Nothing Like

Them in the world. CASCARETS the biggest seller—why? Because it's the best medicine for the liver and bowels. It's what they will do for you—not what we say they will do—that makes CASCARETS and it is all the medicine that they ever need to take.

EATE GUN COTTON

OMAHA GIRL'S ATTEMPT TO COMMIT SUICIDE.

She is Now Strapped to a Mattress So That She Cannot Move a Muscle—Doctors Using Chemicals to Dissolve the Explosive. Omaha, June 15.—Helen Wells, a twenty-year-old girl, on Sunday night attempted suicide by eating a quantity of gun-cotton. All day Monday she has been resting on a heavy mattress, with a double set of springs and tied in such a manner that she cannot move a muscle. In the meantime she is being dosed with chemicals in an effort to dissolve the explosive. Late Sunday night the girl was attacked by a woman roommate and was severely beaten. She was taken to the police station, and while in the surgeon's room was left alone a moment. She seized and swallowed a package of gun-cotton with which the surgeon was experimenting. She was carefully placed under arrest and shined in a canvas hammock. She was later placed on her bed with springs. Unless she explodes in a day's time the doctors hope the explosive will have become dissolved and the girl lie out of danger.

PHENOMENAL GROWTH.

Wheat Fully As Far Advanced As Last Year. Winnipeg, June 15.—The statement made by the Canadian Northern railway agent at Aberdeen, Sask., in the company's crop report, is most significant in showing the phenomenal growth made by wheat since seeding. "The crop is two weeks ahead of last year at this time," he wires. When it is remembered that seeding was considerably later than last year, and that in 1908 the crop made fair progress at the beginning, the significance of this assertion can be appreciated, and Aberdeen is not a solitary instance, for from such widely separated points as Mundare and Carberry reports come that the crop looks as well as in any previous year at this time. The Canadian Northern railway crop report covers the whole west pretty thoroughly, and there is not a complaint from a long list of stations. The general report is that the weather has been most propitious, and that all the grain is coming on at a remarkable rate. The height of wheat at a large number of points is said to average from eight to twelve inches. Some places report an average height of from four to six inches. Everywhere, it is said, the farmers are confidently looking forward to an abundant crop. The feature of the report is the statement from Saskatoon, to the effect that the prairie land is in splendid condition for breaking, and that a very large area of virgin soil will be turned over this season.

DEATH OF MR. HUXTABLE.

Veteran Secretary of Dominion Alliance Passed Away. Montreal, June 15.—Rev. G. G. Huxtable, secretary of the Dominion Alliance, died in the General Hospital on Monday morning. Although seventy-seven years of age, he had up to within a few days of his demise, been extremely busy, and in the recent Methodist conference at Pembroke the remark was general that for one so advanced in years he showed marked vigor and interest in the proceedings. His speech always commanded respect, and as late as a week ago yesterday he gave a rousing address before his brethren at Pembroke. Last Tuesday he contracted a chill, which affected one of his legs, which was very sore two years ago, and, gangrene setting in, he passed away in the presence of members of his family at two o'clock on Monday morning. He was born at High Bay, North Devon, England. Mr. Huxtable is survived by his widow, three sons, William, of Cherterville, Ont., the Rev. Charles, of West Shefford, and Robert, of Vancouver, B. C., and two daughters, Mrs. W. J. Lewthwaite, of the Annex, and Miss Margaret Huxtable, at home. He was a former pastor of Cataragui circuit.

A Portland Wedding.

Portland, June 14.—One of Portland's most popular young ladies, in the person of Miss Estelle Rose, was married to Percy Allison, of Chesterville. The happy couple leave to Delta on Saturday morning and were united in marriage by Rev. Mr. Johnson, of that place. On their return the wedding breakfast was served at the home of the bride, after which they left for a trip to Montreal and other points. The bride was popular with all circles and will be greatly missed, but what is Portland's loss will be Chesterville's gain. The hot weather is bringing some of the tourists to the lake. Harry DeGez, of Pittsburg, arrived on Friday to spend the summer on the lake here. Dr. A. W. Murphy has returned from Kingston, where he has been writing on his Medical Council. Dr. Dunn, of Elgin, was in the village last week. The Tennis Club has reorganized and is now ready for any challenge they may receive. Miss Kathleen Harrison, of Smith's Falls, is staying with her uncle, T. K. Scovill. A number from here intend taking in the big circus in Brockville on the 23rd of this month. Mrs. Faulding, of New York, is spending a few days salmon fishing on the lake.

Hanna Going Abroad.

Toronto, June 15.—Hon. W. J. Hanna, accompanied by Mrs. Hanna, leaves on Saturday next for a two months' trip to the old country. The trip is one of pleasure purely. It is not known who will take over Mr. Hanna's duties during his well-earned vacation, but it will probably be Attorney-General Foy. George A. Clapp, son of Mrs. Sarah L. Clapp, Vancouver, B. C., formerly of Belleville, and brother of Chas. S. Clapp, died at Edmonton, Alberta, on Saturday. His death is believed to have been sudden. The names of marriage between the Rev. George Ross Beamish, M.A., and Mary Jessie Ackerville, both of Belleville, were published on Sunday in St. Thomas church.

