THE GENERAL HOSPITAL

HAS SOME GOOD FRIENDS IN THIS DISTRICT.

Gifts From Adolphustown Ladies—An X-Ray Machine to Be Purchased—Two New Governors Have Qualified.

The October meeting of the board of governors, Kingston general hospital, was held on Monday afternoon. Present: Dr. Duff (chairman), B. W. Robertson, F. G. Lockett, Dr. Third, W. B. Skinner, Robert Hendry, Lieut.-Col. Massie, Rev. Dr. Mackie, A. Shaw, James A. Minnes.

A most interesting and enthusiastic meeting was held and matters under discussion were thoroughly thrashed out before being adopted by the board.

The committee of management brought in their usual monthly report, mentioned several improvements which have been undertaken, which will add to the comfort and efficiency of the hospital. It was announced that W. B. Skinner had represented the hospital at an "At Home" given in Napawan by the Woman's Aid Society, on Thursday, 23rd Sept. He was enthusiastically received, and made to the ladies several valuable suggestions as to how their efforts could be directed. The woman's aid society of Napawan have always been most energetic helpers of the hospital.

A generous donation of linen was received from Adolphustown women's institute to be applied to the furnishing of room 7, Watkins Wing. This consisted of about eighty useful articles, and was very highly appreciated by the board, and a hearty vote of thanks was unanimously passed to these ladies.

The report that Mayor Couper and

J. Y. Parkhill had each sent in their cheques for \$100, requesting that they be allowed to qualify for governors of the hospital was very heartily received by the board and the secretary was requested to advise them of this fact.

Discussion took place in reference to the purchase of an X-ray machine, and the board requested the committee of management to fully look into the merits of the different up-to-date machines and make a full report at the next monthly meeting.

Dr. Boyce, the medical superintendent, reported 123 patients treated during the month, 126 discharged, also a number of out-door treatments. He also gave very interesting and instructive report of his recent visit to the American hospital association, held in Washington last month.

This report contained many valuable suggestions, some of which the committee of management will undoubtedly adopt for the Kingston general hospital.

The financial report for the year was passed and will be submitted to the public through the different churches on Hospital Sunday, which will be the second Sunday in November.

The visiting governors for the month of October are Robert Hendry and Dr. Chown.

The next meeting of the board will be the annual meeting, the first Monday of November, when the election of officers for the coming year will take place.

THE CRITICAL QUESTION

REGARDING THE FUTURE OF QUEEN'S UNIVERSITY.

General Assembly Commission and Trustees Meet to Consider Removing of Denominational Restrictions That Impede.

This afternoon, at four o'clock, the commission appointed by the Presbyterian general assembly, and the trustees of Queen's, were to begin their conference on the question of removing from the constitution of the university the denominational restrictions which might impede the development of the university.

This question has been before the trustees and the general assembly for the past ten years. The late Principal Grant was the first to move in the matter, a decade ago, when he had to consider the possibility of the Presbyterian church would not give sufficient support to Queen's to enable it to expand, and when the Toronto University question was then before the province. Since then the matter has been before the general assembly on the occasion of the annual meeting.

Last June, the trustees again pressed for constitutional changes, whereby Queen's might be in a position to become a recipient of more state aid and gifts of rich men. The trustees got what they asked—a commission to report upon the question of either separating from church control or left as it is.

No one seemed to know just how the question would be considered. There is no programme laid down. Only the instruction of the assembly is before the conference. There are forty-two members on the assembly, thirty-three trustees, but it is not expected that more than half the number will be present.

The oppositionists to church separation will fight hard against the proposed constitutional changes, which would practically eliminate Presbyterian control of the university. They will first of all ask the separationists to point out anything that has "impeded" the development of Queen's. To their minds, nothing of the kind is evident. The university is going ahead by bounds. They laugh at the idea of changing the constitution of the university for the sake of a paltry \$100,000 from the Carnegie fund for professors' pensions. They ask what more state aid Queen's would get than it is at present getting, and what greater gifts will come to it from individuals than in the past. It is understood that the moderator of the general assembly, Rev. Dr. Lyle, of Hamilton, is opposed to the Presbyterian church allowing Queen's to pass from its control.

TO STOP TRUANCY.

Every Precaution Possible is Being Taken. The Board of Education is taking every precaution possible to prevent truancy. The latest move in this direction, is that of having the scholars report on pupils who are not registered, and if this is carried out, it will be a great help to the board. The board can very easily keep track of the scholars who have been enrolled, but it is altogether different with those who have not been enrolled. Very often one hears that there are many boys going about the street, who should be at school, but very often the lads are not identified with local schools. Yesterday a lad was accosted on the street, and asked why he was not at school.

"Why, I live out at Battersea, and go to school there," said the youngster, with a smile. But of course, they all have an excuse, and another lad when questioned, pointed to his neck and said: "See that? I've got a ring-worm; I have to stay home, and my sister, too."

The convocation will be a notable one, as the general assembly commissioners, discussing the university separation question, will be present. Sir Sandford Fleming, the chancellor, will preside.

A Happy Event at Home of the Bride. The marriage, to-day, of Miss Effie Robertson, daughter of Mrs. George Robertson, Sydenham street, and Dr. A. W. Winnett, was an event of much interest, owing to the personality and popularity of the couple. The ceremony was performed at 10:30 o'clock, at the bride's mother's home, by Rev. C. A. Sykes. It was a quiet, home-like service, only near relatives and close friends attending.

The bride, a young woman of great winsomeness, was attired in white, and this but added to her attractiveness. A splendid wedding breakfast was served and later the couple left for a lengthened tour. They will reside on the corner of West and Bagot streets. Hearty, indeed, are the congratulations extended to the young people. The gifts were numerous and magnificent. Dr. Winnett is highly regarded in business and social circles. He is the son of ex-Adm. Winnett, of London, Ont.
