

Professional Men Need

Abbey's Effervescent Salt

just as much as the rest of us. They "get out of sorts" because they work indoors. Abbey's Salt is like exercise and fresh air to the upset stomach and lazy liver.

25c. and 60c. —at druggists.

DOCTORS ENDORSE HERPICIDE Because Its Formula is Submitted to Them.

Alexander McMillan, M.D., a prominent physician of Lansing, Michigan, writes: "On three cases I have tested Herpicide for dandruff and the result has been all that could be desired."

Herpicide is made upon an entirely new principle, that is, that dandruff and falling hair are caused from a microbe that infests the hair bulb, and, by destroying the microbe, the hair is bound to grow luxuriantly. Herpicide is the only hair remedy that claims to, and really does, destroy the dandruff germ.

Sold by leading druggists. Send 10c. in stamps for sample to the Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. G. W. Marhood, special agent.

WONDERFUL TUNNELLING MACHINE

TERRY, TRENCH AND PROCTOR'S TUNNELLING MACHINE AT WORK IN GRAND CENTRAL YARDS.

New York, June 11.—There was a trial in the yard of the New York Central Terminal Station, at Forty-Sixth street, of a newly designed compressed air power tunnelling machine, intended to do away with the use of dynamite in tunnel work, and at the same time to cut a smooth, finished bore, thus saving time, expense and avoiding the danger generally attending on such work.

This machine is the joint invention of Edward F. Terry, of the Terry & Trench Co., which has the contract for the construction work at the New York Central Terminal, and Olin S. Proctor, of Denver. This machine is installed to drive an eight foot tunnel westward.

Driven by compressed air, the machine, which weighs about fifteen tons, can cut from twenty-five to seventy-five feet a day, according to the nature of the rock. Instead of sections being cut out the rock is pulverized, and the broken substance may be used for concrete work or street surfacing.

GOWNS OF MANY COLORS. Marsh Rose, Fir Green and Libellula Blue.

In describing the summer costumes seen at a garden party near Paris, Edouard La Fontaine has something interesting to report concerning the new colors.

I saw several dresses in various tints of the new pink, the color of the wild marsh rose, and which for some reason or other is more effective by night than by day, he says. There are a dozen new greens—in, ivy, apple and moss—a very daring and not always successful orange of the mandarin order, and a very lovely new shade of blue called libellula, from the insect of that name.

The libellula blue I saw worn in a very striking-looking gown of satin, dense-fitting, and slightly high-waisted, cut with a long, narrow, pointed train. The entire front and back panels of the dress were worked in tubular beads of dull jet in a sort of semi-conventionalized design of the

THE DRILLS AND SCRAPERS.

head and wings of the libellula. The bodice was cut in rather a deep square-line at the neck defined by wide tuck-like empiecements of the satin that ran from shoulder to waist and were held in place by a falleted belt of the black jet. The sleeves of the dress were nothing more than short close caps of jetted tulle, and with the gown was worn a long straight scarf of blue tulle beaded in black. It was rather a sombre dress for a summer evening, but immensely effective.

The majority of the dresses were in lighter colors and textures—pompadour, mosselines, lace tulle and an endless variety of transparent silks, voiles, nets and tissues. One awfully chic gown was in a reddish pink of the pomegranate order in the new silk crepe that is quite as light as a very fine batiste or silk moulin. The upper part of the dress, which was cut off just below the hips if corset style, was heavily soutache and embroidered in a dull lifeless lead color that had a very subdued effect on the rather vivid shade of the silk. The skirt of the dress was quite full, so that it fell in soft folds from the yoke-like body of the dress.

Prompt relief in sick headache, dizziness, nausea, constipation, pain in the side, guaranteed to those using Carter's Little Liver Pills. One a day. Small price. Small dose. Small pill.

FIGHT FIRE WATER.

