Montreal, Jan. 20.—The secretary of the Montreal Branch of the Canadian Manufacturers' Association, Dakors Cameron, who has held that office for the past five years, resigned the office, to-day, to accept a position with a local business firm.

Judgment was handed down, this morning, in the superior court, where by Albert St. P. Martin obtained a decision against the city, which will allow him to file nomination papers without depositing \$22,000 which was demanded by the clerk of the city.

Justice Davidson rendered the decision in favor of Mr. Martin, and the papers were afterwards accepted without the deposit being made. Nominations took place in Montreal to-day, Dr. J. J. CARNEGIE HERO AWARDS.

Two Nova Scotians and an Editor Included.

Pittsburg, Pa., Jan. 20.—A newspaperman with a comfortable income, a bank account and no debts was unceremoniously killed by the Carnegie hero fund commission. This became public when the commission announced that seventeen heroes had been added to the list. George F. Burba, Dayton, Ohio, is the lucky newspaperman, who, under rare difficulties, rescued Catherine Murty, twelve years old, from drowning at Snyderville, Ohio, on April 12th last. Mr. Burba is editor of the Dayton Daily News. The only way in which the commission could recognize his act was to award a bronze medal.

Five silver and twelve bronze medals were awarded and about \$19,000 in money. The acts of heroism cover rescue from drowning, electrocution, train, fire and suffocation.

John A. Grady of East Baltic, P. E. I., and Duncan J. Campbell, Campbell's Cove, P.E.I., receive bronze medals and small cash awards for rescuing three foreigners from a ship that had broken its back on a reef in the Gulf of St. Lawrence at Priests' Pond in November, 1906.

GRAFTED \$4,000.

What a Mining Engineer Tells in Court.

Detroit, Jan. 20.—That he assisted the late Sigmund Rothschild, tobacco millionaire, to graft \$4,000 from the Canadian Klondyke company and that the money eventually came out of the Guggenheim Exploration company, of which Senator Guggenheim, of Colorado, is the head, was the testimony of James M. Elmer, a mining engineer in a suit against the Canadian Klondyke company, in Judge Murlin's court, yesterday. Elmer is suing for \$1,666, alleged to be due him in salary from the company. Elmer said Sigmund Rothschild told him to buy two dredges worth \$80,000 for the company and to charge the company with \$4,000 extra. Rothschild owed Elmer \$4,000 and told him to take that \$4,000 in payment. Elmer said the \$4,000 came out of the Guggenheim concern against which the charge was levied later.

THE HALLS OF QUEEN'S.

Soft Weather Affects Style of Hockey Play.

By Our Queen's Correspondent.

Inability to shoot, together with an almost total absence of combination play, for which perhaps a heavy snow bearing a burden of superfluous snow was largely responsible, characterized the final workout of Queen's senior hockey team at high noon, to-day, as preparatory to the momentous clash with 'Varsity at the covered rink, Friday evening. The weather man offers every assurance of rain for the morning. However, no such note as that pessimistic prognostic in the camp of the Presbyterians. The existence of inclement atmospheric conditions necessitates that the individual style of play be resorted to and in this department Queen's is exceptionally strong with a quartette as Campbell, Crawford, Dobson and George on the forward line. Gilbert will guard the nets and will, probably, be assisted on the defence by Trimble at cover and Mackenzie at point. Trimble is the find of the season and will undoubtedly fill the position vacated by 'Aby' Pennock.

R. MacTavish, A. D. Anderson, A. Wilson and J. Robinson, Queen's representatives at the Rochester students' convention, addressed the Y.M.C.A. meeting this afternoon.

Prof. McClement will speak before year 11 arts regarding a memorial, Friday afternoon.

C. B. McKee, of Calgary, president of the Canadian Teachers' Association, wishes to meet with any Queen's students desiring to teach in the west during the coming summer months. Mr. McKee is at 346 University avenue between the hours of three and six, and seven and eight o'clock, Thursday and Friday.

FREE TRADE REMINISCENCE.

How That Policy Carried North Essex.

Ottawa, Jan. 20.—The new member for North Essex, Oliver J. Wilcox, in his maiden speech in the house, gave some interesting reminiscences of other days in that constituency.

Among them was the story of Mr. McGregor, the liberal candidate in 1896, who made his campaign on an absolutely free trade policy. He called upon the people to rise in their might and drive these the custom officers stationed along the Detroit river. The day after the liberal victory in 1896 many of the electors who had listened to Mr. McGregor's free trade speeches and had probably voted for him, journeyed to Detroit and returned heavily laden with purchases. They flatly refused to pay a cent of duty. Their free trade cause had won, was their answer.

To crown all this the same Mr. McGregor was later himself appointed a custom official, and reshaped the job enough to take it.

THE LATEST RETURNS.

The Unionists Have Been Making Gains.

London, Jan. 20.—At three o'clock, this afternoon, the returns received yesterday's voting showed the unionists had gained ten county seats in England, one in Scotland, and one in Wales. The reports showed no liberal gains, but the nationalists have won College Green, Dublin, from the unionists. The parties at this hour stand: Unionists, 158; liberals, 132; laborites, 25; nationalists, 50.

