

YEAR 76-NO. 188.

ANULTAMITUM

Likely Sent By Turkey To Greece

WAR IS PROBABLE

THE FORCES AROUND SALONICA ARE READY.

The Porte to Send a More Energetic Note to Greece—Difficult to Discover the Influences Under Which the Turkish Government is Acting.

Constantinople, Aug. 13.—The Porte has decided to address a more energetic note to Greece in which it will state that Greece's reply to the Turkish note, concerning Crete, is unsatisfactory.

Character of Ultimatum.
Berlin, Aug. 13.—The Constantinople correspondent of the Tagblatt says Turkey's answer to the Greek note will have the character of an ultimatum. He adds that the opinion now is that war between Turkey and Greece is unavoidable. The forces around Salonica, the correspondent declares, are ready for war.

Cannot Discover Why.
London, Aug. 13.—The Daily Telegraph's Constantinople correspondent says it is difficult to discover the influences under which the Turkish government is acting, but in military quarters the talk is wholly of war with Greece. It is asserted that the ministers of war and marine insist that war is the only possible solution of the difficulty.

CONFESSED TOO SOON.

Chester Gillette Would Have Been Pardoned.
Auburn, N.Y., Aug. 13.—Governor Hughes said, at a luncheon, that he had once decided to spare Chester Gillette's life, because the mother's plea had put a doubt in his mind as to his guilt, which kept him from sleeping. But when he called up the warden of Auburn prison, he was astonished to learn that Gillette had just confessed.

Is Charged With Bigamy.
Toronto, Aug. 13.—George T. Stead, clerk, was brought from Walkerton, yesterday, on a charge of bigamy. It appears that Stead got on a ship in Toronto, met Mrs. Minnie Pink and married her, but when he went to her home she refused to admit him. When Stead recovered from his spree he had only a hazy recollection of the escapade. The woman has not yet been charged.

Centenarian Dead.
Omeene, Aug. 13.—The oldest man in Victoria county is dead. Alexander Bell, who was born at Ferranagh, Ireland, on November 2nd, 1803. He came to Canada when quite young, and was among the first to settle in this county. He is survived by 9 children, 53 grandchildren, 77 great-grandchildren, and 3 great-great-grandchildren, leaving in all 142 descendants.

Called To Winnipeg.
Winnipeg, Aug. 13.—Rev. Dr. Sinclair, Dawson City, has been extended a call to St. Andrew's church, here, as successor to Rev. Dr. MacMillan, now of Halifax. It is understood he will accept.

The hospital size Hovick's malted milk is sold at Gibson's Red Cross Drug Store. Phone 270.
Spice and span neckwear, new summer suits, 50c. Bibby's.
Abernethy's for \$5 leather suit cases.

DAILY MEMORANDA.

Bargains in summer hats for all who at Campbell's store do call. Steamer America to Thousand Islands, 2.30 p.m., Saturday.
Private sale of furniture at Frost's storage, Saturday afternoon.
Baseball, Victorias vs. Irishmen, cricket field, 3 p.m., Saturday.
Special sale, Saturday night, at Waldron's. See Saturday advt.
To-morrow, Vigil of the Assumption will be a day fast of obligation, in the Catholic church.
It's very important that all men should know. There's a dollar hat sale. At George Mills & Co.
Nelson's "A Dream of Hell" by The Father's Fault, "A Bold Knight and his Brave Page Boy," "A Lesson in Cycling," "If You Care For Me As I Care For You," sung by James Douglass Banker.

TUMBLERS!

We have all kinds, every shape and size. A special line, good for jelly.

25c. A DOZEN

Also all kinds of covered jelly tumblers and the

"GEM SELF-SEALER"

Robertson Bros.

TOUGH ON BLONDES.

