Told in Twilight

The first of the Yacht Club teas was held, to-day, and this pleasant mid-week function will be held every Wednesday till the fifteenth of September. The teas will be on an entirely new basis this year. Every woman, whose father or brother is a member of the club, becomes eligible for the teas, by the payment of fifty cents, and any woman who has no masculine relation in town to be a member of the club, can pay the sum mentioned above, and feel herself entitled to all the Wednesday privileges of the club just as if she had a father or brother connected therewith. But anyone who has male relations in town, who are not club members, cannot share in the club's tea and other privileges. This very happy arrangement is the outcome of the thought of the vice-commodore's wife, and will obviate all necessity for special invitations being issued, and so on. The tea will be in charge of a capable woman, and the mid-week affair is certain to be pleasant. People can arrange to meet their friends at the club and can plan table and so on and make use of the club, on the Wednesday afternoon, with an easy feeling of proprietorship.

To make sure that ball gowns are accurately described will those going over to the Royal Military College, on Monday, either telephone to this office, No. 229, or to 868, and describe the same? Or else, if this be preferred, send in a written description to this office, by Saturday, if possible, or certainly not later than Monday morning. The editor of this column would also be very glad if those who have visitors would let her know of their arrival, and if they can do so, of their goings. With the best intentions in the world it is impossible to get the names of all the people in town, or to have a full description of the ball dresses without the assistance of hostesses who are entertaining, and of those who will be wearing the frocks.

Mrs. I. G. Bogart and Mrs. Gordon Mylks, Wellington street, will join friends to-morrow, and will have a joint picnic to celebrate the birthday of their youngest daughter and eldest son, these important days falling very near together. GRANTED REPRIEVE

A JUDGE WAS EMPOWERED TO ISSUE ORDER,

As An Appeal Had Been Entered in the Court of Appeal—The Full Court to Hear Issue.

Toronto, June 16.—Walter Blythe, who was to have been hanged to-morrow morning here, for the murder of his wife, has been reprieved until October by Justice Teetzel. The application was made this morning by T. C. Robinette, K.C., on the ground that an appeal had been entered in the court of appeal from the refusal of Justice Riddell yesterday to grant a reprieve. The reprieve was granted under section 183 of the criminal code, which gives a judge power to reprieve a prisoner. The case will come before the full court of appeal at the September sittings.

PITH OF THE NEWS.

The Very Latest Culled From All Over The World.

Several negro actors were arrested in Toronto on a theft charge. Cambridge's last senior wrangler is P. J. Daniel of Trinity College. The Ontario Retail Merchants' convention is being held in Brockville. Bishop Reeve has been appointed assistant bishop of Toronto diocese. The plans for the wagon road from Elk Lake to Gowganda have been completed. Low prices offered for mining lands on Gillies limit, some 116 tenders were received. The five-year-old daughter of Mr. Cook, Niagara Falls, was fatally burned by her clothing catching fire. Laughlin Cameron jumped out of a window at New Liskeard and threw himself into the lake. He was drowned. The Montreal Y.M.C.A. \$300,000 racing campaign reached the eighth day, to-day, and collectors reported 125,000. Hon. Rudolph Lemieux, postmaster-general, is on his way to Milton, Ont., to inspect the rural mail delivery route. The Russian douma has suspended work for the summer, having been recognized by imperial order until October 23rd. Rev. Dr. E. D. McLaren is going to the old country in search of men for the Presbyterian missions in the West still unprovided for. Charles Becking, Berlin, Ont., committed suicide by swallowing carbolio acid, in spite of the efforts of his daughters to prevent him. Rev. W. D. Reid, pastor of Taylor church, Montreal, has declined the call recently received to become the pastor of the Presbyterian church in Brandon. The body of the supposed suicide found in the river at Brockville, has been identified as that of T. Moore. He remains buried on Wednesday morning. Owners and publishers of daily newspapers holding membership in the Press Association, will patronize the open market for print paper instead of contracting. The C.P.R. longshoremen are not satisfied with the arbitration award of 17c. and 18c. for day and night work, and all but twenty-five refused to go back to work. To prove that Mrs. Gould forced her husband to abandon her because of alleged drunkenness and other unseemly conduct, Howard Gould and many of her servants will testify. Sir Robert Perks, the British financier promoting the Georgian Bay canal, is said to have been given to understand that it is not the government's intention to do anything this year. The royal physicians are in attendance upon Queen Victoria, to-day, at the Lagranga palace, Madrid. The Spanish people are eagerly awaiting their opportunity to celebrate the addition to the king's family. There was an accident on the Hamilton and Dundas electric line on Wednesday morning. An open car was derailed and several passengers were bumped into a ditch. Some of them were seriously injured, although none fatally. At St. Andrew's church, King street, Toronto, on Wednesday afternoon, the marriage of Miss Eileen Nicora Jones, only child of the Hon. Lyman Melvin Jones, to Rev. T. Crawford Brown, pastor of the church, took place before a large and fashionable assemblage. The total arrival of immigrants in Canada in January, February, March and April were 45,942 as compared with 56,897 in the same period last year, a decrease of fourteen per cent. A total of 26,069 came from the United States. This part of the immigration shows an increase. The annual statement of the Dominion Steel company shows profits for the fiscal year of \$2,225,834, which interest charges were \$614,422. Of this amount \$150,000 was on the floating debt due to the Dominion Coal trouble and, not taking this amount into consideration, the net surplus is \$1,571,412. Profits are estimated on a basis of full allowance for all contingencies.

