Social Note From Atchison.
 The engagement of Hiram Hardisty and Miss Suzzette Searley is announced. It occurred in Miss Searley's parlour. The young lady was dressed in black, and wore no ornaments. She did not look unusually pretty, and what caused the young man's mental aberration is not known. Neither one could remember exactly what was said, and both admitted it was not the first time he kissed her. We print the details for the romantic young things who are always curious to know how an engagement is brought about.

LORD MAYOR'S SALARY

HIS PAY AMOUNTS TO \$50,000 PER YEAR.
 In Addition to This He Has the Mansion House Furnished—He Derives Considerable Wealth From Ownership of Wharves on Banks of Thames.

By Marquise De Fontenay.
 Sir John Knill, elected lord mayor of London for the twelfth month, beginning on Nov. 9th, is a Roman Catholic, and in consequence thereof was subjected to some heckling on the part of strict Protestants, while the election was in progress. Thus he was asked whether he would appoint a Church of England clergyman as his official chaplain, to figure as such in all ceremonial, and agreed to do so, intimating, however, that he would have in addition thereto a private chaplain of his own denomination. Sir John was asked if he would attend certain religious services in St. Paul's cathedral and in other city churches in compliance with ancient custom and tradition, and to this he replied that he would only be present at these services when in actual attendance on the sovereign, but that on other occasions he would delegate one of the aldermen to represent him.
 Finally, he was asked not to put the pope before the king, and gave the requisite pledge, as far as all questions of public toasts were concerned. The reason for this question was that the king's father, the late Sir Stuart Knill, was lord mayor of London, in 1892, that is to say seventeen years ago, he gave considerable offense to strict Protestants, by proposing as the first toast at a banquet which he gave at Guild Hall to "Cardinal Vaughan and the Roman Catholic Episcopacy of the United Kingdom, not the Queen," but "the Holy Father and the Queen." Called upon for an explanation he declared that it was the Catholic equivalent for the ancient time-honored English toast of "Church and King" or "Church and Queen," and that neither the government nor the sovereign took any exception to his action, is best shown by the fact that three weeks later the prime minister, W. E. Gladstone, informed him that Queen Victoria had bestowed upon him the honor of a baronetcy.

LONG CHASE AFTER THIEF

Who Crossed the Border—Constable Wants His Pay.
 John Lynch, a county constable from Palmerston, landed in the city, Saturday morning, after a chase of nearly 200 miles after a thief named Albert Rankins, a twenty-one-year-old Scotch immigrant. The man committed three thefts in Palmerston, stealing \$22 from one man, a \$10 revolver from another, and a gold watch chain from another. The case was referred to the justice of the Peace, Donaldson, who issued a warrant and Constable Lynch started out on his trail. He followed the man for about three weeks all over the country, the chase ending in Gananoque a few weeks ago, when the prisoner crossed the border into the United States. What worries the constable is the fact that he paid his own expenses during the entire trip, and now, when he failed to land his man, the people are not very anxious to pay him for his services. He came to the city to see if Crown Attorney Whiting could not do something for him.

WAS IT RAPLEY?

Said to Have Passed Through Strathroy.
 A special despatch from Strathroy, Ont., says that relatives of Barton Rapley, the missing Montreal commercial traveller, who mysteriously disappeared some weeks ago from a hotel at Nanapanee, now have the assurance that the young man is alive and well, and did not meet with foul play as was at first supposed.
 Mr. Rapley passed through Strathroy over the G.T.R., and disclosed his identity to a Strathroy man at the station, requesting him to inform his uncle here that Barton Rapley had passed through town. The gentleman did as he was asked, and positively identified Rapley's photograph.

Received The Reward.

AFTER THE CONFLICT

THE FINNISH DIET HAS BEEN DISSOLVED.
 Refused to Sanction Bill Appropriating \$4,000,000 For Defence of the Empire.
 Helsinki, Nov. 20.—The Finnish diet was dissolved because of its refusal to sanction the bill introduced by the government, asking for an appropriation of \$4,000,000 for the defence of the empire. An election will be held February 1st, and the new diet will assemble March 1st.
 The conflict in the diet was the same as that which took place in the senate and resulted in the resignation of many Finnish senators and the substitution of a majority made up of Russian military officers. The senate had expressed a willingness to contribute \$2,000,000 as an annual appropriation for the national defence, but double that amount was assessed by the Russian cabinet as Finland's contribution for the defence of the empire.

