

ARE IN DOUBT

That The Peace Of Spain Is Restored

THE MARTIAL LAW

IS IN FORCE WITH SPECIAL PATROL.

Wholesale Shooting of Prisoners After Court-Martialing Goes on at the Fortress of Mont Juich—Outrages May Be Resumed.

London, Aug. 5.—The Barcelona correspondent of the Telegraph says that for the present, quiet is restored, yet there are certain doubts whether the revolution has received its death blow. Martial law is still in force. The civil guards and police, armed with rifles, still patrol the streets. The wholesale shooting of prisoners after court-martialing still goes on at the fortress of Mont Juich.

Rumor states that the revolutionists will recommence outrages unless the remaining prisoners are released.

HATCHET FORCED INTO BACK.

Odd Accident Occurred in Cobalt Station.

Cobalt, Aug. 5.—A most peculiar and exceptional accident occurred on Tuesday, just after the Cobalt special pulled in. There was a great crash when the passengers were alighting. A man named Gregg Brennan suddenly called out that he was injured. Investigation revealed the fact that he was badly cut in the small of the back. It transpired he had been carrying a small axe in his hip pocket, but the blade was unprotected and in the crush this was forced into his back. He was medically attended to and is doing well.

FIRE IN A GIRL'S HAT.

Called Out Fire Brigade and Delayed a Train.

Atlanta, Ga., Aug. 5.—A fire on the roof of the hat of a pretty girl traveler at the Union station, last evening, called out two fire companies. These cut a score of willing amateur firemen, delayed a fast train and destroyed about \$30 worth of finery upon the "peach basket" aforesaid.

The young woman, en route to New York, rushed into the station for something to eat. In paying her check she swung the hat too close to the cigar lighter. In an instant it was a mass of flames. A waiter sent in a fire alarm.

OVER RIVER

Thus Is Planned Flight Of Aerodrome

AS A HAPPY TEST.

CANADIANS TO TRY ENGLISH CHANNEL FLIGHT.

Baldwin and McCurdy Plan to Duplicate Blériot's Great Feat—Rapid Progress Being Made With Machine.

Petawawa, Ont., Aug. 5.—Rapid progress is being made with the assembling of the parts of the aerodrome, Bladcock No. 1, and the general outlines of the aerodrome are now clearly defined. It is now seen that all square lines have been eliminated entirely from the framework. Also the struts have been changed from the fish shape section to the oval, and the former is not compressible to reduce the air resistance.

The supporting surfaces are all double instead of single as in the Dart, rafter sail cloth being laced to the

KEEPS VOW AND ELOPES.

Pledge Takes Young Couple to "Gretna Green" Course.

Elgin, Ill., Aug. 5.—As the result of an elopement compact made by five Phi Gamma Pi Society girls, Miss Louise Kerver, eighteen years old, and John A. Logan, Jr., a freshman at the University of Illinois, eloped to Downer's Grove, yesterday, and were married.

Miss Kerver is the daughter of C. A. Kerver, president of the Kerver Packing company and Logan is the son of John A. Logan, a member of the democratic committee in the eleventh congressional district.

The pair had been engaged for some time. The principal reason for the elopement, it is said, was Miss Kerver's desire that she should keep the vow that she made to her schoolmates at the Elgin High School last spring that all their marriages be elopements.

70 YEARS A MASON.

Trenton's "Oldest Office Boy in the World."

Trenton, N.J., Aug. 5.—Samuel Brackett, aged ninety, was yesterday receiving the congratulations of his friends on the fact that for seventy years he has been a Mason and an Oddfellow.

He is one of the oldest lodge men in this state, and for seventy years "was in the employ of the management of the canal works, which Mrs. Clark Fisher now conducts. In fact, for all that time, Mr. Brackett had been the "office boy" of the institution. Last birthday, Mrs. Fisher pensioned him, and the fact of his pensioning the "oldest office boy in the world" was sent broadcast.

TONS OF PIG-IRON.

Crashed Through Ceiling and Killed Athlete.

Pittsfield, Mass., Aug. 5.—William P. Mitchell, a graduate of Brown University, this year, was killed yesterday, by eight tons of pig iron, which broke through a ceiling and fell upon him while he was at his desk in the office of the Stanley Electric Manufacturing company. The iron had been stored in a room over the office. Mitchell was twenty-four years old, and was the son of the Rev. Arthur Mitchell, of Portland, N.J. At Brown University he was known as a general athlete, and was popular.

LIKELY TO AGREE

ALL CEMENT COMPANIES ARE NOW SATISFIED.

On Terms of Big Merger—Twenty Three Plants With Yearly Output of 8,000,000 Barrels.

