Use Sashweights made in Kingston at Angrove's Foundry. Special prices for large quantities.

**HOMES FOR
THE HOME
HUNGRY**

The people who really WANT to own a home can usually find a way. We can, usually, not only show them the way, but show them the home.

And it will be the home they want, in the proper location, and priced right—not a little lower than "right."

If you can save or raise a few hundred dollars to make a first payment, the problem is easy. This applies to YOU. It is not merely a general observation.

Come in and see what we have.

McCANN,
Brook Cor King St.

**THE CASE HELD OVER
AS PRISONER'S COUNSEL
WAS NOT PREPARED**

To Meet Two of the G.T.R. Theft Charges—Walker Goes Back to Jail For Another Month to Await Trial.

At 2.45 o'clock, Tuesday afternoon, after being out for four hours, the grand jury returned to the high court room, and Foreman Hiscock presented his report. Owing to some mistake in the way it was made out, the jury had to file out again, in charge of Crown Prosecutor D. M. McIntyre, being out this time for about ten minutes. The jury found a true bill against William Walker on four counts of stealing from the Grand Trunk railroad, finding a bill on two counts of attempting to steal from cars.

The prisoner was brought in immediately after the jury presented its finding, and did not show any trace of his weeks in jail. The charge was read to him and he pleaded not guilty. J. M. Mowat appeared for the prisoner and D. M. McIntyre, K.C., for the crown.

Mr. McIntyre wanted the four counts tried together, and Mr. Mowat wanted them tried singly. A point at law was discussed for some moments, and after the prisoner signed an affidavit, the case was enlarged until the court of general sessions, the second Tuesday in December. The prisoner's counsel was not prepared to go on with two of the charges added.

Court was then adjourned until ten o'clock this morning, when his lordship received the grand jury's report.

Grand Jury's Report.

The following report of the grand jury was handed in at ten o'clock this morning:

"We, the grand jury, beg to report: Your jurymen visited the county jail and were shown around by the turnkey in the absence of the governor. We note quite a number of necessary improvements in the jail, new baths, with both hot and cold water, and sanitary closets, are installed instead of the old ones, a much-needed improvement. The female department, under the efficient management of Mrs. Brooks, has also been improved by the addition of new baths and closets. We would further recommend a new closet to be placed in the matron's department.

"Your jurymen note with satisfaction that there is a small number of prisoners in the jail at the present time, only eight men and two women. We recommend that the prisoners be employed in doing necessary work around the buildings, such as repairing walks, etc., and we further recommend that the basement of the court house be cemented during the winter months. This work could be done when the prisoners are not otherwise employed. We note that the prisoners are now employed in the making of concrete tiles. This we consider a move in the right direction as these tiles are sold to anyone wanting them.

"We further inspected the court house and grounds and found everything in good order and condition. Your efficient janitor, William Toner, has made quite a reduction in the consumption of coal and is giving general satisfaction. All of which is respectfully submitted."

In The Secretary's Office.

Riv. Charles Villiers, late of Kingston, who is in very active church work and with an attached congregation at Carpar, Wyoming, has been selected for the secretaryship of the Church Unity Society, of that state, whose platform is the "quadrilateral" advanced by the Anglican church of Christendom as a basis of union.

Don't Use The Knife.

That's the barbarous way of treating corns—dangerous, too—any corn can be removed painlessly by Putnam's Painless Corn Extractor, in twenty-four hours. Try it.

Making Inspections.

A number of complaints have been made to Inspector Arniel, of the Humane Society, within the past few days, about horses being ill-used, and he is making a thorough investigation into all of them.

WHEEZER OR SNEEZER?

Have You Heard of Hyomei For Catarrh, Asthma and Hay Fever?

If you wheeze or sneeze, hawk or spit, snuffle or blow, something is the matter with the membrane of your respiratory tract, and you need Hyomei.

And you need Hyomei because it will cure you of any catarrhal or inflammatory condition that exists. It isn't a stomachic medicine, or spray or douche, but a very pleasant, healing, antiseptic balsam, from the eucalyptus forests of Australia. You breathe this balsamic air through a small, hard rubber inhaler, and it reaches every nook, corner and crevice of the membrane, and promptly kills the catarrh germs.

G. W. Mahood will sell you a complete Hyomei (pronounced High-o-me) outfit for \$1, on the moneyback plan.

"I have been a victim of catarrh for many months, the glands around my eyes and nose being sore and swollen. My head felt dull and stuffy. Pains in the front and back of my head, also across my eyes, were frequent, and I had trouble in breathing, especially at night when trying to rest. I had doctored but got no relief until after using Hyomei. This relieved me in the first twenty-four hours and in less than two weeks I was practically cured. I cannot give too much praise to Hyomei." Mrs. Mary Phillips, 153 McNab St., Hamilton, Ont.

