MUCH-WANTED BIRDS

Interesting Experiment For Island of Hawley. Dartford, that humaning birds should be introduced into St. elena has been submitted by that tleman to the Governor of St. elena, and Col. H. L. Gallwey bas expressed himself in favor of the ject, and believes that the island would be suitable for the birds. One of the drawbacks from which St. delena suffers is the prevalence of usects, which are most destructive to fruit of all kinds, and it is a curious fact that among the birds at present living on the island there does not unming hirds would perform a most useful function by keeping in sects down, and the climate would. in Mr. English's opinion, be congenial Helena plenty of flowers and insects and no enemies of any account. By far the greatest numbers of these birds have their home in North imerica, and there is a large de hand for their plumage. From a scientific point of view, their estaboper zoological region, would be exceedingly interesting, and, if the ex-"Stop! Regular Habits

An Absolute Necessity For Good Health

You might as well expect to find a man or woman healthy with constipated bowels as to find a city

healthy when its sewers are blocked with refuse. Nature demands that the indigestible food and waste matter which collects in the lower bowels shall be got rid of at least once in twenty-four hours. If this is not done it decomposes, filling the bowels with poison, which is taken up into the blood and carried

all through the body. Naturally, this poison affects the work of every organ. The liver is deranged, digestion is upset, and biliousness, headaches, lassitude and dizzy spells follow. Literally millions of people suffer these results of constipation without realizing the cause, or doing anything to remove it. Yet it can be removed, easily and with certainty, by using Dr. Morse's Indian

Root Pills. Take, for example, the case of Mr. George Andrews, Halifax, N.S., as he himself describes it

"For many years I have been troubled with chronic constipation. This ailment never comes single handed, and I have been a victim to the many illnesses that contipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. At last I read abou these Indian Root Pills. That was indeed a lucky day for me, for I was so impressed by the statements contained therein that I determined to give them a fair trial. They have regulated my stomach and bowels. I am cured of constipation and claim they have no equal as a medicine."

Dr. Morse's Indian Root Pills were first taken to cure constipation nearly a hundred years ago, and during the last half century they have been very extensively and very successfully used throughout the world. They are entirely vegetable in composition and do not sicken, weaken or gripe like mineral purgatives.