Amusements.

SCARED TO DEATH.

Patient Died From Fright Before An Operation. London, June 15.—Miss Isabella Gurteen, on whom an inquest was held, died at her home, Chantry House, Haverhill, Suffolk, from shock consequent on a contemplated operation. Three medical men and a nurse attended, but when the anaesthetic was about to be administered it was found that Miss Gurteen had died. The jury found that death resulted from failure of the action of the heart accelerated by shock to the system due to a contemplated operation.

Items From Violet.

Violet, June 19.—A number from this place attended camp meeting at Wilton on Sunday last. Miss Nellie Smeaton, Kingston, is at J. Valentine's. Percy Nesbit, Newburgh, at A. G. Shewell's. Mr. and Mrs. Evans Houghton, Alexandria Bay, at Mrs. J. E. Robson's. Rev. Mr. Bryers is very poorly. Mr. Shewell is very busy cutting shingles. Mr. and Mrs. C. A. Wiseman were at J. Close's last week. Miss Brown spent Sunday at her home in Chambers.

Challenging The Right.

Toronto, June 15.—At Osgoode Hall, this morning, a writ of habeas corpus was issued for the appearance, before Judge Kappeler, of Charles McGill, formerly manager of the Ontario bank, now serving a term in the penitentiary for wrecking the bank. McGill is challenging the right of the police to put him on the list of contributors for 1,713 shares, totalling \$171,300. "Bathing caps," new fancy ones, at Gibson's Red Cross drug store.

A PRESBYTERIAN STALWART. Reminiscences of the Late Rev. Dr. Bayne. Saturday Night.

Reminiscences of the late Rev. Dr. Bayne have been told at the Presbyterian general assembly. Hon. James Young recalls him as a little boy, then in adult life when on week days he kept nineteen clay pipes alternately in commission, so that to enter his study was to imagine that a conflagration was in progress, with considerable damage from smoke. Nevertheless, he was one of the earliest clergymen to take a stand against the liquor traffic. It must be remembered that the total abstinence movement is a purely modern one, borrowed less than an hundred years ago by Christians from the teachings of Mahomet. It is said that temperance was sorely needed among the settlers whom Dr. Bayne came to comfort because whiskey was then only twenty cents a gallon, and before the days of agricultural machinery was a part of the hired man's perquisite on the harvest field. Dr. Bayne was commissioned by the synod of Upper Canada in 1842, to visit Scotland and obtain ministers for the growing Presbyterian faith in this country. He arrived there to find the disruption movement, headed by Chalmers (which has passed into history, but which has not ended yet in Scotland), in full growth of its youth. He threw in his lot with the so-called "Free Church" and on his return to Canada endeavored to induce his brethren here to throw off the connection with the Established Church of Scotland. When the general synod of Canada met at Kingston, in 1844, he led out many laymen and twenty-three ministers to establish a Free Church in Canada. He could be hardly called a judicious man, for the Upper Canada of his day demanded religious instruction in conduct much more than the "Free Church" and on his return to Canada endeavored to induce his brethren here to throw off the connection with the Established Church of Scotland. When the general synod of Canada met at Kingston, in 1844, he led out many laymen and twenty-three ministers to establish a Free Church in Canada. position that he died suddenly at the age of fifty-three, and left his antagonist, Bishop Strachan, a convert to the Church of England from the Church of Scotland, to organize religious and educational work in what is now known as Ontario.

Uncalled-For Glorification. Peterboro Examiner. The Toronto News glorifies Hon. Mr. Matheson, provincial treasurer, on the head of the increase of succession duties. Mr. Matheson, if he had had his way when he was fighting the succession duties legislation of a liberal government, would have abolished these duties or cut them in half. The News also gloats over the "possible" big inflow of money from the sale of the Gillies' limit mining lands. The reve-

The American Invasion.

Toronto Globe. Within the past three years branch stores of the following American houses have located within a distance of two hundred yards on Yonge street, Toronto: "Huyler's" Confectionery, "Butterick's" Patterns, "Singer" Sewing Machines, "Boston" Shoes, "Regal" Shoes. The fact that in the success of all the above firms newspaper advertising has played no small part, is a feature of the situation to which the Globe would direct attention. Each of these firms has a reputation at least continental in extent. Could this have been attained without advertising?

A recent investigation demonstrated that not less than thirty manufacturing plants had been located in Canada since last July as branches of United States industries. Almost without exception the Canadian demand for the products of these factories has been created by advertising. The natural tendency of advertising is to draw a manufacturer into a larger and larger market, for to-day the printed pages travel far and fast. There can be no question as to the fact that to-day as never before in Canada's history, live, aggressive, business hopes of the United States are bidding for the trade of Canadians. The near future is likely to see even a much greater development of this branch-store or branch-factory idea. The eye of the shrewd Yankee is only beginning to turn Canadianwards.

The one weapon at the service of every Canadian manufacturer a weapon with which he can both anticipate and meet this competition—a newspaper publicity. In the years that are passed it has proved its effectiveness in scores of cases. What may have been advisable in the past would appear to be a necessity of the present.