Montreal, Aug. 5.—The proposed new \$25,000,000 merger of Canadian cement plants will have as a nucleus the International Portland Cement company, the largest producer in the dominion. On the prospects for the company's shares have advanced over thirty points in the past few days, touching as high as 195 1/2 recently, but it has declined several points from this high record. Since February the stock has risen approximately sixty points.

The new company, to be known as the Canadian Consolidated Cement company, will take over control of most of the operating companies in Canada.

Last year there was produced in the dominion a total of 3,100,000 barrels against 2,500,000 barrels, in the previous year.

Two years' statistics on the industry in Canada compare:

1908.	1907.
Cement sold.....2,665,289	2,436,099
Manufactured.....3,495,991	2,491,513
Stock Jan. 1.....1,233,222	1,233,222
Stock Dec. 31.....214,021	354,435

Canada imported last year 469,049 barrels of Portland cement against 622,630 barrels in 1907, the apparent total consumption was 3,134,338 barrels last year, comparing with 3,107,223 barrels in the previous year.

There are, at the present time, twenty-three complete plants in operation, against but seventeen in 1907, the present daily capacity being 27,500 barrels against 14,100 barrels with the smaller number of plants.

Those who are behind the enterprise are the success and Mr. R. P. Forster, M.P., who will likely arrange the merger. The different interests have a man well qualified to deal with the matter.

WILL FOOL BLIND PIGS.

Company Will Chain Up Halleybury Road.

Cobalt, Ont., Aug. 5.—The Nipissing Mining company has devised a means to stop the illegal sale of liquor in their part. In the town at least, in the new leases one of the clauses reads that if one conviction has been registered against any of the lessees of the land or any of his tenants, the lease will be promptly cancelled.

It is thought that this will practically do away with the "blind pigs" which before the fire were scattered so freely along the Halleybury road.

Running The Rapids.

Montreal, Aug. 5.—Big John Canadian, the veteran Indian pilot, of Caughnawaga, whose exploits in running the Lachine rapids in a big war canoe are famous all over Canada, is using his methods, and will hereafter make such trips in a gasoline launch, taking down three people at a time at 85 per hour.

Great Damage Done.

Winnipeg, Aug. 5.—Great damage by hail has been done during the past twenty-four hours throughout Manitoba. Reports show that many thousands of acres were trampled out entirely. Wheat-cutting has commenced in several sections.

W. T. Rowland, a well-known resident of Winnipeg, died at Solihull, Mar., on Tuesday. It was Mr. Rowland who opened up the summer resorts on Lake Winnipeg for the C.P.R.

Sentences were imposed on eighteen men concerned in the attempt to establish a republic in Southern Russia, in 1908. Three were exiled to Siberia, two sent to hard labor for life, and thirteen sentenced to imprisonment in a fortress for six years.

Lieut. Aquilonoff, who was in command of the Russian submarine Kambala, when that vessel was sunk off Sebastopol, last June, by collision with the battleship Iowa, with the loss of twenty members of her crew, has been sentenced to five years' penal servitude, the loss of all his rights and degradation from his rank, on a charge of embezzling naval funds.

Will Live In Lethbridge.

Halifax, N.S., Aug. 5.—The marriage of Miss Louise Wadmore, daughter of Col. Wadmore, of the Royal Canadian Regiment, to James Norman Ritchie, son of the late Judge Ritchie, Halifax, took place in St. Mark's church, yesterday. The band of the Canadian Regiment played the "Wedding March." After the ceremony the young couple left for Montreal and Toronto, en route for Lethbridge, Alta., where they take up residence.

Another Strike Possible.

Halifax, N.S., Aug. 5.—Another strike at Springhill is being seriously talked of by the miners, following the report of the conciliation board, made public a week or so ago.

If such a strike takes place the future of the town will be seriously menaced, for the Springhill miners are still seriously handicapped by the debt remaining from the last strike.

Gold Discovery At Ballarat.

Melbourne, Aug. 5.—The discovery of rich gold-bearing veins at Ballarat has been officially reported to the government. The strike runs in a northerly direction, and is under the centre of the site. The fact that most of the operations have hitherto been carried on in a southerly direction enhances the importance of the discovery.

Boring For Gas.

Galt, Ont., Aug. 5.—A Plettsville syndicate was formed to bore for natural gas. At a depth of 1,000 feet salt vein was struck. Fresh boring was undertaken and a sulphur well developed. A third effort to reach gas was made, at what was pronounced the most likely spot, but only an artesian well of great volume and force was the result.

It is the weak nerves that are crying out for help. Then help them, don't drug the stomach or stimulate the heart or kidneys. That is wrong. Vitalize these weak inside nerves with Dr. Shoop's Restorative and see how fast good health will come to you again. Test it and see. Sold by all dealers.

A SERIOUS CHARGE.

Young Lady Alleged to Have Robbed Company.

