aring Performance By Midship

Washington, Aug. 11.—The navy de partment has received a report of a remarkable performance by Midshipthe submarine! Porpoise, now in Manila. For the purpose of demonstrating the possibility of escape from a submerged submarine through a torpedo tube, Midshipman Whiting, who is an expert swimmer, had his vessel III owered to the bottom of the bay near Cavin. Far under the water, probably sixty or seventy feet, Whiting crawled into a torpedo tube. The end hind him. A tube in a submarine is closed on the outside by a port which is moved by powerful machinery inside

When under water there is great pressure against the port, and it takes Cruise Along the Shores of a lot of power to make it swing out Lake Ontario-A Very Sick and upward. When it does swing, there is a great inrush of water, filling the tube as the torpedo flies out.

the news received, on Monday morn on the port. The officers inside the ing last, of the drowning of Keith vessel turned on the machinery and ternoon, and nearly every building of Furnival, Napanee. The deceased was with it, cleared himself of the torpedo amusement park was wiped out of manager of a bank at Portland, Me., tube and then let go, flying upward to existence. The doss will reach \$200,and it is supposed he was out with the surface of the water. It must have | 000.
