

Don't Paint the Floors

It seems that the workmen have been right all along in their prejudice against painted floors and their preference for polished hardwood. The doctors say now that any painted floor catches and holds dust about as tenaciously as a carpet, and dust is known to be the vehicle of many diseases and therefore a menace to health, especially during winter. Dust can be practically excluded from any room, however, by coating the floors with Floorglaze, an ideal floor-finish which gives indoor or outdoor woodwork a beautiful, durable and glossy surface in any of ten handsome shades. A floor finished with Floorglaze cannot harbor nor hide dust, and can be washed thoroughly clean in a very few minutes.

GRATEFUL FOR ECZEMA CURE

Any Sufferer Can Write to Mrs. D. McGillivray, of Nanton, Alta., For Full Information.

There are undoubtedly many frauds in the testimonials of medical firms—letters written by friends or even employees of the advertiser. But, on the other hand, in some cases the testimonials are thoroughly genuine, gladly offered by prominent citizens, who are grateful for the cure.

Such a case is that of Mrs. D. McGillivray, of Nanton, Alta., who cured her two children with D.D.D., and is glad to tell others about it. She wrote on September 3rd last:

"Your letter to hand of recent date. I must thank you for so kindly inquiring about my order and also the child. I am glad to say I received the three one dollar bottles of D.D.D. and two cakes of soap safely, and am delighted with the result of both prescription and soap. The soap is all that is required to complete the treatment. The little boy of two years and a half is to all appearance cured of the dreadful Eczema.

"My baby girl at two months broke out with the same rash and I treated her with D.D.D. and am perfectly satisfied she is cured to our great joy. I feel sure it is a splendid remedy for all skin diseases and can highly recommend it. I will be glad to recommend it to any one suffering with skin trouble."

If any reader of this paper should write Mrs. McGillivray, she requests that a self-addressed stamped envelope be enclosed.

For free sample bottle of D.D.D. prescription write to the D.D.D. Laboratory, Department K.W., 23 Jordan St., Toronto.

THE POWER OF STEAM.

Many May See But it Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was. Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair and consequent Baldness, and has unearthed a tiny germ which cuts the life from the roots of human hair.

Newbro's Herculicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herculicide Co., Detroit, Mich. One Dollar bottles guaranteed. G. W. Mahood, agent.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only Regulator on which woman can depend. Sold in three degrees of strength. No. 1, 2, 3. 10 degrees average \$3; No. 3, 15 degrees average \$5 per box. Sold by all druggists, or sent prepaid on receipt of price Five Dollars. Cook's Cotton Root Compound.

HOLDS HIGHEST RANK

A CANADIAN PRODUCT OF BINDER TWINE.

J. L. Haycock, Has Submitted a Report Upon the Industry in Canada—Exports Are Gaining and Imports Declining.

In response to a request from the department of trade and commerce, J. L. Haycock, Dominion Inspector of binder twine, has submitted a report upon the binder twine industry in Canada. It is gratifying to learn that the Canadian product holds highest rank, that the exports of twine are gaining and the imports declining, and finally, that the Canadian manufacturers adhere rigidly to standard. Mr. Haycock's report follows:

Owing to climatic conditions existing in the north-western provinces of Canada, where the farmer is dependent almost wholly on his grain crops—the safety of which owing to the danger from hail, frost and drought is a constant source of anxiety—it can be readily understood how important it is that when his crops ripen no delays should occur to interfere with his harvesting them as quickly as possible. In view of these conditions nothing but a first-class binder twine meets the demand in that country. Under less strenuous conditions a farmer may waste an hour or so bothering with defective twine, but in the North-West he simply cannot afford to be delayed by unsatisfactory twine. If a ball of twine breaks in the binder or causes delay for any reason, he will not stop to tie it, he tosses it away and puts in another ball. If that too proves unsatisfactory, he condemns the whole lot and tries to get better.

Under these circumstances it is not surprising that Canadian manufacturers of binder twine are producing as good twine as can be obtained anywhere in the world, and far superior to that made in almost any other country. In fact, the manufacture of binder twine which in most countries is only an art, has been reduced to a science in Canada.

