HIS 41 ST. ANNIVERSARY FATHER KEILTY CELEBRATES HIS ORDINATION

In the Parish Church at Douro on Monday last—An Accomplished Musician From Kingston at the Organ.

On Monday, July 26th, St. Anne's day, Father Keilty celebrated the forty-first anniversary of his ordination to the priesthood in his church at Douro. Mass was said at eight o'clock by Father Keilty, and all those who were present received Holy Communion. The altar was profusely

decorated with flowers, and the singing all that could be desired. Miss Crowley, of Kingston, presided at the organ: The young lady is a most accomplished musician.

Present at the reception held by Father Keilty after breakfast were Mr. and Mrs. Kennedy—cousins of his—from Manchester, N.H. They have been spending a couple of weeks with the reverend gentleman.

Father Keilty was ordained by Bishop Horan in St. Mary's cathedral and afterwards spent happy years in this parish where he still has scores of friends.

CAMPERS HAD REUNION.

Pleasant Affair at Coney Island, Sharbot Lake, Monday.

A very pleasant reunion for the campers took place on Monday at Coney Island, Sharbot Lake. Madames W. Y. Cannon, M. Avery, J. H. Cannon and W. M. Mallett were the hostesses, and a very pleasant afternoon and evening were spent.

Among the many present were Mrs. F. A. Reid, Mrs. D. A. Shaw, Misses Carrie and Jessie Reid, Kingston; Mrs. Hamilton, Smith's Falls; Miss M. Hunt, Dauphin, Man.; Miss Flett, Perth; Mrs. W. and Miss Kilborn, Mrs. H. Thompson; Mrs. R. Culbert and Mrs. M. J. Hunt, Sharbot Lake; Rev. and Mrs. E. Lawson, Lacolle, Que.

The affair wound up with a pleasant sail around the lake in Frederick Avery's launch.

TEMPERATURE NOT HIGH.

But Moisture Makes the Atmosphere Oppressive.

The temperature has not risen above eighty degrees in Kingston this summer, according to the official reports from Dr. Knight's observatory. Last Sunday, that hot dry day, the thermometer registered eighty degrees. The highest temperature prior to that was 78 degrees.

Yesterday, which was so oppressive, the thermometer registered only 76 degrees. While the temperature was not high the atmosphere felt more oppressive than if the temperature had been ten degrees higher, but with a dry atmosphere. Yesterday and to-day the atmosphere was charged with moisture and hence the oppressiveness.

At eight o'clock this morning the thermometer registered 70 degrees, and it was not likely to register higher than yesterday. There was a great deal of moisture in the atmosphere to-day.

Another Vile Slander.

Bellefonte Intelligencer—A Toronto girl visiting Kingston first lost \$10 on the street, then went out on the water and the wind carried off her \$15 hat. Query? Why did she visit Kingston, where there is so much wind and so little music—since the gramophone by law was passed?

Hurrah! the fine weather is upon us.

CITY AND VICINITY.

Last Evening's Band Concert. The Salvation Army band gave the weekly concert in Macdonald Park last evening. A big crowd enjoyed the music, the weather being pleasant. The army band played an excellent programme and did itself justice.

Soon To Be Married.

Mr. and Mrs. A. Black, Cataraqui, announce the coming marriage of their daughter, Myrtle, to William Lyons, Harrowsmith. The marriage will take place quietly in Christ Church, Cataraqui, the latter part of August.

A Cosy Place.

The new yacht club house at Cape Vincent, N.Y., was formally opened Wednesday night, by a smoker. A large number attended. The house is described as a cozy little place, well calculated for the needs of the organization.

Take Posters Down.

Although it is now about a month since the wild west show was put on in Kingston, there are still a number of posters and cards to be seen in different parts of the city. Probably the most conspicuous are some tacked up in front of Princess street stores, and some hand bills in windows. Old bills are an eye-sore, and should be removed.

Innovation In Trips.

An innovation in excursion trips is being offered by the Thousand Island Steamboat company for islanders on Monday next. On that date the excursion steamer Amerila will go down the river as far as Iroquois, eighteen miles below Ogdensburg, shooting the Rapids du Plat and the Galops. Return will be made by way of the canals.