Future Consists Of Cemeteries, Asylums Or Prisons.
New York, Aug. 13.—If you are a blonde, duck or dye.
Dr. Charles E. Woodruff, superintendent of the United States army, has just completed a tour of the principal prisons and asylums of the state. He takes a very gloomy view of the situation. There is no future for the blonde, he says, but cemeteries, asylums or prisons.
Dr. Woodruff has just discovered that a majority of the prisoners in the penal institutions are blondes. That is not news to psychiatrists. Dr. Woodruff says the blonde cannot stand this climate. It's too much for him or her of the golden tresses.
"The doctor offers no remedy, but there are hair dyes in every drug store and there is no reason why the lady with the peroxide locks should not get her hair up. It's poor hair that won't work both ways."

SPLIT IN FRATERNITY.

Is The Talk Regarding Catholic Foresters.
Ottawa, Aug. 13.—There is talk of a split in the ranks of the Catholic Foresters. Twenty thousand members of the fraternity in the province of Quebec pay their dues into the treasury of the lodge at Chicago. There are many strong members of the order in the lower provinces who have been agitating secession from the United States body of the order.
Down in the New England states the feeling towards the Canadian members of the Catholic Order of Foresters is equally as unsympathetic.

THE YOUTHFUL SHAH.

It Is Said He Attempted To Succeed.

THE SHAH OF PERSIA.

St. Petersburg, Aug. 13.—A special despatch received from Tehran says that Mohammed Ali, the deposed shah of Persia, will leave the country on Aug. 17th, and that the young shah, who is his favorite son, is descending at the prospect of a separation from his parents. According to reports current in Tehran the youthful ruler recently made an unsuccessful attempt at flight, and when he was frustrated in this he tried to commit suicide. The government is considering the possibility of abdication in favor of someone else.
Many complications face the new government of Persia. Several of the nomad tribes, as well as the cities of Shiraz and Kashgar, have refused to recognize it. A brother of the deposed shah, Salard-Dowleh, is marching on Teheran at the head of a Kurdish tribe from Luristan province.
Zill-Es-Sultan, an uncle of the deposed shah, who has been banished, has been successful in his efforts to purchase permission to visit Teheran before leaving the country.

TO TEST THE MATTER.

Held Presses Are Not For Newspaper Use.
Windsor, Ont., Aug. 13.—Customs officials will make a test case of seizing a press at the office of the Citizen Printing company in an attempt to collect duty from the firm which made the sale. The customs officials have been informed that a Canadian agency, which does a large business selling American presses to printers, has been avoiding duty by entering the presses as newspaper presses. The Canadian customs law admits newspaper presses free but imposes a duty on presses that do not work alone.

CHARGED WITH STEALING.

Woman Committed For Trial At Brockville.
Brockville, Ont., Aug. 13.—Sarah Giles, arrested at Canifon, near Belleville, and brought back to Brockville for hearing on a charge of stealing a bear skin from Gordon Eyre, has been committed for trial to the fall assizes. She is out on bail to the amount of \$500. The complainant lived with the woman as her husband until recently when they separated, and the present prosecution is an outcome of their difficulties.

Twenty-Five Cents.

All children's 75c. and 50c. sailors, while they last, one price, 25c. at Campbell Bros', clearing sale of summer hats.

LAST SITTING

Of The Imperial Defence Conference

AUSTRALIA WILL GIVE

THE NECESSARY MONEY FOR A DREADNOUGHT.

A Motor Van Ran Into a Squad of Infantry Near London During a Mist—Ten Soldiers Were Seriously Injured.

London, Aug. 13.—The final meeting of the imperial defence conference will be held Tuesday. As far as Canada is concerned, it is understood the conferences are still going on. As regards Australia, there is reason to believe an arrangement of an essentially satisfactory nature is in prospect of completion at Melbourne. Yesterday the commonwealth treasurer, in delivering his budget speech, stated that the expenditure on defence was estimated at £1,575,000. Funds for a Dreadnought or its equivalent, which has been offered to the imperial government, will be provided when required.
Ninety-eight men of the 10th Battalion were marching along a road, yesterday afternoon, in a heavy mist, when a motor van belonging to a London newspaper, travelling at a high rate of speed, ran into their rear. The men were hurled in all directions, and though no one was killed, ten were seriously injured.

STRIKE AT FORT WILLIAM.

Trouble May Follow Attempt To Unload Steamers.