Brookville, Ont., Aug. 5.—Miss Grace Henderson, a bright, vivacious young woman, of Gannoque, is under bonds of \$6,000 to appear at the Brookville police court, next Monday, for a preliminary hearing for the theft of \$2,720 in cash and converting to her own use two cheques for \$752 and \$96.04 respectively. The complaint is in the Thousand Island Railway company, in whose office at Gannoque Miss Henderson was employed as cashier and bookkeeper for four or five years previous to the end of July of this year, when her services were dispensed with.

Prior to that time there were balances which could not be accounted for. Since Miss Henderson's retirement auditors have been working on the case, and as a result of the investigation Crown Attorney Brown was instructed to take criminal proceedings against Miss Henderson. The young woman was brought here by Sheriff Ryan, of Gannoque, who made the arrest at the house of her father. She was ill when the officer called to take her in custody, but subsequently her condition improved so that she suffered no ill effects from the trip to Brookville.

The cheques mentioned in the above were given by the Gannoque Spring & Axle company for \$572 and McLenahan and Shannon for \$96, both in payment for freight charges. It is alleged these were never accounted for by Miss Henderson. The theft of \$2,720 in cash is held by the prosecution to have been taken from time to time in small amounts. It is reported that additional charges will be lodged against Miss Henderson when the case comes on for trial. She gave bail of \$3,000 and furnished two securities of \$1,500 each.

Old Men Forced Out.

Washington, Aug. 5.—Old men make way for younger blood. This is in effect the intimation which has been sent along the line of the United States weather bureau field service by Chief Willis L. Moore. That it is to become the settled policy of the weather bureau is indicated by changes which have been made in the stations at Philadelphia, Cincinnati and Nashville, all of which posts have been filled by men whose ages are between sixty and seventy years, but which from now on are to be occupied by younger men.

Among the transfers are: E. H. Emery, forecaster at New York city, to Providence, R.I., to be succeeded by James H. Starr, of Pennsylvania.

Picked Pimple And Died.

Detroit, Aug. 5.—Anna Vandusen, fifteen years old, is dead from blood poisoning as the result of picking a pimple on her nose. A week ago she noticed a small red spot on her nose. It worried her; she picked at it. The pimple grew to a sore and, within a few hours, the girl was ill enough to go to bed. A physician was called and pronounced the case one of blood poisoning. Every effort was made to save her life, but she died last night.

A FORTUNE IN HER

WAITING FOR MRS. EVA FOX-STRANGWAYS.

New Search For Woman Convicted of Passing Bad Checks in New York and Captured in Toronto—Served Her Term and Vanished.

New York, Aug. 5.—Rev. George Sanderson, chaplain of the Tombs, received a letter from a firm of Dubin lawyers, stating that a relative of Eva Fox-Strangways had died at Bidport, Westmeath, Ireland, and left her a large fortune. The reason the Irish lawyers wrote to the Tombs was because Eva Fox-Strangways had a room in that institution two years ago when she was awaiting arraignment in the court of general sessions on a charge of passing bad checks.

She pleaded guilty to negotiating the worthless checks and was sentenced to one year in the penitentiary on Blackwell's Island. Sentence was imposed on September 14th, 1907, and she was released on July 14th, 1908, having been granted a two-months' good-conduct rebate. Then the woman who had been exposed as an international swindler disappeared in New York three years ago, and posed as a sister of the Earl of Hester. She stopped at the best hotels and managed to scrape up a pretence of acquaintance with some people prominent in society.

In June, 1907, she secured some young and other apparel from Susan Clarke, of New York, and paid for them with a check for \$229 that came marked "V.G." Mrs. Clarke found that Mrs. Fox-Strangways had left the city. She notified the police and it was discovered that the missing woman had passed bad checks on the Waldorf-Astoria, the Savoy, the Netherlands, the Holland House, the Manhattan and other prominent hotels. The Hotel-keepers' Association took up the matter and she was finally captured in Toronto.

GOES OVER TO G.T.P.

Toronto, Aug. 5.—A. J. Nixon, a distant superintendent of the Grand Trunk, London division, has been appointed to an important position on the Transcontinental railway commission and has accepted. His duties will commence October 1st.

Issuing Checks Without Deposit.

Ogdensburg, N.Y., Aug. 5.—Charged with issuing checks without having the money on deposit, J. V. Sprague, of Bath, was arrested here and taken to Alexandria Bay.

WEATHER PROBABILITIES

Toronto, Ont., Aug. 5.—Ottawa Valley and Upper Lawrence: (1) a.s.—Light winds, fair and warm.

GATLING GUN FOR POCKET.

Will Pierce Half An Inch of Bessemer Steel.

Boston, Aug. 5.—A powerful new automatic gun, whose projectiles, it is said, will pierce half-inch Bessemer steel at ten thousand yards has been invented by Alexander E. McKen, of Roxbury.

