And Save You a World of Wretchedness

A stomach that cannot digest a good meal is certainly a sore trial. It has been responsible for almost everything in the way of human misery, up to

The trouble in most cases is that the stomach and other digestive organs lack vigor. Not enough of the juices necessary to digestion are secreted, nor does the stomach work up the food

The stomach needs help.

exactly. One "Little Digester" after each meal will ensure perfect digestion, provided, of course, that the food is good and wholesome.

"Little Digesters" are guaranteed to cure Indigestion, and Dyspepsia, or your money will be refunded.

It Leaves the Skin Tingling With Health

There is a wonderful difference in soaps. Have you ever noticed how one kind leaves the skin soft and white while another may leave it red and rough?

Both soaps looked alike, perhaps. But the dif-ference was in the material. Let us tell you what we put into Infants' Delight, then decide if you most pleasant sensation after the bath is finished. can continue with common soap. Ceylon is an island in the Indian Ocean, and

table oil, and often pay double what we might pay. But our oil is pure enough for your table, These oils are doubly boiled and then milled by our own special process, after which they fall like flakes of snow into enormous bins.

Then they are crushed under a weight of 30 tons to press out the moisture. Next they pass through granite rollers and come out in miles of silky fibbons. Finally they are dried eight times and then stamped into cakes.

Could you imagine a more delightful soup than this? It lathers into a rich, creamy foam. It wears as thin as a wafer. It leaves the skin as soft as velvet and as smooth as satin. It is the very utmost in perfect soap.

The perfume is the delicate scent of the roses. We pay \$100 a pound for pure Otto of Roses, but it requires 3,000 pounds of rose leaves to make a single ounce. The iragrance is simply exquisite—it brings the breath of a million flowers. Use a single cake and learn how delightful it really is-it costs no more than the common, so why not have the best?
