THE RAILWAY QUESTION

COMMITTEE WILL AGREE TO AN ARBITRATION

Light, Heat and Power Committee Take Up the Matter, and Pass a Resolution, Which Will Be Forwarded to the Street Railway.

Matters between the street railway company and the city have been advanced a stage. At a meeting of the light, heat and power committee on Tuesday afternoon, the following resolution, moved by Alderman Angrove, was carried, after some discussion over the question:

"That the committee, in compliance with the request of the street railway company, as contained in their letters, re the cost of producing power to supply the street railway company, will agree to the said request and are willing to have a board of arbitration appointed, this board to consist of three experts, one appointed by the light, heat and power company, one by the street railway, and a third to be mutually agreed upon by these two, the expenses of the third expert to be borne equally by the light, heat and power company and the street railway company."

The chairman, Ald. Elliott, presided at the meeting and also present were Alds. Hartly, Carson, McCartney and Angrove.

The chairman read the last letter received by the city from the street railway, in which it refused to accept the city's offer of the use of records at the plant to figure out the cost of power, and asking that a board of arbitration be appointed.

Ald. Carson pointed out that in this arbitration the company had no bound itself over to abide by a decision of the arbitration.

"Decidedly not," remarked the chairman, "and that is what I pointed out to council the other night."

Ald. Carson said that for such an arbitration the best possible men should be secured. Expert men would be required so that the work would be done right.

Ald. Hartly pointed out that the question the committee first had to decide was as to whether such a board should be appointed.

The chairman said that the committee desired to show the council that they were not prejudiced, but were willing to give the company what they asked for. They had nothing to hide, but did not want to be "bungoed" into believing something which did not exist.

The chairman remarked that the company would not accept power at less than cost, and would not accept a bonus.

After some further discussion the resolution already given was carried and, on motion of Ald. Carson, a copy of it will be sent to the street railway company with the request that a reply be given at the earliest possible date, so that arrangements can be made to proceed with the arbitration.

Ald. Hartly said that he was prepared to stand or fall by the figures of Manager Folger, and advocated his appointment on the board. Ald. Angrove agreed with Ald. Hartly on this point. Ald. McCartney advocated the appointment of another local man, believing that Mr. Folger was already loaded up with too much work.

The chairman brought up a matter to the attention of the committee, that of employees at the plant doing different jobs around the city after their own working hours. Complaint had been made to him about the matter from different men engaged in similar work and although he believed that no drastic measures should be taken, he wanted to know the opinion of the committee. Personally, he was not interested and would have had reference to. He had himself dealt with cases in his own business. When a man worked at other jobs after hours and was then unable to do a good day's work for him he found it necessary to let him go.

Ald. Angrove and Carson said that the question was not an easy one to deal with as the committee had practically no string on a man after his working hours at the plant, although they were of the same opinion as the chairman as regards letting him go, if he could not do a day's work. It was a matter that could best be dealt with by the chairman and manager, and on motion the matter was left with these two to deal with.

Ald. Carson asked for information regarding a conference asked for by the fire and light committee, with this committee, re street lighting. It had been stated at the last meeting of council that such a conference had been asked for, but he had no record of it.

It was found that such a meeting had been asked for and August 3rd was decided upon as the date for the meeting and members of the fire and light committee will be notified accordingly.

The chairman, re street lighting, had been asked for and August 3rd was decided upon as the date for the meeting and members of the fire and light committee will be notified accordingly.

It was found that such a meeting had been asked for and August 3rd was decided upon as the date for the meeting and members of the fire and light committee will be notified accordingly.