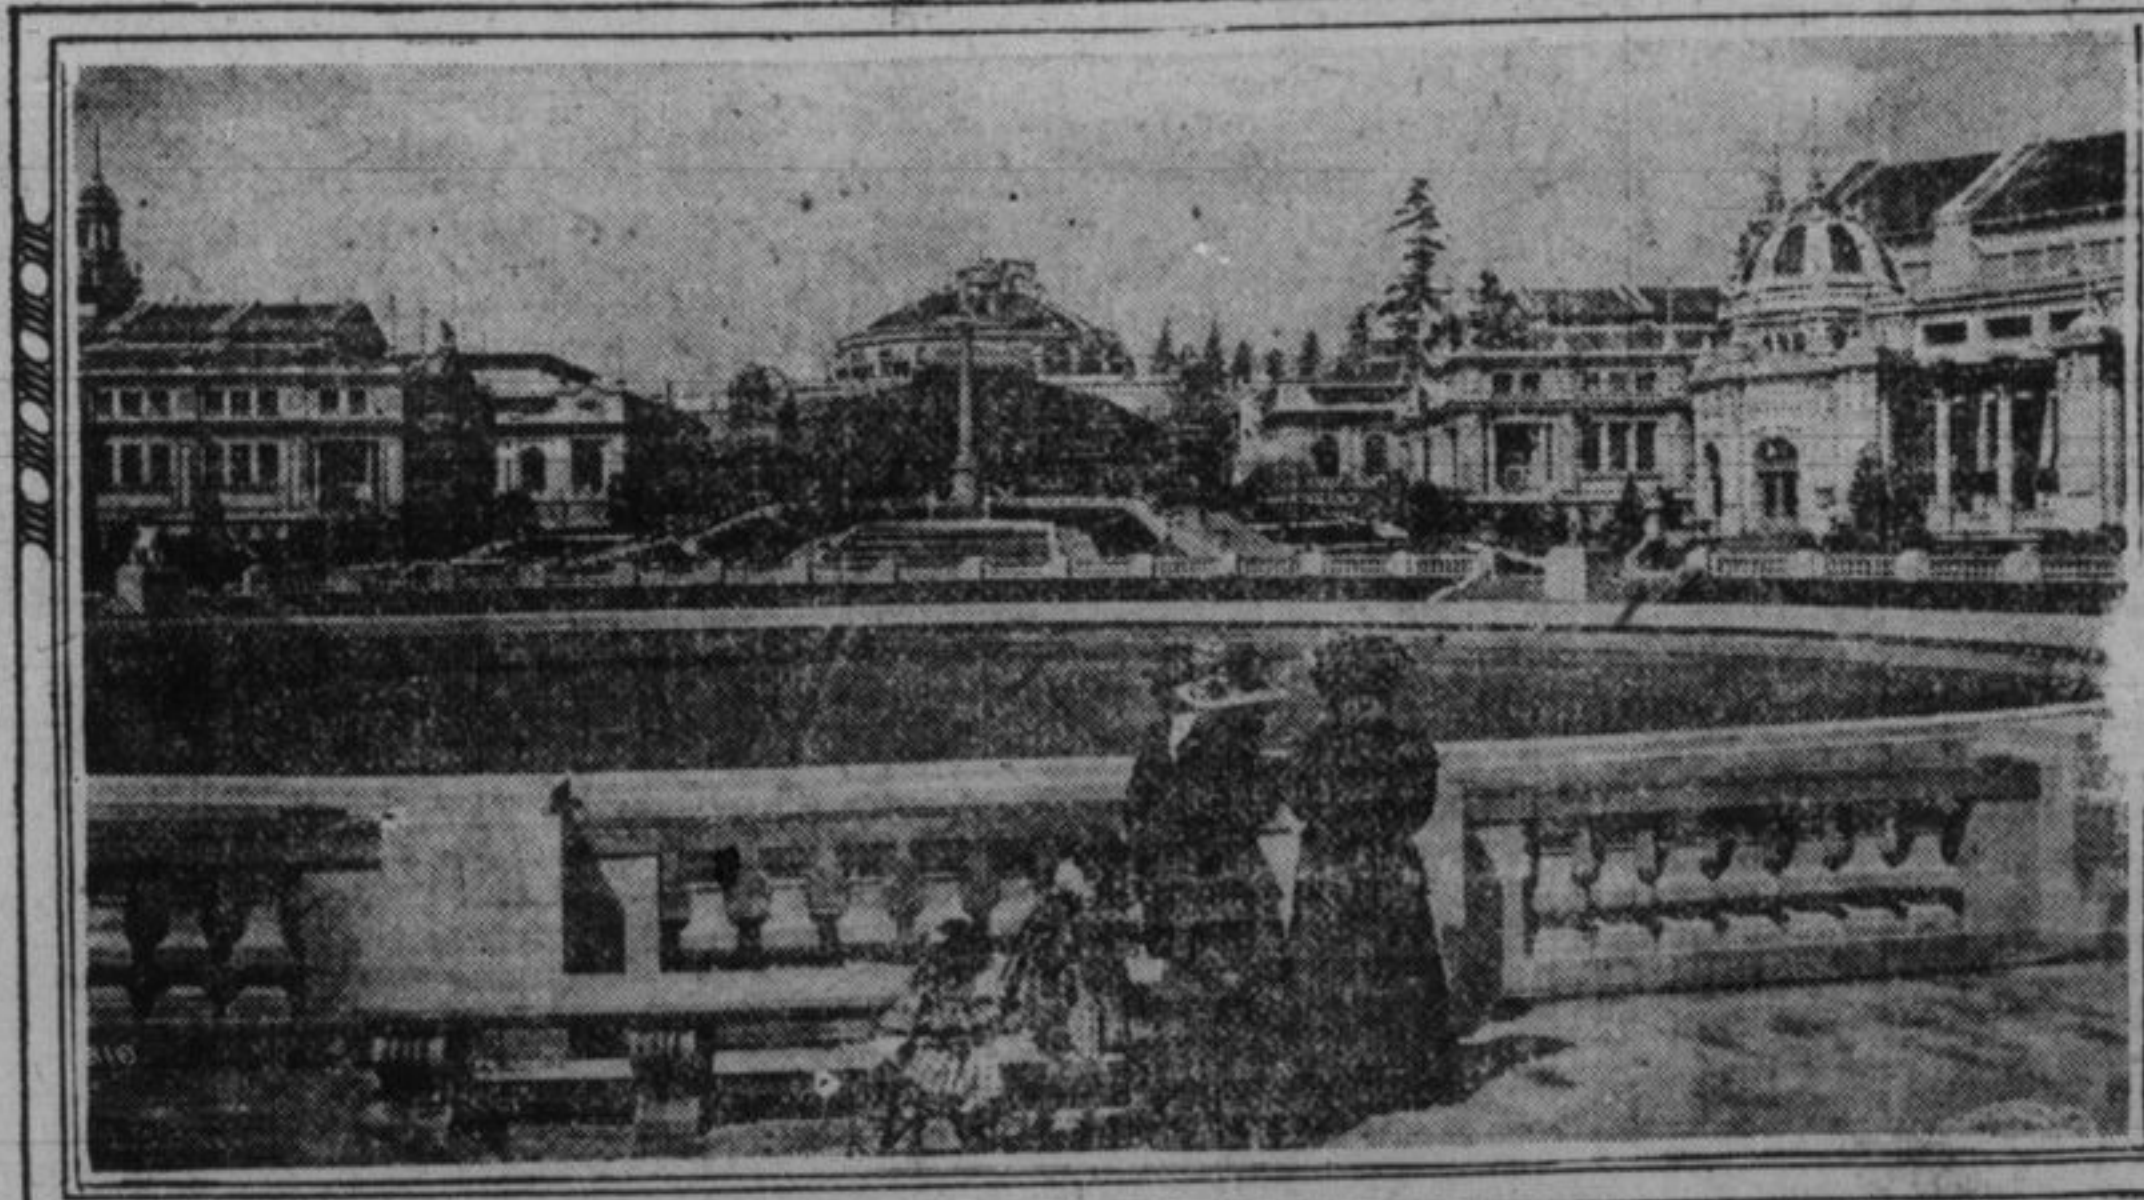

One Thousand Under Chief to Fight Run. One thousand copper-colored followers of Chief Joseph, a brave powerful leader of the Nez Perce tribe in the panhandle of Idaho, will join the prohibition forces in the fight against the rum shops in Nez Perce county when the campaign is started to make the district a part of the arid zone. The Indian Voters' League has organized its forces under the direction of James Stuart, district forester, and is instructing the reds in the duties of citizenship.

The Nez Perce treaty contains a clause for absolute prohibition inserted by the United States government at the urgent request of the chiefs, who declared they would not otherwise ratify the compact, as they had watched the effect of rum on the reds.

Vital Importance. You are sure to save needless suffering and you may save life by having at hand a bottle of Smith's White Liniment. It is of vital importance that pain or injuries be treated promptly. Here is a remedy that relieves pain in an almost magical way, and cures strains, bruises, lame backs, etc., quicker than any other remedy we know of. Large bottles, 25c., at Wade's drug store.

