

\$25,000 WAITING FOR OWNER

Cincinnati, Ohio.—Twenty-five thousand dollars lying in the safe of the German Hospital, awaiting the finding of heirs to the estate of Mrs. Tindel, who died at that institution of apoplexy.

The money was in large bills, concealed in Mrs. Tindel's clothing, and was brought to light, together with her will, after her death.

Apoplexy claims hundreds of victims every year. Yet apoplexy is but an advanced stage of blood poisoning which manifests itself in headaches and backaches. Very frequently the cause is constipation.

Such a case as the above shows the importance of keeping the bowels active, the kidneys regular, the skin healthy, so that the blood will be always pure and rich.

"Fruit-a-tives"—the famous fruit liver tablets—are safe and efficient regulators for stomach, liver, bowels, kidneys and skin.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50 or trial size, 75c.

Soap That is Best for the Baby's Bath

How to Bathe the Baby. Baby's skin is very sensitive to soap; some soaps soothe and nourish, while others inflame and irritate. It is of the utmost importance that you know what soap to use, and to do this you must know what is in the soap. So let us explain how we make Infants' Delight. We first go for pure vegetable oil to France. There we get pure enough to use on your table. Then we get more than 12,000 miles to the island of Ceylon for pure coconut oil. Both oils are carefully tested by chemists and doubly boiled. Next they go through our special milling process and fall like flakes of snow into enormous bins. Then they are crushed under a weight of 30 tons to press out the moisture. Finally they pass through granite rollers and come out in miles of silky ribbons. Then they are dried eight times and stamped into oval cakes that just fit the hand. Isn't it worth while to have soap like this for your baby? Why risk using common soaps when this excellent kind costs no more than others? This lovely soap leaves the baby's delicate skin as soft as velvet and as smooth as silk. Even the baby knows the difference in this delightful soap—so we call it Infants' Delight. Baby will like the perfume too. It is so dainty and fragrant—only the exquisite scent of the rose. If this soap is pure enough for the baby's skin it surely is best for your own. Try one cake—you owe it to baby and yourself.
