CHRISTIAN SCIENCE

AN ABLE ADDRESS IN THE SCIENTIST CHURCH.

The Lecturer Discussed the Subject of Mind and Also Spoke on Healing Methods—Mayor Couper Presided.

At the Christian Science church, on Friday evening, a lecture was delivered by Prof. Herman S. Hering, C.S.B., of Concord, N.H. The church was well filled and the lecture was listened to with great interest.

Mayor Couper presided and introduced the lecturer of the evening. Owing to the fact that there was a meeting of the finance committee Mayor Couper was unable to stay for the lecture. Prof. Hering is a fine speaker and dealt with his subject in a manner which was very easy for his hearers to follow. Prof. Hering was formerly connected with the Johns Hopkins university. The lecturer said:

In addressing an intelligent audience upon the subject of "Christian Science: the Science of Salvation," it is well, first of all, to reach a mutual understanding as to the meaning of the terms. Science means exact, systematized, and demonstrable knowledge of facts, laws, and causes, while according to Smith's Bible Dictionary salvation means "deliverance from temporal evils and earthly destruction," in other words deliverance from evil. Hence "the Science of Salvation" means in substance that demonstrable knowledge which affords deliverance from evil.

St. Paul admonishes us to work out our own salvation with fear and trembling. This scriptural command means far more than the common belief that salvation is secured by simply having belief or faith in Jesus as the Son of God. Such saving faith is vitally necessary, but it is only the beginning of our salvation—its spiritual basis.

Then must follow the working out of our deliverance from evil, our separation from sin, from the bondage of this world, from limitation, failure, sickness, disease, death. Working out our own salvation means to secure the mastery over the ills of this world, to destroy them by the demonstrable knowledge of God received through Christ, and to establish harmony, health, happiness in over-day life. Hence our salvation is not fully worked out until we have dominion over all discord and everything that causes it. This necessarily includes dominion over matter and its laws, to which we are in such bondage, dominion over evil and its sensations, sin and sorrow, dominion even over death and its terrors. It means to attain to perfect, harmonious living, to bring about God's kingdom on earth.

Unless we work out our salvation, we will not gain the victory over the world, the flesh, and the devil, as we are commanded. It is our aim to show that Christian Science is the science of salvation in and through Christ; that it reveals the principle of being and awakens that spiritual understanding which enables us to work out our own salvation practically and effectively; that it discloses the cause and occasion of discordant conditions here on earth, the nature of the bondage that holds us to evil; that it reveals the absolute truth of being, the truth about God and His universe, including man and the modes operated by which we can proceed to free ourselves from evil and attain true manhood and womanhood, in "the liberty of the sons of God."

In working out our salvation we must first see that salvation or deliverance from evil is a mental process, taking place in the mind; that it is a transformation through mind and that it is both ethical and philosophical. The Bible declares that "to be carnally minded is death; but to be spiritually minded is life and peace." "Retrospection and Introspection," Mrs. Eddy says: "During twenty years prior to my discovery I had been trying to trace all physical effects to a mental cause; and in the latter part of 1866 I gained the scientific certainty that all causation was mind, and every effect a mental phenomenon."

Regarding Material Causation. Christian Science teaches that matter and material existence are phenomena of mortal mind, a concept of existence obtained through the physical senses; a misapprehension of reality held by human consciousness when it is in error.

Why Not Stop That Itch? Write For a Free Sample Bottle of D.D.D. and Get Instant Relief. If you are afflicted with skin disease, the kind that seems to baffles medical skill, and leaves you wild with itch, you would do well to investigate a prescription which is now recommended by many of the best skin specialists, even in preference to their own prescriptions. It is the simple, soothing oil of wintergreen compound known as D. D. D. Prescription, and it sells at \$1.00 a bottle.

But a simple bottle will be enough to convince you that the itch is instantly allayed by this preparation. Get a liberal sample bottle of the healing, soothing, external remedy—D. D. D. Prescription—and see! We feel quite sure that before long you will be cured, and at any rate we know—know positively—that your itch will be relieved instantly, the minute the soothing liquid is applied to the skin.

Mrs. W. L. Clarke, of Logan, Alta., tried D. D. D. and says: "It is the best remedy for the skin or scalp that I have ever used." For free sample bottle of D. D. D. Prescription write to the D. D. D. Laboratory, Department K. W., 23 Jordan St., Toronto.

