KINGSTON'S NEW HOTEL

FRONTENAC NOW HAS A FINE EQUIPMENT.

Management have Neglected Nothing in the Way of Comfort for the Guests—A Reference to the Hotel Furnishings.

One of the finest hotels in Canada is the Frontenac, recently opened on Ontario street by Walter Teller. The building has been remodelled in a most tasteful manner, and one is sure to be impressed upon making an inspection. "Clean and smart as a pin," might well describe the entire hotel. It is richly furnished throughout, and every attention has been given to see that the very best is provided for the guests. The management have neglected nothing in the way of comfort and convenience.

On entering the hotel, from the main corridor, you at once notice the fine effect of the furnishings. There is a cluster of beautiful mirrors on all sides of the wall, and there is a fine marble floor in the rotunda and a drinking fountain in the centre. The writing room is a most inviting place and has been fitted out with individual writing cabinets and arm chairs, all in light oak.

There is running water in all the bed rooms, both hot and cold water. In every room there is also a dresser, wardrobe, dressing cabinet, and clock, with dark oak easy chairs and rocker.

There are twenty-five rooms with baths. All the beds are brass. The springs are all steel, no wood being used, and the mattresses were made by the Antiseptic Mattress company, of Montreal, especially for this hotel, and are of the finest cotton that can be secured.

Special attention has been given the grill room, which is a bower of beauty. There are mirrors all around the wall. The furnishings are in English breakfast oak, and the white columns, trimmed with gold, give the room a beautiful appearance. The parlors have been fitted out with odd pieces of furniture, but all of which is up-to-date, and which makes most inviting parlor. The silk curtains set off the parlor in fine style.

Special attention has been given to every department, and the Frontenac is a first-class hotel for both tourists and the travelling public.

MARINE NEWS.

What is Found About the Wharves.

The steamers Plummer and Ames passed up to-day.

The steamer John Randall cleared from Richardson's elevator last night, for Washburn, with a cargo of grain.

The steamer Ida E. is laid up at Portsmouth and the schooner Mary Ann Lyden is laid up at the Grove Inn.

The steamer Alexandria and steamer Waterly passed down last night. The Waterly loaded cheese here.

The steamer Sowards arrived from Oswego with coal for Crawford's, and the schooner Sufiel, also from Oswego, is unloading coal for Crawford's.

Everything was very quiet at both the M.T. Co.'s elevator and at Richardson's to-day. Not one arrival was reported and business is very slack.

F. D. Lowe, deputy director, Clayton, N.Y., is rigidly enforcing the law requiring motor boats to carry proper lights and waging war upon the three-color combination lights, which some boat owners seem to think meet the requirements of the law. The large number of "puts" on the river every night makes it necessary that every precaution be taken to insure safety. Owners of boats not displaying regulation lights are subject to a \$200 fine.

MAY ISSUE A DAILY.

Mr. Newton Will Put in Plant to Do It.

S. M. Newton, formerly a Kingston publisher, has purchased the Empire Printing company, at Prince Rupert. In recent issue these announcements are made:

Outdoor Sport and Zambuk.
On the return of S. M. Newton, the owner of the Empire, from Vancouver, he has gone to purchase a Mergenthaler typesetting machine and a cylinder press, the Empire will be able to issue a daily edition, if the business offering justifies the undertaking.

The Empire has let a contract for the erection of a newspaper office on Third avenue, between Second and Third streets. The building is to be rushed in the hope of occupying it next week.

COMMENCED HAYING.

About Three Quarter Crop, But Grain Looks Good.

Some of the farmers in the Kingston district have commenced haying but it will be quite general about July 12th. The men at work now are those who have a very large acreage. Many farmers on the Bath Road are at work.

One farmer stated that there would only be about a three-quarter crop, but that the grain crop promised to be good. "A good rain three weeks ago would have been a fine thing," he added.

Almost Choked To Death.

