ANOTHER WONDER OF SCIENCE

Biology Has Proved That Dandruff is Caused By a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it scabs the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff.

Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich. \$1 bottles guaranteed. G. W. Mahood, special agent.

FIRE CHIEF IS BACK FROM CONVENTION AT GRAND RAPIDS, MICH.

There Were 600 Chiefs Present—New Inventions Tried—Webb Motor Engine Gave Satisfaction.

Fire Chief James Armstrong returned Saturday evening from Grand Rapids, Mich., where he attended the thirty-seventh annual convention of the National Association of Fire Engineers. The convention opened with a mammoth street parade on Tuesday, August 17th. For a week the six hundred chiefs owned the city and a grand time they had. Everything possible was done for their comfort and pleasure. Among the chiefs were: those from Canada, besides Ald. Church, of Toronto, and Ald. Butler, of Peterboro.

Many tests were given of all kinds of new inventions for fighting the flames, and some were most interesting. Chief Armstrong was greatly impressed with the trials of the Webb auto engine and hose wagon, which was put through some rigid tests. It covered a distance of three miles and had a good stream playing on an imaginary fire in a little over five minutes. The engine that runs the machine is used to pump the water and the moving of a clutch is all that is needed to make the change.

Very interesting tests were given with different machines for different kinds of work.

Chief Armstrong cannot say too much about the fine time he had at the big convention. The next meeting is in Syracuse in 1910.

A Provincial Fire Chiefs Association was formed by the Canadian members at the convention, and Chief Tom Eychy, Hamilton, was elected president, with Chief Howard, of Peterboro, secretary, pro-tem. A meeting will be held in Toronto.

A STEAMBOAT INCIDENT

And How a Woman Was Held Up at Clayton.

Captains of Kingston steamers are very careful about carrying out the provisions of the United States coasting law, which provides that no Canadian vessel can carry passengers from one United States port to another. Passengers may board a Canadian vessel at a United States port, but must land at a Canadian port or return to the port at which they boarded the vessel. A case in point occurred on Saturday afternoon at Clayton.

The steamer America brought an excursion from Thousand Island points to Kingston. When the steamer reached Clayton on the return, the lady, who went to land with her husband, was unable to produce her ticket to show where she got on, and the steamboat ticket takers refused to let her off the boat. They feared to take any risk, and were of the impression any way that she got on at Point Vivian. The lady protested that she had boarded the steamer in the morning at Clayton and made all kinds of threats if she was carried further down the river. The steamer was detained five minutes while the ticket takers, the female passenger and the Clayton customs officials wrangled. Finally one of the latter said he would vouch for the lady, who was overjoyed when she saw help coming her way. She was rushed up the gang plank, and after her huge hat got a few bumps against the top of the forward gateway, she reached the wharf, and Capt. Carnegie, who was disgusted at having his steamer held up because of one woman, blew the whistle vigorously, and the America started on her way again.

To violate the coasting law means a fine of \$500 to \$1,000, and captains take no chances. The steamer people were right in what they did, as it was the duty of the lady to produce her ticket which was the necessary evidence.

A Navy Costs Money.

Watertown Times

The single item of coal in the naval expenditure of Great Britain will amount for the present year, including coating appliances, to ten million dollars. Ten years ago it was only a little over one-third that amount. The figures are suggestive of what is in store for Canada if those who are clamoring for increasing war expenditures by this country have their way.

This Week For Plums.

Burbank's, Bradshaw's, gages and blue plums, arriving daily, one thousand baskets for this week, besides a few hundred baskets of peaches at Carnovsky's.

Quite a large party of tourists, from Missouri, were on the steamer Toronto, to-day, on their way to Montreal. Cold cream in 15c tubes at Gibson's Red Cross drug store.

INCIDENTS OF THE DAY.

Civil service examinations are to be held at Kingston Business College on the second Tuesday of November. Application forms can be procured from Principal Metcalfe.

The steamer Pierpont had a large number of passengers and a big bunch of freight from Cape Vincent and points beyond to-day.

John A. Anderson, aged twenty-two, of Toronto, was brought to the penitentiary, to serve three years for forgery. He was formerly a ledger-keeper in the Bank of Montreal.

A number of drunks were around the streets on Saturday night. Two of them got into a scuffle at the street car junction, on Union street, and a lively time ensued for a few moments.

The Canadian national anthem, sung in St. George's cathedral on Sunday, is generally regarded as a good composition with fairly balanced music. The hymn may be in the running for adoption as Canada's national song.

