To Attend to Services in Roads to Be Rebuilt.

The city engineer has published a notice in the local newspapers asking residents and owners of property along streets to be macadamized this season to see to it that once their water, gas and sewer services are in order, for it is not desirable that after a road is macadamized it might have been dug up earlier. The following blocks are to be macadamized during the summer and fall: Barrie street, from Brock street to Queen street. Division street, from Union street to Brock street. Queen street, from Barrie street to Clergy street. Wellington street, from Princess street to Queen street. There are thus eight blocks to be rebuilt, about a third of the amount done last year.