Lionel E. Schartz, a commercial traveller writing from Winnipeg, Man., says: "Catarrozone cured me of asthma after the doctors had despaired of my recovering. I seldom slept through a whole night without waking up in a fit of coughing. Sometimes I almost choked to death. I have not been bothered since taking Catarrozone. It has cured me entirely. Catarrozone is the only remedy I have ever met to give such good results."

The dollar outfit of Catarrozone contains two months' treatment and invariably cures; small trial size, 50c. All dealers or The Catarrozone company, Kingston, Ont.

CITY AND VICINITY.

Don't Forget July 6th. Presbyterian church, Collins Bay, garden party; str. Wolfe Island leaves Clarence St., 7 p.m., 14th band in attendance. Return fare, including admission to grounds, 25c.

Strawberry Market.

There was a strawberry market this morning. A fine lot of Wolfe Island berries sold at two boxes for 25c, and this was the general price. It is stated that berries will not be very cheap this season.

1,000 Islands-Rochester.

Steamers North King and Caspian leave for Thousand Island points daily, except Monday, at 10.15 a.m. and for Bay of Quinte ports and Rochester, at 5 p.m. J. P. Hanley, agent.

Who Is He?

Richard Taylor, of Whitestone, Ont., sent the following telegram to Postmaster Stewart, to-day:

"Understand man called Rancher

dropped here. His son keeping store, or relative in your vicinity. Reply with information."

Wheel Was Recovered.

The wheel reported stolen from a young man, a clerk in Hoag's drug store, was located, but it was in bad shape. It was found on Upper Queen street, with one wheel badly smashed.

It was taken out of the yard at the rear of the drug store, and the thief evidently had a lively time with it.

Drink For Health.

To be wholesome, soda water ought to look good, taste good and be good. To be good in every sense it must be made from perfect materials and free from contamination of every kind. Our clean, polished glasses are typical of the purity of our soda. It is the kind that is as good as it looks and tastes. Wade's drug store,

The Gramophone Question.

These recommendations of the finance committee were made:

That a by-law be passed granting the Board of Education \$3,000 in addition to the \$4,800 already granted by the city council, for the purpose of constructing a gymnasium and manual training building in connection with the Collegiate Institute.

That section 4 of by-law No. 26, of revised by-laws of the city, of Kingston, be repealed and the following section be substituted: "It shall not be lawful for any person to ring a bell, blow a horn, shout or make any unusual noise or noises within the city of Kingston, calculated to disturb the inhabitants."

There was a long discussion upon the gramophone question, as it was held by several of the aldermen that the by-law suggested would knock out every gramophone in the city. Ald. Nickle pointed out that the by-law was certain absolutely prohibitive.

Major Couper said that the recommendation made by the finance committee was what the city solicitor advised, so that there should be no class legislation.

In reply to Ald. Hoag, Ald. Elliott said that the committee didn't think it proper that it should enter into an arbitration with the street railway company as to the cost of power. The company could have all the information it wanted from the office of the plant, and if it could show that power was being produced cheaper than the plant manager had reported, the committee would be glad to consider the matter. In the meantime, the committee backed up the manager's report as to cost of power.

The garbage committee recommended that the tender of Robert Reeves for the removal of garbage from the section lying on the south side of Princess street be accepted, and that the committee be instructed to provide a system for that part of the city lying on the north side of Princess street, the report not to become effective until the finance committee signs that funds are available.

The report was adopted. It will not interfere with the other garbage by-law in force. Mr. Reeves will collect twice a week from all houses, and three times a week from hotels and boarding houses if required. He will get \$125 a month for two months for covering the part of the city south of Princess street.

A by-law was passed to raise \$7,000 by debentures for the Collegiate Institute gymnasium.

Moved by Ald. Nickle, seconded by Ald. Clugston, that when requested by the chairman of parks, the chairman of the fire committee arrange for the watering of the city parks by the firemen. Carried.

Row Over Adjournment.