CHRONIC CATARRH IS A BLOOD DISEASE

Which Can Never Be Cured By the Use of Atomizers, Douches, Snuffs, or Other Local Treatments.
 Long ago physicians found out that the very prevalent disease called catarrh was not primarily a local trouble, but a systemic or constitutional blood disorder instead. For many years before this discovery people were in the habit of using all kinds of local applications in their efforts to cure the catarrh, and they never succeeded in obtaining more than temporary relief.
 When the blood is absolutely pure catarrh cannot exist but when it becomes filled with impurities through faulty elimination, the mucous membrane, which lines all the internal organs of the body, and normally receives a clear, soothing fluid, becomes inflamed, and the mucus fluid changes to an irritating, poisonous excretion.
 People in this climate are very much subject to catarrh of the throat and nose, especially in the winter months, and the lining membrane of the nostrils becomes congested and inflamed, and this, together with an impoverished condition of the blood, produces the flow of morbid catarrhal secretion.
 When the blood is impure, it not only sends out the excess of impurities through the pores in the shape of boils, pimples and carbuncles, etc., but very often eliminates them through the mucous membranes, also, and the result is a catarrhal condition. In view of the foregoing facts the absurdity of attempting to cure catarrh through local applications should be apparent to all.
 STUART'S CALCIUM WAFERS, has been the means of curing thousands of cases of catarrh when all other remedies, both local and general, have utterly failed. The reason is simple and easily explained. These little wafers contain calcium sulphide and other powerful alternatives and blood-purifiers, which cleanse the blood current so thoroughly, and eliminate the system's poisons and impurities so efficiently, that the catarrhal disease has nothing to live upon and thrive upon, and the result in the complaint is cured in a marvellously short time.
 Stuart's Calcium Wafers have long enjoyed the reputation of being the most powerful blood-cleansing, skin-disease removing, and catarrh cure in existence. Persons who "catch cold" and who are subject to any of the well-known symptoms of this complaint, such as excessive secretion of mucus in the throat and nasal cavity, hoarseness, snuffles, coughs, frequent sneezing, etc., should use this powerful remedy, and by purifying the system absolutely rid themselves permanently of catarrh, as well as of pimples, boils, blackheads, carbuncles and other external indications of impoverished blood.
 Purchase a package of Stuart's Calcium Wafers from your druggist for 50c and get rid of your catarrh and your pimples. Also send us your name and address and sample will be sent you free. Address, F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

ESTABLISHED BY THE CIVIC FINANCE COMMITTEE.

In discussing the decision of the civic finance committee on the liquor license question, a leading citizen said: "The finance committee, by deciding against a reference of the question to the people, has established a dangerous precedent. It takes the ground that the city council is the proper body to deal with the liquor question, and not the people. Its decision establishes that. Now, what will be the result when the council adopts the committee's recommendation? Simply this: Three or four years hence the temperance people can hold the reins of power in the council. They will use the liquor men's argument, that the council should settle the question of reduction when a petition is presented. They'll refuse a reference to the people on precedent, mind you, and perhaps cut off half the licenses in Kingston. There's what's ahead. The finance committee has been very short-sighted. It has played right into the hands of the Social and Moral Reform League. It's not yet too late to repent and send the matter to the people, where it belongs."
 At The Roller Rink.
 The roller rink drew a large crowd on Friday evening to the band concert and grand march. The floor was in excellent condition, having been recently sandpapered, and the patrons enjoyed themselves to the limit. Excellent music was furnished by the 14th band, especially the grand march, when over a hundred couples took part.
 "Cadbury's Chocolates," fresh, at Gibson's Red Cross Drug Store. The house of good sweets.
 The steamer Minnie M. arrived at Sault Ste. Marie, on Friday night, and reported passing through wreckage consisting of 200 barrels of naphtha oil and gasoline thrown along the shore from Whitefish Point down for miles.
