Constable For Barrieffield.

A petition is being circulated in Barrieffield, and largely signed, asking for the appointment of a constable for the village, and the petition will be presented at the next meeting of the township council. Barrieffield is quite orderly as a rule, but it is stated that there are many times when a constable would be of good service in the keeping of order and guarding property, and it appears to be the general opinion that a constable should be appointed. All the bad boys in Barrieffield had better be on their good behavior from now on.

Swallowing A Hardware Store.

In 1853 there was born at Hillsdale, Mich., U.S.A., a lad named Frank Durga. For about twenty-five years thereafter he lived very much like other people, but during the eighties he suddenly took it into his head to commence what can only be described as a "freak diet," swallowing pieces of glass, nails, coins, live crickets, and anything that was not too large to pass down his throat. Incredible as it may appear, Durga suffered no ill-effects from this extraordinary "food" for over thirty years. In 1908, however, one of the other of the many articles he had swallowed, must have overtaken his powers, and he became ill, and the doctors at the Mercy hospital, North Bend, Oregon, decided to operate upon him. The operation lasted fifty-five minutes, and there was extracted from his interior a remarkable collection of articles comprising seventeen coins, six cart-ridges, three penknives, 100 pieces of glass, six keys, twenty nails and a fish hook. The patient recovered, however, and is now in the best of health.

PLUMMER OPTIMISTIC ON STEEL TRADE CONDITIONS IN CANADA

The Shrubbs-Longboat Gate Receipt Trouble—Powers is Giving Longboat a Taste of Legal Medicine.

Montreal, May 10.—J. H. Plummer, president of the Dominion Steel company, is here, to-day, on his way to Sydney, and will preside at a meeting of directors this afternoon. He is extremely optimistic on steel trade conditions in Canada, and states that the Steel company is doing well. With reference to the settlement of the outstanding claims of the Steel company against the Dominion Coal company, it is believed there is a good chance of the matter being settled. The statement of claims is now being made up, and, roughly speaking, will amount to \$1,200,000.

No settlement has yet been arrived at with reference to the seized proceeds of the Shrubbs-Longboat race on Saturday. It appears that Powers had the whole amount taken in seized, but authorized the managers of the race to pay Shrubbs his share. It is agreed that Mr. Powers took the action merely to assert the principle of his contract with Longboat, and which, he claimed, was without his consent. It is believed the matter will be yet amicably arranged.

CHARGED ROOSEVELT.

Did Not Flinch Before Fierce Rhinoceros.

Malindi, British East Africa, May 10.—Col. Theodore Roosevelt, to-day, undoubtedly owes his life to his coolness and nerve, which combined yesterday, brought death to a huge bull rhinoceros that was furious charging the ex-president. Mr. Roosevelt fired a bullet into the brain of the rhinoceros when the animal was but fourteen paces from him, and rushing forward like a wild engine, the bullet was fatal, but so fierce was the rush of the giant rhinoceros that it plunged on almost to the feet of the colonel before toppling over dead.

Ottawa, Ont., May 10.—E. N. Lewis, M.P., has given notice of a resolution that Ontario and Quebec should each set apart ten thousand acres of land for prison farms, where all convicts except those convicted of heinous crimes can be set at work farming and making roads, instead of being uselessly looked up as at present.

Uses Of Bananas.

Few persons know the convenience and delicate taste of cooked bananas. Few not to bananas born realize their nutritive value. Yellow bananas can be employed in many excellent ways. They are fine plainly boiled in their skins and served with cream or sweet butter for breakfast. They may be boiled with salt pork, or baked around a leg of fresh pork (peeled in last instance), or fried and served with broiled lamb, kidneys and bacon. Used in this way both the kidneys and the bananas take on an added flavor by being together. Select fruit which, while ripe, is yet perfectly firm. Ten minutes is required for boiling and five or a little more for frying. When the fruit is done it falls into a pulp as easy to digest as baby food. Baked bananas may take the place of potatoes on a luncheon table, as they are excellent with all meats. Bake them in their skins in a hot oven, and pinch them occasionally with the fingers to see how they are progressing.

Hole Patched With Mattresses.

Amherstburg, Ont., May 10.—Mattresses and pillows were used to patch up an ugly hole in the bottom of the big 500-yard dump scow belonging to the Great Lakes Dredging company, which struck a rock in the new Livingstone channel, Saturday night, and sunk below Bois Brane Island, not far from the Bar Point lightship. After divers had patched up the scow with the bedding from dredge No. 8 and the steamer Mills, the pumps were set to work. The scow was raised after about two hours. She was brought to this port and later towed up to a Detroit dry-dock for repairs.

CANADA LIFE BILL PASSES.

Opposition on Both Sides of the House.

Ottawa, May 10.—The house made a long step towards privatization, when two contentious private bills were disposed of. One dealt with the Canada Life Assurance company and met with bitter opposition on both sides of the house. Mr. Henderson (Halton) made a strong argument, in which he held up to ridicule the contention that parliament, in 1879, had failed to enact the legislation it intended. Mr. Turriff (Liberal Sask.) was exceedingly bitter not only against the bill itself, but also against Senator Cox, who occupied a seat in the gallery during the entire debate. The bill passed on division.
