INFORMATION WANTED

FROM DR. THIRD BY PROF. CAMPBELL.

The Tuberculosis Hospital Site Still Receives Discussion—Were Subscriptions Given Under An Erroneous Belief?

Kingston, Oct. 18.—(To the Editor): I must thank Dr. Third for his answer to some questions, which is more than he did for my questions. In fact, I am sorry to note that in both his replies, the doctor has introduced the personal element, a thing he has no right to do, as we are discussing a public question. Let me just quote one of his statements:

"Fancy a general going into battle, to-day, with some of the guns bolstered up in our parks, yet that is precisely what Prof. Campbell would have us do in our fight against tuberculosis." Now this is untrue and the doctor knows it. No one ever suggested that the Straubenzee place should be used without "putting it into a proper condition," which are my exact words in my first letter. However, I am not much concerned with the personal question.

Now Dr. Third's two statements as regards the purpose of the proposed hospital have helped to bring down the problem to definite limits. The objection that I, with a large number of others, had to the proposed scheme was a very clear one; we thought that to place a regular tuberculosis sanatorium, where we were to have collected from the town as many cases as there would be room for, in the hospital grounds, was not the wisest thing to do, either from the point of view of the patients or from that of the citizens of Kingston; nothing that the doctor has said has made it seem any wiser from those points of view. All that he has made clear is that the proposed site on the Straubenzee property would be too expensive, and the question of expense is the most important one.

But, and I ask everyone's careful attention to this point, the doctor has made clear that we were all laboring under a misapprehension—this is not meant to be a general tuberculosis sanatorium, to receive those who are suffering from this disease and from nothing else. "We are not aiming," says the doctor, "at providing accommodation for a large number of patients, but at collecting those who are already scattered in various departments of the hospital." I may say at once that this certainly disposes of some of the objections that I had previously put forward, although it does not make the proposed site any better whether there are to be sixteen or sixty patients taken in; what, in fact, I take the doctor to really hold in, that this is not an ideal site by any means, but that is the best that can be managed under the circumstances, and further that it is diminishing the risk to the hospital. If this be a fairly correct view of the situation as I now understand it, it is the duty of the doctor to contradict this view of the public and myself, if it is incorrect; then all I can say is, that the public have been asked for their subscriptions under an erroneous belief. Most of those who did subscribe, most certainly did so under the belief that they were being asked to support a hospital which would collect from the town the cases of tuberculosis in Kingston—a sanatorium like that at Gravenhurst, but on a much smaller scale.

Another consequence of this new view of the situation is that if we are to have the hospital site we can never have a marked extension of the accommodation, there is no room for it;

at the very outset and by the very nature of the scheme we are for all future time limited to the proposed accommodation of say twenty, and will be unable to take up thoroughly the problem of segregating all the cases of tuberculosis in the town.

There are two other points that I would like to just touch upon. Dr. Third has said nothing to relieve the very natural apprehension of the property holders, not only on George street, but everywhere in the vicinity of the hospital. Secondly, if I touch on the argument from averages of recovery, we cannot argue either way very satisfactorily from only two cases at a time, the number that so far has been treated in the hospital grounds. Finally, I would like to ask the doctor whether there is really no other situation near Kingston that could be used, and would be without the large initial expenditure necessitated in the case of the Straubenzee property?—P. G. C. CAMPBELL.

CITY AND VICINITY.

Peaches, Pears And Grapes.
Another five hundred baskets to arrive Tuesday morning for Carnovsky.

My Valet.
Repairing, pressing, dyeing, cleaning, properly done, prompt delivery. Warwick Bros., phone 650.

Waterworks' Committee.
The water works' committee was called to meet this afternoon. The Donnelly wharf lease question is to be considered, and also the question of main extension. Superintendent Hewitt has not yet decided to withdraw his resignation.

Asking For Clemency.
Petitions were distributed around the city, to-day, by the ladies of the National Council of Women, praying for clemency, in the case of Mrs. Anna Robinson, who was sentenced to be hanged at the Sudbury assizes. The petition is being largely signed.

Fall And Winter Importations.
Prevost, Brock street, has received all his tweeds, chevots and vicunas for suitings; also a great variety of overcoating for his order department. His \$15 suits and overcoats made to order surpass anything he ever had yet.

To Drop Several Walks.
The board of works has decided to leave over till next year, two or three of the concrete walks that are on this year's schedule. This is necessary in order to put one of the walk gangs at work on sewer construction. Road sewers have to be built before the end of the year.

Waterworks' Coal Stored.
The water works' new concrete coal enclosure was recently completed, and the plant's coal supply of 1,250 tons is now all stored. The enclosure is twelve feet high. It was erected by day labor under the supervision of Superintendent Hewitt, and is a splendidly built structure.

Sports At Y.M.C.A.
In a game of basketball at the Y.M.C.A., on Saturday night, the business boys' class defeated the Collegiate Institute by a score of 13 to 9. The same teams will meet later on, in an indoor baseball match.

The juniors had a "hyke," Saturday morning, and came back with a good supply of history notes.

Physical Director Thompson will be the starter; at Queen's games, this afternoon.

Limited Number Of Appeals.
The time for receiving appeals against assessments expired on Saturday. The number of appeals received is about the same as during the past couple of years. There is no increase, so the work of Assessor Gordon must have been satisfactory to the mass of the people. No assessor can be popular with everybody, but Kingston has an official in W. S. Gordon whose assessing is so fair that decidedly few appeals succeed against his figuring. Some of the yearly appellants are missing from this year's list.