MI-ONA
Cures Dyspepsia.

Your money back if it don't. Gives immediate relief from heartburn, sour stomach, stomach distress and sick headaches. 50 cents a large box at G. W. Mahood.

**MAY HAVE CELEBRATION
Of the 100th Anniversary of
Steam Navigation.**

The Lake Yacht Racing Association may arrange for a celebration of the 100th anniversary of steam navigation on Lake Ontario. Although the first trip was not made until July, 1817, and the 100th anniversary would not occur for seven years, it is thought advisable to make early preparations. It was one of the events of history, when the little steamer, Ontario, which was almost like the Clermont, the first steam boat in the world, was built and launched at the military village of Sacket's Harbor, and it will be another event in history, when the 100th anniversary is celebrated.

At the conclusion of this century of 1812 the war fleets of this country were turned to commercial purposes. It was but a few years after the Clermont had made her appearance and in the spring and summer of 1815 that articles of agreement between the executors of the Fulton estate and Charles Steves, Joseph C. Yates, Thomas C. Duane and David Boyd were drawn up for the rights to navigate steamboats on Lake Ontario in American waters, it being necessary to obtain consent from the Canadian government to operate in Canadian waters. The Ontario Steam Boat company was organized for the purpose, with a capitalization of \$200,000, after a bill had passed the state legislature permitting them to do so. The boat was as described exclusively in Saturday's Standard and made its first trip early in 1817 between Ogdensburg and Lewiston, a distance of 900 miles. The trip was scheduled to consume seven days, but the boat could develop but about five miles an hour speed and on July 1st of that year, it was found necessary to lengthen the schedule to ten days. The cost of the trip was \$15. The Ontario was operated until 1832, when it was broken up at Oswego. The first trip was greeted by the most lively demonstrations by the people along the route. There were bonfires and illuminations and the event was hailed as the beginning of an era of great moment in history.

COMPANY MADE NO KICK.

About Paying For All Power Used at 1.66 Rate.

In the city council meeting, on Monday evening, Ald. Angrove made the statement that the city had been receiving more money from the street railway company for power than it was entitled to, and that the company was thus being "beaten." He based his statement on the fact that the power agreement made in July, 1905, provided that the company should not pay more than \$2.50 a day for power for each car, whereas it was paying more than that, or at the rate of 1.66 cents a kilo-watt for all power used.

Ald. Toye, ex-chairman of the light, heat and power committee, is conversant with the power arrangement, and was asked, this morning, why the street railway company had paid more than \$2.50 a day for each car, when the agreement said otherwise. Ald. Toye replied that the company hadn't paid any more than it should, and that it was not with it did without protest. Some time after the agreement of 1905 was made the company put larger generators in its cars, thus using more power. He understood it was paying about \$2.75 a car a day, but it had good reason to, when it changed the conditions that existed at the time the agreement was made.

In further reply to Ald. Angrove's statement, it is pointed out that the company has been given light for Lake Ontario Park and power for its merry-go-round at the same rate as it pays for running the cars, and this privilege was not included in the agreement. No kick has ever been heard from the company about paying for all the power it used at the rate of 1.66 cents a kilo-watt hour. It seemed satisfied.

King's Daughters Sale.

The Charity Circle, King's Daughters, had a most successful sale and tea, on Tuesday afternoon, at the residence of Mrs. E. W. Folger, corner King and West streets. The drawing room was tastefully decorated with plants and flowers, and the tables, where dainty home-made articles were offered for sale, were nicely arranged. The tea was well patronized by many people visiting the sale. The work table was in charge of Miss Lily Norton-Taylor, Miss Florence Cunningham, Miss Julia Lyman, Miss Anne Fowler and Miss Nina Ferguson.

Home-made table—Miss Florence Birch, Miss K. Fowler, Miss Mary Ross and Miss Louise Kirkpatrick.

Tea table—Mrs. J. Cappon poured tea, Mrs. H. Robinson, coffee, and Miss Etta Richmond, Miss Mabel Brownfield, Miss Christine Cochrane, Miss Kate Smellie, Miss Leonore Hamilton, Miss Jean Duff and Miss Aileen Folger assisted.

Over \$75 was realized by the sale.

THE SPORT REVIEW

QUEEN'S EAGER FOR OTTAWA COLLEGE.

Will Try and Pile Up Big Score—Haven't Forgotten the Way the Game in Ottawa Was Stolen From Them.

Queen's are keeping in good condition to give Ottawa College a real good trouncing here next Saturday afternoon. This will be the last senior rugby game of the season. Queen's have a few scores to settle with the Ottawa Collegians, in view of the way the game they played at the capital several weeks ago was taken from them by touch-line judges, and will endeavor to wipe out that defeat, as it is recorded in the books of the Inter-collegiate Rugby Union, by running up a huge score in next Saturday's game.