Fort William, Ont., Aug. 13.—Not a truck-load of freight is being moved but outside of loitering on streets little can be charged against strikers in the way of disorderly conduct. At the same time they are guarding the streets leading to docks, meeting all trains on their arrival, and have no hesitation in declaring that they will fight if men are brought to take their places.

Can Get No Details.

Montreal, Aug. 13.—At the head of flocks of Canadian Pacific by nothing is obtainable in the nature of an official statement concerning the bloodshed, at Fort William, yesterday, as the outcome of the strike of the freight handlers. The opinion was expressed, however, that within two or three days the trouble would be all over. The officials are not allowing themselves to worry over the threats of the strikers to burn down the grain elevators at that point.

FOUND TO BE WEALTHY.

Aged Man Had \$300,000 Hidden In Hovel.

Pittsburg, Pa., Aug. 13.—Gold, silver and paper money to the value of \$300,000 hidden away in old trunks, bags, stockings and the rattle of a hovel was discovered in the shanty of Peter Liebich, an aged German hermit. The discovery of the hidden wealth was made by the police who went to Liebich's shanty last night to arrest him. Liebich had used profane language to several girls who threw waste paper on his lot yesterday. One trunk was so filled with coins of small and large size that officers could not lift it. Two other trunks and a wash boiler were also filled with silver and gold coins. Bank books were found also showing large deposits. Policemen were placed on guard at the house to guard the treasure.

FLEW INTO MOUTH.

Molten Metal Burned Tongue And Tonsils.
Toronto, Aug. 13.—Harry Blake, 39 Dowling avenue, an iron worker at Reid & Brown's iron works, had a most unusual and unpleasant experience. While working around the molten metal a piece of hot iron flew into his mouth, just as he was calling to another man. His tonsils and tongue were badly burned and he went to St. Michael's hospital to have the injuries looked after.

RECOGNITION FOR MALONE WOMAN.

Malone, N.Y., Aug. 13.—Miss Bernice J. Day, one of Malone's well-known trained nurses, has been tendered and accepted a position with the United States government, in line with her profession, at Presidio, near San Francisco, Cal., which carries with it handsome compensation, and maintenance with promotion as soon as she becomes familiar with her duties. Miss Day is a graduate of the Ogdensburg city hospital, and a nurse of proved capacity. She leaves for San Francisco August 28th.

Drove Garrison Out.

Penon de la Guma, Morocco, Aug. 13.—The Moors who, yesterday, were firing on the Spanish garrison here have been driven by artillery fire to the distant hills. Their losses were considerable. The bombardment of their present positions is being continued.

Sparrow Cost \$400.

