

RESENT THE REPORTS MAJORITY OF KINRADE JURORS NOT PLEASED.

They Say They Are Satisfied With the Verdict Rendered—The Jurors Cannot Re-assemble As Their Duties Are Over.

Hamilton, Ont., May 14.—The Kinrade jurors strongly resent the reports which have been appearing about them to the effect that they rendered their verdict under a misapprehension and that they intended to hold another meeting in the near future to consider the matter and possibly to pass a vote of censure on the government. Two, or possibly three, jurors profess to be dissatisfied but the remainder emphatically declare they are satisfied with the verdict, that they always have been so, and that they have not the slightest intention of holding another meeting. Coroner Anderson says they could not meet as jurors anyway, because of the closing of the inquest their duties ceased although they are satisfied with the verdict. The only way in which the matter could be re-opened would be to have another jury sworn in and the body exhumed. There is, of course, no thought of taking this action. Coroner Anderson has received a letter from Mr. Blackstock who thanks the coroner for his courtesy. Mr. Blackstock also understood that Mr. Blackstock expressed his gratitude to the jurors for their expression of confidence in the manner in which the inquest was conducted.

Think He Was Concerned in Various Robberies.

Brantford, Ont., May 13.—A man who gave his name as Joseph Smith, who evidently had been from French Canada, was arrested early this morning, while attempting to rob a house on Lawrence street. Constable Borthwick, who effected the arrest, had a lively time of it, the man dragging him through a rear window and then dashing through the house and out of a front window, followed by the constable, who secured him on the street. The prisoner is suspected of having been the perpetrator of several robberies here.

To Bid City Farewell.

Ogdensburg, N.Y., May 14.—Tessie Clark pleaded guilty to the charge made against her in connection with the raid made upon a house maintained by her in Second Ward. Recorder Waterman gave suspended sentence of six months on condition that she leave this city forever within twenty-four hours, to which proposition she readily agreed.

White Plague Gains Ground.

Washington, May 14.—That the vigorous campaign against tuberculosis has failed to check the great white plague was the startling charge made by Nathan Straus, the New York philanthropist, at the fifth annual meeting of the National Association for the Study and Prevention of Tuberculosis here. He summed up by saying that the abolition of tuberculosis will begin when it is made a crime to sell milk unless it comes from tuberculin-tested cows or has been properly pasteurized.

Throat Cut On Street.

Lansing, Mich., May 14.—Representative William H. Schantz, of Barry county, was attacked on the street, last night, by an unknown man, and four slashes inflicted in his throat. Although Schantz was terribly weakened from the loss of blood, physicians at the hospital where he was taken say his injuries do not seem to be of a nature that are likely to be fatal. His assailant escaped.

A Total Cripple.

Port Hope, Ont., May 14.—Henry Beauchamp, a well-known town character, thirty-two years old, was a victim of a paralytic stroke which, besides partially crippling his legs and arms, rendered him almost dumb. This morning he was again a victim, and now lies dumb, sightless, deaf and a total cripple. The medical fraternity are investigating the case which is almost unique in medical annals.

LITTLE PRINCE EDDY Enters on Second Half of Four Year's Training.

PRINCE EDWARD OF WALES.

London, May 14.—Prince Edward of Wales this week enters on the second half of his four years' training which will turn him out a smart young midshipman. Two years have been profitably spent at Osborne, where he has gone through the initial stages of engineering, with workshop practice, steamship navigation and the usual curriculum of the public schools.

Prince Edward has fared in the same way as other cadets, with the same hours of study, the same food and accommodation and, like the other boys, with one shilling as pocket money and no tuckshop account allowed. But now comes a change from the bungalow-like buildings at Osborne to the splendid new college by the side of the Dart, where all the rooms are named after the famous admirals.

Prince Edward will be lodged with all the new terms in a block which opens from the main corridor, one-eighth of a mile long, and will share the common gunroom known as St. Vincent. He will occupy a dormitory with twenty-nine other cadets, the beds in which are placed head to head, lengthwise, down the room at three-yard intervals. The discipline is strict, and from the turn-out at ten minutes to seven o'clock in the morning until the turn-in at ten minutes past nine o'clock in the evening, the cadets are under constant supervision and for the most part kept fully occupied either in study or exercise. Wednesday and Saturday afternoons are given over entirely to recreation, excepting in the case of defaults, who have to do punishment drills.

