EXPECTED A STRIKE

STEEL TRUSTS PLAN TO HOLD ITS MEN.

Encouraged Them to Invest in Stock of the Corporation—Forty Thousand Workmen Draw Dividends Regularly.

Pittsburg, Pa., Dec. 16.—Following close on the declaration of war made by the heads of organized labor against the United States Steel corporation, there were some important conferences in the Pittsburgh offices of the corporation. It is admitted that Pittsburg, with its thousands of workmen, will be the battle ground, if a battle there is to be. The 40,000 workmen of the corporation who hold stock and draw dividends regularly from the profits of the corporation are looked to stand true to the corporation.

A statement by an official of the steel corporation is considered by the union as an official acceptance of the union's declaration of war:

"When we suggested that the employees purchase the stock of the corporation we wanted to make them good, faithful employees, and to cause them to take an interest in their work and feel that they were not only a working but a financial part of a great corporation. We know that we have accomplished this. We feared that at some time, as is the case in all large successful corporations, some dissatisfied persons would try to inaugurate a strike."

"Practically every frugal man in the employ of the corporation is the owner of several shares of stock, 'buy' are accumulating more and more each day. They believe in the corporation, and they will not leave it."

The Late Miss B. Doran. Miss Bridget Doran passed away early on Thursday morning, at the family residence, 64 Barrie street, after a two months' illness. The deceased was a daughter of the late Daniel Doran, and had been a resident of the city for the past six years. The late Miss Doran had been in poor health for some time, and for the past two months had been confined to her room. The deceased was well known in the city, and by her cheery, kind personality, had made many friends, who, today, mourn her loss. One brother, P. J. Doran; two nieces, Miss A. Dwyer and Miss Maisie Dwyer, are left to mourn her loss. The funeral will be held on Saturday morning. The deceased was a member of all the church societies, of the Victorian Order of Nurses, and the National Women's Council.

Board of Education Matters.

At the meeting of the board of education management committee on Wednesday evening, the re-opening of the Collegiate Institute gymnasium was considered. The building has not yet been handed over, so the master was allowed to stand over. The committee considered the case of the collegiate boy, who was alleged to have been thrown downstairs by a teacher, and will report to the board upon the incident. It will be necessary to have a special meeting of the board before the close of the year, as several matters have to receive its attention to succeed H. H. May, at the Collegiate Institute.

CAREER OF A DESERTER.

Ran Away From Home at Age of Twelve.

London Daily Mail.

After the absence of forty years, John Peck, a native of Nottingham, returned to England recently and discovered that he was still liable to be arrested for having deserted from his regiment in 1896. His career, however, has been so remarkable that when the facts were related the war office not only granted him a free pardon, but a pension as well.

Peck ran away from home at the age of twelve and went to sea. He subsequently joined the army and served in the Crimea. After peace was declared he got transferred to another regiment and was ordered out to India, where he went through the mutiny. Later he quarreled with an officer and deserted.

He had a hard time as a South African diamond prospector, but whenever a chance of fighting occurred he always embraced it, and so he served against the Basutos, the Zulus and the Boers. His relatives had not heard of him for fifty-three years, when he recently reappeared. He is now seventy-two years of age, and is bent on going back to South Africa to find work in the mines.

CREW ARE MAROONED

MEN OF STEAMER THREE DAYS WITHOUT FOOD.

Vessel a Total Loss—Ran on Outer Duck Island in Snowstorms—Heavy Seas Prevented Help From Manitoulin.

Little Current, Ont., Dec. 16.—The new steel steamer Wissahickon, of the Anchor Line, ran on the Outer Duck Island, Lake Huron, Sunday night, in an eastern gale and blinding snowstorm. The lower decks and stern of the steamer are submerged, and all supplies are cut off from the crew, who have had no food since Sunday night. Heavy seas prevented crossing from the Ducks to the Manitoulin, twelve miles, until yesterday, when two fishermen succeeded in reaching the island, where the steamer is, by a small gasoline launch and brought off. First Mate J. H. Cassey and Engineer John Erskine. Tugs are being sent out from the Soo for the rest of the crew, thirty-two, men in all.

All are safe on the island, but have suffered severely in the extreme weather and from lack of food. Cassey and Erskine had to walk eight miles through snow and water to Fernilee, the nearest telephone on the Manitoulin Island. The Wissahickon was bound from Buffalo to Duluth with four thousand tons of general merchandise, valued at \$700,000. The vessel was only two years old and will be a total wreck.
