WHAT WHIG CORRESPONDENTS TELL US.

The Tidings From Various Points in Eastern Ontario—What People Are Doing And What They Are Saying.
Glendower Items.
 Glendower, Aug. 9.—There are quite a number of men working in the feldspar mines. Mrs. Timmerman, an aged lady, is very sick. Berries are very scarce in this vicinity. Archibald Timmerman had the misfortune to cut his hand badly. Hay is a light crop in this vicinity. Alvin Leemon, a son of Sanford Leemon, is expected from Buffalo, N.Y., on a visit.

Carrying Place Excursion.
 Carrying Place, Aug. 7.—Mrs. Gen. of Belleville, Miss Gen. of Montreal, and Mr. Gen. of Orillia, have taken a cottage at the Point. Rev. S. Kemp, of Mainfield, and family, are camping here on the Wilkins' shore. T. Porter is suffering greatly with a cancer on the hip. Porter, of Niagara Falls, and family, motored through Thursday last to their summer resort on Coneseon Lake. A successful excursion, the largest of the season, was run by St. John's church, Carrying Place, to Napanee, on August 6th. So popular was the outing and so liberally was it patronized, that the steamer Varuna had her complement of passengers after leaving Belleville. To carry the waiting at Russell's and Redversville deck the steamer Aletha was telegraphed for from Trenton. Both steamers side by side ran the trip well loaded to Napanee. Rev. J. de P. Wright and his committee are to be congratulated on the great success of the enterprise. Miss E. Morris and Master Allan have returned from their run to Toronto, where they welcomed their friends who had just returned from the Old Country.

Pittserry Items.
 Pittserry, Aug. 7.—A number of young people gathered at the Granite Hill cheese factory last Saturday evening where they spent their time in dancing. On Thursday evening Mrs. J. McMaster entertained a few friends. Dancing and music were the evening's entertainment and light refreshments were served. An enjoyable evening was spent at C. Green's in honor of William Weir's twentieth birthday. Dancing was indulged in. Among the guests were Miss E. VanWinkle and H. VanWinkle, of Toronto, and Miss Lily Paynter, of Kingston. Mrs. D. McClement, sr., has gone on a visit to Mexico for an indefinite period. Ross McMaster has returned home. The people are looking forward to the coming of their new minister. The induction is to be Thursday, Aug. 12th. Miss Edna VanWinkle, of Toronto, who has been spending some time with Miss Jenny McClement, returns to Toronto this week. Visitors: J. Gallaway, at M. J. Lane's; Mr. and Mrs. Webster, at O. Prentiss; Miss Lily Paynter, Charles Grant, Eldon McCalpin, J. McMaster, Al. Milton and H. VanWinkle, at D. McClement's; Miss May Brown and F. Patterson, at Mr. Weir's.

George Elberbeck's resignation as road commissioner, first division, was accepted and Robert Moon appointed. By-law passed fixing rates for current year: County, seven mills; township, three and one-half mills; in lieu of statute labor, one and a half mills; general school rate, four mills. John Deane was appointed collector, at \$75, all taxes to be in treasurer's hands on or before December 14th. A grant of \$12 was given to Frontenac Agricultural Society for two prizes.

Loneliness.
 At sunset when the eyes of exiles sit,
 And distance makes a desert of the heart,
 And all the lonely world grows lonelier still,
 I with the other exiles go apart,
 And offer up the stranger's evening prayer,
 My body shakes with weeping as I pray,
 Thinking on all I love that are not there,
 So desolately absent far away—
 My love and friend, and my own land
 and home,
 O aching emptiness of evening skies!
 O foolish heart, what tempted thee to roam?
 So far away from the Beloved's eyes!
 I am a stranger in this foreign place,
 Strange as its streets, and strange to me its tongue,
 Strange to the stranger each familiar face,
 'Tis not my city! Take me by the hand,
 Divine protector of the lonely ones,
 And lead me back to the Beloved's land—
 Back to my friends and my companions
 O wind that blows from Shiraz bring
 to me,
 A little dust from my Beloved's street,
 Send Hafiz something, love, that comes
 from thee,
 Touched by thy hand or trodden by thy feet."