The work is thorough and serious, the engineering shops providing with-out doubt the centre of attraction. Here Prince Edward will learn to handle properly the whirling machinery and fashion a polished spindle or make a joint which will resist a steam pressure of 300 pounds to the square inch.

In the schoolroom he will finish his theoretical subjects, and on the training cruiser will become expert in navigation, seamanship and steam engineering.

The light side of college life is provided by excellent cricket and football teams, a bridle pack, boating, games and concerts held in the recreation hall or on the quarter deck. Here, as Prince Edward joins with an Osborne reputation of being able to sing a capital song, he will doubtless be a performer.

BOAT FOR EXCURSIONS.

Ogdensburg Business Men Seek to Attract Visitors.

Ogdensburg, N.Y., May 14.—The board of trade and the Chamber of Commerce of this city are jointly taking up the matter of securing these services of a commodious, speedy, excursion boat, which will run excursions from up-river points to Ogdensburg, and also be available for charter.

The Folgers have not been sending their large boats to this city with regular excursions as in former years and there has been no service to this city from Canadian towns above Brockville.

Committees from the board of trade and the Chamber of Commerce have been examining boats running between Canadian points and Montreal, with the hope of being able to impress upon their owners, the advantages of placing a boat in service between Gananoque and Ogdensburg.

Why Not Investigate?

The Toronto Globe says that there is no disposition on the part of any one to prevent an investigation into the Central railway matters in which Lieutenant-Governor Tweedie and the Minister of public works are concerned. Then why has there been no investigation? remarks the Victoria Colonist (tory).

Why, indeed? The matter is one that concerns New Brunswick. That Premier Hazen appreciates this fact is evidenced by his course in appointing a commission to report on the matter. Mr. Hazen affects to believe that in the transaction the province has sustained a wrong. The Colonist may well ask why he has not proceeded to set the province right in the courts. Mr. Hazen either believes his commission's report, or he does not. If he does, he is untrue to his duty toward the province in not prosecuting the men reported against. If he does not, then he acts the disgraceful part of prostituting his office to the purpose of slandering a public man because he happens to be opposed to him in politics. Premier Hazen owes the public and his own self-respect some prompt and decisive action in the matter.

LETTERS RECOVERED. Sent From Duck Islands Five Months Ago.

Cape Vincent, N.Y., Eagle. Charles H. Hangerford, Utica, N.Y., is camping on the Maynard farm near Fuller's Bay. On Friday afternoon of last week he noticed on the shore a small evergreen tree that had been washed up by the waves. An inspection of the tree disclosed the fact that it was securely tied a small wooden box. This he secured, and upon opening the same found a baking powder can. On removing the cover he discovered four letters securely sealed and addressed, but without stamps.

Three of the letters bore the following addresses: Miss Dollie Parker, Watertown; James Clark, Picton, Ont.; C. W. Colo, Cape Vincent. The fourth letter was addressed as follows:

"To the finder of this raft: Open this letter and read the contents and oblige."

"GEO. BILKEY, 'Lake Ontario.'"

Mr. Hangerford opened the envelope and found the following letter, dated December 15th, 1908, therein:

"To the finder—Dear friend, who ever you may be, please be kind enough to mail these letters to my dear friends ashore, it being the only device of sending the last tidings before winter sets in, and trust to Providence to deliver the raft safe and sound on some welcome shore. I trust you will be kind enough to mail them for me. Inclosed you will find the money for mailing. Not knowing which side of the lake this raft will land on, I send the money. Mail the letters and keep the change for your trouble. This is all. Wishing you a Merry Christmas and a Happy New Year.—Yours truly, GEORGE BILKEY."

Not According To The Law. Montreal Witness.