For sale by all druggists.

THE FRONTENAC LOAN AND INVESTMENT SOCIETY

87 Clarence street.

uninstructed by science, an appearance instead of an actuality. It is simply an imitation or counterfeit. Now, it is not the appearance; but only the original that has power, intelligence and substance. The manifestation of growth, action or being in matter is but a material concept of spiritual facts.

The objects, action and power expressed in a "moving picture" are not in the picture and do not associate them with the picture but with the original which the picture reproduces. Similarly, life, growth, action, power, substance, law, etc., etc., are not in matter, physical existence, nor, or the material consciousness; but in the divine mind, the only cause and principle of being, and should be so thought of. When we recognize God as the only mind, the only cause, truth is reflected in consciousness and existence is harmonious. When we believe causation to be material or in mortal mind, we put our trust and dependence in a shadow, a false belief, and existence so-called, is discordant, liable to disease, disaster, death. In order to work out our salvation we therefore need to understand causation.

What is Mind? The ordinary human concept of mind is that which thinks, feels, or wills, the intellect, or the activity of the brain. Christian Science reveals the fact that mind is divine principle, the infinite life, truth, love, omnipotent, omniscient, unchanging, all-wise being, the only cause and creator. This is a very different mind from that which is supposed to result from the action of the gray matter called brain.

Christian Science makes it clear that material existence is not the manifestation of this divine mind, but the phenomenon of the counterfeit, called mortal mind. It is this false concept of existence that does all the wrong thinking, that believes in sin, disease and death; that claims there is life and intelligence in matter. Since God is mind, this mind is good, never evil. As real thinking is the activity of the divine mind, the only real thoughts or ideas are good. Therefore, everything that is evil, pertains to evil or results in evil is not mind nor included in mind, hence is not real. Human thought, suggestion, hypnotism, mental suggestion, or magnetism, are all capable of evil, and hence are not mind or the activity of mind, are not of God, and so are not good, but essentially and entirely evil.

Healing Methods. The difference between the method of healing through mental suggestion, or hypnotism, and that of the divine mind, the Christ healing, must be clearly seen.

When the effort is made to heal by suggestion, the operator endeavors by means of hypnotism to make the patient believe that he is not sick, and attempts to change the belief but the cause of disease remains and in time manifests itself even in worse forms. The patient is no better off, he has not risen in the scale of being, he has no more manhood, or moral courage, and does not know any more about God and His Christ than before.

The true Christian Scientist reflects the divine mind, stands on the basis of God, man and the universe as spirit and spiritual, as love and its manifestation, as mind and its ideas—perfect and harmonious. Hence he understands the unreality of matter and evil and knows that man is not sick but that the patient is simply suffering from a false mesmeric belief. From (Continued on Page 6.)

WOMAN'S AUXILIARY Y.M.C.A.
Encouraging Report on Boys' Work Department. The regular monthly meeting of the Woman's Auxiliary of the Y.M.C.A. was held in the board room, Friday afternoon. There were twenty-five women present, Mrs. John Wright presiding.

The devotional exercises were conducted by Mrs. R. B. Nelles, after which the business of the meeting was taken up. Mrs. Meek, the treasurer, reported over \$91, as the receipts of the tea held recently, and \$25 in additional fees. The auxiliary voted \$20 for new magazine covers, and various sums for dishes, cutlery and other supplies, to replenish the kitchen.

The general secretary gave a brief address, dealing with the relative position of the local branch in Canada. The latest places Kingston sixth in the work, very closely pressing Montreal, Ottawa and Toronto. The auxiliary is supporting this department this year, and felt greatly encouraged.

Mrs. John Wright, the president, was the local delegate to the Ottawa conference, and presented her report. Kingston is third in point of membership, in list of twenty-nine in the province, while \$289.82 was raised for auxiliary purposes.

Important Facts. "A quart of milk is practically equal to a pound of beef in food values." Prof. Dean, of the Ontario Agricultural College. "The composition of wheat is higher in protein and heat of combustion than any other cereal prepared for human food."

Results of analysis by Bureau of Chemistry, U.S., Department of Agriculture. Orange meat is simply the whole wheat berry, steamed, soaked, mixed with malt, flaked and toasted. This process develops in each wheat berry the highest percentage of grape sugars. It converts the starches into a form most easily digested and assimilated. Orange Meat and milk is a perfect food.

SUNDAY SERVICES