It was here that Alds. Tweddell and Robertson moved an adjournment till October 4th. Ald. Nickle strenuously objected, pointing out that there were several important matters on hand that couldn't be left till the fall. The firemen's wage schedule had to be considered, so had the question of the purchase of a new fire engine and other things needed by the fire department, concerning which Chief Armstrong was ready to report. Then there was the question of garbage. Money for that had yet to be voted.

The gramophone question also was unsettled. Ald. Nickle declared that by the wording of the motion the council was prohibited from meeting until October 4th.

Ald. Givens held that a special meeting could be called at any time, and any way provision could be made in the motion for special meetings. The aldermen were now entitled to their holidays.

"The aldermen are not entitled to their holidays," exclaimed Ald. Nickle. "They are here to do the city's business."

"Well, I claim they are entitled to their holidays," retorted Ald. Givens. "Ald. Nickle has had three months' holidays from the council, and the rest of us are entitled to ours."

"I was away from this council for three months," responded Ald. Nickle. "I was working just as hard for Kingston as Ald. Givens or any other alderman was doing here."

Ald. Nickle demanded that the council continue in session till the important unfinished business was completed, and held the club over the aldermen for clamoring for holidays.

After some wrangling, Ald. Tweddell withdrew his motion, and the mayor will call a special meeting on the 12th to try and wind up the business that is hanging fire. Then the aldermen will get their holidays.

A RUMPS IN COUNCIL

ALDERMEN CLAMOR FOR THEIR HOLIDAYS.

And Ald. Nickle Holds a Club Over Them—Gramophone Question Again Tossed Back to Finance Committee.

The city council had a three-hour session last evening. After hearing a deputation in regard to the high laundry tax, it discussed the latest phase of the gramophone question, and bounced the finance committee's report back once more for consideration.

There was quite a lengthy debate as to whether the council should adjourn for three months' vacation.

Ald. Nickle gave the aldermen such a wallop for daring to suggest adjournment when there was some important business yet to be dealt with, that a few passages between the member for Kingston and Ald. Givens took place.

The latter charged that Ald. Nickle was talking for effect.

Ald. Nickle wanted that statement withdrawn and appealed to the mayor.

Ald. Givens repeated his statement and declared there was nothing unparliamentary about his remarks, and that there was nothing to withdraw.

Ald. Elliott broke into the discussion, and the point at issue was forgotten.

Just a short time before, Alds. Graham and Rigney had a tilt over a question of veracity. Ald. Rigney also wanted a withdrawal, but Ald. Graham declared there was nothing to withdraw, and made himself fairly clear on the point.

He said he had intimated that Ald. Rigney had told what was untrue if he had said so and so. However, Ald. Rigney had said nothing of the kind, so there was nothing at issue between the two.

In attendance were Mayor Couper and Alds. Angrove, Carson, Clugston, Craig, Elliott, Givens, Hoag, Kent, McCartney, McKay, Rigney, Robertson, Tweddell—13.

Nays—Ald. Angrove, Graham, Nickle—3.

Ald. Graham held that at least \$1,000 worth of work could be cut out of the gymnasium specifications. Ald. Nickle didn't see the use of placing the manual training department in the gymnasium building as an addition to the college itself would soon be required.

Other Reports.

The board of works recommended that the finance committee be requested to provide \$2,000 more for repairing the roads, and that the board be authorized to negotiate with the property owners concerned for the opening up of Sydenham street, between Brock and Princess streets, were adopted.

The light, heat and power committee recommended that a representative of the street railway company be given all information and data in file in the light department office regarding the cost of producing power to operate the railway, and that any cost in connection therewith be paid by the company; that the communication of the company regarding the purchase of the road be referred back to the council as, in the opinion of the committee, it does not come under the light committee's jurisdiction.

Mrs. Mary Jane Sleeth, asking that two trees in front of her premises, on Johnson street, between Aberdeen and Division streets, be removed.

B. Barney, asking remission of business tax.

C. S. Kirkpatrick, applying for remission of income tax of the late Mrs. E. G. Kirkpatrick.