Saw No Bright Side.
 One of the Ohio congressmen tells the following as indicative of the pessimistic view of the average politician when in the throes of defeat:
 "The day after the routing of Parker in 1904 one of the Democratic newsmen in the Buckeye state sent out a circular telegram soliciting expressions of opinion from various politicians throughout the state. It is claimed that the quaintest of the lot was the reply of one county chairman expressed in these terms:
 "'Country has gone for Roosevelt by 150. The people are in the minority. Heaven preserve us.'"

THOUSAND ISLAND PARK.
 The People Are Crowding To This Resort.
 Thousand Island Park, Aug. 9.—W. E. Gardner, editor and manager of the Post-Standard, brought in Saturday afternoon probably the best catch of bass made here this season. They were number 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100. The park promises to be a busy place during the next two weeks. With August the people have begun to arrive in large numbers and G. O. W. Cooper's arrival has put baseball on its feet once more.
 Miss Edith Case Ford, of New York city, will give a dramatic reading and impersonation at the Auditorium on Wednesday evening. Miss Agatha Eccles, Kingston, Ont., is visiting friends at the park.
 Tuesday and Wednesday will be Grand day here. National Grange Master Batchelor, of New Hampshire, will deliver speeches in the auditorium assisted by others.
 The first of the concerts to be given here this season under the direction of Prof. Roy Final, of Syracuse, will take place in the Auditorium on Tuesday evening. Several others will be held before the season closes.
 The annual testimonial ball for the benefit of the Columbian orchestra will be given next Saturday night. The Gannock band will give a concert of ten numbers here next Thursday evening in the Park near the library. It will be the first of a series to be given weekly this summer. The concerts are to be paid for through the enterprise of the business men.
 Services were held in the Auditorium yesterday morning and evening by Rev. Robert M. Moore, D.D., Foundry M. E. church, Washington, D.C.

The Pest Of The South.
 Harris Dickson in Success.
 A tall yellow man urged his mule along the dusty road. At the edge of town he overtook an old negro.
 "Hold up, Sam," said the old man, "what's dis fuss at St. Joe? I seen a mighty big crowd in town, and started down to find out what's de matter."
 "Roll weevil," answered the yellow man.
 "What's dat?"
 "It's a bug," the hurrying rider called behind him.
 The old negro stopped and grunted in utter disgust: "Did you eber hear de beat o' dat? Makin' all dat fuss over a bug."
 St. Joe was in a ferment over a bug; not a common ordinary bug, but that greatest enemy of agriculture, the boll weevil.
 This destructive insect comes from Mexico, the only free-list importation that enters the south. Mr. Weevil does not masquerade as an article of consumption, being presumably a consumer himself. The daintiest of all epicures, he eats nothing but cotton, and selects only the choicest bits. He does not injure the plant itself, destroying only the fruit. The field grows tall and gloriously green, but when the weevil gets through with it, 100 acres may not yield a single bale.

Rats Eat Up \$100,000,000.
 Leslie's Weekly.
 One of the most serious problems the department of agriculture has had to meet is the ridding the country of the millions of rats with which it is infested, and which are especially the foes of the farmer. It is estimated that the rat pest costs the United States \$100,000,000 yearly in grain destroyed alone. It also plagues that which it does not eat, does great damage by digging under buildings and embankments, gnawing wood, cutting up goods and papers to make nests, killing poultry and stealing eggs. The most destructive species is the Norway rat, which has been carried to all parts of the world on ships. It is calculated that a single pair of rats would, in three years, under favorable circumstances, increase to 20,000,000. The department of agriculture has planned a vigorous crusade against the vermin, and it recommends rat proof construction in buildings, better protection of food supplies, and the use of various poisons in localities haunted by rats.

What's In A Name?
 Cleveland Leader.
 One of the anecdotes which Andrew Carnegie is fond of telling concerns a crabbed bachelor and an aged spinster who one day found themselves at a court. The selections were apparently unfamiliar to the gentleman, but when Mendelssohn's "Wedding March" was begun he picked up his ears. "That sounds familiar," he exclaimed. "I'm not very strong on those classical pieces, but that's very good. What is it?" The spinster cast down her eyes. "That," she told him, "merely, 'The Maiden's Prayer.'"

