MILLIONS OF CELLS.

The human body is composed o countless millions of cells. These cells WHAT WHIG CORRESPOND are constantly dying and new ones are being created. Dead cells are removed and skin. These great gliminating organs filter this waste matter from the blood, and thus purify the blood. If there is Constipation, or non-action of the bowels-if th kidneys are strained or weakened-if there is defective skin action—then the dead cells are not removed from the body. The
