WILL COST TOO MUCH TO LAY WATER MAIN TO OUTER STATION.

Frederick Milo, the Waterworks Plumber, Given \$100 Increase in Salary—To Lease Waterworks Wharf For \$300 a Year.

The waterworks committee had a meeting yesterday afternoon. In attendance were Aldermen Craig (chairman), Toye, Hoang and McCann. This was the first meeting at which Ald. Craig had been present since he left on a trip in January, and Ald. Toye took occasion to welcome him back, remarking that if the balance of the committee had not been able to save all the money that the department had in the bank it had at least saved the water in the lake from the finance committee. The harbor water was still here, and increasing, Ald. Toye said.

"Well it wouldn't be here if the finance committee could have got its clutches on it," replied Ald. Craig. The superintendent reported upon the question of supplying water to the Grand Trunk railway at the outer station, and read reports as to what the company paid to other towns. It would cost Kingston \$10,000 to make the necessary connection to the depot, using an eight-inch pipe, so as to give water to the residents of that locality, and all the revenue that could possibly be got from residents would be \$220 for the first five years and much less thereafter. That would yield only 3 1/2 per cent, whereas eight per cent was required for the issue of debentures.

There were twenty-seven residents in the locality in question. Ald. Craig suggested that if the residents would each pay \$25 in advance for five years the committee might give them water. That would yield \$675, representing 6 1/2 per cent on the outlay of \$10,000. Ald. Hoang didn't think the people could afford to pay as much as \$25 a year. That was more than people in the centre of the city were paying. To this Ald. Craig replied that the residents out there were living a long distance out in order to escape high rents and taxes. The city couldn't follow residents to the very outskirts and construct water mains at great expense, when a very small revenue would result.

The superintendent reported that the city engineer was not yet prepared to go on with the work of making a report upon the water mains, their condition, capacity, etc. The report of J. B. Walkem stating that a gentleman had offered to erect a drinking fountain on the east side of Barrie street, between Johnson and Brock streets, if the city would make water connection and supply the water, was considered, and the superintendent was instructed to secure further information on the matter. The chairman said that it was all right to erect fountains, but who was going to take care of them. When trouble arose the water works department always had to meet it.

The report of the civic fire committee for a hydrant at Tete de Pont barracks was left in abeyance until the engineer and the superintendent had reported upon the mains. Ald. Toye said that nothing could be done until the dead-end had been reported upon. The question of a hydrant for Tete de Pont barracks gate had been before the council for ten years. The superintendent reported that to get main connection for the hydrant would cost \$800. Frederick Milo, water works plumber, applied for an increase of \$200. His present salary is \$800. The chairman said he was in favor of giving Mr. Milo an increase of \$100 a year for he was a good man and had been in the employ of the city for twenty-one years. Ald. Toye moved that Mr. Milo be given an increase of \$100 a year to date from Jan. 1st, 1909, and this the committee unanimously agreed to.

The committee decided to authorize the city solicitor to draw up a lease for the rental to the Donnelly Wrecking company of the water works wharf. The present condition of the wharf was a disgrace. Some kind of a shed should be built. Ald. Toye drew attention to the fact that the wharf was falling down. The committee decided to inspect the property and see just what was required.

BOY SENT TO HIS HOME.

Fifteen-Year Old Taken in Charge By the Police. A fifteen-year-old lad, who has been roaming about the country and causing his parents a great deal of anxiety was taken in charge by the Kingston police, and sent to his home in Prescott.

Yesterday, the lad was found wandering around the streets, in Belleville and when taken in charge by the police, said that his home was in Kingston, and that he was out looking for work. This was looked upon as a fish story, however, but the lad was sent on to Kingston, the police here being asked to look after him. Constable Craig met the train from Belleville, and upon questioning the youngster, found that his home was in Prescott, and so the young stray-away was sent on to his home on the late train, last night, in the care of the conductor. The lad, so it appears, had been absent from his home several days, going about from place to place. He had only a small sum of money, and was practically leading the life of a tramp. He said that he had been as far as Port Hope.