Two little boys playing on Alfred street, Saturday evening, narrowly escaped being run over by a car. The children ran all over the street and pay no notice at all to the rigs or cars coming or going.

"Extract of Wild Strawberry" in 25c bottles at Gibson's Red Cross drug store.

Mayor Couper has been asked to call a special meeting of the civic finance committee to consider the objections of citizens against paying small-pox treatment bills. A Toronto lawyer will attend the meeting for the applicants.

Prices Keep Up.

Hamilton Times

Notwithstanding the great decline in the price of wheat and flour, the Toronto bakers have decided not to reduce the price of bread. This will probably give an impetus to the movement for the repeal of the McNight legislation of last session which led to the "5c bun."

"Wild Strawberry Compound" should be in every home, 25c bottles at Gibson's Red Cross Drug Store.

Samuel Webster, Norval, has been appointed sheriff of Halton county.

Want Matter Settled.

Mayor Couper has received a letter from J. L. Whiting, solicitor for the street railway company, asking that the negotiations between the company and the city be hurried along, as much as possible. The company is desirous of having a settlement so it can get on with the necessary repairs to the equipment for the winter.

Was Buried On Monday.

The funeral of the late Wilfred Day took place at two o'clock on Monday afternoon from his step-father's residence, Alfred street. The casket was covered with floral tributes from friends near and far. At Odessa, where the young man was for so long, the deepest regret is felt, and every one had a kind word for him; his smile and cheery way of coming will be missed for many days.

Late Mrs. Peter Donoghue.

The death occurred on Saturday night, after a brief illness of Mrs. Peter Donoghue, Pine street. Deceased was the daughter of Mr. and Mrs. John McCabe. Besides her husband, six small children survive. The death occurred at the residence of St. Mary's of the League of the Sacred Heart. The funeral will take place on Tuesday morning.

ORGAN FOR ST. PETER'S PRESENTED TO POPE ON GOLDEN JUBILEE.

An International Committee Has Been Formed to Raise the Necessary Funds—The Great Cathedral Without Any Adequate Instrument.

Rome, Aug. 23.—An international committee has been formed with the object of presenting to the pope, in commemoration of his forthcoming episcopal golden jubilee, a colossal church organ for installation in St. Peter's.

Besides the small organs in the side chapels, there are at present only two very inferior instruments, which are wheeled about to whatever part of the great church the choral service happens to be in.

The pope has already given his sanction to the proposal, and in addition to Cardinal Rampolla and various foreign cardinals, the renowned composer, Camille Saint-Saens, and the Duke of Norfolk have joined the committee.

Paris, Aug. 23.—The dirigible balloon of Clement-Bayard with which he was intending to attempt a flight from Paris to London, fell into the river Seine on Monday during a flight. The aviators on board were saved.

LEOPARD QUEEN IN KINGSTON

A Fine Reproduction at the Bijou.

A wonderful story is that of "The Leopard Queen," which is the first of the all-star picture service which begins at the Bijou to-day. The first scene shows the heroine and her friends tossing on a raft, having been wrecked on the west coast of Africa. They live for years a wild Robinson Crusoe life in the jungle. The father dies and the girl is left alone. She finds two baby leopards and mothers them. The mother leopard follows and is about to spring upon the girl, but the animal's anger is disarmed by the girl's kindness, and the family of leopards is enslaved by her. Years later the hunters for an English circus are about to kill the mother leopard when they are astonished to see a white girl clad in skins, having been on their prey protecting it from the hunter's guns. The girl and her wild pets are taken to the coast, and you see the animals loaded on the ship that is to take them to England. The heroine joins a circus and the world is astonished by her mastery over the wild and treacherous beasts of the forests. Finally the leopard queen becomes the bride of the hunter of leopards.

Another magnificent picture, "A Sioux Indian drama, entitled "The Medled Late," accompanies the "Leopard Queen." These are two of the finest dramas ever shown.

THREE STEAMSHIPS LOST.

Dutch, French and Spanish Boats the Victims.

London, Aug. 23.—Messages, to-day, from Ushant, the westernmost of the islands off the coast of Brittany, say the Spanish steamship Seirakbat was wrecked near there and all of the crew of twenty-six were drowned. The vessel was driven on the rocks during a heavy storm.

Other wrecks reported to-day are those of the Dutch sailing ship Wotlic, which, with her crew, was lost off Cape Verde Islands, and the French steamship Menarandra, which is believed to have gone down while going from Madagascar to Cape Town in the same storm that caused the recent loss of the Waratah and the Marois. The Menarandra carried passengers and a large crew, the exact number of which is not known.
