THEY WORK WHILE YOU SLEEP

Where the Poor Man Gets In.

The man who originated the installment plan of paying for a home extended the life-line to the poor man: to that great army of wage-workers who have small chance of acquiring homes in any other way.

Why not take advantage of this method of getting a place of your own and put that rent money into it?

Are you afraid you cannot finance it? Probably we could help you. That is part of our business. Come in and let us talk about the lot.

HARD TO GET HORSES/TANK FULL OF HOLES A VERY LOW TENDER

SUITABLE FOR THE FIRE DEPARTMENT.

NO WONDER THE GAS TANK FOR WORK IN THE CITY BUILT.

LEAKED.

Committee Decides to Buy 1,000 Feet of Paragon Hose—Appointments to the Fire Brigade.

At a special meeting of the fire committee yesterday afternoon Aldermen Rigney (chairman), Meekle, Angrove and Chown were present. Ald. Rigney reported that Ald. Rigney, City Veterinary Nicholas and himself had gone through the whole district looking for three horses for the department and found a great number of the kind of animals that were wanted. They had an offer of a bay mare and a team of four-year-old colts for \$600. Another offer was a team of heavy horses, six and eight years old, for \$450. Ald. Rigney and Nicholas were authorized to make the purchase in the best interests of the department.

Chief Armstrong presented a report of fire department occurrences during July. Alfred Tugwood, twenty-one years of age, had been appointed to a vacancy on the brigade. During the absence of Assistant Chief Elmer for two months R. Snider has been added to the brigade to bring it up to strength.

M. Dolan was given the contract of supplying belts for the firemen and James Lathurey for hose keys. The committee was authorized to purchase sixteen feet of suction hose for the Chatham engine.

A number of tenders were received for the supplying of 1,000 feet of hose. The committee looked over a large number of samples and on recommendation of Chief Armstrong decided to purchase 1,000 feet of Paragon hose. It also decided to call for new tenders, inviting only local dealers to compete.

The question of street lighting was not considered. This will have to be discussed at a joint session with the light, heat and power committee.

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked Up By Reporters on Their Rounds.
Frank Cooke's office, 346 King. Bibby's for men's fine underwear. Quite a number are summering at Kalar's this season.

William Swaine, piano tuner. Orders received at McAuley's, Phone 778. The steamer Brockville, had a large crowd on her excursion to Picton this morning, at 7.30 o'clock.

"This is fly time." Buy Tanglefoot and Poison Fly papers at Gibson's Red Cross Drug Store.

When does the city council propose to pass a by-law that put-puts in the harbor must have exhausts muffled? The little Candy Cold Cure Tablets called Preventives, will in a few hours safely check all Colds or LaGrippe. Try them! 48-25c. Sold by all dealers. The Prentice Boys will hold their annual picnic at Allison's Grove, Wolfe Island, on Saturday, August 21st.

See Bibby's 81 pleated shirts. E. Eaton, one of the Whig's many western readers, writes from Winnipeg under date of August 2nd, that wheat cutting in Manitoba will start by August 15th.

Women with pale, colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

See Bibby's 81 pleated shirts. In regard to the complaint made by some of the merchants about a Toronto representative selling goods in the city, it was found that his firm had taken out the necessary license.

Weak women should read my "Book No. 4 for Women." It tells of Dr. Shoop's Night Cure. Tells how these soothing, healing, antiseptic suppositories, bring quick and certain help. The Book is free. Address Dr. Shoop, Racine, Wis. All dealers.

An American gasoline launch got into trouble below Cedar Island, on Wednesday evening. Two men and three women were in the boat, when the engine went wrong. They puttered around for some time, until another boat came to their assistance and pulled them into shore, where repairs were made and the boat went down the river.

No Soda Delay.
We strive to give the best possible service at our soda fountain and this involves prompt attention. Those who come for our soda are naturally anxious to enjoy the treat in store for them, and we do not keep them waiting. Quick, satisfactory service, clean glasses and superb soda at Wade's Drug Store.

Cannot Get Back.
Samuel Hall, who resigned from the fire brigade a month ago, has applied for reappointment, but is debarred, on account of a new rule, which provides that no one shall be appointed a fireman who is over thirty years of age.

Condition of the Concrete Work is Amazing—The Inspection Was Faulty—What Consulting Engineer Merrill Says.

Edward B. Merrill, consulting engineer, of Toronto, one of the contractors who has undertaken to put the concrete work of Kingston's newly-built and leaky gas tank in proper condition, showed a Whig representative through the huge concrete interior yesterday afternoon. The work of cutting out the necessary concrete from the walls is well advanced, and before the end of the month the application of a new inside lining will be begun.

Mr. Merrill, when asked as to the cause of the leakage, drew attention to the condition of the walls, which have been partly stripped. At short intervals throughout the holes in the concrete structure, showing bad work and poor inspection. There are scores of places where holes exist and where the walls should have been absolutely tight. No wonder there was leakage.

