

THE EGYPTIANS' SECRET.

The Egyptians of Pharaoh's time were a wonderful people. The pyramids, for instance, put our modern buildings to shame. Where such huge blocks of stone were carried, how they were moved and put in place—are mysteries to modern minds.

The Egyptians were skilled physicians, too. We know that they used fruit juices in treating many diseases. Some years ago, a physician in Ottawa discovered a method of combining the juices of apples, oranges, pines and prunes, by which the most remarkable results have been obtained.

Whether "Fruit-a-tives" (these combined fruit juices in tablet form) are a re-discovery of the prescriptions of the ancient Egyptians, will probably never be known.

Certainly, the ancients never had a more effective remedy than "Fruit-a-tives" for all Stomach, Liver, Kidney and Bowel Troubles. "Fruit-a-tives" are sold by dealers at 50c a box, 6 for \$2.50, or trial box 25c—sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

R. McFAUL, Kingston Carpet Warehouse.

Where the Poor Man Gets In.

The man who originated the installment plan of paying for a home extended the life-line to the poor man: to that great army of wage-workers who have small chance of acquiring homes in any other way. Why not take advantage of this method of getting a place of your own, and put that rent money into it? Are you afraid you cannot finance it? Probably we could help you. That is part of our business. Come in and let us talk about the lot.

McCANN, 51 Brock St. Phone, 326.

THE BOARD OF HEALTH

HAD NO QUORUM AT MEETING CALLED.

Only the Chairman Was Present—Yard Inspectors Report—The Board Has Power to Abolish Pit Closets.

The members of the board of health did not respond to the city clerk's invitation to convene on Tuesday afternoon. Evidently they think they should have their holidays or that the city is healthy enough at present without any more legislation. Any way there was no meeting, for at 1:50 o'clock, S. R. Bailey, the chairman, was the only member present. The chairman decided to call a special meeting for next Monday afternoon.

A report was on hand from Police Constable Timmerman and Davies, who inspected the premises of every property owner and tenant in the city. All told there were 4,600 places inspected. Only a few dirty cellars remain to be cleaned. There are 246 private vaults to be cleaned by November 15th. Houses without sinks number 502. The inspectors recommended that sanitary closets be insisted upon. There were 400 sinks reported against. The most of these were not trapped. The city solicitor reported that the power of enforcing a regulation with reference to pit closets lay with the board under the public health act. Accordingly, at its next meeting, the board will pass a resolution allowing no private vaults, cess pools, or receptacles into which a private water closet, stable or sink is drained, to exist between Barrie and Queen streets and the water's edge, after May 1st, 1910.

THE SPORT REVIEW.

Chirya Was Beaten at Charlotte, on Tuesday.

At the Rochester Yacht Club races at Charlotte, N.Y., on Tuesday afternoon, an interesting contest took place between the Whirl, of Toronto, Crescent, of Watertown, and Chirya, of Kingston. The former two luffed away off the course, but were so much better than Chirya that they were able to fight it out and then came on and beat her. Whirl beat Crescent a quarter mile in nine. The Kathleen, of Kingston, did not go over for the race. The yacht Isis, owned by Harold Horn, won a first prize, and the yacht Chirya secured a third.

Sporting Notes.

Johnson posted \$5,000 forfeit, Monday, to meet J. J. Johnson. The latter is confident that J. J. Johnson will agree to fight, as he believes that his rival will make terms so exacting as to make a meeting between the two impossible.

All games in the American and National Leagues were postponed Monday, on account of the funeral at Louisville, Ky., of Henry Clay National League. Double-headers will be played in both circuits to catch up to the schedule. The players of the National League will wear a band of erape on the sleeves of their uniforms for thirty days, as a mark of respect to the dead president.

The Brooklyn Baseball Club has figured in many rumors concerning the engagement of a new manager. But at last there seems to be ground for the belief that John Gangel, now successfully handling the Rochester Eastern League team, will be secured by President Ebbetts. Gangel has a number of former Brooklyn players in his line-up now, and is in close touch with Ebbetts, to whom he has just sold Cather Erwin.

