

In a Million Canadian Homes

Taylor's Infants' Delight Soap is in constant use today.

There are reasons for this amazing preference.

We have been soap makers 44 years. No expense is spared in procuring materials. The purity of our olive oil is proved by our own chemist's test.

We import our own coconut oil from Ceylon. Otto of Roses, that costs us six dollars an ounce, lends delicate fragrance. To this we add just sufficient boracic acid to soothe and heal the delicate tissues. Each cake of

Infants' Delight Soap

takes twenty-one days in the making—200 people have part in it.

It comes to you as firm and seasoned as if it had been on your shelf six months. It will wear to a water.

If you wish a beautiful skin—soft and free from roughness and chaps—get Taylor's Infants' Delight Soap, today.

The Logical Cure for Sick Headache.

It is a mistake to endure a headache as a necessary affliction. It is equally a mistake to doctor it as simply a headache, for though you may relieve, you cannot cure it that way.

Only in rare cases is a headache caused by anything wrong with the head itself. The trouble lies in some impurity of the blood that irritates the delicate network of nerves and causes the ache. That is why every pulsation pouring in more blood, is so plainly felt.

Lessening the flow of blood to the head by means of a tight compress, an ice-bag, or some drug that acts on the heart and reduces the pulsations, sometimes gives temporary relief. But these measures have absolutely no effect on the blood impurity which was the cause of the whole trouble.

In practically every case this blood impurity would be removed from the system by the bowels, kidneys, skin or lungs, if these were all working right. It is the inactivity of one or more of them that allows the poisons to accumulate in the blood, and the headache is simply a symptom or warning that things are not right.

The way to put them right—to cure the root of the whole matter—is to take Dr. Morse's Indian Root Pills. They act directly on the bowels, regulating them—on the kidneys, strengthening and stimulating them—on the skin, opening up the pores—and on the lungs, clearing the delicate membrane of any mucus which may have collected.

When these four great eliminating organs get working properly again all impurities are quickly taken out of the blood, and the unpleasant symptoms, of which the headache is one, disappear—not simply relieved, but cured.

You can take Dr. Morse's Indian Root Pills with confidence, for they have a record of over half a century of remarkable cures.

Rev. A. L. Bowers, of Bristol, Tenn., tells how they cured him:

"I want you to know how much good your Indian Root Pills have done for me. I was troubled with terrible headaches and biliousness. I tried several doctors but they did me no good, and for fourteen years I suffered. The use of your pills has made a cure in my case."

THE BOARD OF HEALTH ADVOCATES EXTENDED SEWAGE SYSTEM.

The Present System Will Soon Be Inadequate—Contagious Cases During the Year—Advance in Sanitary Legislation.

The board of health held its last regular meeting of the year yesterday afternoon, when Dr. A. R. B. Williamson, medical health officer, reviewed the year's work. He noted the advance in sanitary legislation with regard to the closing of pits and a close watch on wells. If all wells were to be closed, he pointed out that the city must be prepared to give water to all the residents by extending the water-works system to every street. He recommended the connection of the dead ends of water mains, for it was quite true that liability to disease from infected drinking water is greater at those points where sediment can collect in the pipes, and from a sanitary point of view the elimination of dead ends is greatly to be desired. He also suggested that the board of health should urge on the city council the necessity for working on some general plan in the construction of new sewers, as any marked increase in population will render an intercepting sewer with an outlet far from the shore a necessity, and, therefore, as little money as possible should be spent on the present outfalls, as there is no doubt that their usefulness will be limited to a comparatively short space of time. There are, however, one or two that require immediate attention; one is the Russell street sewer and the other the Bay street.

During the year, the health officer reported that there had originated in Kingston forty cases of typhoid fever, thirty-five of scarlet fever, nine of diphtheria, thirteen of smallpox, two of cholera and five of measles. There had been fifteen cases of typhoid from outside places treated here. J. D. Thompson said he was glad to notice that the health officer had divided the cases that originated here from those that came from outside, as Kingston had been too often credited with cases of contagion that didn't originate here at all.

During November there were three cases of typhoid, two of diphtheria, one of scarlet fever and four of measles. All these were at the general hospital. There was no report from the Hotel Dieu, and on motion of Mr. Thompson, the board instructed the city clerk to notify the Hotel Dieu authorities to make monthly statements to the health officer regarding contagious cases treated there.

