Don't Neglect a Cough or Cold.

It can have but one result. It leaves the throat or lungs, or both, affected.

Dr. Wood's Norway Pine Syrup is the medicine you need. It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs.

A single dose of Dr. Wood's Norway Pine Syrup will stop a cough, soothe the throat, and if the cough or cold has become settled on the lungs, the healing properties of the Norway Pine Tree will proclaim its great virtue by promptly eradicating the bad effects, and a persistent use of the remedy cannot fail to bring about a complete cure.

Do not be humbugged into buying so-called Norway Pine Syrups, but be sure and insist on having Dr. Wood's. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cents.

Mrs. A. Eliza, Innisfail, Alta., writes: "Last spring I had Typhoid fever and Bronchitis, which left me with a terrible cough. I tried doctor's medicine but got no relief until my husband got me a bottle of Dr. Wood's Norway Pine Syrup, and before I had finished it my cough was cured. My husband also uses it whenever he has a cough. I would not be without it."

AN OLD IDEA Shown to Be Absolutely False By Modern Science.

People used to think that baldness was one of those things which are handed down from generation to generation, from father to son—just like a family heirloom. Science has shown the fallaciousness of this belief by proving that baldness itself is not a constitutional disease, but the result of a germ invasion of which only Herpicide can effectually rid the scalp.

At the passage: "Oh! my adorable angel, accept the confession from my lips that I cannot exist without you! Make me happy; come and share my lot and be mine until death do us part!" his fair secretary paused and inquired: "Is that to go down with the rest?"

LOSING CONFIDENCE METHODS OF THE ROBLIN GOVERNMENT.

Latest Dodge to Stifle Inquiry—Public Accounts Committee Ordered to Report—Premier Roblin's Connection With Sand Company Strongly Attacked.

Winnipeg, March 9.—The strongly entrenched Roblin government is at last fairly on the run before the aggressive opposition. Developments before the public accounts committee have aroused the electorate to the petty graft and peculations of the government's camp followers, and the deliberate waste of public moneys and dissipation of provincial lands. Fearing further exposures, which were coming, the government, to-day, decided to strangle the investigation, and to prorogue the house forthwith. By means of the obedient majority the public accounts committee was suddenly closed, although its work was only fairly begun, and a report was made to the house whitewashing the department. The liberals strongly objected to such high-handed procedure, especially as important witnesses whom they had called were even in the corridors of the house, and were thus prevented from an examination. The liberals were prepared to prove that in addition to the land scandals uncovered, the normal school and telephone site rackets, scandals in the subsidizing of the tory press, and similar affairs, the corrupting of the electorate in federal elections by means of public money, though the department had deliberately levied tribute on hotel-keepers, and had used the machinery of the license department to convert the hotels into mere tory committee rooms, and that they also levied on the tradespeople of Brandon through contracts for supplies to public institutions.

All this investigation was suddenly buried by Attorney-General Campbell, who ordered the committee to cease sitting and to report to the house. The opposition submitted a minority report, which sets forth the work and rottenness of the administration, which had been partially revealed.

One of the most remarkable things of the entire session occurred, this morning, when the manager and editor of the Telegram appeared before the committee to defend the action of his paper in its failure to fulfil the contract for advertising, despite the fact that payments were collected regularly without demur on the part of the government. According to the contract, nearly fifty hundred dollars had thus been taken from the treasury in excess payments, and he absolutely declined to repay the sum, on the ground that he had published free notices for the government which would offset the charges. One of these notices was a provincial crop report, which the other papers would have been glad to receive as a news item. The government sustained him in his contention.

A road inspector swore that he had paid moneys in Gilbert Plains, where a bye-election was in progress, to gangs on the roads who were working on grades in November. He stuck to his assertion, although it was proven that the ground was frozen solid at the time the checks were dated, and the working of the scrapers was a physical impossibility.

Ready For 53 Leading Roles.

It is related that Coquelin aime, the celebrated French actor just dead, that at a dinner recently given by the Vicomte de Lovenoil, at Brussels, Coquelin was asked how many parts he felt capable of playing at any moment without notice. He took a pencil and wrote out a list of the plays in which he felt prepared to assume the leading role; these numbered fifty-three. M. de Lovenoil then, at his request, sent to the library for the printed copies. When they were all laid on the table he challenged any of the guests to take any of the volumes and give him any cue. Several of them tried, and in every single instance the great actor was found to be letter perfect.

REMINISCES OF RHEUMATISM.

Cold, Wet Weather Starts the Pain—Due to the Blood.

