THE NEWS OF WORLD

OCURRENCES RECOUNTED IN BRIEF FORM.

Matters That Interest Everybody - Notes From All Over - Little of Everything Easily Read and Remembered.

Hon. Adam Beck declared the Hydro-Electric Power Commission hopes to take power next spring. A. Silnoski, a Winnipeg workman, fell forty feet off a building and escaped with minor injuries. Robert Bremner was killed at Georgetown becoming caught in the machinery at the brick works. The T. Eaton company, Toronto, is stated to be negotiating for the new Jacob block, Montreal, corner of St. Catharine west and Alexander streets.

It is probable that the Dominion of Canada Rifle Association will send a team to the Palma trophy match, to be held at Port Perry, Ohio, in September.

Up to the end of June \$2,644,000 of the \$3,500,000 provincial loan had been subscribed which is fully fifty per cent. more than was subscribed in June, three years ago.

A by-law was submitted in Belleville, Ont., to the ratepayers, to provide \$70,000 for the erection of three new schools. In every ward of the city an adverse vote was recorded.

The McKinley syndicate, capitalized at \$50,000,000, and the most powerful lobby combine in the country, is reported, on 'good authority', to have purchased the Watertown, N.Y., Black River Traction company.

Instructions have been issued to permit the readmission, at St. Stephen, N.B., of two Chinamen who crossed the line on a street car drive and losing their status were thus refused permission to re-enter Canada.

It is reported from Bulawayo, Rhodesia, that General Louis Botha, premier of the Transvaal, at the request of the South African National convention, will offer the Chartered South Africa company \$100,000,000 for the purchase of Rhodesia by United South Africa.

Stanley Ketchell, of Michigan, is still the world's middleweight champion. In a desperate grueling battle at San Francisco, during which the champion was constantly on the aggressive, he was awarded the decision over 'Billy' Papke, of Illinois, at the end of the twentieth round, the scheduled number.

FIRE CRACKER KILLS.

Explodes in Hand of Prominent Insurance Man.

Louisville, Ky., July 6.—The unenviable distinction of having made the most notable sacrifice to patriotism by reason of Independence Day celebration, this year, will probably fall to Louisville, through the death at Seymour, Ind., of Arthur Granville Langham, former president of the Provident Life Assurance society. Mr. Langham never recovered from the effects of having had his right hand shattered by the explosion of a cannon cracker.

He was one of a party of fashionable Louisville folk who were spending the week at the home of John K. Peter, Mr. Langham's brother-in-law. A cannon cracker thrown lighted up the lawn failed to explode and Mr. Langham took it in his hand and relighted. The cracker burst in his grasp, mangleing the hand frightfully. He was operated upon at once, but never regained consciousness.

DUG UP DYNAMITE.

Evidence Against Suspect in Outrage at Ottawa.

Ottawa, July 6.—The provincial detectives made an important discovery in relation to the recent attempt to blow up a hotel on the Montreal road with dynamite. One of the men bound over to the assizes, was a market gardener named Lacrosse. Monday there were dug up in his father's garden four boxes of dynamite, of fifty pounds each, stolen from the Hamilton Powder company.

This confirms the impression that the dynamite used for the crime was part of a supply stolen from this company, who are carrying on large blasting operations near the scene of the crime.

Burned To Death.

South Boston, July 6.—H. P. Strange, eighty-four years old, and five children, ranging from eighteen months to fourteen years, lost their lives when a defective flue set fire to S. E. Hamlet's house. Strange was spending the day with Hamlet. The children were Hamlet's family. The fire was not discovered until it had gained considerable headway, and others in the house had narrow escapes. One of Hamlet's children was thrown from a second storey window, receiving injuries that caused its death. The others burned to death.

LETTERS TO THE EDITOR.

Cause For Change of Front.

Kingston, July 6.—(To the Editor.)—On the part of the owners of theatricums in Kingston will you allow me to tell why the theatricum proprietors declared themselves satisfied with the proposed by-law on Friday night, at the meeting of the finance committee, and why afterwards they became dissatisfied with it.

They accepted the by-law because they understood that it did not prohibit gramophones. They understood that if they used good records, kept their gramophones in good condition and made frequent changes of records—in a word that if they produced good music and did not play too late at night, the by-law would not interfere. They pleased them and they thought it was a grand by-law. On Monday, to their surprise and consternation, they were informed that this was not the case and that the by-law was not what it seemed to the mind unlearned in the ways of the law. They learned that the by-law was really a prohibitive by-law, and that beneath the words "inhabitants," "disturb," "unusual," and so forth there lay an abyss in which the gramophones were about to be buried for all time. They found out that the by-law which seemed figuratively a coat of roses, which the theatricum owners might peacefully recline concealed about a ton of legal dynamite which would blow their gramophones out of sight, whenever one or two "inhabitants" chose to touch the match.

We believe that the people of Kingston did not want such a by-law and that the majority of the council would be opposed to it, and that under the circumstances we were justified in asking that it should not become a law.

I merely make these statements to show that our change of front was warranted by the situation.—A THEATRICUM OWNER.

SAVED A LIFE.

Ottawa, July 6.—A remarkable act of coolness on the part of a twelve-year-old boy was witnessed at 27-29 Bronson's Wharf near the Chaudiere to-day. Two children, Connie Evans and Allan Dempsey, were playing on the water front when the latter fell into thirty feet of water and sank. When he came up the first time the Evans boy, who hadn't lost his nerve, grasped him by the hair and effected his rescue. Neither could swim.

A young man named William Kendall, wanted to give evidence in an abusive language case, to-day, did not show up at least until a warrant was issued for his arrest, and he was brought in. He failed to appear when his name was called, and Magistrate Farrell had a warrant issued for his arrest, and he was brought in.

Injured by Gun Explosion.

Alexandria Bay, N.Y., July 6.—At the finish of the six-horsepower motor boat race, yesterday, the customary gun was fired as the winner crossed the line. The gun exploded and two women were slightly injured. Mrs. Wagner, a resident of the bay, received a slight wound in the back of the head, and Mrs. Cook, who is a summer resident, was wounded in the neck. A hole some four or five inches long was blown in the side of the gun barrel.

The wounds were dressed by Dr. Forsythe and no serious results are apprehended. A number of people were standing about when the explosion occurred and it may be deemed extremely fortunate that more serious results did not follow.

A Pertinent Enquiry.

Toronto Telegram. But why should not a high school be a high school by day, and a technical school by night? Of course, it would muddle things up, and disturb routine, and require a janitor's staff, and there are many objections to it, but would it not give the city at a stroke a fine lot of technical night schools? Would it not give the city's investment in buildings a greatly increased productivity?

George Peake has been sent to the Pastoral Institute at New York from Stratford, having been bitten by a dog some weeks ago.
