It Takes 21 Days to Make Each Cake

Three weeks are required from start to finish of the cake of Taylor's Infants' Delight Soap that you get at your dealer's.

We have put forty-four years of experience into

We bring our olive oil and cocoanut oil ten thousand miles-none but the highest grade will do. We use otto of roses that costs us ten dollars an ounce.

These oils are filtered through Fuller's earth. They are boiled and then boiled again, with hundreds of gallons of pure water, passing through to remove all possible impurity.

Infants Delight Soup

A pressure of thirty tons removes the water. Then the soap is stamped into cakes and again inspected for any possible flaw.

Ordinary fresh or "green" soap is not hard and firm. It wastes away quickly. We put Infants' Delight Soap through eight separate "agings" until it is hard and firm and ready for immediate use. It will wear as thin as a wafer.

Infants' Delight Soap will make your skin like velvet. It is the mildest soap made -the best for the infant and equally good for grown-ups.