WYOMING WOOL CLIP.

All Previous Records Broken This Year.

Cheyenne, Wyo., June 16.—Wyoming, this year will produce 40,000,000 pounds of wool, for which the growers will receive \$8,000,000 gross, according to conservative estimates from authoritative sources. The clips average close to eight pounds per fleece, and some of it has sold as high as twenty-five cents per pound. All previous records for the wool clip have been broken, and that of 1907, which was the banner year, is exceeded by nearly 4,000,000 pounds.

Protect The Wife.

A farmer should remember that his wife is a business partner. She makes the butter, boards the hands, helps prepare things for market, is a watch dog for the premises when he is away and sometimes assists with the poultry and garden, and when he secretly signs away money she has helped to earn, he is cheating his partner, as well as robbing his wife; and it is an offence the law would not allow in any other co-partnership, nor should it in this. There is a law that protects a man from selling his farm without his wife's signature, and it sounds as if a wife was of some importance; but it is rendered non-effective as a preservative of her home from the fact that he can mortgage it and endorse other men's papers to any extent without her knowledge or consent. Even thus dispose of the family possessions—and the sheriff can sell. This statute is mockery until it is supplemented by another making a man's signature, as security, invalid when written without his wife's approval; and still another making it illegal for him to mortgage the farm to pay the debts that she has no knowledge of.

Every woman thinks she ought to eat brain food occasionally, but she can't explain why she thinks so. Practice doesn't always make perfect. Even the best physicians occasionally lose a patient. George Gillespie was in Napanee yesterday.

MONTREAL PRODUCE MARKET.

Prices Paid For the Various Products.

Montreal, June 15.—Under the influence of an exceedingly good demand for cheese for export, prices at the markets all over the country last week were rushed up until at some points as high as 12 1/2 cents per pound was paid, although the bulk of the cheese in the country sold at about 12c per pound. The demand, however, did not warrant anything like such prices being paid for cheese to arrive here this week, as the immediate shipment in were for immediate shipment at prices ranging from 12c to 12 1/2c per pound here. The high priced cheese are coming in now, and dealers are finding it practically impossible to move them, and prices are being reduced every day in an effort to get orders coming from Great Britain on again. The top price asked for cheese to-day is 12c per pound, and this means that the dealers expect to replace these cheese by purchases in the country at around 11 1/2c and possibly less money. There are very few orders coming in at this level, and exporters may be obliged to put the prices down still further to bring on sufficient demand to absorb the large quantity of cheese that is expected from the country this week.