Beautiful New Stock. Prevost, Brock street, has extra fine assortment of tweed, cheviot and serge for order clothing department, and splendid assortment of ready-made clothing and gents' furnishings.

Buckley Hats. England's best and Kingston's best to be had only at Campbell Bros., the only exclusive hat and fur store in Kingston.

CITY AND VICINITY.

A Hat For The Holiday. Need not cost much if selected at Campbell Bros'. They have all styles and all prices.

No Session To-Day. For the first time in many days, there was no session of the police court, this morning. A batch of summonses were issued, today, and this will mean a lively session for the police magistrate to-morrow.

Still Another "Indian." "It's no use, you'd better put me on the 'India' list," said a man who called to see License Inspector Wright, yesterday, and when the interview was over, another name was added to the inspector's long list, which appears to be growing all the time.

The Best Read Novel. The records furnished the Bookmaker show the books most purchased in Kingston in April were: "Katherine," by Elinor Macartney Lane; "Waters of Jordan," by H. A. Vachell; "Message," by Louis Tracy; "A Million Minutes," by Hudson Douglas; "Peter," by E. H. Smith; "Comrades," by Thomas Dixon, Jr.

B. W. ROBERTSON. A leading Kingston Wholesale Grocer, also Churchman and Philanthropist.

All Committee To Meet. A general meeting of all the committees and all those interested in Victoria day will be held in the council chamber at eight o'clock, this evening, and all are requested to be present as the final arrangements will all be made. Everything is running along fine now, and Monday should be one of the biggest days Kingston has seen in some time.

Served in London. Alexander Borland, of Woodstock, who is an applicant for the position of chief of the fire department, in Kingston, was for years a member of the London department, and received his early training as a fire fighter in that city. A short time ago he was placed at the head of the Woodstock department, and has always made good as a fireman.

Hear The Band Play. The new Sons of Scotland band will make its first public appearance on Monday, the "glorious 24th." The new kiltie uniforms are expected to astonish the visitors in point of neatness and finish. The uniforms were made in the city by a Scotch tailor, James Campbell, 109 Brock street, and are said to be beautiful. The band has already secured a number of outside engagements. Frank Bell is bandmaster, George E. Culp is secretary and John W. Connor treasurer.

Garbage Scheme Easy. The inauguration of a garbage system for Kingston isn't a difficult matter at all, said Ald. Toye today. "I could outline a workable scheme that wouldn't cost the city much money, but the trouble about inaugurating schemes here for the city's advantage is that you have to stand a lot of knocking. You'll never have a satisfactory garbage system by collecting fees from individuals. Your garbage system, if it is to be a success, must be paid for out of the general taxes. Then everybody will have the same chance."

System Of Water Charge. "I used to think that Kingston's water rate system was unfair," said a recent arrival, "but on thinking over the matter, I don't think it would be possible to get a system that would be more satisfactory. No one in Kingston is paying a high rate for water. The highest charges are cheap, so there's little ground to kick, although I did at first. In the town I came from, they had a meter system, but it was finally abolished for it was found that the poor wouldn't use enough water to keep themselves clean. The result was that disease was bred, and on sanitary grounds a change of system had to be made."

B. A. Hotel Arrivals. W. S. R. March, J. H. M. Boffer, Montreal; G. T. Gibson, Hamilton; V. W. Graham, Toronto; N. R. Turner, Prescott; A. M. Piper, Toronto; R. Laidlaw, Ottawa; T. H. Ritchie, Brockville; W. J. Pyne, Toronto; A. E. Donovan, Brockville; T. R. Fraull, Boston; C. E. Gaudin, Alfred Staples, H. H. Phillips, Hon. J. H. Gibson, lieutenant-governor, A. H. Gibson, Toronto; J. Halliday, city; E. C. Jackson, Toronto; R. L. Duncan, Montreal; A. S. Crockett, D. Irving, Thomas; J. Gloster, Toronto; Sheriff Richardson, George Young, Ottawa; B. H. Nell, A. E. Parks, Hamilton; William Fraser, Buffalo; J. B. Hay, A. Ranger, London; Richard Turpin, Detroit. Amateur outfits, supplies and work done promptly, at Weese's.

