

# THE LATE PETER F. COLLIER

Founder and head of Collier's Weekly, and the great publishing house which bears his name, was a firm believer in Life Insurance.

HIS CONFIDENCE IN

# THE PRUDENTIAL

was shown by his voluntary and unsolicited selection of this Company.

The following letter from his son and executor, Mr. Robert J. Collier, shows the wisdom of his choice:

Hon. John F. Dryden, President,

Newark, N.J.

Office of Collier's Weekly,  
New York, May 4, 1909.

My Dear Sir:

Permit me to thank you, and through you The Prudential Insurance Company of America, for the very prompt receipt of checks for \$50,000, in full cash settlement of claim on the life of my father, Peter Fenelon Collier, who demonstrated his belief in Life Insurance in The Prudential by carrying policies in your Company for several years.

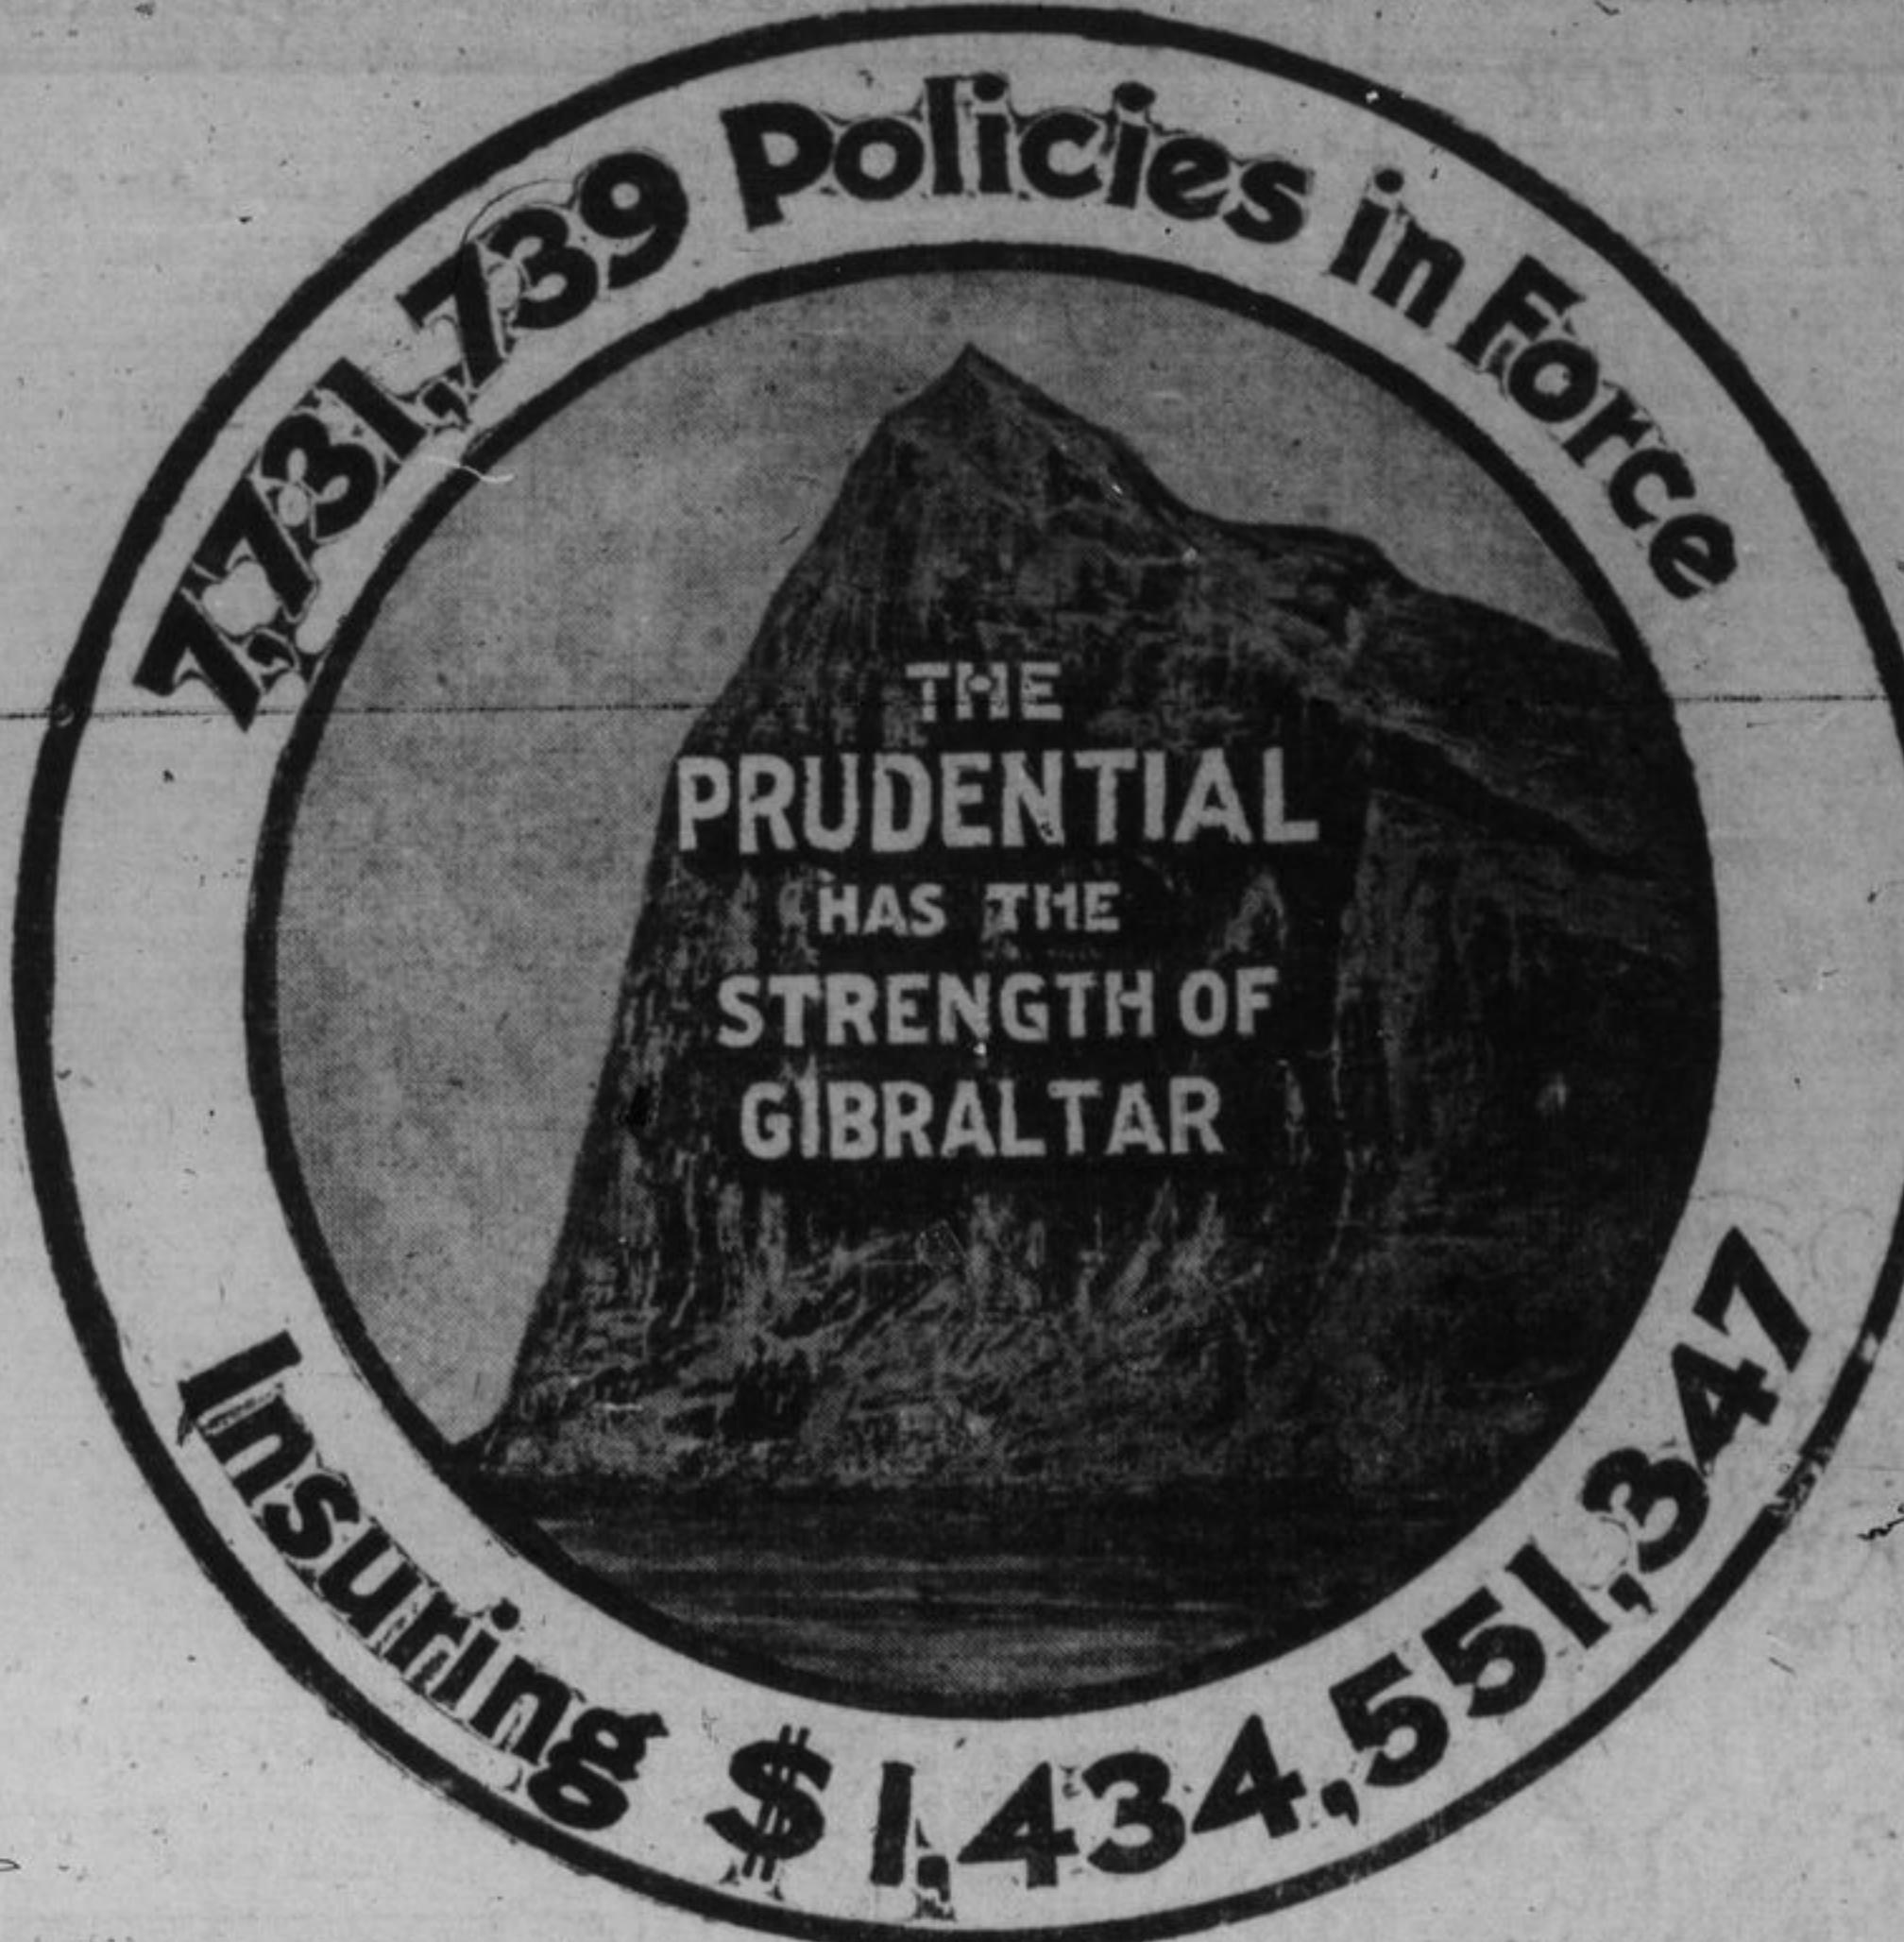

Proofs were completed and checks delivered THE SAME DAY, and your Company did everything possible to effect a quick payment of claim.