ITCHING PILES.
 New Ointment Said to Cure Every Case in a Few Hours.
 "It wasn't relief, but lasting cure I wanted," writes S. T. Batger, of London. "For six months I suffered tortures of every kind. Nothing relieved till I applied Dr. Hamilton's Ointment. In six hours I felt like a new man. I am entirely cured of piles with Dr. Hamilton's Ointment and recommend it as the best remedy of forty-nine I used."
 You can be sure of lasting cure for piles—all kinds, itching, protruding or bleeding—Dr. Hamilton's Ointment never yet failed. Sold by all dealers in 50c. boxes.

SMUGGLING PARTRIDGE EGGS.
 How Dummy Babies Were Used By Women.
 A singular case of smuggling by means of a dummy baby was brought to light by the city customs officials at the Northern station.
 Partridge eggs have for long past been extensively stolen from preserves established in Hungary, smuggled into Vienna and sold to poultry dealers, who hatched the eggs in incubators, brought up the birds by hand and sold them below the prices asked by more honest dealers. A special lookout for smugglers has resulted in the arrest of two peasant women. Vienna correspondents London Daily Mail.
 Arriving in Vienna in the national Slavonian costume, each of them carried a baby tied, according to the invariable national custom, to a cushion and so closely "packed" that only the face was visible. The women were noticed to be a little agitated as they passed the customs, and they were followed home. It was then discovered that while one baby was a living child the other was a dummy. It consisted of a wax head, partly hidden by a shawl and a cap, while the cushion was filled with more than six hundred partridge eggs—Vienna correspondents London Daily Mail.

Lure Of The Ball Game.
 The manager of a manufactory in this city was suddenly called away to New York leaving negotiations for the sale of a large quantity of merchandise uncompleted.
 After his departure the office boy, anxious to witness the big baseball game asked the under manager for a half-holiday but was refused.
 In the meantime an offer was received for the merchandise referred to above, which the under manager did not feel justified in accepting without the authority of his chief, to whom he dispatched a telegram, worded:
 "Five hundred dollars offered; shall I accept?"
 The boy was deputed to take the message to the nearest telegraph office, but before handing it over the counter added a few words to it on his own account, with the result that when it reached New York it read as follows:
 "Five hundred dollars offered; shall I accept, and can William have the afternoon off?"
 In due time the under manager was much amused to receive the following reply:
 "Accept five hundred dollars and give William afternoon off."
 When all the facts were subsequently revealed the boy was reprimanded for his audacity, but the manager could not help but inwardly admire his enterprise.

Require A Good Breakfast.
 Dr. Woods Hutchinson, iconoclast-in-ordinary to the medical profession, upsets previous ideas of bodily health in an article in Woman's Home Companion for August. He has a faculty for restoring our self-respect, and assuring to that, left alone, we are not such fools, after all. Of breakfast, for instance, he says:
 "It is customary to make the first meal of the day the lightest and the plainest and simplest of the three. If there be any deficiency of the appetite, breakfast is the meal at which this is most likely to show itself. But this lack of appetite is in nine cases out of ten clearly traceable to sleeping in an unventilated room or to late hours in foul air the night before, or to insufficient exercise the preceding day, and is no indication that the body requires less food at this time. Perfectly healthy men who sleep with their windows open and go to bed at a reasonable hour enjoy their breakfast as well as any other meal of the day, and many even call it their best meal. Another popular delusion is that widespread superstition, the 'continental breakfast,' a cup of coffee and some fruit or a single roll. But on the continent it is only intended as a temporary over-due, until the real breakfast of meat, eggs, fish, with beer or wine, taken at about ten or eleven o'clock, like a very early luncheon. If you haven't got a good appetite for breakfast, make it your business to get and get one, instead of being blinded by a morbid state."
 Even doctors disagree and when they do it helps to swell the population of one of the other two places.
 When you hear one man trying to belittle another, it's a safe bet that the other is his superior.
 The woman who marries a cranky old bachelor is as big a fool as he is.

ADAM AND EVE COOKED WITH A WOOD FIRE.
 No wonder there was trouble in that family. However we are not going to discuss that quarrel, but we want to say right here that you would be crosser than a bear with a sore head if you had to work all day this warm weather over a hot coal fire the way your wife does.
 Put a gas range in your kitchen and make home a pleasant place. Plenty of hot cooking, washing, ironing, etc., but does not inflame the atmosphere with waste heat such as coal and wood which must be kept burning when there is no work required. With a gas stove the moment the meals are ready that same moment your expense ceases.
 Call in at the office of the Works on Queen St., and see about having the pipes put in the house.