Elopement Of A Bank Cashier.
The Elopement of a Bank Cashier in a motor boat, hotly pursued by the father of the girl and their pastor in another gasoline launch, is a feature of the programme at The Bijou to-day and to-morrow. The play is entitled, "The Wheels of Justice," and is a most interesting one, a comedy element being supplied by the village marshall, who imagines himself a second Sherlock Holmes. The kidnapping of a Millionaire's Little Daughter by a Black Hand Gang, is the motive of a strong drama, "The Hand Organ Man," which depicts life in the Italian quarter of New York. Both are well worth seeing. J. Douglas Bankier sings.

The Marconi Station at Glace Bay Will Be Re-opened at An Early Date When Better Results Are Promised.

Montreal, Oct. 18.—C. C. Pallantyno, one of the Montreal rubber commissioners, announces his retirement from the board of directors of the Canadian Rubber Company of Montreal, and the Consolidated Canadian Rubber Company.

Signor Marconi has returned to Montreal from Glace Bay, whither he went a couple of weeks ago to look after the long distance plant destroyed by fire. He expects to have the station in operation within a comparatively short time, when better results are looked for than were obtainable from the old plant.

Some developments are expected this week in connection with the proposals to bring the Dominion Steel and Dominion Coal companies into closer commercial and financial relations. W. D. Matthews, Toronto, a director of the coal company, who has the confidence of the president of the coal company, and will represent James D. Ross in the approaching negotiations, is in the city, to-day, and had a conference with Mr. Ross. Mr. Matthews is father-in-law of J. K. Ross, the coal president's son. E. R. Wood, Toronto, who will represent the interests on the other side, is expected here this week, when it is presumed something will be done to further the negotiations which it is confidently felt in financial circles will end with some form of closer relations.

It is announced that eight scholars in the Mount St. Louis College, in this city, will go to England, with the Biele team, next year, to compete in the school boys' competition.

The city council will do wisely to let the people vote on the license reduction issue. The council has precedents. It has allowed material questions to be decided by the people on one man's request. If the ratepayers carry license reduction it means they are willing to meet all expense involved by the reduction.

SAD CASE REVEALED

By the Police, in Investigating Truancy.

Many sad cases are discovered by the police in the investigation of truancy complaints. Saturday, a member of the police force was given a case, and when he went to the house, he found that the mother, a widow, was sick in bed, and that the boy, just eleven years of age, was compelled to go out to work, in order to earn money to keep the wolf away from the door. It was indeed a sad case, and one in which the Board of Education cannot take action, that is in regard to compelling the child to go to school. The law says that in such a case, a lad cannot be forced to go to school. Surely, this is a case where some church organization could step in, and do some work.

Dry cleaning, My Valet.

PLAYED BEFORE THE KING.

Sergt. Charles O'Neill Carried Off High Honors.

O'Neill left here in April, 1908, and in the recent examinations secured second place, with an average of eighty-seven per cent., just two points behind the leader. Sergt. O'Neill plays a cornet and is one of the best in his class.

While in England Sergt. O'Neill had the honor of playing twice with a party before the king, at Windsor Castle. He is the first Canadian graduate from the school and before he left for Canada he was waited upon by the officers of the school and presented with a silver-mounted ivory baton, and a silver match box, suitably inscribed, in recognition of the high standing he has taken while there. Sergt. O'Neill has many warm friends in Kingston who will wish him continued success.

TOLD OLD, OLD STORY.

But it Was No Go With Magistrate—Had to Pay Fine.

"Will you give me a chance? I will not come back again." This old, and practically worn-out plea was given in police court, this morning, by Patrick J. Denary, who was up for drunkenness. He was gathered in at 2:30 o'clock, on Sunday afternoon, and this led the magistrate to question him as to where he had secured his liquor.

"I do not know where I got the liquor," said McMenary, "but if you give me a chance, I will not appear before you again."

"I will give you a chance if you satisfy me, as to where you secured your liquor," replied the magistrate.

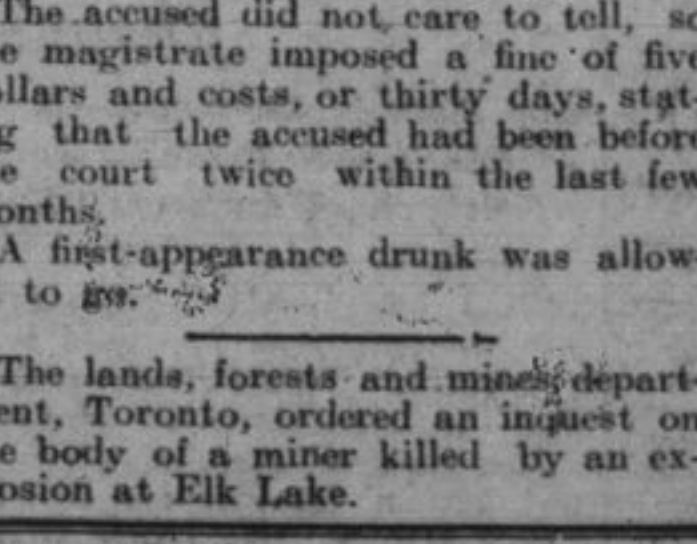

The accused did not care to tell, so the magistrate imposed a fine of five dollars and costs, or thirty days, stating that the accused had been before the court twice within the last few months.

A first-appearance drunk was allowed to go.

The lands, forests and mines department, Toronto, ordered an inquest on the body of a miner killed by an explosion at Elk Lake.