The Hains verdict of manslaughter is not according to law. The crime was murder and nothing else. The jury was equally divided, half for murder and half for acquittal on the ground of insanity. None of those who took the latter position really believed Hains to be insane. Though that was claimed on his behalf he did not believe it himself, nor did those who plead it for him believe it. On the part of the jury, it was simply, as in the Thaw case, a fiction under which they could apply, in a measure, the "unwritten law" which allows an injured husband to slay the man who destroys his family relations. The exculpation some months ago of Captain Hains' brother was not because any one doubted the insanity of the man, but because of the crime. It could only have been on the serve him right principle. This jury, though divided as to verdict evidently did not like either alternative. It could not, with even the color afforded in the Thaw case, find in insanity, and such a verdict would certainly have been forthwith nullified by a demand for liberty on the ground that the slayer was no longer insane. So the jury determined to make a new law, by which a slayer under such circumstances would be held to be under such conditions of irresponsibility as though he had killed a man in the heat of an altercation or by careless accident. There is no similarity between the two as to the absence of malice aforethought. But the jury by this finding expressed its view that the man must have heavy punishment, but not as a murderer.

One Way to Save Work

As every woman knows who has to take care of even one room, dust is the worst workmaker of all for the housewife. Most people know, too, that floor dust is a vehicle of disease. But it has not been an easy matter heretofore to prevent dust from having its own way with floors, even with the gradual banishment of carpets and the substitution of rugs and hardwood floors; for not every home can afford such floors, even if they were easy to keep clean and new-looking, as they certainly are not. Yet the solution of the dust problem is made easy by Floorglaze. With only the ten charming shades of this easily applied and quick-drying floor finish, any woman can have floors which will be easy to keep clean, and far more sanitary than a painted, oiled or waxed floor.

Even on soft-wood floors Floorglaze gives a beautiful, glossy surface that will show no signs of wear after years of severe service, and that can be quickly washed clean and brilliant with soap and water. The use of Floorglaze is an insurance against dirt, and actually against disease as well; it saves a vast amount of time and housework; and it is good for outdoor use, on porch and verandah floors and steps. A little of this most useful enamel covers 500 square feet. Floorglaze is sold in tins, from a pint to a gallon in use, by most reliable dealers. It is made by Imperial Varnish & Oil Co., Limited, Toronto, who will gladly send you a free booklet worth reading.

AN INFANT KILLED FATHER SAW LARGE ROD-ENT LEAP FROM CRADLE.

Seven Wounds in One Hand—Blood-poisoning Set in and Child Succumbed—Midnight Tragedy at Ottawa.

Ottawa, May 14.—Death as the result of the bite of a rat was the sad fate of little Eugene Jambeau, the nine-days-old son of Mr. and Mrs. Eugene Jambeau, of 134 Bessier street, yesterday after having been bitten on the hand by a large grey rat. The infant developed blood-poisoning.

The baby had slept in its carriage in the same room as its parents for several nights, and on Friday night last this was also the case. Mrs. Jambeau retired about one o'clock, her husband being already asleep. At two o'clock she was awakened by the sound of the baby's cry, and aroused her husband. On jumping out of bed he saw a large grey rat leap from the cradle to the floor, and escape in spite of his attempts to kill it. The baby was found with its left hand covered with blood from seven bites on the inside of the palm.

Medical assistance was summoned, and an antiseptic applied, but blood-poisoning soon set in, and the infant grew rapidly worse, until death ensued.

Taking Care Of The Debt. Montreal Gazette.

While the British government in its budget proposes to curtail the appropriation for the sinking fund, it still sets apart a considerable sum for the reduction of the debt. The custom is to vote a fixed amount for debt charges, all above the interest payments and cost of management being devoted to extinguishing the capital. For some years the appropriation has been £25,000,000. For next year it will be £25,000,000, which will leave for reduction about £7,000,000, or rather over one per cent. of what Mr. Lloyd-George called the dead weight debt of the country, which he put at £696,000,000. At a rate of proceeding a few years will make a notable reduction, and put parliament in a position to reduce taxation, or, perhaps, enter on new enterprises. The Campbell-Bannerman government announced itself as having a debt reduction policy, and its successor is not altogether forgetting to redeem its pledges.