Voting is taking place, to-day, in forty-seven districts; thirty-six of these are in the country and the results will not be known until to-morrow.

An Anarchist Community.

There is an anarchist community in Belgium near Brussels which has managed to endure for four years on a co-operative basis. It was begun by Emile Chapelier. The community has for its motto, "Neither God nor law," every member is supposed to be the sole judge of his own conduct. No one has anything he can call his "own," not even his wife or children. Love is recognized, but it is the platonic and impersonal love of "brotherhood." Chapelier does not preach violence for the present, he has no doubt that some day society will forcibly appropriate all private property for its common benefit, but thinks that it will take years of propaganda before this will come about. The name of his colony is Esperance, and his object is to prove to the world that anarchists are not as bad as they are painted and that they "have neither horns nor cloven hoofs."

The New York Central railway has notified the employees' organization that its requests for radical increases in pay have been considered and that it is impossible to grant the demand as they are excessive in character. NOT SO MUCH HAY

SHIPPED FROM WOLFE ISLAND AS BEFORE.

Farmers Go Largely Into Dairying—Coming Social Events—Robert Boyd and Miss Mary Moran Wedded.

Wolfe Island, Jan. 20.—Now that crossing is good business, quite a quantity of both loose and pressed hay is on the move, but there will not be nearly as much of the above commodity shipped to market as in former years for the crop last year was not an abundant one and many farmers have gone largely into dairying and thus feed the produce on the farm. Farmers realize on the market for loose hay from \$12 to \$15 a ton. Butchers appear to be on the alert for fat cattle as the price for the latter seems to be soaring. A very few are to be found. Some of the oldest farmers state they never remember pork to be so high as at present.

A new bakery has been started in the village and bread is being sold at Kingston prices. All kinds of pastry are being sold and bread seems to be on the increase. It is a good sign the islanders as sometimes bread is impossible to be had at any price.

The hockey club is to be commended for the enterprise it has shown in having a first-class skating rink on the island. The rink is well lighted and has a cosy dressing room. The rink is being well patronized and the venture will prove successful. The hockey club played its first match in Kingston on the Palace rink on Saturday. The former club held its annual dance last night in the C.M.B.A. hall. A good sum was realized. The next in order is the C.M.B.A. annual ball which takes place on the 26. The committee is sparing no pains to make it a success.

The masquerade, which everybody enjoys, takes place on the 28th. On Feb. 2nd the A.O.U.W. will hold its annual ball and on Feb. 7th last but not least, the sailors' ball will be held. The Epworth League concert, recently held in the C.M.B.A. hall, was a decided success. It realized the handsome sum of \$70.

Collector Davis has collected over \$8,000 of taxes so far.

On Tuesday morning a wedding took place in the Church of the Sacred Heart, the contracting parties being Miss Mary, the accomplished daughter of James Moran, J.P., and Robert Boyd. The ceremony was performed by Rev. Father Spratt. The bride was attended by her cousin, Miss Mollie McGlynn, and the groomsmen were Daniel Lacey. The winsome bride looked charming in a suit of blue broadcloth with watered silk trimmings, hat to match and carried a costly bouquet of white carnations. The bridemaid was attired in a suit of maroon, with black hat and ostrich plumes. After the ceremony the bridal party drove to the home of the bride's father, where dinner was partaken of by a few of their intimate friends. The bride was the recipient of a large number of presents, which testified to the high esteem in which she is held. They will take up residence in the new home on the farm which the groom recently purchased, and will be at home to their friends after February 1st.

TO CORRECT CRIMINALS.

Surgery Found to be Beneficial at Sing Sing.

That proper medical attention can do more to reform some convicts than prisons is the argument put forth by Henry Solomon of the State Prison Commission. In his report of inspection of Sing Sing prison at Ossining, and also of several police precinct station houses in New York city recently.

Commissioner Solomon says that Sing Sing's hospital department under Dr. Lettice has been materially improved and that the use of particularly the case in regard to the prisoners' surgical department. He points out now that the prison should provide the surgeon with adequate modern appliances for conducting necessary operations and also give him the assistance of a physician and a trained nurse. Commissioner Solomon says a serious trouble in State prisons is that ample attention has not been paid to diseases among convicts amenable to modern surgery. Unfortunately have been released from prison with physical imperfections continuing to set as a handicap in their struggle for a livelihood.

TO SETTLE CLAIMS.

An Insurance Policy is Now Available For It.

Windsor, Ont., Jan. 20.—Judge McHugh is preparing to disburse the proceeds of a \$20,000 insurance policy, in accordance with an arrangement made by Morris Hickey, a former well known business man. Hickey failed in the butcher business in Windsor, and was unable to meet liabilities of more than \$10,000. He left Windsor to go into business elsewhere and later without the knowledge of his creditors wrote to Judge McHugh, later assigning a \$20,000 insurance policy and instructing him to hold it for his creditors' protection. The policy was filed away until Hickey's death which has just occurred in St. Louis. It is expected the proceeds will be more than enough to settle with all the Windsor creditors.