The following resolution was adopted on motion of Mr. Thompson, seconded by J. B. McLeod:

Resolved, that in view of the action taken by this board making it compulsory that water closets—sanitary sinks should be erected in all houses within a certain area before June 10th, 1910, and that this new territory to be covered with what already exists will cover the largest portion of the city, and, no doubt, in the near future all areas left uncovered will be included in the law governing the same. As whereas the deposits from water closets, sinks and urinals are at present emptied into the harbor (which is navigable) and which will sooner or later result in the contamination of the waters thereof, it is resolved that it be an instruction from the board to the city engineer to prepare plans with estimates of costs for the construction of an intake sewer from the city limits in the west to the line in the east, where a septic tank or tank can be erected to avoid the pollution of the waters in the harbor, and which is now the case and will ultimately work out with the northeasterly wind to the intake pipe and thus pollute the water used for domestic consumption.

Mr. Thompson pointed out that by the recent order of the board regarding the closing of pits, there would be 1,200 more buildings for which cover would be carried into the harbor through the installation of modern sanitary fixtures. Then, in the west end of the city, the House of Providence orphanage, and a new hospital would add more sewage. Hence in a very short time, Kingston would be up against a serious sewage problem. He agreed with the health officer as to better sewage arrangement being needed, and thought that the city engineer should be asked for a report at once. It would be a year or two, perhaps, before the city council could be got to move in the matter.

The members of the board were agreed as to the wisdom of the city and passed the resolution containing only.

Another matter brought up by Mr. Thompson was as to whether all pits that had been ordered by the sanitary inspectors to be cleaned, were attended to. Were a lot neglected year after year? Police Constable Timmerman, one of the inspectors, was called in and said that the great majority had been cleaned, but there were still some to be attended to. He was asked to give the clerk a list of the delinquents.

Francis King, warden of St. James' church, complained that the occupants of the church rectory, at the corner of Barrie and Union streets, were bothered by the sewage backing up into the cellar. This was caused by the old stone drain on Barrie street, which hadn't very much of a fall. Mr. Taylor said that the old drain had been opened several times during the past three years. It was found that the roots of the trees had grown into the sewer, and these had to be cut out. It was decided to have the city engineer make an immediate report upon the complaint, and find what remedy could be given.

On motion of Mr. Thompson, seconded by A. Strachan, the board expressed its thanks to the chairman, S. R. Bailey, for the courteous and effective manner in which he had presided over the board, which recognized him as a faithful chairman. Mr. Bailey expressed his appreciation of the kind expression concerning his work. A resolution of appreciation of the work of the officials of the board was also passed.

Those in attendance were S. R. Bailey (chairman), John Lemmon, H. Taylor, J. B. McLeod, A. Strachan and J. D. Thompson.

Halifax Shredded Codfish
With a ten cent package you can make a tasty fish-ball breakfast, enough for the whole family at your expense.

HANDSOME JEWELRY CATALOGUE FREE

Get Well First
Don't risk even a penny—until health first returns. I mean just exactly that. I mean the one physician who says to the sick "I will not let you pay a penny for my medicine until you are well." For 20 years Dr. Shoop's medicine has been used and recommended in every city and hamlet in America. They are positively standard in every community—and every where. Then why pay the cash, and at your risk, for other untried and untried medicines? Thousands upon thousands have in the past been cured by Dr. Shoop's Restorative. When the Stomach, Nerves, or the Heart or Kidney nerves fail, these sick ones know how quickly Dr. Shoop's Restorative will bring them back to health again. But best of all, they positively take no money risk whatever. They know that when their health fails to return, Dr. Shoop will pay the drug bill for that. And for that test a full 30 day treatment is freely granted. But write me first for an order. This will save delay and disappointment. All druggists sell Dr. Shoop's Restorative and Dr. Shoop's Rheumatic Remedy, but all are not authorized to give the 30 day test. So drop me a line please. I have appointed an agent and responsible drug store in almost every city. I will send you my "no pay" medicine to the test. I will also send you a book which looks you over. The book below will surely open up new and helpful ideas to those who are not well. Besides you are perfectly safe to order the book as you would your home physician. My advice and the book below are yours without cost. Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private personal advice. My best efforts are yours. Write to me now, while you have time, for tomorrow never comes. Dr. Shoop, Box 2, Lacrosse, Wis.

Booth & Co.,
FOOT WEST STREET.