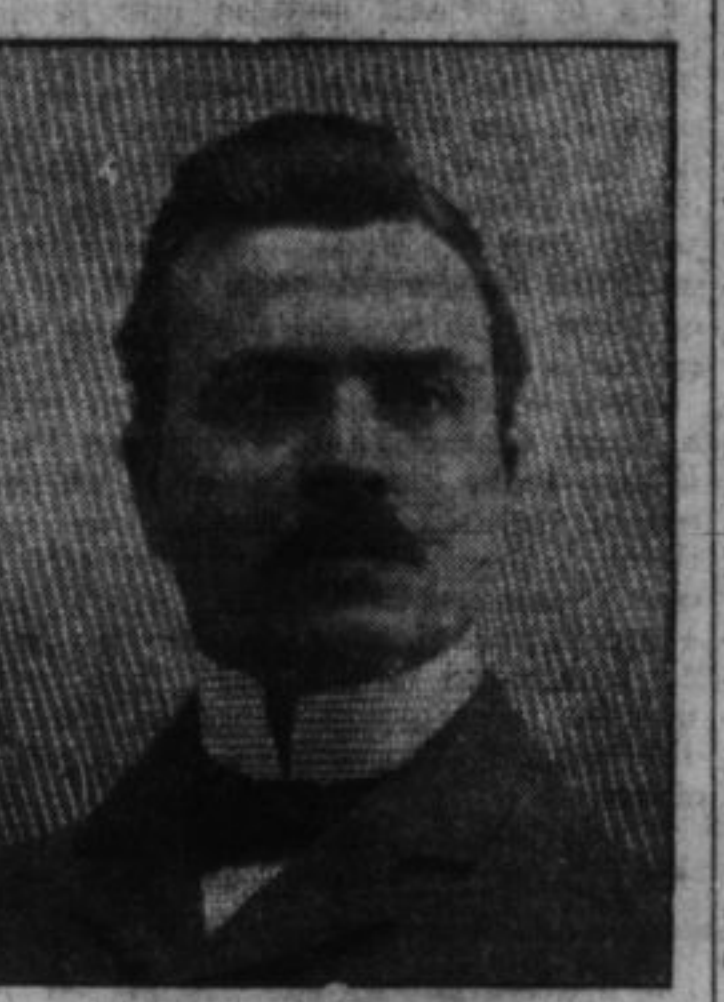

Montreal, Aug. 13.—A small sparrow getting between the lightning terminals at the LaPrairie Brick Company's works, yesterday, caused a short circuit, which suspended operations at the plant for half a day and cost the company nearly \$400.
Abernethy's for \$1.50 suit cases. \$2 straw hats, \$1. Bibby's.

SHOCKING CHARGES.

Immigration Societies Alleged To Be Agents For Vice.
New York, Aug. 13.—The crusade against evils existing in the management of immigrant associations in this city, which began with the barring of two societies from Ellis Island, has shown conditions which officials declare will be called to the attention of congress at its next session.

An interview Congressman William Bennett, a member of the immigration committee appointed by congress in 1907 to investigate immigration problems, said that an inquiry by the commission has shown that seventy-five per cent. of the so-called homes in New York have perverted the avowed purposes for which they were organized.

The most serious charge made by Mr. Bennett is that agents for disreputable resorts have been able in the past to go to these homes and obtain girls newly arrived from foreign countries, who believed that they were about to find employment in desirable places. The agents have paid from one to five dollars apiece for the girls thus secured.
The commission, in getting at the facts of the situation here, and in other cities, employed detectives who passed as agents for questionable resorts. They had no difficulty, it is said, in obtaining girls from the officials of certain homes.

W. E. FORAN, OTTAWA.

EXPERIMENTS WITH PEAT.

Testing Experimental Station To Be Built.
Ottawa, Aug. 13.—The government has begun the erection of an experimental station for peat on the southern outskirts of the city. The first experiment will be with the great blocks of peat at Alfred, Ont. This station is fashioned upon the principle of those in Norway and Sweden and will provide tests for the application of peat as a fuel. The supply of coal in Canada for fuel may be measured, while the supply of peat is possibly unlimited.

ASKED TO CUT IT OUT

FATHER ENJOINS TEACHER FROM LOVING HIS SON.

He Alleges That School Mistress of Thirty-three Has Had Influence Over Youth of Seventeen.

Detroit, Aug. 13.—Alleging that Lily Burden, a school teacher, thirty-three years of age, had been exerting an undue influence over his seventeen-year-old son, Ernest D. Shove, a farmer of Brownsville township, has obtained a court injunction restraining the woman from molesting or in any way interfering with the boy.
In his petition Shove said the teacher, last year, told him, the boy was to marry and afford to teach him after hours. This resulted in her gaining considerable influence over the boy, and, according to the parent, of a detrimental sort.

The father says he learned of the teacher's attentions after the lad had skipped to a farm near Mount Clemens, where the woman persisted in visiting him. The boy was next sent to Pennsylvania, but the woman followed him there, and he was brought home. The overtures did not cease, however, and finally Shove, in desperation, asked for the injunction and got it.

BANKER A FREE MAN.

Helped Make Way With Nine Million Dollars.
San Francisco, Aug. 13.—J. Dalsell Brown, former manager of the California Safe Deposit and Trust Company, who helped to dissipate \$9,000,000 belonging to 2,000 depositors, will come out to San Quentin prison a free man to-day. Brown turned state's evidence and was sentenced to only 18 months on one indictment. He has served 15 months, half of which time has been spent in good San Francisco hotels, as a witness in court.
Brown and other officials of the wrecked bank lent millions on poor collateral or on notes of friends. Owing to the great rise in the value of Western Pacific railroad stock held by the bank, the depositors will probably get 50c. on the dollar.

