Brock, Cor. King St.

THE BOARD OF WORKS THE SPORT REVIEW TO HAVE CONFERENCE

FAVORS CHARGING FOR CITY LEAGUE BASEBALL WITH STREET RAILWAY EXCAVATION PERMITS.

The City Would Get a Little Revenue Thereby—Request For the Moving of a Blind Man's Wagon to Another Place.

The board of works had a meeting yesterday afternoon. Those present were Aldermen Graham (chairman), Kent, Toye, Free and Hartly.

The city engineer recommended that the by-law respecting excavations in the streets be amended to provide for the charging of a small sum for a permit and an additional sum for repairing the excavation. The object of the change would be to charge people for special services rendered by the city engineer. Only a section of the city people get his special services in the way of building, plumbing and drain inspection and he holds that the city should get a revenue therefrom. Other cities are doing as the engineer is recommending.

On motion of Ald. Kent the board decided to recommend to the city council that the by-law be amended as the engineer suggests.

The requests of P. S. Mahood, C. H. Boyce and O. V. Bartels to have trees in front of their residences on Bagot and Alfred streets cut down was referred to the chairman and the city engineer with power to act.

On motion of Ald. Kent it was decided to put the control of the city's boat house at the foot of Barrack street under the care of the harbor master. This boat house has been occupied by a citizen for some years. Now the harbor master has a little boat of his own and wants the boat house.

The chairman and the engineer were authorized to view a tree on Union street, between Frontenac and Albert streets, which B. Derbyshire objects to have cut down. The city engineer recommends that it be taken down so that a concrete walk can be properly built.

J. R. C. Dobbs was given permission to move his hedge on Albert street four feet back from the new walk to be laid.

The request of B. McCarey for permission to build a step in front of his store at the corner of Ontario and Princess streets was left over to be considered along with the applications for portico encroachment.

Kimmar, J. Estar, jeweller, asked the board of works that James Craig be required to move his way a from alongside their store on Wellington street, near Princess. On motion of Ald. Kent it was decided to request Mr. Craig to place his wagon at the place where the city council have him permission to stand, viz., on Wellington street, beyond Princess street, and alongside the store of Woods' Fair, where it would be less in the way of traffic.

The complaint of residents of west side concerning the blocking of the West street slip by vessels was left over for further consideration. The matter may be settled in connection with the lease of the waterworks wharf.

The city engineer will report at the board's next meeting as to applicants for portico encroachments on street lines.

COUNTY COURT CASES

To Be Heard By Judge Madden Next Week.

Docket of civil causes entered for trial at the sittings of the county court, commencing Tuesday, June 8th, before Judge Madden:

Jury List.

Margaret Mouck vs. William Newton—For damages for trespass on lot 21 in 8th concession, Kennebec. Defence claims and is unpatented and still vested in crown. Defendant is licensee of crown. Counter claim for \$100 for trespass by plaintiff. Harrington, Warner and Grange, Napanee, for plaintiff; McIntyre & McIntyre, for defendant.

Henry B. Vanluven and William R. Wilson vs. Excelsior mica mines, limited—For \$250. Price of eighteen barrels of mica sold and delivered to the defendants. The defence claims that the mica is not up to sample. Counter claim for \$250 for breach of contract. Wainwright, et. J. L. Whiting, K.C., for plaintiffs; McIntyre & McIntyre for defendants.

Hopburn Bros. vs. Luke Whalen—For \$193.13 for goods, and for work done by plaintiffs for defendant in and about the steamer Stranger. The defendant counter-claims for \$500, damages for want of care and skill by plaintiffs in repairing the Stranger's by which negligence said vessel broke in her bottom and strained her timbers and back. McIntyre & McIntyre for plaintiffs; J. L. Whiting, K.C., for defendant.

Rev. Joseph Elliott vs. William G. Anglin—For \$125 damages for breach of warranty of a horse sold by the defendant to the plaintiff. The defendant denies all the allegations of the plaintiff. J. McDonald Mowat, for the plaintiff; W. H. Nickle, K.C., for the defendant.

Non-Jury List.

Alan Godfrey vs. Gilbert Godfrey—For possession of southeast part of west half of lot 10, in 8th concession, Kennebec, and for an injunction. The defendant claims part of land in question belongs to him, Harrington, Warner and Grange, Napanee, for plaintiff; J. L. Whiting, K.C., for defendant.

A Wonderful Windowful.

One of George Mills & Co's large show windows is trimmed entirely with 25c hats and caps and some of the goods displayed look to be worth easily twice the price. In the cheapest, as in the best, the greatest variety and biggest values are found at "the hat store."

Wolfe Island News.

John Dawson, of Queen's, is in charge of the work of the Presbyterian church for the summer. The Ladies' Aid, of St. Andrew's church (Presbyterian), met on Wednesday afternoon, at Mrs. Allison's, when there was a good attendance. The church is to be repaired.