Mr. Merrill said it was doubtful if the concrete specifications would have given a water tight tank, but there was no chance whatever of proving this when the construction work was faulty. He couldn't understand how an inspector could have passed such work, which shows carelessness. The city appointed a foreman inspector for the work, a young man who had done concrete work in England and was an engineer as well. The holes that exist in the wall, between the concrete and the limestone, amaze the observer.

The light and power committee is talking of suing J. M. Campbell, who made the specifications, but who had nothing to do with the carrying out of the work. Mr. Campbell has offered the city \$733 for a clean sheet. Those who have seen the interior of the tank are of opinion that the \$733 should be taken before it is withdrawn.

CAUGHT IN HAY PRESS.

R. Bowley Had Both Legs Completely Severed.

Citizens in the down town portion of the city, this morning, witnessed a most pitiable sight. It was a man without any sign of lower limbs. He sits on a little cart, drawn by a large mastiff. The man's name is R. Bowley, and he comes from Tilbury, in Western Ontario, and is on his way east. He came here from Belleville, where the mayor gave him permission to sell lead pencils, pens and shoe laces, on the streets, and he did quite a business, as his case called for much sympathy. No application was made to Mayor Couper or the police, to-day to allow the man to sell his wares here, and it is believed he will only stop a short time. He is accompanied by his wife and two children, and they remained at the C.T.R. station, while he went for a spin around the city in his dog cart. The dog appeared well trained to the work, and appeared to take great delight in pulling his master around. The man's youngest child is about five months old.

Bowley had his legs cut off by being caught in a hay press eleven years ago.

Later—This afternoon Bowley called upon Mayor Couper and asked for permission to sell his goods around the city and the mayor referred him to the chief of police. The necessary permission will not be granted. While deep sympathy is felt for the unfortunate young man it is felt that if one was allowed such a privilege the city would soon be overrun with people of this kind, and it could not be allowed. It is felt that the municipality in which Bowley lived should make arrangements for his care.

DEAN LAVELL RESIGNS.

But is Asked to Reconsider His Decision.

Toronto Globe.
Dean Lavell, of the Faculty of Education at Queen's University, placed his resignation in the hands of Principal Gordon, before the latter's departure for Europe, but he has been asked to reconsider his action, and the probability is that he will retain office for another year. It is understood that when Dean Lavell accepted the position in 1907 he indicated his intention of holding it only for two or at most three years.

Dean Lavell is at present in Toronto, and when asked by the Globe as to the truth of the report regarding his resignation, he admitted that the facts were as stated above. He added that his action is final so far as he is concerned, but that he will probably be willing to retain office until an arrangement can be made as to his successor. This means that in all likelihood Dean Lavell will remain at the head of the faculty until next year.

Is there any truth in the report that owing to friction with the education department or its representative you were asked to resign? inquired the Globe.
"If there is any such report it is not true," was the emphatic reply.
"Have you had any differences with the university authorities?"
"On the contrary my relations with Principal Gordon and the university authorities have been most harmonious."

Stop Bridge Loitering.

A citizen writes the Whig as follows: The Catarraqui Bridge company should prohibit loitering upon the bridge. If that were done there would be no drowning accidents. Boys, especially, should not be allowed to sit on the bridge and fish, but should be kept off the structure entirely. There is a bridge watchman, and he should be instructed to make everyone move on, even loving couples who stand on the bridge after dark.

Re Smallpox Cost.

In connection with the fight of citizens against the payment of bills for the small-pox epidemic another meeting has been called to further consider the matter. The meeting will be held at the Iroquois hotel on Wednesday evening next.

T. W. Milo Gets the Contract For \$187-Rope to Be Attached to City Dome Bell For Fire Alarms.

The City Property Committee had a meeting yesterday afternoon to award the contract for painting, kalsoming and carpenter work to be done in the city buildings. Alderman Angrove (chairman), Ald. Toye and Nickl were present.

Three tenders were received: T. McMahon & Co. \$335; C. W. Keller, \$290; T. W. Milo, \$187. The contract was naturally awarded to the latter tenderer, though the figure was considered low in comparison with that of the highest tenderer. The committee hadn't expected to get the work done for less than \$300, but because some one comes along and offers to do it for one-third less than estimated is no reason why the committee should feel chagrined.

The question of connecting the city dome bell with electrical apparatus or a rope for fire alarms was considered. At present the fire brigade is supplied with a certain extent, as the alarm from the dome bell is of material aid to those away from the stations. Chairman Angrove couldn't see why the Property Committee should be called upon to provide the connection. The Fire Committee would pay for that. He suggested that the Property Committee might rent the bell to Ald. Rigney's committee, and permit it to make a wire or rope connection to it at its own expense. The city engineer figured that an electrical connection would cost \$225; a rope connection with the police station \$40.

On motion of Ald. Toye, the committee decided to install the old rope method of ringing the city bell for fire alarms from the police station, provided the fire committee pay half the cost. This suggestion was submitted to the fire committee in session at the same time, and it agreed to the arrangement.

