### ASK FOR DREDGING AT WOLFE ISLAND FOR COAL BOATS.

Hon. Mr. Pugsley Promises to Consider the Matter, if the Wharf is Open to the People of the Island Without Charge.

Mr. Edwards—I want to call the minister's attention to the fact that while the wharf is being expended on wharves and breakwaters along the coasts of the maritime provinces, some expenditures are necessary on the island waters. I have had occasion to refer to the need of a little dredging near Wolfe Island. The people there build their own wharves, but in the latter part of last session I informed the minister that an expenditure of \$150 or \$200 in dredging would enable vessels to land coal on the island, whereas otherwise the people would be obliged to land their coal on the ice near Kingston. This would mean a saving of fifty or sixty cents a ton on all the coal used on Wolfe Island. I simply want to draw attention to that. The honorable minister said last session that it was too late to consider the matter and he would call his attention to it before it is too late. This is a matter of great importance to the people there, and while we are making these large expenditures down by the sea, we should not forget the people living along the lakes.

Mr. Pugsley—The honorable gentleman is speaking of dredging required at Wolfe Island. The result of the inquiry I made is that this is a private wharf, owned by a company, and the business down there is the business of this company, and the work would not be properly regarded as work for the general benefit of the public.

Mr. Edwards—The wharf, I believe, was constructed by private parties who were living on the island, but it is used by the general public without charge. I can only repeat that the dredging would result in great and general benefit to the people on that island inasmuch as it would enable coal vessels to land cargoes there, and the people would then get their coal at 60 cents to 70 cents a ton less.

Mr. Pugsley—If the honorable gentleman would write me a letter stating the number of people accommodated by that wharf and mentioning the fact that the wharf is open to public use without charge, I shall be glad to take a note of it for further consideration.

Mr. Edwards—The population is some 1,200.

### MUST ATTEND SCHOOL. Parents Were Charged Before Police Magistrate.

In the police court on Saturday morning, two citizens were charged with neglecting to send their children to school. In one case it was found that the child had been attending a country school, unknown to the authorities, and had the father explained this, the would have been saved the trouble of coming to the police court.

The other citizen was told by the magistrate that he must send his child to school. The magistrate explained that the parents would have to step in and send their children to an industrial school, where they would be taken care of, if allowed to grow up without an education, they would turn out to be vagrants, and the responsibility would rest on the parents.

### HOTELMAN WAS INFORMER. Did Not Know Man Was "Indian" He Sold to.

A rather unusual case, dealing with the "prohibited list" will come up before Magistrate Farrell, in a few days. It is claimed that a member of the "prohibited list" was sold to a hotelman, but that the hotelman was not aware of the fact that the man was an "Indian" until after the sale had been made. It is stated that the hotelman Inspector Wright the circumstances, and the inspector then offered to have a summons issued for the man on the list. Just what action will be taken in the case, is awaited with a good deal of interest.

### Boys' Cruelty To Dogs.

Within a year or two the habit has grown of harnessing dogs to small wagons and sleds, for use as play toys for boys. It is not discouraged, but in a number of cases it has degenerated to heartless cruelty. Some of the leads are too heavy for the animals and they are beaten and abused by their young masters. A boy took the distinction of age and experience and can be very cruel to dumb beasts. The police heard of a case of cruelty to a dog occurring near the G.T.R. Depot school, and are investigating on behalf of the Humane Society, which in view of the abuse the lad has given these creatures, is desirous to show a lesson in humanity as well as courtesy. Boys must not be taught that even if dogs are their own, they cannot use them as they like. The law protects them.

John Stewart Kennedy's magnificent bequest to religion, education and philanthropy places him at once in the front rank of private benefactors. His thirty millions compare favorably with the outpouring of a Rockefeller or a Carnegie, even when we take into account the charities of his lifetime. Mr. Kennedy gave quietly while he was alive, and probably kept back his final vast gifts because it is impossible to give away such a fortune and do it quietly. Thereby, it is true, he lost the chance of seeing his name in the newspapers every day and playing the unquoted cards on every conceivable topic of the times. We do not say that a taste for such things is reprehensible. Possibly a man does well to bestow his benefactions while he is still on the spot to see that the right use is made of them. But it is impossible not to admire the older traditions which looked upon charity as a business in-