The Locos Will Play the Victoria's—A Full Distance Marathon Race Likely—Y.M.C.A. Athletic Events.

Another good baseball game will be pulled off in the cricket field on Saturday afternoon when the Locos play their second game with the Victoria's. The last game between these two teams was a fast one, the Locos winning out in one inning, when they scored four or five runs. On Saturday the Vics are expected to hold their heads and not have any halloo ascensions as on former occasions. If the Vics win this game they are a tie for first place with the Locos and they lose it are pretty well in the rear. No doubt a large crowd will witness the game.

Baseball Executive.

A meeting of the Kingston Baseball League executive was held in the Hotel, on Thursday evening. No matter of great importance were considered. The president, E. S. Wender, stated that in the future the rule governing profanity on the field and the protesting against umpires, would be rigidly enforced.

William Geoghegan, captain of the Dry Dock baseball team, was in a challenge for his team to the winners of the league. The challenging team agrees to put up a cap of equal value to the present senior trophy and to play a game with the year's champions, the winners to hold both caps for a year.

The challenge was accepted by the executive. William McParland will referee the J.L.C.-Victoria game on Saturday afternoon, and will be assisted by a base umpire. The junior game, Sharron vs. Victoria's, will start at 1:30 o'clock and the senior game at three o'clock, both being played on the new diamond.

A Marathon Race.

An interesting full distance Marathon will likely be run here shortly between William McFarlane and Secretary Niles, of the Y.M.C.A. Both men have been in training for some days and are fast moving into form. "Billy" ran a few miles at the athletic grounds on Wednesday evening and put up good time. This race would be intensely interesting as each runner has a large following.

Lacrosse Practise.

The lacrosse team will practise at the cricket field this evening and every player should be out in uniform. It is drawing near the twelfth of June now and the first game will be called in Gananoque. The bunch here should go in with a vim and try and win out in the league this year. They can do it if they go in at the start and play lacrosse as they know how to play it. Capt. McIntyre has a fine bunch of players at his command this season and they can win out.

Trial Harrier Runs.

The local harriers are still running every evening from the Y.M.C.A. Quite a long time ago the harrier and the runners are getting hard. Some trial heats for the city championships will likely be pulled off within the next week or two.

Y.M.C.A. Athletic Events.

Another list of Y.M.C.A. athletic events will be pulled off at the athletic grounds this evening. Some good handicaps will be contested. The junior competition will start in a few days now.

MAY BE HANDED OVER.

Private Interests After Government Property.

Toronto News.

Rumors continue to float about regarding the passing of the government dry dock at Kingston, into private hands. The trouble with the dock in the past is said to have been that there was no shipyard in connection with the plant, the entire work had to be done by outsiders, thus taking up time and leaving the vessel owner at the mercy of the various supply firms.

The story that is at present about is that the dock is to pass out of the hands of the government, at least for a time, and to be operated by a concern either part of or friendly to the Canadian locomotive works. This story is borne out in that the locomotive works own the property to the north and that to the east. In addition for some time past, considerable of the machine work which has to be done on the ships using the dock has to go to the locomotive works.

Good Work Done.

At the Presbyterian general synod in Hamilton, the first of the reports taken up was that of young people's societies, and was dealt with by Rev. Dr. MacLellan, Kingston, who, for seven years, has been convener of that committee. He made a brief review of the history of the young people's organization, which, he said, began to decline about seven years ago. At that time there were no text books covering the missions of the church. Now there were three and they had accomplished much in the way of training the minds of the young people. There were now ninety-four mission study classes among the young people's societies of the church. The membership increase for the year was over 1,300.

Straw Hats With-Snap Brims.

Are very popular and as usual we have just the styles and fashion demands. All prices at Campbell Bros', Kingston's style centre for men's hats.

Bibby's for real Panama hats.

About Power Supply—The Civic Light Plant Committee Considers the Matter—Wishes Company's Views.

The civic light, heat and power committee considered the street railway power question, last evening, and after becoming familiar with the cost of production and the results that would follow were the railway power agreement to be renewed or were the railway to be no longer supplied with power by the city's plant, it was decided to arrange for a conference with the company's representatives to hear what proposition they had to make. The committee has no settled offer to make the company, but will point out that the latter should at least pay the minimum cost of production, viz.: 1.87 cents a kilowatt hour, instead of 1.66 cents, as it is at present charged.

Those in attendance were Alds. Elliott (chairman), Angrove, Hartly, McCartney, McKay and Bigney.

The committee went carefully over the figures as to the cost of production under various conditions. Manager Folger reported that if every charge possible was taken into consideration, it cost the city last year 2.23 cents a kilowatt hour to make electrical power. If the street railway was not a customer of the plant, it would cost the city 22 cents a kilowatt hour more to manufacture power.

