

WHY SUFFER.

Breathe Hyomei and Kill the Loathsome Catarrh Germs.

Just as long as you have catarrh your nose will itch, your breath will be foul, you will hawk and spit and you will do other disgusting things because your catarrh helps yourself.

But there is one remedy that will kill the germs and cure catarrh, and that is Hyomei, the Australian dry air treatment.

Joseph Durai, of Woodstock street, Tavistock, Ont., says: "Catarrh had given me all kinds of suffering for a long time. There was a swelling of the glands under the eyes and adjacent to my nose and the discharges would drop into my throat."

G. W. Mahood, the druggist, will guarantee Hyomei to cure catarrh or money back. Don't delay this pleasant antiseptic treatment. Breathe in Hyomei and kill the germs.

G. W. Mahood will sell you a complete Hyomei outfit, including inhaler, for only \$1. It is also guaranteed to cure bronchitis, asthma, coughs, colds, hay fever and croup.

ANY SIZE YOU WANT.

In Good Goal can be quickly had if you leave your orders at WALSHE'S COAL YARD, 55-57 Barrack St.

A WOMAN'S BACK WAS NOT MADE TO ACHE.

Thousands of Women Suffer Utterly Miserable Every Day With Aching Backs That Really Have No Business To Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life.

It is hard to do housework with an aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backaches is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Mrs. O. Warren, Radisson, Sask., writes: "I was troubled with very severe pains in my back for years. I tried everything I could think of but they did me no good. A friend told me about Doan's Kidney Pills and after taking two boxes, I have not been troubled since."

Price 50 cents per box, or 3 for \$1.25. All dealers or mail order on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

When ordering specify "Doan's."

Insist on this Trademark for your own sake.

Purely Vegetable.

CURE SICK HEADACHE.

There's something wrong with the community where the impression prevails that there are too many churches.

A GANANOQUE CHURCH

CONTRIBUTED \$921 AT ITS ANNIVERSARY.

Death of Salvation Army Ensign's Child—Mail Delivery to Wilestead—Telephone Line Proposed for Islands.

Gananoque, March 22.—Grace Methodist church celebrated the seventy-third anniversary yesterday.

A petition is in circulation in this section asking for a free rural mail delivery between this town and Wilestead, a few miles east. This is one of the items brought up during the recent election campaign and will doubtless be given due consideration by the federal government.

R. G. Graham, principal of Gananoque high school, spent the past week in Toronto as representative of Gananoque lodge, No. 247, A.O.U.W., at the grand lodge session of that order.

Rev. C. E. Britton, P.E.C.R., of the Canadian Order of Foresters, represented Court Thousand Islands, No. 15, C.O.F., of this town, at the executive meeting of that order in Winnipeg last week.

Efforts are on foot to connect the rural or main telephone lines. With a cable to Tremont Park little difficulty would be experienced in suitable connections for the adjacent islands, which lie quite close together.

Ex-Lieut.-Gov. Patterson, of Manitoba, was in town a short time during the past week on his way to Ivy Lea, where he generally summers at Fairview House.

The local Salvation Army corps held a special young peoples' meeting at the barracks on Saturday evening, attracting a goodly number.

Mr. Gurnsey, caretaker of Ilea Island, the summer home of Ira Kipp, of New York stock exchange fame, was in town on Saturday and reports the crossing back and forth as attended with considerable danger, there being strong indications of an early break up.

Wilfred J. Bulloch of the Parliament offices here, has been confined to his home during the past week on account of illness.

J. A. Milne, of Whitby, was in town the latter part of the week negotiating for the purchase of the bakery owned and operated by Donald Root, Charles street.

Mr. and Mrs. J. L. Pollock, who have been the guests of the latter's parents, Mr. and Mrs. W. H. Randall, Maitland street, for the past two months, have left for their home in Minnesota.

Mrs. W. P. Dalley, Brockville, spent the past week here with her parents, Mr. and Mrs. George Peck, Pine street. J. P. Webster, of Toronto, was in town for a short time during the latter part of the week. J. C. Sheik, of Kingston, was in town on business for a short time during the past week.

Mr. and Mrs. J. C. McEwen are among those effected with western fever and leave at an early date for Alberta, where they purpose locating.

WAS SLOW TO LEARN.

When a Boy the Famous Marconi Was Very Dull.