The gun carries a nine-millimetre cartridge, taking five of those, which the inventor says can be fired in three seconds by the recoil shoulder action. The receiver is five inches long, much smaller than any other automatic gun. It is really a Gatling gun for the pocket. The interior mechanism is being kept secret, as the gun is not yet patented.

AMBULANCE CORPS IN BARCELONA

THE RAILROAD STATION

Arrests continue on a large scale. Prisoners are constantly seen with their hands tied behind their backs and escorted by civil guards.

Two well-known journalists of anarchist tendencies were arrested, Monday. Many officers and soldiers are deserting and crossing the frontier. Many bodies have been found under the ruins of the convents. Members of the Red Cross can be still seen transporting charred remains. Optimists should not omit to note the large bloodstains on the uniforms of the Red Cross men.

A Surprise Attack.

A telegram from Melilla states that the Kabyles made a surprise attack upon the Spanish position, and that some officers and men were killed and wounded.

THE WATER SUPPLY

SAID TO BE IN BAD SHAPE AT PRESENT

Over 100 Cases of Typhoid in Town—Situation is Causing Alarm—Officer Says Provincial Board of Health Should Send An Inspector.

Cobalt, Ont., Aug. 5.—Much alarm is being caused in Cobalt because of water conditions. Medical men reported last night that over one hundred cases of typhoid fever were existing in town. It is well known that water of a pure nature is unavailable. Without desiring to cause alarm a serious problem will have to be faced. Even the police, whose duties are to see to sanitary conditions, are sick. "I wish the provincial board of health inspector would come in and use his authority," said one officer. "Then we might prevent serious outbreak."

The question is serious beyond comparison, but may assume proportions in a few days which will mean serious results to camp.

LEAVES \$10,000 TO DOGS.

Provides Liberally For Her Four Footed Friends.

Orange, Mass., Aug. 5.—By the will of Mrs. Mary F. Snow, of Hartford, Conn., Miss Phyllis C. Miller, a spinster living here, will receive the income from \$10,000 for taking care of Mrs. Snow's two small imported dogs. To show her devotion to her four-footed friends, the deceased left her husband but \$2,000, while several smaller bequests went to charity and the remainder for the care of the dogs.

Temperance Hotels.

Smith's Falls, Ont., Aug. 5.—The two hotels, the McLaren house and the Union, whose licenses were cut off by the commissioners in accordance with a by-law passed here last January, closed up their liquor business on Saturday, and will be run now as temperance hotels.

New Engineering Professor.

St. John, N.B., Aug. 5.—Allan K. Grimmer, 65y engineer of Fredericton, has accepted the position of instructor in surveying in the engineering school of the University of Manitoba.

"Saiditz powders" put in a tin box. Sold at Gibson's Red Cross Drug Store.

trussed framework of wings. An additional surface has been spread over the body of the aerodrome, and between this the gasoline tank is placed which does away with the large five-gallon conical-shaped cylinder, which was suspended over the engine in the Dart. The triangular tips on the wings are superceded by rounded ends and system of central control is added.

It is not unlikely, when the machine has been tried that a flight will be attempted across the Ottawa River here, where two landings have been located at either side. This will enable the aviators to get in line for a flight across the English channel later when Baldwin and McCurdy go to Europe, which they propose to do after their flights at Petawawa are concluded.

Capt. Tyrell, R.E., and Lieut. Perrin, R.C.E., are assisting in the work. The officers of the permanent force are considerably impressed with the practicability of aerodromes in military service. The enthusiasm in camp grows daily, and the trials are now eagerly anticipated.

A telegram was received from Dr. Graham Bell, congratulating the aviators on the satisfactory test last Monday.

Will Not Attempt It.

Special to the Whig: Petawawa Camp, Ont., Aug. 5.—(12:15 p.m.)—McCurdy and Baldwin have extra men on hand rushing the preparations on the Bladcock No. 1. The wings have been completed and attached. An ascent is expected to-morrow. This afternoon the aerodrome was wheeled from its shed, near the engineer's quarters, to the one on Signal Hill, where there is an open space for the preliminary run. The afternoon McCurdy is installing in it the new 320 pound engine that was in the Silver Dart. The outlook is that the militia department officials will be next week to witness several important tests. McCurdy said, to-day: "There is not a particle of truth in the report that we will try to fly across the Ottawa river. No such attempt will be made and you can say I said so."

James Howarth, thirty-one years old, of 326 West 43rd street, New York, is being held to await the action of the chief of police of Ottawa. He is suspected of being the fourth man implicated in the diamond robbery at the Canadian capital, who escaped.

"Army Service Foot Powder," 10c. tin. Good for sore, tired feet. Sold in Kingston at Gibson's Red Cross Drug Store.