In reply to a question by the chairman, Manager Folger said that the street railway company had not taken advantage of the clause in the agreement which stipulated that it was not to pay more than \$2.50 a car a day for power. The company had paid for all the power it used at the rate of 1.66 cents a kilowatt hour. It used thirty-one per cent. of the total output of the plant.

The manager said that by figuring it out, the city would lose \$1,418 a year by dropping the street railway as a customer. If the railway was continued as a customer at 1.66 cents a kilowatt hour, the city would lose \$650 a year on the cost of actual production.

The manager was asked by Ald. Hartly if the contract with the railway plant go ahead before reaching its capacity output.

Mr. Folger said it could take care of new business for probably a couple of years, along with the street railway, but the boilers would require attention. Probably 100 to 150 more horsepower could be supplied.

The manager stated that on Thursday morning, something had gone wrong with the street railway engine, and the city had kept the cars running by starting its own engine. The city secured much of its day power by the use of the street railway engine. There was a joint arrangement. Each had the other.

Replying to Ald. Hartly, the manager said that it would not be necessary to increase the general electrical rates if the street railway was no longer supplied with power. Last year there was a profit of about \$1,500 on the present company had in the general business this year increased twenty per cent., the apparent loss of \$1,418 by the increased cost of production would be equalled. This would mean that 70,000 more kilowatts would have to be sold.

A discussion took place between City Electrical Engineer and Manager Folger as to what charges should be included in figuring the cost of production. Some charges would be the same whether the street railway was a customer or not, and these need not be included.

It was finally decided that the chairman should arrange for a conference between the committee and the street railway representatives as soon as possible, as the power agreement expires on July 5th.

The offer of H. W. Richardson, president of the street railway company, to sell the road to the city for the money the present company had invested in it since the re-organization in 1905, was also considered.

"What will we do about that communication?" asked Ald. Elliott.

"Buy the railway," said Ald. McCartney.

Ald. Bigney said that the committee wasn't in a position to discuss such a bold statement as in the street railway president's letter. An interview with the company would have to be held to find out what the amount wanted for the road would be. Until that amount was known, the committee couldn't discuss it.

My Valet.

CORRIGAN'S.

tee couldn't discuss the offer to sell the railway.

The chairman said he hadn't the slightest information as to what amount of money was wanted for the road. The matter was left over till it is seen what the result of the power question will be.

Manager Folger reported that last year the taxes on the light plant and property was \$4,698. This year the taxes are \$4,240, a reduction of \$458.

The committee has a dozen enquiries from contractors as to the reconstruction of the gas tank foundation. So far specifications of only a general nature have been given out and if a contractor can get to take the contract without specific specifications, and give a guarantee that the foundation will be made water-tight, the committee will not engage an expert to draw specifications, which will be a saving to the city. The tenders for the tank reconstruction are to be in by June 19th.

LOOKING FOR HIS BROTHER.

Who Was Placed in the Orphans' Home in 1882.

W. J. Browne, of 523 East New York street, Indianapolis, Ind., is in Kingston on a pleasure trip and also to make enquiries about his brother, Alexander Browne, who on Jan. 30th, 1882, was placed in the Orphans' Home here, when six years old.

His father was Thomas Browne, a carpenter contractor, who was injured while working, and who died on Jan. 7th, 1882. Their step-mother resided on Nelson street, but is also dead. Mr. Browne made enquiries at the Orphans' Home as to what disposition was made of his brother, but there is no record there as to what became of him. He would like to know if anyone in Kingston could tell him as to his whereabouts. Mr. Browne has done well in Indiana and made enough money to keep himself comfortably for the rest of his days.

TO VISIT KINGSTON.

The Pennsylvania Editors on a Trip.

H. R. Charlton, general advertising agent of the Grand Trunk, has returned from Buffalo, where he met the editors of the Pennsylvania State Editorial Association, the members of which association will make their summer holiday trip through Canada this year over the Grand Trunk road. The Pennsylvania newspaper men will leave Niagara Falls on June 21st, and visit the Georgian Bay and 30,000 islands districts, thence through Parry Sound. After this they will visit Ottawa, and journey through the Rideau Lake country to Kingston, thence back to Niagara Falls about the end of the month. It is expected that about 125 Pennsylvania newspaper men will enjoy the tour.

Panama Hats.

When you buy a Panama get the right shape. Big, loose, shapeless brims are out of date. Up-to-date young men want up-to-date hat store styles. That's why so many come to "the hat store," George Mills & Co., Princess street.

Direct From The Factory.

We bought a large quantity of men's patent blucher Oxfords and high shoes direct from a large wholesale house, and are selling them at \$2.75 a pair. Good shapes and all sizes. The Lockett Shoe Store.