AT DISTRICT MEETING METHODISTS IN SESSION AT QUEEN STREET CHURCH.

A List of the Probationers Continued on Trial—Superannuated Ministers Again Appointed—Reference to Death of Rev. John Ferguson.

The session of the Methodist district meeting was continued at Queen Street Methodist church, Thursday afternoon, with Rev. W. H. Sparling, presiding, and Rev. J. Cornell, of Harrowsmith, acting as secretary. The following probationers were continued on trial: James M. Shaver, J. A. Waddell, George W. McIntosh, Benjamin Eyre, F. W. Danby, Arthur Shorten. Candidates received on trial were: Gordon Churchill and George O. Tremblin.

An obituary of the late Rev. John Ferguson of Lanark, was read by Rev. T. E. Burke, and ordered to be recorded in the minutes. Following is a list of the superannuated ministers: Revs. William Short, Barry Pierce, Samuel Shibley, William Craig, James O'Hara, Albert R. Orser, Joseph E. Lidstone, Edward S. Shorey, William Sanderson, George H. Porter, E. B. Ryckman, Hugh Cairnes.

A great deal of the time of the session was given up for the theological examination of probationers. There was some little discussion in reference to the church membership cards, which are now distributed once a year by the ministers. Some time ago the rule was to distribute these cards quarterly, but this was done away with, as it was felt that with the large congregations, it was impossible to do this all every quarter. Rev. J. Tallman Pitcher was very anxious to have the old system of distributing the cards every quarter, but no action was taken. In speaking on the question, he said that he found the cards to be a great help to a minister in his work as he then came into touch with the members of his congregation regularly.

At the Thursday morning session, most of the time was given over to the consideration of statistics. In addition to the minutes, the following lay delegates were in attendance: Sydenham street, Thomas W. Mills; Queen street, W. J. Crothers; Brock street, T. R. Carnovsky; Princess street, R. G. Armstrong; Portsmouth, W. J. Kerr; Wolfe Island, William Cooper; Cataraqui, Thomas Spradley; Elginburg, Bryan Gordon; Inverary, George Leatherland; Battershe, C. M. Vanliven; Gananoque East, W. J. Thompson; Pittsburgh, A. B. Cowan and D. Stratton; Harrowsmith, George Smith; Sydenham, F. W. Barnett; Seeley's Bay, W. B. Wetherall; Verona, Levi Storms; Parkton, Jordan Crowe; Perth Road, B. Lindsay.

On motion of Rev. J. Cornell, seconded by Rev. J. Tallman Pitcher, it was decided to recommend the annual conference to make the Gananoque East circuit a mission.

On the request of the Harrowsmith board, a committee was appointed to canvass the Harrowsmith circuit and introduce the weekly offering system. The committee will be composed of Rev. J. Tallman Pitcher, Rev. William Craig and G. A. Bateman.

J. W. Smith applied for a license to erect poles for in front of houses on Markland street, where there is a jog in the street line. It was decided to recommend to council that both applications be granted.

The petition of W. T. Minnes and others for the repairing of Union street, from West street to the west limit of the city, was granted on condition that the city council supply the funds. This was rather a bit of fun, as the council hasn't got \$8,000 to rebuild Union street. However, the chairman said that the holes in the street were being filled.

The chairman also reported that the justice department had refused to grant the city any penitentiary stone this year for street rebuilding. Three petitions for concrete walks on Plum and Cherry streets and Raglan road were referred to the chairman, the city engineer and Ald. Hoang for report.

A petition from William Kelly, for the changing of the name of Joseph street to Dorchester street was not granted, as the petition was not sufficiently signed to warrant the board of works to take action.