Another feature of the binder twine situation is that owing to the impossibility of measuring twine without unwinding the balls and thus destroying it for the purpose for which it was intended, great frauds could be perpetrated on the farmer. In order to prevent such a possibility, there was passed in 1902 an act respecting the sale of binder twine in Canada, providing for correct marking as to length and heavy penalties for a violation of the act. The rigid enforcement of this act has revolutionized the whole twine situation in Canada. Prior to this act, only a small portion of the twine sold in Canada was correctly marked, and in very many cases serious loss was entailed on the consumer. Many cases were found where twine measured from ten to twenty per cent. less than it was marked; and in one case, twine 600 feet per pound actually measured only 376 feet, or a loss

of binder twine from Canada from 1902 to the year in which the inspection act was passed, until the year 1905:

Table with 3 columns: Year, Tons, Value. Data for years 1902-1908.

When it is considered that the average value would be about \$200 per ton, this means that the exports of Canadian twine have increased from \$50,200 in 1902 to \$1,588,400 in 1908, or a gain in value of exports of \$1,538,200.

The appended statement of imports to this act, only a small portion of the twine sold in Canada was correctly marked, and in very many cases serious loss was entailed on the consumer. Many cases were found where twine measured from ten to twenty per cent. less than it was marked; and in one case, twine 600 feet per pound actually measured only 376 feet, or a loss

BOY THIEF "CAPTAIN"

Had the Plunder in Cellar Under His School.

At Preston, England, a diminutive boy, of eleven years, named Francis Glaze, was remanded for a week for "not being under proper guardianship."

The chief constable informed the court that the prisoner was the leader of a gang of boy thieves, who went about robbing letter and pillar boxes. Last Sunday alone prisoner obtained in this manner clothes, postal orders, etc., amounting to £460, and he had given the postal authorities a great amount of trouble. On another occasion he obtained over £50, but, luckily, all had been recovered.

A detective stated that the boy had a remarkably small hand and thin arm, which he could thrust through the apertures in the boxes and abstract the contents. Prisoner hid his plunder in a cellar underneath his school, and in crevices in different parts of the town.

Why Have Indigestion.

You cannot have indigestion for a single day without injury to your whole system, while continued indigestion undermines the entire foundation of health.

Decide to cure your stomach trouble. Do it to-day. Day's Dyspepsia Cure does cure all forms of dyspepsia and indigestion. Each bottle contains sixteen days' treatment. For sale only at Wade's drug store.

The Care Of The Eyes.

Harper's Bazar. When one is using the eyes for close work, it is wise to change the focus at intervals, and gaze off at a distance, the distant view is of green mountains and fields it will be most restful. If the air in the room can be frequently changed that will rest the eyes also. One should never use the eyes for study or work before breakfast or after the strength has been reduced by disease or a nervous strain.

A book should be held about eighteen inches from the eyes. The light for work should be steady, and for an entire room diffused rather than spotty.

Women over forty years of age, who cannot sleep or rest well at night, should take one teaspoonful of St. Regis Lumbago Cure. With some men something more than the soft answer is needed to be effective.

AN OPEN LETTER.

Results So Surprising That They Seem Marvelous Are Common to Mi-o-na the One Dependable Stomach Remedy.

Mrs. J. A. Pillow of North Street, Gannanogue, Ont., says: "Mi-o-na is worth its weight in gold for quickly and permanently curing dyspepsia. I became so bad that I was unable to leave my bed. There was a constant burning in my stomach, I would belch up gas every few minutes and could eat but very little, as the food would quickly ferment and make gas that caused a serious depression of the heart. Perspiration would break out all over my body, I would become so weak that I could not stir and would often fall on the floor in a helpless state. The pains in my stomach were terrible. I could find no position in which to sit or lie without suffering, and I was so nervous that the least noise affected me. Headaches were constant. I would become dizzy and spots would appear before my eyes. I had no ambition to get around and everything seemed to tire me. The first box of Mi-o-na gave me more relief than anything I had previously tried. The second box of Mi-o-na cured me. I am well and strong and I have not had an hour's suffering since. I will always feel grateful to Mi-o-na for the cure given me and glad to recommend it."

In the face of such evidence it is easy to understand why G. W. Mahood feels assured in saying to you, money back if Mi-o-na fails to relieve either trivial or serious stomach trouble.

GERMAN RELATIONS

LIVING ON EXCELLENT TERMS WITH BRITAIN.

So Declares Von Buelow—Political Fanatics Absurd in Assuming That There is Any Hostile Feeling.