London Tit-Bits. It is a somewhat curious fact, perhaps, that as a boy, Mr. Marconi, the inventor of the wireless system of telegraphy has been so strikingly demonstrated by the saving of the passengers of the ill-fated Republic, showed little signs of cleverness.

One of his teachers, in fact, once said of him that he could never learn anything by heart. Nevertheless, he was only twenty-one when he began to startle the world with his demonstrations of wireless telegraphy.

In spite of his fame, Marconi is one of the most unassuming of men, and hates demonstrations. He was once recognized while walking in Rome. Immediately a cheering crowd assembled. Marconi bolted into what he thought was an empty carriage. But it contained a lady who was too frightened to expostulate. The inventor quickly made his apologies, and the lady allowed him to remain until they were free of the crowd.

Sanguine. "How's times?" inquired a tourist. "Oh, pretty tolerable," responded the old native who was sitting on a stump. "I had some trees to cut down, but a cyclone came along and saved me the trouble."

"Fine." "Yes, and then the lightning set fire to the brush pile, and saved me the trouble of burning it."

"Remarkable. But what are you doing now?" "Oh, notin' much. Jest waitin' for an earthquake to come along and shake the potatoes out of the ground."

If you are an honest, conscientious man, you will measure your words as carefully as you do your wheat and corn.

THE SPORT REVIEW.

Interesting News From the Various Sporting Fields.

Hull is to have a semi-professional baseball team. Vancouver is almost sure to have a pro lacrosse team.

"Pete" Green will again look after the Capital lacrosse team. Johnson has been matched to meet Stanley Ketchell for a purse of \$5,000, in either New York or San Francisco.

Ottawa Citizen: Up in Kingston they have begun to believe that the Queen's team could just about lift the Stanley cup.

A bill was passed in the Minnesota house allowing the councils of the cities of St. Paul, Minneapolis and Duluth to permit limited boxing matches. The Rideau Valley Lacrosse League will be resurrected once more if the efforts of the Ottawa East Amateur Athletic Association meet with success.

Jeffries and Johnson will not probably fight before November. Jeff must work off at least forty pounds to be in shape. He will not meet or talk to Johnson at all.

Toronto Telegram: "I'm going to knock his block off." Those are the immortal words of James J. Jeffries, in referring to his erstwhile contemporary, J. Johnson. And how readily one would have believed him had he simply said, "I'm going to talk his block off."

"Battling" Nelson has dodged Moran, "Cyclone" Johnny" Thompson, and other challenges by stating that he must "give it" to Moran in New York. New York or Philadelphia club which wants him to fight. Nelson believes in following the example of "Tommy" Burns in making safe money when there is a risk to be run with earnest opponents.

Montreal has lost Pitcher Siever. Casey says he has given him his word of honor to go with Montreal at a much bigger salary than Montreal intended to pay originally to any player. Casey, however, could not sign him without the consent of the Montreal directors, and they delayed so long that Siever got tired and signed with the Washington club of the Northwest League at a fancy figure.

Longboat is fast running into shape for the big Marathon Derby to be run at New York in two weeks, and advices from Toronto are to the effect that he is in better condition than when he met Borando in New York. He ran seven miles in five last time, the other day, and "Tim" O'Rourke says that he is training more diligently than he ever did before. Longboat in shape will about carry off the big money despite the fact that the best distance men in the world will be against him.

WAS STRANGER IN THE TOWN

And Thus Could Not Tell Moor From the Sun.

Philadelphia Record. Two belated disciples of Bacchus staggered arm in arm up Walnut street about three o'clock the other morning. The street was dark, except for a single round glass globe that blazed in front of an apartment house. One of the inebriates, spying this lone light, observed:

"Oh, look at the moonsh." The other, seriously contradicted him, saying: "That ain't no moonsh, zash sun."

This started an argument, which lasted for several minutes, as to whether the globe was the moon or the sun. Finally they decided to leave it to the first passerby, who happened to be another "happy" gentleman. They stopped him, and pointing to the globe, asked:

"Settle an argument, old pal. Is that the moon or the sun?" The third party stared knowingly at the globe for several minutes before he shook his head and replied:

"Gentleman, I really couldn't tell you. I'm a stranger in this town."

The Honorable Earthquake. Speaking of the recent visit of the Duke of Connaught to Italy specially to convey condolences to the government on account of the disaster at Messina, a correspondent in Black and White writes: "When with the duke was visiting Japan some years ago, he remarked to his host at table, when the programme for his visit was put before him: 'Well, I think you have planned everything connected with this country there is to see, but he added, laughing, there is one thing you cannot put on your programme, and that is an earthquake.' Hardly had he spoken, however, when the house began to tremble violently, and the servants standing at the door bowed together as the host said, 'Your Highness, the honorable earthquake!'

