of the proposition, however, that are not satisfactory. He hesitated to go into the matter fully until laying his views before the government. The provincial minister of public works says the legislature has just come through its session successfully. Questioned with regard to the alleged list of improper voters' lists, he stated that nothing had come of it. An investigation was held but nothing damaging was brought out, seven judges who had done the revising having pronounced the lists all right.

The assets of the Ottawa Pulp and Paper company have been sold to Alexander Pringle, Montreal, for \$10,000. The stock included machinery, patents and stock on hand.

Hamilton, Ont., March 12.—G. T. Blackstock, K.C., interviewed after the close of last night's proceedings, said things were developing very nicely. Somebody was under surveillance in connection with the case, Mr. Blackstock said in reply to a question. The case, he said, is being handled by no means finished yet but a verdict should be reached by ten o'clock to-night.