Some Wheat Crops. The total wheat crop raised in the United States in 1908 was 664,602,000 bushels. The total wheat crop raised by Italy in 1908 was 146,000,000 bushels; in 1907, 184,000,000, and in 1906, 168,000,000. In the year 1907, Italy imported 46,832,000 bushels, and in 1908, 24,184,000 bushels. The countries exporting wheat are: United States, Canada, Russia, Roumania, Bulgaria, Turkey, India, Argentina, Uruguay, Australia, New Zealand, Austro-Hungary, Chili, North Africa, Persia, Turkey-in-Asia, Cyprus, Egypt.

Most men are philosophers at heart, they seldom practice what they preach.

VIEW OF THE COURT OF HONOR ALASKA-YUKON-PACIFIC EXPOSITION, SEATTLE. PHOTO BY F. H. WILSON, C. P.

At the opening of the Alaska-Yukon-Pacific Exposition here James J. Hill made a notable speech on social conditions, wherein he assailed the law's system and said the people's rights were destroyed. Mr. Hill said, among other things:— "The greatest service to the nation, to every State and city to-day, would be the substitution for a term of years of law enforcement for law making. There are four great words that should be written upon the four corner stones of every public building in this land with the sacredness of a religious rite. These watchwords of the republic are Equality, Simplicity, Economy and Justice."

What Sunshine Furnace does

Sunshine Furnace is designed and constructed to heat a house, church, school, or store, and does this more satisfactorily than any other known furnace or other style of heating apparatus.

It does this more rapidly than the hot water boiler because, as soon as fire is started in Sunshine Furnace, heated air can be obtained for the rooms.

It does this better than other furnaces because, being made from exclusive patterns, it has more commendable features.

It does this more economically than the boiler because even air circulation keeps fuel bill low.

It does this more conveniently than the hot water boiler, because it has no radiators to take up room, congregate dust and mar the paper and woodwork.

It does this more hygienically than the boiler because pure air is admitted to the furnace through a cold air pipe.

TOWN OF GANANOQUE.

Death of G. W. Thornley—More Money For Schools. Gananoque, June 11.—The first moonlight excursion of the season was conducted last evening on the steamer Missesquac, under the auspices of Gananoque lacrosse club. The boys were greeted with a full load. The Citizens' band accompanied the trip.

The big freighter Arabian was in port yesterday morning and took on a large consignment of shovels, billed for Fort William.

The Ontario Wheel company had a break down at their works on Wednesday, compelling the closing of the works till Thursday noon. The opening of the new Star Amusement Hall under the management of S. A. McKenzie took place last evening.

W. P. Bradley, Charles street, has returned from Toronto, where he attended the grand lodge session of the C.O.C.F. He was elected grand marshal.

Word has reached here of the sudden death, at Springfield, Mass., on Saturday last, of George W. Thornley, aged seventy-one years. Deceased was for many years in charge of the brace department in the Parmenter & Bullock Co.'s works here. He leaves two sons and two daughters. Mr. Thornley left her some two months ago for a rest at his old home.

The action of Mrs. Frances Kenny vs. Edward W. Kenny, of Berrytown, has been settled, defendant agreeing to pay specified amount every three months for maintenance of his mother, also amount for arrears, together with costs.

At the session of the board of education this week an increase of \$100 was made to the salary of Miss Ewing, of the high school staff, bringing her salary to \$1,000. It was also decided to ask the town council for an increase of \$500 in amount of their grant, making the figure \$10,500, to allow for numerous repairs in the different forms.

Rev. J. T. Picheur has returned from attending conference at Pembroke, P. E. Shields (Ottawa) is visiting his parents, Mr. and Mrs. A. C. Shields, Snydenham street. Miss Vera Boucher and Miss Gertrude Byron are visiting in Watertown, N.Y. Mrs. Horace Fisher has returned to Drayton after spending the past three weeks with her brother, William White, William street. Frederick Jackson, of the Bank of Montreal staff, London, Ont., spending a short vacation here with his parents, Mr. and Mrs. W. H. Jackson, left for Cobourg Wednesday.

COOK WITH GAS.

READ WHAT CHIEF ELMER SAYS:

To the Manager of the Light Department, Kingston, Ont.

Dear Sir:— I write without solicitation to recommend to you and all to fall in line and use the gas for cooking, washing and ironing. By so doing you will save both time and money. It makes a quick, clean fire with no ashes to empty. Our family consists of nine and this quarter, that is the past three months, cost us \$3.00. I trust this testimonial will do some good and influence some people who are prejudiced against the use of gas. We advise all to give it a trial especially in warm weather as there is very little heat from the fire.

Yours truly,
(Signed) JOHN ELMER.