The New York American League Club has sold Pitcher George McConnell to Rochester. Pitcher Stroud, of the Williamsport, Pa. Tri-State team and first baseman Gaines, of Grafton, W. Va., have been signed by the Detroit American League team. At Rochester, N.Y., on Tuesday, Zoraya and Crusader, both Toronto yachts, beat the Seneca, the holder of the Canada's cup.

Doing Good Service.

Assistant Fire Chief Elmer returned, on Wednesday, from a week's fishing at Mattawa, where he landed some fish. The general assistant brought home enough fish to divide between thirty-two families, as well as the different firemen, who were lucky enough to have a wife to cook them. He also brought a fine five and a half pound bass caught by C. F. Meyer, of Fenwick. The fish will be mounted by a local taxidermist and returned to the man who caught it.

"Solidity powder" put in a tin box, sold at Gibson's Red Cross Drug Store. John Kelly, of London, was sentenced to the penitentiary for three years for theft. He was brought to prison this morning by Deputy Sheriff B. Patterson.

WESTMOUNT THE LATEST CREATION FOR SUMMER WEAR. ALL THE COMFORTS OF A TURN DOWN EFFECT. "Anchor" Brand "Westmount" 2 for 25c. "Iron Frame" Brand "Almonds" 3 for 50c. SOLD BY LEADING FURNISHERS. CITY AND VICINITY.

"Three Swallows." Sir John Power and Son's "Three Swallows" Irish Whiskey—Famous for over a century. Of highest standard of purity. Distillers to His Majesty the King.

A Coming Event. The marriage of Miss Julia A. Lalonde, only daughter of Mr. and Mrs. Francis H. Lalonde, to George Stanley Revell, is to take place on August 25th, and will be solemnized in St. George's cathedral.

They Like Portsmouth. So far this season, a large number of visiting yachts have tied up at the long pier at Portsmouth, and visitors have expressed themselves as being well pleased. It is rather a secluded spot, and near the street cars, for the party to get into the city, when they want to.

A Creamy Delight. Good ice cream soda is the most delicious beverage made. Our soda is made right and served right. A liberal quantity of pure ice cream is given, pure crushed fruits, and fruit raps only are employed, and our glasses and everything else about the fountain are absolutely pure. Wade's drug store.

'Twas Too Bad. The policeman who went out fishing yesterday, arrived home early, but they are not saying anything about what they caught, and it is believed that they had hard luck, although there was one consolation, and that was that the fish store on Brock street is still doing business. It was stated, last night, that the poor policeman had no chance, after Postmaster Stewart had cleaned out the whole harbor.

'Twas His First.

The disgrace of having to appear before me on such a charge should be sufficient punishment for youths, said Magistrate Farrell, in police court this morning when a young man was arraigned before him for the first time on a charge of drunkenness. The accused has lived in the city for about three years and is employed at a big establishment here. As it was his first time up the magistrate gave him a pass. His face was badly scratched, no doubt caused by a fall on the sidewalk.

What Was The Joke?

Two women, who went around the city, on a belt line car, about 9:30 o'clock, last night, laughed so much that they nearly went into convulsions, and everybody in the car was at a loss to know what the joke was all about. The two laughed continually from the time they left the junction until they reached the city hall, but were too mean to tell the rest of the car about the matter—until it they had one. Their laughter had the noise of the car "beaten by a mile."

After Fire, The Cleaning.

When people hear a fire alarm they all run to the scene. If there is a fire they stay, if there is not they go home, and that is all. How different with the firemen, and far from finished is his work when the fire is at last out, and the tired men get back to the station! The work is fully two or three hours from finished. When the hose carts come in they cannot be put in the sheds and left till morning to reload, but must be attended by a crew of four or five men. The hose brought home from the fire is all washed and the fifty-foot lengths hung up in the tower to dry, being replaced by other hose. The waggons are also washed before being placed back in position in the hall. The hoses, waggons, and the horses all have to be cleaned and attended to before the firemen can lay down his head and rest.

