

A KLONDYKE Has Been Found Around Lac La Ronge.

QUIET SENSATIONAL GOLD DISCOVERIES REPORTED AT PRINCE ALBERT.

The Secret of the Find Has Been Well Kept, But Now the Governments Know of It—Trail to Be Opened and an Assay Office Established.

Prince Albert, Sask., June 29.—The most remarkable gold discovery since the Klondike finds, has just been made at Lac La Ronge, two hundred miles north of Prince Albert, in the great hinterland of the province of Saskatchewan. H. C. Hamelin and B. L. Clemons, prominent business men of Prince Albert, having evidence of a rich gold area in Northern Saskatchewan, last year outfitted three parties of prospectors. The finds were encouraging, but not sensational. This year two more parties were sent out, and the finds, which have been made especially one of an eight-inch vein of free milling gold quartz, has created a profound sensation.

On June 21st, B. L. Clemons, left post haste for the north, carrying with him one of the finest specimens of gold quartz, found by one of his parties, as his instructions to his workmen were too important to be given by deputy. H. C. Hamelin has a specimen from the same vein, quartz declared by H. H. Rowatt, of the timber and mineral lands branch at Ottawa, and well versed in the mineral finds of the Klondike, British Columbia and the Yukon, to be the richest and best defined specimen he has seen, and that a carload of such quartz is enough for any one man. The assays so far made from former finds have shown \$5,178 and \$6,164 to the ton respectively, but the latest sample is declared to carry from twenty to thirty thousand dollars to the ton.

The finds have been made within forty miles of each other. A prospecting party in charge of H. B. Totten, manager of the Northern Crown bank, and another in charge of Dr. J. A. Moran, are leaving for the newest Eldorado of the north. The provincial cabinet is now considering immediate repairs to the Montreal Lake trail, a distance of seventy-five miles due north from Prince Albert, and the remaining 125 miles is canoe route, the means of reaching Lac La Ronge will be comparatively easy. William McInnes, of the geological survey, and Frank Croin, of the railway lands branch, have just left for the north. The dominion government has a man now on the ground with a view of establishing without delay an assay office at Prince Albert.

AT THE POLICE COURT.

There was a Three-Minute Session This Morning.

Everything was very quiet in police circles, today. There was but one case before Magistrate Farrell. Drunkenness was the charge, and a drunk fine was the person charged.

"I'm from Dublin, Ireland," he explained to the court. "I was never in court before. I came out from Ireland last fall, and have been working on boats. Yesterday I drank too much, and sat down on the sidewalk."

A police constable nabbed the accused, and he was given about twenty-four hours in the cells to sober up. He told the magistrate that he had a job to go to, on the steamer Kingston.

"And when were you to start?" asked the court.

"I would have started today only for what happened," was the reply.

"Well, I will give you a chance," said the magistrate. "I hope you do not lose your job over this."

The steamer Kingston went down to Prescott this morning, so the accused would be able to get away tonight on the vessel, providing he does not, in the meantime, fall by the wayside.

Went To Gananoque.

The steamer America had three hundred people on board last night, on its moonlight excursion to Gananoque, and the trip was a most delightful one. The young people had a couple of hours to dance, at the Gananoque hall, which was another fine treat. The Kilties' band paraded to the boat and played a fine programme of music, on the way down and back.

The wee sma' hours of the morning had been reached when the America pulled into the wharf, but everyone was happy.

The Shelters Will Be Saved—The Whole Population Fought the Fire—Much Treasure Lost. Messina, June 29.—The fire raging among the ruins of the earthquake stricken town was gradually controlled during the night and today. It is practically assured that the shelters erected after the earthquake will be saved. Practically all of the population of the town, with the assistance of nearby cities, have been fighting the blaze without interruption. The loss occasioned by the destruction of the ruins is estimated at millions, owing to the large amounts of treasure buried in the shattered houses, which, before the fire, might have been recovered, but which are now a loss. The origin of the fire has not been determined.

Crippled Murderer Arrives.

The sheriff of L'Orignal arrived at the penitentiary Monday afternoon with the unfortunate man, Asselin, who was at first sentenced to be hung for the murder of his brother, and whose sentence was finally commuted by the Canadian cabinet to life imprisonment. Asselin, it will be remembered, slew his brother during a violent quarrel last winter, and without premeditation. Then he fled to the woods and was found some time afterwards with both feet frozen. His two legs had to be amputated, just below the knee, leaving him a cripple. In view of these conditions the cabinet decided to deal leniently with the unfortunate fellow, and place him in confinement for the rest of his life. Accordingly, the crippled murderer now bears a number at the big prison at Portsmouth.

HE KILLED HIS FATHER MAN SUFFERING FROM ILL-HEALTH AND WORRY

Wounded Sister-in-Law—Fired at Her As She Offered Words of Sympathy—Separated From His Wife.

Quincy, Ill., June 29.—George Gurney shot and killed his father, Dr. Seneca Gurney, aged seventy-nine years; wounded his sister-in-law, Mrs. Seneca Gurney, Jr., aged thirty-seven, and then killed himself by sending a bullet into the right ear, yesterday. Mrs. Gurney was shot in the right chest and the back of the neck. Mrs. Gurney and her brother-in-law recently came from New Orleans, where he was a foreman for a firm of contractors. George Gurney called Mrs. Gurney to his room, saying that he was not feeling well. She offered a few words of sympathy, whereupon he drew a magazine revolver from under the bed clothes and fired at her twice. Dr. Gurney attempted to go to her aid and was shot down. Then the son killed himself.

The Stormont license commissioners have issued one additional license in their district. Dr. W. B. Cavanaugh is now commissioner, to replace B. Goulthart, Monksland, Ont. Julien Stevey, the artist, whom Mrs. Emma Eames divorced, and Mrs. Elaine Bohlen, who divorced Murray Bohlen, of Philadelphia, were married at the Marylebone registrar's office on Wednesday. The Presbyterian church, at Oakville, has extended a call to the Rev. James E. Munroe, Gladstone, Man., at a salary of \$1,200 a year and a manse. It is understood that Mr. Munroe will accept. SHOT THE MAN DEAD

And in Turn the Special Officer Was Killed. Winnipeg, June 29.—A despatch from Ashcroft, B.C., says Special Policeman Declere, one of the officers searching for the C.P.R. train robbers, stopped a boat, containing two men, passing Herry's station, on the Thompson river, last night, and ordered the men to land. The men obeyed when one of them drew a revolver. Declere promptly shot the man dead only to fall dead himself from a bullet fired by the other man. The latter then fled down the railway track, followed by a posse. His capture is certain.

TRouble For Merchants.

Some of the merchants on Princess street are out with a big stick after the boys who mark up their windows after they have been cleaned. In many cases, tobacco juice has been splattered over the windows and the signs, placing them in a very disgraceful condition. A merchant pointed to his window, this morning, when a Whig man was passing. "Just look at that," he said, "and remember that the window was cleaned good just yesterday." The window was certainly in bad shape. Not only do the windows suffer, but the doorways as well. Boys have a great habit of loitering around the doorways at night, when the stores are closed.