Came Down In Russia.

Bethen, Prussia, Aug. 13.—A German balloon, carrying some army officers, crossed the frontier, and descended into Russian territory. The Russian frontier guard examined the officers' passports, and then allowed the party to proceed.

Three Italians were killed by a trolley express near Schenectady, N.Y. The reported deadlock among the engineers of the Quebec bridge is denied.

Hal Butler, St. Catharines, is planning to swim the Whirlpool Rapids at Niagara.

Sir William VanHorne declares that Grand Falls, N.B., is the finest power in America.

A short flight was accomplished with Baddeck No. 1, at Petawawa on Thursday.

A California professor is experimenting with a machine which flies like an eagle.

While boating with her husband on the Red River, Mrs. Berry, Winnipeg, was drowned.

Fred McIntyre, of Otonabee township, lost his farm buildings, valued at \$3,000, by fire.

At Hancock, Mich., five persons lost their lives when the residence of Edward Linnce was burned.

Mrs. Searrow, Hamilton, was badly burned at Winona when a coal oil lamp was overturned in her bed.

The special tariff session of the United States congress cost the nation between \$800,000 and \$900,000.

It is estimated that United States Steel earnings for the third quarter of the fiscal year may reach \$36,000,000.

Springhill is entirely a mining town and merchants there say they will be ruined by a shut-down of the mines.

Fourteen lives are known to have been lost as the result of the overflow of the Santa Catarina river, in Mexico.

The Nova Scotia government may have to take charge of the Springhill mines to save them from being flooded.

The Ontario government is cancelling the licenses of holders who have three convictions recorded against them.

Fire totally destroyed the sawmill belonging to the Hooker Lumber company at Otter Lake. The lumber in the yards was saved.

At Cornwall Harry C. A. Dana, late of Tennessee, has been appointed successor to Col. John E. Hamilton, as United States consul.

Dr. P. T. Eysa, Detroit, is protesting against the probate in London, Ont., of the will of his mother, widow of the late Col. F. Eysa.

There is a report about Ottawa that the government contemplates superannuating or retiring all civil servants over sixty-five years of age.

The Baptist church at Ogdensburg, N.Y., is considering the question of extending a call to Rev. Charles F. Fields, Hoboken, N.J., to succeed Rev. Guy L. Brown, resigned.

A man on the Nantucket lightship took sick, sent his symptoms by wireless, and received a prescription by the same from Newport Naval Hospital. He is convalescent.

Lucile, the only daughter of Mr. and Mrs. Harry Ashwin, Chaumont, and only grandchild of Mr. and Mrs. Jacob J. Billenback, was drowned in a well when it is known as the Walrath farm.
Sandy MacAllister, the alleged murderer of Nicholas Leguy, was captured at Brownsville, near Bath, N.B., where he had hidden in an Italian camp. He was trying, it is believed to work his way into the United States.

FRIEND OF POOR.

Had Cheered Many Children Until Health Failed.
Philadelphia, Pa., Aug. 13.—Miss Elizabeth A. Phillips, known widely as "Miss Santa Claus," committed suicide, yesterday, at her home by inhaling illuminating gas. Pinned to the woman's clothing was a note which read: "I have been in failing health most of the time." Miss Phillips enjoyed almost a national reputation by reason of her work at Christmas time among the poor children. Two years ago at her request all the letters written by children and mailed to Santa Claus were delivered to her and the requests of the children so far as possible complied with.

Last year with the object of making her charities national in scope she asked permission of the postmaster-general to have all letters addressed to Santa Claus, from whatever source, sent to her here, but the request was refused. She was the daughter of a prominent merchant of this city and was about thirty-five years old.

