DR. BARR DIES

He Was An Old Member of the House.

AT THE ESTIMATES

THE MEMBERS ARE GETTING DOWN TO BUSINESS.

Hopes to Be Able to Prorogue Before Easter—Various Bills Were Introduced and Passed Along—Referring to the Death of Dr. Barr.

Special to the Whig. Ottawa, Nov. 20.—Although the estimates were only brought down on Thursday, the house commenced the task of considering them yesterday, and spent the greater part of the afternoon and the whole of the evening in dealing with the items for civil government. This tendency on the part of members on both sides of the house to settle down energetically thus early in the session to the real business of parliament, is taken as an indication of the general desire to bring the business of the session to a close as early as possible. The government is hopeful, that if all goes well, prorogation may take place before Easter.

At the opening of the session, Sir Wilfrid Laurier announced the sudden death of Dr. Barr, of Daer-in. Sir Wilfrid said he had had a short conversation, yesterday, in the corridor of the house with Dr. Barr, who seemed in perfect health. "Dr. Barr was an old and very much respected member of this house," said Sir Wilfrid, "and we on this side of the house, will join with the members of his own party, in tendering our condolences to his family in their bereavement."

R. L. Borden paid a tribute to Dr. Barr's fine personal qualities. "He had a long career as a public man; he was conscientious and indefatigable in the performance of his duties," said Mr. Borden. He said that until a late hour, on Thursday night, the member for Dufferin had appeared in the best of health.

The early part of the afternoon was taken up with the introduction of bills. One of them, which provides for the execution of condemned prisoners in penitentiaries instead of in county jails, has for its object to decrease the amount of morbid curiosity too frequently evinced in such proceedings.

Mr. Fisher introduced his bill to prevent the introduction or spread of pests destructive to vegetation, and the resolution to provide for the payment of compensation for matter destroyed, for the appointment of inspectors and for the imposition of penalties for the contravention of the act, was passed.

Mr. Graham introduced two bills relating to the Intercolonial railway. The first empowers the minister of railways to negotiate for the lease of branch lines which the managing board of the Intercolonial may deem necessary. The lines must be certified by the chief engineer to be in good condition for operation, and the lease must be approved by parliament.

Mr. Graham's second bill reduces the time necessary for employees to acquire the right to share the benefits of the Intercolonial railway provident fund.

Mr. Fisher introduced a bill to make alfalfa subject to the seed control act.

Mr. Sharpe (North Ontario) proposed an important amendment to the bank act. It provides that where for six years dividends on bank stock have not been claimed, the stock and dividends shall be turned over to the government as trustee. It proposes a similar course in regard to deposits unclaimed for six years. In the event of a claimant appearing and making good his claim, the government is to pay over the principal with accrued interest at three per cent.

Mr. Lewis (West Huron) introduced a bill to abolish the custom of executing condemned prisoners in county jails. It proposes that executions shall take place in penitentiaries, because in that way exhibitions of morbid public interest and excitement will be avoided. The same measure provides heavy penalties for the carrying of offensive weapons. Another bill, presented by Mr. Lewis, seeks to impose penalties upon chauffeurs, through whose neglect people are injured in automobile accidents.

The remainder of the day was spent in supply.

Good Night At Roller Rink. The band concert and grand march at the roller rink, last night, attracted a large crowd of pleasure-seekers. The 14th P.W.O.R. band supplied excellent music throughout the evening, and the large concourse of skaters much enjoyed the grand march. The floor was in first-class condition. The management is undecided as to whether or not to close the rink on Monday night. There is a probability that it will remain open for the balance of the week. Another grand march will be conducted on Monday evening.

Pleasant Dance At Barracks. The warrant officers, staff sergeants and sergeants of the Royal Canadian Horse Artillery, gave another fine dance in their spacious mess rooms at Tete de Pont barracks, on Friday evening. The rooms were nicely decorated, and prettily arranged for the affair, every detail being looked after with the same great attention that characterizes everything held by the horse artillerymen. The floor was in excellent condition and the large crowd present thoroughly enjoyed themselves. Music was provided by the R.C.H.A. orchestra, which cannot be excelled in the city. Dainty refreshments were served about midnight, and the time passed all too quickly for the large number present.