Cold, damp weather brings on the twinges and pains of rheumatism, but is not the real cause of the complaint. The trouble is rooted in the blood and can only be cured by enriching the blood and driving the poisonous acid out of the system. This is a great medical truth, which every rheumatic sufferer should realize. Liniments and outward applications can't cure the trouble—they can't reach the blood. The sufferer is only wasting valuable time and good money in experimenting with this sort of treatment—and all the time the trouble is becoming more firmly rooted—harder to cure. There is just one sure way to cure rheumatism—Dr. Williams' Pink Pills. They act directly on the impure weak blood. They purify and strengthen it, and so root out the cause of rheumatism.

Mrs. S. Bailey, Newcastle Creek, N. B., writes: "In the summer of 1906, I became lame in my ankles, but thinking I would soon get over the attack I did not seek medical aid, but used liniments to relieve the pain and swelling. Instead of getting better the trouble increased and I then consulted a doctor who pronounced it articular rheumatism, and treated me for this trouble. Instead of getting better the pain and the swelling became worse, until I was hardly able to hobble about the house. On rising in the morning I was unable to bear my weight, except with extreme pain. Having tried so much medicine without benefit I began to think I was doomed to be a cripple. One day a cousin advised me to try Dr. Williams' Pink Pills. She said, 'I take them ever spring as a tonic for my blood, and they make a new person of me.' After some persuasion I decided to try them. I had taken three or four boxes before I noticed any change and then it seemed my ankles were less painful. By the time I had used a few more boxes, there was a wonderful improvement in my condition. Not only did my ankles get well, but I felt like a different woman and had not been as well in years. In speaking of this to a doctor afterward he said that no amount of Dr. Williams' Pink Pills had enriched my blood thus driving out the painful disease." Not only rheumatic sufferers but all who have any trouble due to weak, watery blood or impure blood can find a cure through the fair use of Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50c. a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Farm Sale At Selby.

Selby, March 11.—A number from here attended the entertainment in the Trinity church at Napane, on Monday evening. Miss Libbie Anderson is spending a few days at Thurston. He and wife have returned home after spending three months at Deseronto and Bay Bay. E. Bradshaw and family have moved into Mrs. Gould's house. V. Storms and wife attended the funeral of his father at Prince Edward, last week. E. Williams and family spent Sunday at Crowden. Mrs. Richmond has rented J. Gollinger's house and intends moving soon. E. Hudgin has moved to his farmstead of the village, which he purchased from Mrs. J. Sisset, and P. Davis has moved to his farm, which he purchased from E. Hudgin. Mrs. Ames has returned home after visiting friends at Bell Rock and Murvale. J. Hudgin and wife, of Phoenix, N.Y., are renewing old acquaintances here. Visitors: Mrs. Rose at L. Jones; Mrs. C. Gou at J. Gou's; Mr. Williams at E. R. Williams; Mrs. Lucas at G. Vallau's; A. Anderson and wife at J. Anderson's.

On Wednesday Mrs. Henry Woods, Lanark, received a telegram saying her mother was very low, and on Thursday another came bringing the sad news of her death. Mrs. Deachman was born in Middleville sixty-seven years ago. She was a daughter of the late Stevenson Blackburn. Fifty years ago she married Mr. Deachman and the union was blessed by a family of nine, all of whom are alive. Biphtheria has broken out in the home of William Storie, Lanark township. Three children were taken ill last week and on Sunday Mr. Storie himself became ill with the disease. The children are getting better.

AN EASTER COAT OF LACE

POSED BY MISS HIBBARD OF THE BLUE MOUSE CO. PHOTO BY G. J. FEDER.

This year the very dressy coats of lace will be as much worn as they were last season and the new models show the same long, slender lines, with a slightly more pronounced waist line.

The coat of Renaissance lace shown here is particularly graceful, especially the pointed effect at the bottom. The trimmings of heavy cord ornaments add a rich touch to the lace fabric.

Japan Is Lovely In The Spring.

To a person contemplating a trip to Japan I would advise that he come in the spring. About the first of April the cherry blossom season is on, followed by the flowering of the azalea and wistaria, and the parks and the forests are beautiful, but in the winter there is little to be seen in the way of color. The cities and towns are an almost continuous aggregation of unpainted shanties with picturesque roofs of tile or thatch, while the fields beyond are generally covered with water as a preparation for the next planting of rice. The picture is odd and interesting, but not beautiful. Travel through the country is cheap and fairly comfortable, the passenger cars are small and arranged in compartments like those used in Europe. Good hotels, conducted like our hotels on the "American plan" are to be found in every place you will care to visit, but outside the cities their lack of heating facilities will be noticeable and in the winter will result in suffering.

A Separation Granted.
