**Skin Diseases.**

A diseased or disfigured skin will always leave its stamp on the mind of the individual. Many people suffering from disfiguring skin diseases avoid society and lose all pride in their personal appearance. When the skin breaks out in eruptions and sores it is due entirely to an impure condition of the blood.

In such cases Burdock Blood Bitters will quickly purify the blood and drive all the impurities out of the system.

 Mrs. J. J. Maeger, Jr., Kilmont, Ont., writes: "In the spring of 1906 I was troubled with a Rash that broke out all over me. It was the worst on my face and head, had a dry, scaly top, and when I would get warm it would become very itchy. I tried the doctor's medicine but it did me no good, so I then got one bottle of Burdock Blood Bitters and before it was all used the Rash was entirely gone."

 Mrs. Harvey Park house, Gold River, N.S., writes: "I was greatly troubled with Sores on my face and neck because no had I had to go to the doctor about it, but he could do nothing to help me."

**Told in Twilight**

Mrs. James Farrand Pringle is coming up from La Tuque, to Cornwall, this week, and will spend a fortnight there, going on later for a few days in Ottawa. She will then come up to Kingston to stay with her family at Hazelton. Mr. Pringle has gone to the wilds and has sent his bride up this way for safekeeping.

Mrs. Laird has given up her house, and will spend a year or longer probably on the continent with her daughter. Her friends, who will miss her very much, hope for a pleasant voyage and a happy stay across the ocean.

Some one who has always a thought for the sick and others in trouble has written asking that the society column be used for a note of suggestion. She wonders if housekeepers, now that the jam and jelly-making season is beginning, would not be willing to set aside one pot of jam, or one glass of jelly, intending its ultimate destination to be the general hospital, or the Hotel Dieu. The little gift would be absolutely unnoticed by the giver, but the aggregate of pleasure to patients, who need a little relish in the days of convalescence, can scarcely be realized. Will every woman think of this and then act?

There is to be a decided novelty over at the Country Club some of these days. The ladies have declared their hospitable intention of giving a high tea, with all the delicacies of the season, and out of season, attached to the girls and the younger men who are members. But—and here comes the novelty—to get that high tea and its accompaniments, also the verbal thanks of the grateful ladies, the said young men and maidens must weed the croquet lawn and the tennis court. And there has been unanimous acceptance of the tea and its preliminaries.

**FALSE THEORIES**

Lead to Worthless or Harmful Remedies.

Stimulating the scalp may allay the itching of the dandruff, but that does not cure the scalp. The disease would yield to quinine or capicin or alcohol, because it is caused by a germ or parasite. To cure dandruff the germ must be destroyed. Until recently there was no hair preparation, or dandruff cure, on hair restorer, on the market that would kill that insidious germ that dries up the scalp in little scales called dandruff, and absorbs the vitality of the hair, causing falling hair, and finally baldness. Newbro's Herpicide is the only really scientific preparation to cure dandruff, prevent falling hair and baldness.

**A SECOND LIFE**

"If I only had another chance!" How often are these despairing words uttered when a man feels his strength ebbing, his vital forces depressed, his health undermined—often as the result of his own errors or follies—and he realizes the infinite possibilities which might lie in his grasp, could he indeed receive, in Shakespeare's phrase, "a second life." Happily for the world, this other chance, this "second life" is to be had for the asking by means of that

which has been aptly described by a famous physician as "the last word science has spoken" on the subject of such remedial agents, and to which, by virtue of its health-giving properties, the name of Vitol—meaning life "health-producer"—has been given.

So potent is its force that it will not only restore the health and vigour which have been lost, but, if persevered in, will in addition impart the highest measure of nervous and physical vigour of which the individual is capable; for there is a maximum capacity of health for everyone, though he may not hitherto have had the fact impressed upon him. Doctors endorse this and daily prescribe Vitol in increasing quantities. The constituents which give