Women Cannot be Strong and Healthy Unless the Kidneys are Well.
Weak, lame or aching legs are the first sign of Kidney Trouble. Under ordinary conditions they ought to be strong and ready to bear the burden of life. It is hard to do housework with a weak and aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause. But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles. Doan's Kidney Pills will cure you in the same way as they have cured thousands of others. Miss Alberta B. Clark, Stoney Creek, Ont., writes: "I was troubled with kidney trouble for several years; my back was weak, I had such terrible head aches, and was so restless. I could not sleep at night and tried everything without any benefit. Meeting a friend advised me to try Doan's Kidney Pills, so I got four boxes and they completely cured me. I now feel as well as I ever did and would advise everyone suffering from Kidney Disease to try them." Price 50 cents per box or 3 for \$1.25, at all dealers or The F. M. Johnson Co., Limited, Toronto, Ont. In ordering specify "Doan's." If it is still true that the "harvest of the tenderest" they must be all grown in the "chicken looks on the market" this fall.

GRAND OPERA HOUSE
Dudley's Colored Company is a Splendid One. S. H. Dudley, the leading comedian of the colored race, headed a splendid company at the Grand last evening. The presentation was "His Honor the Barber," a musical comedy, which afforded pleasant entertainment. The company has a strong chorus, the voices being well balanced. The shapely girls were admirably costumed. Dudley himself has been seen here on many occasions, and as a colored comedian is highly regarded. His song, "Come After Breakfast, Bring Long Your Lunch and Leave To Supper Time," made a great hit. The other principals gave him fine support.

"The Return of Eve"
It is difficult to imagine how Eve would act in modern New York society. This is one of the problems that Lee Wilson Budd has undertaken to show in "The Return of Eve," the comedy in which Sam S. and Lee Schubert will offer Miss Bertha Galland at the Grand to-night. Eve in this instance, however, soon leaving the habits of modern society, together with the customs of the smart people who worship money and the things it brings, "Charity," one of her newly-acquired friends tells Eve, "is doing for others what we are glad they are not able to do for us." When Eve inquires what corsets are, she is informed that they are "the backbone of society." At first frightened by these strange surroundings, Eve soon yields to their fascination. At the end of a year, however, her heart yearns for the Eden which she has known since childhood.

Wilton Lackaye in "The Battle"
Almost all the members of "The Battle" company, supporting Wilton Lackaye at the Grand on Thursday, December 23rd, adopted stage careers after having started in other professions. Lackaye, himself, studied law, Charles Abbe is a painter, of some repute, the Players' Club, in New York, boasting of one of his best canvases, while others are in the possession of private individuals in Boston and other cities. Thomas McTear studied engineering, at King's College, London, England, and is a veteran of two wars. Henry Hilliard studied medicine. Julie Horne, the "Jenny," is securing a patent for an unpuncturable automobile tire. In fact, Clara Blandick, Mr. Lackaye's new leading lady, is the only one in the company who has not confessed that the stage was not her first love. Yet the past records of this company prove them all to be gifted players.

THE ATONEMENT THEORY
Before Methodist Ministerial Association. The Methodist Ministerial Association met in the parlour of Sydenham Street Methodist church, on Monday morning. There was a good attendance and an address was given by Rev. S. Selley, M.A., on "The Orthodox Theory of the Atonement." In his introduction he referred to the authorities of some skeptical writers, on certain theories of the atonement, which have prevailed. He presented what might be termed the "evangelical theory" as orthodox in Methodist circles. It maintains that God's justice must be vindicated (since man had sinned), by some one suffering for the guilty, if man was to be forgiven; that while Christ did not suffer an exact equivalent, He honored the law. This seemed in harmony with isolated texts from St. Paul's writings, but Mr. Selley, hesitated to say that the theory satisfied the minds of the present generation, or even his own. A very interesting discussion followed in which several took part.

Rev. C. J. J. Bates spoke of the Japanese familiarity with the fact of self-sacrifice. It is in perfect harmony with Japanese thought that a man should give himself for others, but the Japanese would not appreciate the legal aspect of the atonement. Three quarters of the Japanese believe in salvation by faith—that is through the help of another, who lived and died long ages ago for them. Mr. Selley closed the discussion. He was pleased to have the orthodox theory so clearly presented. It cannot be a vision out of the past, and showed as how unreasonable to liken God's government to man's government. In harmony with the Master's teaching men are realizing, the relation is between the father and his children, rather than between the king and his subjects. "God was in Christ reconciling the world unto Himself."