W. Hubbard, Sheffield, Eng.; H. M. Baldwin, Brighton; E. B. Roach, Walkerville; R. H. Rutherford, Colborne.

SAVED HIS BROTHER

When He Fell Off Bridge Into Water.

Tuesday afternoon two little boys, sons of Police Constable Driscoll, one aged about five and the other ten, were at the Cataract bridge. The elder lad was fishing and his brother was looking on. The little fellow had a dizzy spell and fell into the water. In less time than it takes to tell it his brother jumped in after him and succeeded in getting hold of him when he came to the surface and pulling him out. In falling the lad struck his head against one of the pillars of the bridge, inflicting a couple of nasty wounds. The elder lad is deserving of great praise for the plucky way in which he made the rescue. Lewis Martin, proprietor of the Revere Hotel, happened to be driving past just as the lad was pulled out, and he drove the boys to Dr. Campbell's office, and afterwards to their home. Five stitches were necessary to close up the wound. "Neilson's ice cream bricks" sold in Kingston only at Gibson's Red Cross Drug Store.

YACHT CAUGHT FIRE

AND OCCUPANTS JUMPED INTO WATER.

Frank Woodrow and William Little Slightly Burned—The Fire Brigade Called Out and Extinguished Blaze.

Another gasoline boat was seriously damaged by fire as the government dry-dock on Tuesday evening, and two young men were injured. The firemen were called out at 9:01 o'clock and the men of both stations were soon on the scene, and had 800 feet of hose laid and a stream on.

William Little must have a hoodoo following him, as he was again in this fire, after being in a more serious one a couple of weeks ago. Frank Woodrow, the owner of the craft, was also in it at the time. Both were slightly burned and were removed to William Little's home on King street. Just how the accident happened could not be found out on Tuesday night. A brother of the owner, said the and Little were out in the boat just off the end of the dry-dock wharf, when something went wrong. The two boys got down to fix the defect, and the next thing they knew the boat was in flames. The engine is situated well forward, and the tank is also under the forward deck, so the boys were in a bad place when the fire broke out. Little had had previous experience with gasoline explosions, and the moment he saw the flames shoot up he jumped into the lake, and Woodrow followed him.

There were very few people around at the time, but the dry-dock men saw the blaze and sent in a hurry call for the firemen. The boat was slowly drifting out into the harbor when the firemen arrived, and was so far out that she could not be reached by a hose. A young lad in a canoe was hailed and he came up astern of the burning yacht and pushed her in with his paddle. Capt. Stratford was waiting with the "hook" and Fireman Roberts, with the necessary water. The hose was played on the little boat from stem to stern, and the fire was soon extinguished, luckily without an explosion. The boat was then towed around behind the slip and left.

The Emily I is the name of the boat. She is a twenty-two foot open boat, well built and exceptionally well fitted up inside. She was owned by Frank Woodrow and two other young men, who work with him at the foundry. The forward part of the boat is very badly burned and the decks are also injured. The fire did not reach close enough to the engine to do much damage to it, but it will have to be well overhauled before it will run again.

It was learned this morning that the accident was caused in some way the same way as on the yacht Caprice. The men were working around the engine and the flames from the tank coming in contact with the light covers. The flames spread rapidly and the two boys were forced to jump into the lake and swim to the wharf. William Little was injured most seriously of the two. Both arms and his face were badly burned. Woodrow had his face burned but not very badly. He was able to be around this morning, but Little will be laid up for some time.

HOME DEPARTMENT PICNIC.

A Fine Outing Was Held at Lake Ontario Park.

The annual "Home Department" picnic of the First Baptist Church, held at Lake Ontario Park, yesterday afternoon, was a great success. The superintendent and his band of faithful workers are to be congratulated on giving every one present a pleasant time. About seventy-five sat down to a tempting spread, provided in the beautiful grove. The kindness of the park managers added to the enjoyment of the occasion, and the weather conditions were all that could be desired.