W. Little's Condition.

W. Little, King street west, received severe burns, in the gasoline explosion, and suffered great pain, which he bore nobly. When he jumped into the flames, his clothing was a mass of fire, and his coat was partially destroyed. Mr. Little had just completed making repairs, when his companion placed the lamp, which was an enclosed one, directly in front of him. Immediately, there was an explosion, and the two jumped into the water. Much sympathy is extended to Mr. Little, who is a popular young Kingstonian, in his misfortune. He had only been at work one day, having been laid up as a result of the other explosion, when he was again the victim of an accident. Mr. Little and his friend had been out in the motor boat with a party of three ladies, and they were out of the boat but a few minutes when the explosion occurred.

C.P.R. Enterprise.

On the C.P.R., on trains Nos. 96 and 97, running between Montreal and Vancouver, B.C., have been placed observation compartment cars, which from a very attractive feature of the equipment, and minister greatly to the comfort and enjoyment of the passengers. These cars are known as the Glen Series, and have been built with in the last few months, and are absolutely new in the latest improvements that skill and experience can suggest. Each car includes a drawing-room, one compartment, containing one lower and one upper berth, and toilet facilities, buffet, a selected library and writing desk, smoking-room, with large observation-room and observation-platform at rear end, lighted by electricity. It is expected that by the middle of August, the same kind of cars will be placed on the daily service.

CORRIGAN'S.

THE SPORT REVIEW.

Baseball Matches at Locomotive Works' Picnic.

On Saturday next two of the best baseball games of the season will be pulled off at the Locomotive Works employees' picnic, at Lake Ontario Park. The first game is between Nanawana and the Locos, and the second between the Victorias and Irishmen in the City League series. If the Victorians win the silverware is just about theirs, as it will give them a good lead. However, if they don't win, it gives either of the other two teams a chance to pull up even.

Good foot races, swimming races and other sports will also be pulled off at this picnic, which will be all the better for being postponed.

City Baseball League.

A meeting of the executive of the City Baseball League will be held at the Hall Hotel, Brock Street on Friday evening to consider the playing of postponed games. Very little other business of importance is to come up at the meeting.

Long Distance Running Craze.

The city is going mad about long distance running. The number of long distance runners is increasing every evening around the city. If the youngsters stay at the game and stay at it right, they will make good ones in a very short time.

Looking For A Race.

Thomas Marshall, a runner, from Old Lake, was a caller at the Whig office, today, and announced that he would challenge Messrs. Girvan and Smith, of Sydenham, to a five mile race, any time between now and August 15th, the race to be held at any point outside of Sydenham.

Wanderers Beat Sydenham.

The Wanderer Baseball team went to Sydenham on Wednesday afternoon and won out by 24 runs. The return game will be played on Wednesday next. The Wanderers lined up as follows: Milne, c.; Vallier, p.; Henderson, 1b.; Barry, 2b.; Filtz, s.s.; McIntyre, 3b.; Birmingham, r.f.; Adait, l.f.; Veal, c.f.

Sporting Notes.

Toronto has three chassy sluggers in Mitchell, Grimshaw and Houser. John Heydler, of Cincinnati, has been appointed president of the National baseball league.

Longboat needs at least three months' rest and training before he is fit to race again in public.

The \$10,000 Spinnaway Stakes at Saratoga resulted in an easy victory for Ocean Bound. The time was 1:06:35 (or 5) furlongs.

"Bill" O'Hara, of Toronto, holding down centre field for the New York Giants, is slated for the bench as soon as McCormick's injured leg recovers. "Bill" has lost his batting eye.

London Sporting Life says it learns that the Belgian authorities will grant a license to Tod Sloan, the American oocyte, who will ride next Sunday at Ostend, for M. Coppe, president of the Belgian Jockey Club, if, as is probable, the British Jockey Club makes no objection.

Arrangements are concluded at Winnipeg for two races between Shrub and Paul Acoose, the Grenfell Indian, in whom the west places so much confidence. A ten-mile race will be held on Saturday afternoon and a fifteen-mile event on Thursday. Fitzgerald, of Edmonton, wants to get into it, claiming he can beat Acoose at any distance.

Sailor Burke, the Brooklyn middleweight, battered Frederick Lucas, of New York, into a helpless condition at the Bedford Athletic Club in Brooklyn. Burke had Lucas on the floor when the bell rang at the end of the first round. Two more knock-downs followed in the second and Lucas was tottering on the ropes when the referee stopped the fight.

Late English papers confirm the generally accepted belief that American stables will not in future be largely engaged in English stakes. In the Derby for 1911 August Belmont has made only two entries. They are the "Rock Sand colts," Beltry and Sable, of the Orient, the first named being out of Belldame and the other out of Orianta. Harry Payne Whitney nominates three Hamburg colts, and the Persimmon colt recently purchased by him in England for \$14,000. H. B. Duryea nominates one of his Hamburg colts, Armenia. There have been some nominations on the side of J. R. Keene and J. E. Madden, but they are not formidable numerically.

Kingston The Good.

For the first time in several weeks there was no session of the police court this morning. No arrests were made yesterday and there were no summons cases to be heard.

Loose leaf and all other kinds of binding done at Whig office. Customers tell us that our prices are very moderate.

Stanley Sharp died at 1:30 o'clock from injuries received. See page 4 for account.
