No wonder there was trouble in that family. However we are not going to discuss that quarrel, but we want to say right here that you would be crosser than a bear with a sore head if you had to work all day this warm weather over a hot coal fire the way your wife does.

Put a gas range in your kitchen and make home a pleasant place. Then you heat for cooking, washing, ironing, etc., but does not inflame the atmosphere with waste heat such as coal and wood which must be kept burning when then is no work required.