ENCOURAGING REPORTS
Received at Meeting of Directors of Y.M.C.A. The monthly meeting of the board of directors of the Y.M.C.A. was held on Monday evening at 6:30 o'clock, when a vote was served. The following members and officers were present: President, W. G. Anglin, Elmer Davis, G. H. Hagan, Oliver Chown, William Gill, F. W. Lockett, George Batesman, E. P. Jenkin, C. C. Nash, Frank Partridge, H. G. Laidlaw, E. P. Harrison, R. E. Sparks, G. E. Birch, E. B. Nelke, J. J. Thompson and W. E. Manhard. The general secretary's report was read by R. B. Nelles and the present year shows a marked increase in every department. The physical department, religious department and lay work have more than doubled in attendance in the past year. The membership is largely increased and the whole tone of the work is a hundred per cent. better. With very few exceptions the subscribers have responded promptly and in some cases increased their giving. The reports of J. J. Thompson and W. E. Manhard, for the physical and boys work respectively, were excellent. A new heating apparatus was decided on for the swimming pool so that the members are assured of abundance of hot water for bathing in the pool. Minor improvements were decided on. The year will close promptly on time this year. New canned goods, corn, peas, tomatoes, pumpkin, beans, plums, pineapples, etc., etc., at Gilbert's stores. A boy doesn't learn to swim in his mother's fault.

A Christmas Present

Which Brings Happiness To Family And Friends For Many Years To Come

There is no entertainer like the Victor
Whether a few friends stop in, or you invite a whole house full of company, or whether you are all alone in the evening, the Victor is just the entertainer you need. It brings to you the magnificent voices of the greatest operatic stars, the stirring music of celebrated bands and orchestras, the finest dance music, solos and duets on your favorite instrument, beautiful sacred music, the latest song hits, musical shows—the best entertainment of every kind by the world's best talent. You can get a Victor gramophone for as little as \$15—other styles from \$25 to \$50. Easy terms if desired.

Victor Records Better Than Ever
They are smoother, clearer, more durable and absolutely uniform.

New Records Every Month
In addition to over 2000 selections embracing everything in the world of music. Ask any Victor Record Dealer to play the New Victor Records for you. Write for complete catalogue.

Just a Ramble Through the Screen-Room, Madam

Supposing you were at Keewatin, Mistress Housewife. The home of FIVE ROSES flour, which you know so well. Let's step into the "screen house" awhile, purely for feminine curiosity's sake.

That row over there of smooth-running, humming machinery is what they call "Separators." Though both our eyes are mighty good, the farmer always manages somehow to smuggle in a little dirt at wheat prices. In fact, a little of everything found on a farm. If that got into your flour, Mistress Housewife, wouldn't you just make a fuss over FIVE ROSES? When the golden berries hurry in from the western elevators, they promptly get a formal introduction to the "Separators" whose acquaintance you have just made. Here, as the Good Book says, is winnowed wheat from the chaff. Farm friendships are sundared between the good kernels and the cockle seeds, the mud balls, stones and sand. You couldn't bear to think of such in your flour. Nor do we for FIVE ROSES is your flour, Madam. Besides this, there's another separation. As to size of grains.

Between "brother" grains, Madam. The big berries go one way, the little fellows another. It's easier to handle the wheat this way—clean the kernels separately. So that even the least impurity cannot insinuate its unwelcome personality into FIVE ROSES excellence. And it doesn't. When the berries leave the "screen room," you couldn't discover a pinhead of foreign substance. Not even with a microscope glued to the peering piercing eye of the most particularly particular. There issues nothing but the plump, sun-ripened wheat grains, the pick of the Manitoba harvest. Buy any flour you like; pay any price you like. That's your privilege, Madam. But you know NOW that there is one flour milled that is pure, and wholesome, and healthy—under the FIVE ROSES label. Which you don't know of any other. May we venture a guess as to which YOU will buy?

OXO
is the perfect fluid beef—the crowning achievement of the Company that originated concentrated beef extracts more than forty years ago.

Try it to-day—then you will use it all the winter.

Duchess COMBINATIONS
—Corset Covers and Drawers
—Corset Covers and Petticoats

are luxuries for every woman who wants daintiness and comfort. They do away with all fullness around the waist and over the hips—improve the figure—and make gowns fit better. In fine cotton, nainsook and bar check muslins.—\$1.25 up.

Every "Duchess" garment is guaranteed by the makers as well as the dealers. If you can't obtain "Duchess" Combinations, Kimonos, Waists etc. at your dealer's, write us.

DUNLAP MANUFACTURING CO., MONTREAL 10