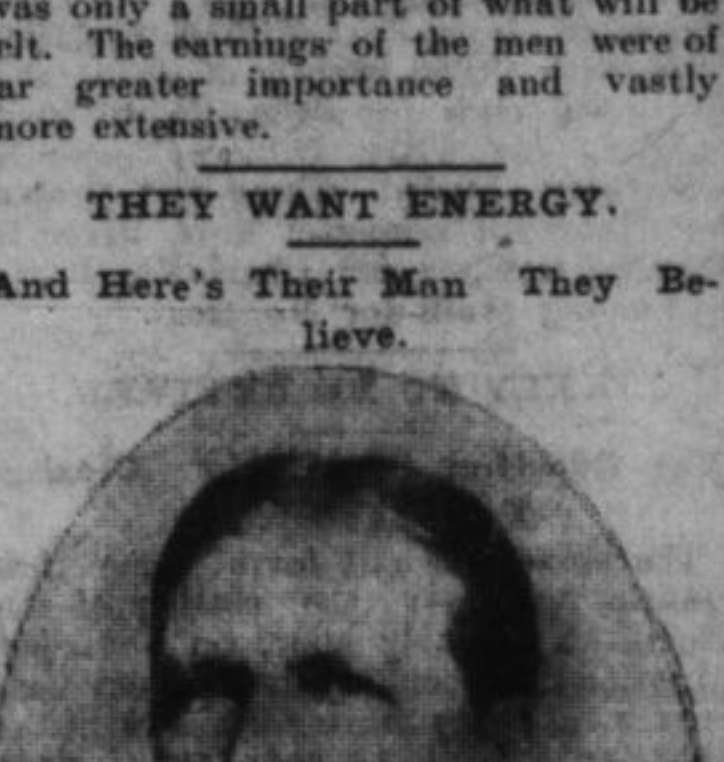

LOSES \$100,000.

As Royalties On Output Of Glace Bay Mines.

Halifax, N.S., Aug. 13.—According to Premier Murray, the coal miners' strike will cost the revenues of Nova Scotia \$100,000 in royalties. The royalty at Springhill is ten cents a ton, which means \$200 a day, while at Glace Bay it is twelve and a half cents, equivalent to \$500 on an output which is now about 4,000 tons less per day than the average would have been this season. But the loss to the government, the premier added, was only a small part of what will be felt. The earnings of the miners will be of far greater importance and vastly more extensive.

THEY WANT ENERGY.

And Here's Their Man They Believe.

F. H. MCGUIGAN.

Toronto, Aug. 13.—The English capitalists who recently acquired control of the Lake Superior Corporation, at the \$50, have selected F. H. McGuigan for the office of president of the company, because they said they wanted an energetic man for the position.

McGuigan was, until recently, vice-president of the C.I.R., and there can be no doubt about his energy or ability to apply it where it will do most good. Moreover, he knows what it is like to run a Canadian company which is governed from the old country. So he ought to do well in his new position, and he has a whole pile of friends in all parts of the world who will sincerely hope so.

STRIKERS JUMP ON NEGRO.

Fatality Growing Out Of McKee's Rock Strike.

Pittsburg, Aug. 13.—The first fatality growing out of the strike at McKee's Rocks occurred, Thursday, when Steve Horvat, one of the strikers, was shot and killed by Major Smith, a negro, whom a crowd of two score striking foreigners had attacked by mistake.

The negro was journeying to his work at the Pennsylvania Malleable Iron company's plant, when accosted by the crowd of strikers and accused of being "a strike breaker," in the employ of the Pressed Steel Car company. This he denied, but could not make the men understand. They knocked him down and unmercifully beat him before he drew his revolver. At almost his first shot Horvat fell mortally wounded, but the crowd closed in on Smith and managed to procure the pistol before they fled. Smith was arrested and the dead body taken to the morgue.

KILLED BY A FALL.

Was Leaning On Railing Which Gave Way.

Clinton, Ont., Aug. 13.—Nixon Sturdy, clerk of Goderich township, and a prosperous farmer, died in the Clinton hospital, last night, as the result of injuries received yesterday afternoon, by falling from the railing of a bridge, crossing the Mattland river near Holmesville. Mr. Sturdy was standing on the railing, when it gave way, and he fell into the river, striking his head on a board. Mr. Sturdy was unconscious when picked up, and only lived a few hours after being taken to the hospital.