Berlin, March 31.—Chancellor Von Buelow made a speech in the Reichstag on the foreign relations of the empire. The chancellor alluded pleasantly to the recent visit to Berlin of King Edward and Queen Alexandra, and spoke of the excellent terms upon which Great Britain and Germany were now living. He then referred to the "absurdity of the political fanatics in assuming that there was any hostile feeling between the two peoples," and reviewed the economic "community of interests" that united Great Britain and Germany.

"Great Britain," continued the chancellor, "is for us the most important of all countries with which we trade."

One-fifth of all that Germany sold abroad went to the United Kingdom, and the British colonies, the chancellor declared, and Germany, during the past ten years, had taken an average of nine per cent. of all Great Britain's exports, while the United States had taken seven, and France five per cent.

The chancellor was warmly applauded. He closed without making any reference to the socialist interpellation as to why the German government took no step toward the limitation of naval armaments through agreement with the powers.

Was A Friend In Disguise.

London Tit-Bits. The dark lantern flashed through the flat. Then came the gleam of a revolver.

"Hands up!" hissed the head of the family. "You're a burglar."

"Yes," gasped the intruder, as he faced the cold steel.

"What have you stolen?"

"Your wife's pug dog."

"If I'm. Er—that is all you may sneak out quietly."

"And your mother-in-law's parrot."

"You don't say. Well, here's some loose change."

"Good! Here's some more loose change."

"Also, your son's punching bag."

"What! Great Scott, man, come out to the library and I'll open a special bottle."

The contagious disease never stops to find out how much money you have.

Style makes some young men want to forget that their fathers were overalls and their mothers calico.

Our \$3.50 Gift

Don't buy Silver Butter-Spreaders. We have a set of six for you. They're Wm. Rogers & Sons' AA triple plate. If you could buy this set in a jewelry store it would cost you \$3.50. But this is the lily pattern, made exclusively for us. You can buy nothing like it. Simply do this: Send us the postal top from a jar of Armour's Extract of Beef, or the paper certificate under the top, with the four pennies and mailing, and we'll send you one of the Spreaders. Send five cents or certificates and we'll send you the full set of six.

Armour's Extract of Beef

MY CHILD SUFFERED AWFULLY

Mrs. M. E. Brewster, Clifford, Ont., says: "My little girl who was born in 1899 had been subject to rheumatism from the time she was twelve months old until two years ago when she began to take PSYCHINE. The little darling suffered awfully. Her breathing was so hoarse that you could hear it all the time and she scarcely got any rest at all. We did not dare to take her out much as the least wind or cold affected her and brought on a severe attack. We tried all sorts of medicines but nothing did her child any good or proved the slightest safeguard against this dreaded complaint. One day a friend told us about PSYCHINE and the wonderful cures it had brought about, so we decided to try it. The sample bottle sufficed to show us that its merits had not been exaggerated, and that we had struck an all-remedy. One would scarcely believe such a small quantity of medicine could effect so great a change. There was no difficulty in getting her to take it, as it is so easy to administer, and she obtained relief immediately."

"After giving her four bottles the child was completely cured and she has not had a touch of the old complaint since. This is two years ago. The cold weather has but little effect on her now, the tendency to rheumatism seems to have been entirely eradicated, and she enjoys the best of health."

I always keep a bottle of PSYCHINE in the house, and find an occasional dose a sure safeguard against colds. It also thoroughly builds up the system and it is certainly a grand tonic. I would advise all mothers to keep it by them. We are deeply grateful for what it has done for our little one. It would be folly for us to add to Mrs. Brewster's splendid testimonial, but we would emphasize the following facts: I. PSYCHINE is pleasant to take. The children like it. II. PSYCHINE is a wonderful remedy. III. You may try it before you buy at Mrs. Brewster's, by sending Coupon to Dr. T. A. Slocum, Limited, Toronto. Do so today. PSYCHINE is sold every where in bottles at 50c and \$1.00, or from the Proprietors, DR. T. A. SLOCUM, Spadina Ave., TORONTO.

Free Trial Coupon.

A Free Trial of Psychine sent to any reader of this paper if they send this Coupon to Dr. T. A. SLOCUM CO., TORONTO.

PSYCHINE

THE GREATEST OF TONICS FOR HEALTH AND ENERGY.

The Shoes That Give Every Foot Comfort

Shoes are worn to protect your feet. Shoes that are ill-fitting or that pinch do not give your feet every protection and should not be worn.