The board decided to recommend that Sydenham street between Colborne and Ordinance streets be added to the area of street watering, in response to a petition.

Board of health correspondence regarding the sanitary conditions of the city and as to what should be done, was read. This matter will be taken up later on.

It was decided to request the dominion government to pay one-half the cost of constructing a concrete walk on Bagot street, along the Artillery Park grounds. The engineer recommended that the sewer by-law be amended, and that persons entering the sewers be charged one dollar for every entry. He claimed that this was most reasonable in view of the expense incurred by the city in maintaining streets where there were excavations. The matter was held over for consideration.

WE HAVE ON SALE A SPECIAL LOT OF Ladies' Black Trimmed Hats

Some small and medium shapes at less than One-Half Regular Prices.

Ladies' Duck Suits, samples left, at \$4.50, 5.75, 6.50.

We are still selling 40-inch Cotton, worth 12c for 8c yd.

CORRIGAN'S.

LANE WILL BE CLOSED IF THE CITY DOES NOT FIX THE ROAD.

Board of Works Recommends the Council to Take Steps to Purchase Sydenham Lane—The Portico Question Again.

Ald. Graham, (chairman), Hartly, Hoang, Toye and Kers were present at the board of works' meeting, yesterday afternoon.

The special committee appointed to procure Archbishop Guthrie, regarding Sydenham lane, reported that the archbishop would not grant an interview unless he was assured that the board of works had a definite proposition to make. Accordingly, the sub-committee recommended that the city council be asked to authorize a committee to confer with the archbishop with reference to purchasing the lane, and also with a view to acquiring enough land on both sides to make the thoroughfare a sixty-six foot street. The Baptist church and Dr. Muddell own narrow strips alongside their property. The recommendation also includes the arrangement of a price of purchase, and if a price could not be agreed on, to arrange for arbitration on the purchase. The archbishop has intimated that the lane will be closed up if the city does not fix the roadway in condition.

The board of works decided to adopt the sub-committee's recommendation, and the matter goes to the city council for its consideration.

Dr. J. H. Bell was present to ask for permission to build porticos in front of his house on Cherry street west, and encroach one foot ten inches on city property. Some other porticos on the same street encroached four and five feet over the street lines. This is the old question of allowing encroachments on streets. The council passed a by-law allowing no porticos unless merely reconstructions, to encroach upon the street line. New porticos are not allowed to encroach, and hence there is discrimination. Dr. Bell claimed it was unfair to refuse him permission, and allow so many porticos to exist as encroachments on the streets.

J. W. Smith applied for a license to erect poles for in front of houses on Markland street, where there is a jog in the street line. It was decided to recommend to council that both applications be granted.

The petition of W. T. Minnes and others for the repairing of Union street, from West street to the west limit of the city, was granted on condition that the city council supply the funds. This was rather a bit of fun, as the council hasn't got \$8,000 to rebuild Union street. However, the chairman said that the holes in the street were being filled.

The chairman also reported that the justice department had refused to grant the city any penitentiary stone this year for street rebuilding.

Three petitions for concrete walks on Plum and Cherry streets and Raglan road were referred to the chairman, the city engineer and Ald. Hoang for report.

A petition from William Kelly, for the changing of the name of Joseph street to Dorchester street was not granted, as the petition was not sufficiently signed to warrant the board of works to take action.

The board decided to recommend that Sydenham street between Colborne and Ordinance streets be added to the area of street watering, in response to a petition.

Board of health correspondence regarding the sanitary conditions of the city and as to what should be done, was read. This matter will be taken up later on.

It was decided to request the dominion government to pay one-half the cost of constructing a concrete walk on Bagot street, along the Artillery Park grounds. The engineer recommended that the sewer by-law be amended, and that persons entering the sewers be charged one dollar for every entry. He claimed that this was most reasonable in view of the expense incurred by the city in maintaining streets where there were excavations. The matter was held over for consideration.
