FEEDING THE PIGEONS ON THE SQUARE OF ST. MARK'S, VENICE.

One of the prettiest and most interesting sights to be witnessed by the tourist in Venice is the host of pigeons that make the marble arches of the church of St. Mark their abode. Shortly after midday every afternoon they appear in great numbers, rising in a cloud of fluttering wings above the spacious square. These birds are fed as a crime. Even foreigners love to feed them, and in return for the kindness they receive they alight upon the shoulders of the strangers or courageously pick up crumbs from their outstretched hands.

A Rare Bird.
 London Argonaut.
 At a baseball game in Chicago the gatekeeper hurried to Comiskey, leader of the White Sox, and said: "Umpire Hurst is here with two friends. Shall I pass 'em in?" "An umpire with two friends!" gasped Comiskey. "Sure!"
 The milkman is sometimes also an advocate of puro water.

The Final Horror.
 Saturday Evening Post.
 It used to be said of the Dutch farmers of Pennsylvania that it was easy to see on what their hearts were placed—their barns were better than their houses, and their cattle received more care than their wives and children. It must have been a similar condition of affairs in a New England country that prompted the climax of an oldier's speech. A Yankee militia captain, whose company was about to march against an invading enemy, thus depicted the awful consequences if the foe's success: "Gentlemen, they will lay your towns in ashes, murder your wives and children, and pull down your fences."

ADAM AND EVE COOKED WITH A WOOD FIRE.
 No wonder there was trouble in that family. However we are not going to discuss that quarrel, but we want to say right here that you would be crossing that bear with a sore head if you had to work all day this warm weather over a hot coal fire the way your wife does.
 Put a gas range in your kitchen and make home a pleasant place. Plenty of heat for cooking, washing, ironing, etc., but does not inflame the atmosphere with waste heat such as coal and wood which must be kept burning when there is no work required. With a gas stove the moment the meals are ready that same moment your expense ceases.
 Call in at the office of the Works on Queen St., and see about having the pipes put in the house.