Held A Social.

The social held at Calabogie, on Wednesday night, under the auspices of the Presbyterian church, was well attended, and a most delightful affair. A number of Kingstonians were present, and Renfrew people were out in large numbers, a special train being run on from there over the K. & P. railway. A good sum will be realized, as the result of the effort put forth by the ladies.

Marriage Of F. F. Metcalfe, V.S.

Announcement is made of the marriage of Frederick F. Metcalfe, V.S., son of F. H. Metcalfe, ex-M.P., to Miss Lucy Gertrude Palmer, of East Lodge, Hampton-Wick, England, which took place in St. John's church, Hampton-Wick, on the 28th. Miss Palmer and her sister visited Kingston a few weeks ago. Dr. Metcalfe is remembered as a famous rugby football player.

The R.C.H.A. Band Discussed.

Some skirmishing between the writer of Kingston, and A. S. McCormick, of Montreal, has been taking place, the Canadian Military Gazette being the battleground of the pugmen. The subject at issue is the standing of the R.C.H.A. band, which the Kingston correspondent claims to be of the very best. The Montreal man says the R.C.H.A. is a good band, but not the best in Canada, even though it has been engaged to play at the Toronto exhibition.

Drinking A Dream.

THE MARKET TOLLS

TOLLS OF PAST TWO YEARS IDENTICAL.

The Markets Have Not Increased—A Comparison With the Tolls Collected For the Past Ten Years.

To-morrow the market toll year ends. From information sought at the city treasurer's office, the amount of tolls collected on market No. 1 (King street), is found to be practically the same as the amount collected during the previous year. From August 1st, 1907, to August 1st, 1908, the tolls collected amounted to \$1,052.25. For the year ending to-morrow, the amount will be practically the same. Yesterday there had been \$1,038.50 collected. If to-morrow's market is a fair-sized one, \$14 will be collected.

From these figures, it is quite evident that the number of farmers coming to Kingston market has not increased during the past year. The tolls, of course, do not cover every farmer who comes to the city, for there are scores of farmers who sell their produce without going near the market.

To-morrow, tenders are to be received for the collection of tolls on market No. 2 (the hay and wood market). This will be the fourth year that tenders have been asked for that market alone. Formerly tenders were asked for the purchase of the toll privileges on both markets combined. When, however, it was decided to require the market clerk to collect the tolls of market No. 1, tenders for only No. 2 were asked. In 1906, the highest tender was \$500, in 1907 it was \$300, and last year it was \$225.

The following table shows some of the amounts received by the city for tolls when tenders were called for the two markets combined:

1899	\$1,560
1900	1,400
1901	1,610
1902	1,795
1903	1,575
1904	1,527
1905	1,451

In 1907-1908 the total of market fees collected was \$1,352.50, and this year it will be about \$1,375, both amounts somewhat less than what the tenders for both markets were secured, but of late years the tenderer generally asked for a rebate on account of loss through his contract.

Complaint Made About Boys in the Railway Yards.

Boys who loaf around the railway yards, and jump on the trains, will get into trouble. Yesterday, complaint was made about the matter, and all offenders, in the future, will be severely dealt with.

From time to time, boys have given the trainmen considerable trouble, and in spite of the effort put forth by the railroaders, boys will jump on the engines and trains. The practice is a very dangerous one, and it is indeed a great wonder that someone has not been killed or injured. Yesterday, a lad who jumped on a box car in the local yards, had an experience which he will not soon forget. He jumped on the side of the car, and as he did so, the door of one of the coal sheds, close to the tracks, had been left open, and as he passed, he was thrown heavily against it. He received no serious injuries, but suffered a severe shaking up, and was badly frightened.

A STIRRING TALE OF '37.

A Reform "Rebel's" Memorable Tramp Through Woods.

An aged Prince Edward pioneer, who was one of the followers of William Lyon Mackenzie in 1837, contending for responsible government, has given the following interesting recollections of those stirring times:

"Well do I remember the winter of 1837. The month of February was very cold. On the 27th day of that month the word came for the reformers to hasten to Bath as quickly as possible. I had little faith in the movement myself, but nevertheless, I decided to go. I went to a neighbor's house after nightfall and took a team of