Queen's will Elliott stood out in the series with three wins and three losses, but its proper standing should be four wins and two losses.

A chance will be afforded by this game of seeing in action the team that came so nearly defeating Varsity, which ranks with the Hamilton Tigers, Dominion and Elliott second in the Ontario University team, which was as good as defeated until Lawson got away for his long run and touch, eight minutes before time was up. Every man on the team worked hard, but the work of Williams and Elliott stood out in the field. All the Toronto papers pay tribute to the superb kicking of Williams and its scoring results. Williams' ankle is much better, and he'll be right in the game on Saturday. Elliott's tackling was the best seen in Ontario in several years. This Queen's outside wing player got to Lawson every time and downed that big Varsity half-back in his tracks, and Elliott didn't tackle him easy either.

The Varsity team are no parlor players, and Queen's well know this, so that if the Presbyterians were a little strenuous on Saturday, it was very necessary in stopping the persistent old work of Varsity, work that seems to escape the eye of most officials. Queen's have shown that they can play rugby, even though at the start of the season nine of them had never played in a big game before, and some of them had to be taught even the rudiments of the game.

Sporting Notes.

Ottawa II, champions of the Quebec R.F.U., have decided to challenge the Dundas team for the intermediate title of the Dominion.

The Toronto Rowing Club team will play senior hockey in the O.H.A. this winter.

Next year the meeting of the delegates of the Lake Yacht Racing Association will be held in Watertown.

At Paris "Jim" Stewart, of America knocked out "Jewey" Smith, the South African, in the sixth round.

The National Baseball Commission, ruling harrington Kling, of Chicago, for four years, will be appealed.

King Clancy, of Ottawa, thinks Smith, the Tiger full-back, the best full-back playing the game to-day, and "Ben" Simpson the greatest half-back.

There is a feeling in Hamilton that "Ben" Simpson should be given a rest in the Argonaut game here, Saturday, but "Ben" will likely be found at the usual place when the whistle blows.

"That grand old sport," is what the Watertown Times terms Rev. F. W. Armstrong, of Trenton, ex-commander of the Eastern Lake Yacht Racing Association.

Capt. "Jack" Williams, before the Tiger-Ottawa game, protested to the officials and Tiger officers about the field of play, and reserved the right to protest the game. His objection was that the deadline was too close to the goal posts.

In Toronto they seem to think that Queen's rugby team plays rather strenuously. The News says: "Marty" Walsh might teach his team to play a cleaner game without losing anything. Too bad! Too bad! Poor old Varsity found it had no cinch when it bucked up against those Presbyterians.

Frederick D. Welch slightly the

Grand Opera House.

"The Cash Girl," a Bright Little Musical Play.

"The Cash Girl," with Miss May Ward as comedienne, was the attraction at the Grand last evening, and proved to be a pleasing little musical comedy. Miss Ward is a dainty little lady, and delighted the audience by her winsome manner. Her songs, "The Girl in the Looking Glass," and "Tale of an Old Rag Doll," were enjoyed. Harry West and James Reilly made two capable funnymen. The other support was good. The piece contains several bright musical numbers. Towards the close of the second act, the chorus girls, in a marching song, appeared with Union Jacks fastened across the waists, in honor of the birthday of the king, and drew warm applause. For a musical play of its kind, "The Cash Girl" affords much enjoyment.

Great English Actor.

George Arliss, the greatest of English character actors, will be seen at the Grand Opera House, on Monday, Nov. 11th, in "Septimus," a comedy by Philip Littell from W. J. Locke's novel. The leading feminine role is played by Emily Stevens, a cousin of Mrs. Fiske, and for several seasons a member of that distinguished actress' company. Others in the cast are Dorothy Rossmore, Florence Eddy, Henry Wynnau, Cyril Young, J. Lathin and Francis Welstead. The production is under the personal direction of Mr. Fiske.

"Peck's Bad Boy."

The coming of the ever-funny farce-comedy, "Peck's Bad Boy," at the Grand, on Saturday, Nov. 13th, makes and night, delights every small boy, for there is nothing short of a circus that will make the eyes of the small boys sparkle with delight as quickly as a sight of the flaming posters along the walls announcing the coming of "Peck's Bad Boy." But not only does the small boy enjoy it, but adults as well, for it carries them back to days of long ago and for the time they forget all cares and imagine themselves back to their boyhood days. The play is full of bright and sparkling specialties, catchy music, comical and the pranks of the Bad Boy, make it one of the most entertaining of plays.

Disease Originates In The Blood. Pure blood is a safeguard against disease. Keep your blood rich in iron and its essential elements and the body will be healthy, strong and well. The best way to administer iron is by taking Vinol, which is a combination of the medicinal elements of Cod Liver Oil and Tonic Iron, it makes red blood corpuscles and thus creates strength quicker than any other method.