Many a failure in life is made in selecting the wrong mission.

Exhaustion All Gone!

To-Day She is Buoyant With Health and Vital Energy Given By a Medicine Suited to the Female Sex.

There is no medicine for health and strength that accomplishes so much as Dr. Hamilton's Pills. For women's troubles they have no equal.

Miss Katie E. Emerson, one of Brockton's popular young ladies, in the following letter voices the conviction of hosts of her friends:

"Two months ago I was completely used up. I was weak and miserable. My strength was gone, and I had no appetite or energy left. What I needed was a blood purifier and systematic tonic which I found in Dr. Hamilton's Pills. To-day I am brimming over with spirits and virile good health that came from using Dr. Hamilton's Pills."

No one can over-estimate the true worth of Dr. Hamilton's Pills. Their enormous curative power makes one marvel. You soon have richer blood, better appetite, clearer complexion, freedom from weakness, and ill-health. Dr. Hamilton's Pills are sold everywhere, 25c. per box, or five boxes for \$1.

WORLD SCIENCE NOTES.

A Racy Account of Very Valuable Things.

Popular Mechanics Magazine. An important feature of April Popular Mechanics Magazine, is the remarkable oxygen melting process by which it is possible to start a chilled taphole flowing in a few seconds. "The Building of Roads by Convict Labor" tells what has been accomplished, and the cost, in states where convict labor is thus employed. "Whaling with Modern Methods" is of real interest; the description of Uncle Sam's derelict destroyer, whose mission is to succeed imperiled navigators, repair disabled ships, and destroy abandoned wrecks, is fine.

A steel company at Hillburn, N.Y., rolls a manganese steel rail that can be bent, twisted, and distorted cold without breaking or developing cracks. It has a high elastic limit with an ultimate strength of about 140,000 pounds and is so hard and tough that its life is extraordinary. The manganese steel rail cannot be drilled or machined commercially, yet the rail can be cut to any length by a friction saw and holes punched and drilled accurately by joint bolts and bonding.

Colorado, New Mexico and Wyoming are using convict labor to construct a great highway which will run through the three states, and Washington, Oregon, North Carolina and Georgia, as well as several other states, have gangs at work. Illinois is using a number of convicts in crushing stone for the roads.

An engine-motion-detector for steamships, described in Popular Mechanics, shows by a system of lights, whether or not orders issued from the bridge have been correctly interpreted. The device will be an important factor in the safety of navigation.

A yacht that sails itself, though not equipped with electricity, steam, springs, gas or other engine, is a remarkable mechanical curiosity. The vessel sails, steers, tacks, trims sails and returns to landing with no skipper but the wind.

The size of ocean waves in comparison to a large ocean liner is clearly shown by an illustration in Popular Mechanics. Many persons have an erroneous impression in regard to the size of the waves.

To prevent the Ohio river, during a flood stage, from sweeping away a road-bed, to protect farm-lands, the city of Cincinnati is spending over \$100,000 in building a concrete dyking along the sides of the roadway. A picture of the largest chrysanthemum in the world appears in Popular Mechanics. It had 1,200 blossoms, at one time.

WAS FIGHTING APOSTLE

And So Gave a Contribution of \$500.

It is well known that Elias Howe, the inventor of the sewing machine, not only enlisted as a common soldier in the ranks of the 17th Connecticut Regiment, carried a musket, and did full military duty during the war, but at a certain juncture, when national finances were at a low ebb, he paid soldiers out of his own pocket. Relative to this incident, P. T. Barnum used to tell this story: "While Mr. Howe was counting out the money referred to, a stranger, who was a clergyman, entered the tent and said he had heard of Mr. Howe's liberality, and he had called to ask him to contribute toward building a church for his congregation. 'Church, church,' said Mr. Howe, without looking up from the hills he was counting; 'building churches in war times, when so much is needed to save our country! What church is it?' 'St. Peter's church,' replied the clergyman. 'Oh, St. Peter's,' said Mr. Howe; 'well, St. Peter was the only fighting apostle—he cut a man's ear off. I'll go \$500 on St. Peter, but I am spending most of my money on saltpeter now.'