Assuring you of my appreciation,  
I remain,  
Yours very truly,

Robert J. Collier.

### Free From Rheumatism.

Many people who have suffered more or less from this affection for years, and who have tried ordinary remedies without avail, are apt to drift into the idea that they can't be cured.

As a matter of fact many people who have been crippled, and almost helpless for years, have been thoroughly and permanently cured with Dr. Hall's Rheumatic Cure. Don't be content to suffer. You can be entirely free from rheumatism and all its complications by the use of this remedy. Dr. Hall's Rheumatic Cure is a great blood purifier and spring tonic. In bottles, 50 cents, at J. B. McLeod's drug store, corner King and Brock streets (Wade's old stand), and corner Prince and Montreal streets.

There is an unlimited supply of meat and lichen in the vicinity, and the animals thrive amazingly, the only menace being the dogs, which, in spite of all precautions, attack them at times. The deer are fleet of foot, but when stampeded are prone to break their legs in rushing over rocky ground and have to be killed.

In less than two years, for the herd was not landed until December, 1907, the number has more than doubled, there being now more than 600 at the feeding grounds near St. Anthony, where so great has been the attention given to the breeding, that the results are better than those attained by the United States authorities in Alaska.

According to a dispatch from St. John's, Nfld., the success of the reindeer experiment undertaken by Dr. Grenfell, the Labrador missionary in that country, two years ago, is beyond dispute.

In 1907 he raised a fund of \$15,000, of which the Canadian cabinet contributed one-third and American friends the remainder, and with this he purchased 300 deer in Lapland, chartering a special ship to convey them to Newfoundland, with two families of Esquimaux to look after them.

Dr. Grenfell hopes to provide every resident family on the Labrador coast with a few deer for their own use, enabling them to destroy their dogs and substitute animals that will not only serve for draft purposes as the dogs do, but will take the place of cows as well, providing milk for children, the others being superior.

### Against Theatrical Combine.

Chicago, Sept. 13.—The Western Theatre Managers' Association declared themselves for the "open door" policy of booking plays and declared that during the coming season they would accept all offerings presented either by the theatrical syndicate, headed by Klaw and Erlanger, or by the "independents," of which the Shuberts are the controlling spirit. The decision was taken after a long debate, when it was decided to accept the bookings of both factions.

John Steppan was killed and four other foreign workmen were injured when a section of a brick wall collapsed at Detroit.

William Morton, Irishman, said to be one hundred years old, died on Saturday, in Vancouver, B.C.

Another Case in Which  
Dr. Hamilton's Pills Saved a Life  
That Physicians Despaired Of.

What a pitiful sight it is to see a handsome, able man being gradually robbed of good looks, health and ability to work. Such cases are frequent—the one here described being that of E. P. Lagelles, a well-known Printers' Supply man, residing in Hamilton. About six months ago I began to notice a worn, tired feeling coming over me. I was unable to shake it off. It was not the fatigue that follows hard work—it was sort of an unaccountable laziness that assailed me. I was anxious to work, but didn't have the energy. Something was dragging me down, robbing me of my health and spirits. I got tired of taking prescriptions that did me no good and used Dr. Hamilton's Pills. Their action soon proved to me that I was suffering from a terribly congested liver and acute indigestion. Dr. Hamilton's Pills brought back my appetite, cured the heavy pain in my side and back, gave me a new grip on life. I gained in weight and now I am stronger, look better, work better than ever before I was taken sick.

If you want to get back the vigor and spirit of youth, if you want the sparkle of robust health on your cheeks—use Dr. Hamilton's Pills regularly. They cleanse, purify, tone, strengthen—make the sick well, give this grand medicine a faithful trial 25c per box, or five boxes for \$1, at all dealers, or the Catarrhozone company, Kingston, Ont.