THE PRICE OF COAL.

It Will Likely Advance in Kingston Soon.

In Toronto, the coal men have announced that the price of coal will be \$7 a ton, or \$6.75 if paid on delivery. This means a raise of twenty-five cents a ton. Asked this morning, about the price at Kingston, a merchant stated that he did not see how a raise had been made, but that the price in all probability would soon go up. Coal is selling here at \$6.75.

The ballasting work on the K. & P. railway has been about completed.

"Kingston's Famous Fur Store." Half Price Sale of Summer Hats Continues Just 3 Days More. It won't pay you to have your old hat cleaned when we're selling at half-price. Straw Sail 0rs, 50c, 75c. \$1.00, \$1.25 \$1.50. Linen Hats Half Price. Light Felt Hats Half Price. See our windows. George Mills & Co 126-128 Princess St.

Stocking Special.

CORRIGAN'S.

INCIDENTS OF THE DAY. Newsy Paragraphs Picked Up By Reporters On Their Rounds. Buy Tanglefoot and Poison Fly papers at Gibson's Red Cross Drug Store. "U, where O where is the garbage man?" This is the question of the day. For printing and book-binding try the Whig. First-class work at lowest prices. At Thousand Island Park, Richard Allano, Havana, Cuba, captured an eight-ounce muskox. Erythroid fever is prevalent in Brockville. Samples of water have been sent to Dr. W. T. Connell for analysis. Is it not time that the city hall clock bell was connected with a wire, so that it could be sounded when fires occur? "Talcum Powder days." Buy Talcum Powders at Gibson's Red Cross Drug Store. The apples given the Whig yesterday, destroyed by hail stones, came off a tree on J. Hawkey's farm, at Mount Chesney. Last night, at eight o'clock, a street car jumped the track, in front of the Frontenac Club, and tied up the line for quite a time. A wireless station to be run during the summer months between Watertown, N.Y., and the Gallopus Islands is now completed. "Army Service Foot Powder," 10c a tin. Good for sore, tired feet. Sold in Kingston at Gibson's Red Cross Drug Store. "Some married men do all their talking away from home, because that's the only chance they get," says the Portsmouth philosopher. The prisoners are keeping the grounds surrounding the court house in fine shape, and Mr. Toner's flower beds are a pleasure to look upon. A special meeting of the Orange lodge, at Portsmouth, was held, last night, when further arrangements were made for a lawn social, to be held on August 12th. The weather was good and warm last evening, but dry. The street cars were packed all evening, and were too few to carry the crowds waiting on the street corners. The muzzling of the exhausts of motor boats should be worthy a special meeting of the council. The annoyance is serious. The gramophone is not in tune with the nuisance. The steamer America brought about 50 passengers over river points to-day. She left at 2:30 o'clock, on the return trip, to bring a moonlight excursion from Alexandria Bay to Gananoque. The police have a new game called "beat ball," and they play it every night. Last evening two bats that called on the bluecoats were waited on with brooms, and were soon put out of the land of the living. Miss Ruth Remington, St. Lawrence Park, N.Y., has purchased a new power boat, capable of making twenty miles per hour. It has a forty-horse power engine and Miss Remington expects to capture some prizes in races with boats of its class. If some of the city fathers could take a ride to a fire on one of the waggons they would likely make a good quick move to repair some of the roads. It has the "Figure Eight" and "Leap for Life" beaten many ways and the firemen are as much in danger riding to a fire as they are in fighting one. This August issue of Busy Man's Magazine is an educational number. The rapidly passing midsummer vacation reminds all that school days are again not far off. There are bright, special articles on education, among them, "Life in Residential Schools," "In Advance of The Pullman," "What Canada's Public Men Read," and "The Necessity of A Business Training." Other clever and interesting contributions are: "When An Emperor Ruled in Canada," "The Rival Ram-Makers of the Yukon," and "The Light Side of Finance."
