

# HOW TO MAKE MONEY

## Another Crown Reserve Money Maker

### CANADIAN CENTRAL MINES, LIMITED

The Canadian Central Mines, Limited, is an organization having a capital stock of \$1,000,000, divided into one million shares of \$1 each. Of this, 525,000 shares have been issued, leaving 475,000 shares in the treasury for the future use of the company.

The Company is now operating twenty-eight producing oil wells in the Tilbury district. This is about ten miles the other side of Chatham. These twenty-eight wells have over fourteen miles of pipe in them. The wells vary in depth from 1,390 feet to 1,465 feet. It is an established fact that this field is no temporary one. The twenty-eighth well was drilled in last Friday. It is a bonanza. It has produced 390 barrels of oil by natural flow (without pumping and without having been "shot") during the last six days. We personally inspected this well yesterday (Friday, the 28th), and found it looking better than ever. It flowed 23 barrels Thursday night, and was coming out of a two-inch pipe at a lively rate at the time of our inspection yesterday morning. The drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will be at work during the next ten days. It is the object of the Company to have 50 wells in operation by August. This will mean a tremendous income. We take the following figures as a basis for our calculations. They are for the production of ten of the twenty-eight wells for the period as shown. This statement is signed by the Supervisor of Bounties for the Dominion Government, as the Dominion Government pays 1 1/2 cents per gallon for every gallon of crude petroleum produced as a bounty, to encourage home industry.

1906.		1908.	
June	15,207 gallons	January	13,502 gallons
July	42,776 gallons	February	10,190 gallons
August	51,293 gallons	March	8,252 gallons
September	45,886 gallons	April	8,186 gallons
October	73,844 gallons	May and June	20,117 gallons
November	41,035 gallons	July	13,048 gallons
December	119,933 gallons	August	12,180 gallons
		September	29,459 gallons
		October	28,265 gallons
		November	18,336 gallons
		December	18,336 gallons
1907.		1909.	
January	74,212 gallons	January	9,453 gallons
February	57,748 gallons	February	12,161 gallons
March	79,468 gallons	March	29,204 gallons
April	62,175 gallons		
May	43,449 gallons		
June	70,931 gallons		
July	61,605 gallons		
August	40,938 gallons		
September	28,330 gallons		
October	29,681 gallons		
November	12,648 gallons		
December	13,136 gallons		

#### STATEMENT BY ACME OIL COMPANY.

April	24,143 gallons	August	29,195 gallons
May	36,427 gallons	September	22,986 gallons
June	59,094 gallons	October	16,291 gallons
July	24,064 gallons		
			1,431,790 gallons
			40,908 2-7
			\$66 475.97

#### ESTIMATE ON FOREGOING.

Ten wells average \$6,647.58 per well to date and are still producing about 40 bbls. daily. 390 acres, with one well to five acres. 78 wells at \$6,647.58. Cost of wells, \$2,300 each. \$339,121.24

Wells now in operation are expected to produce as much more oil as they have already produced in less than three years. Thus basing estimate on that basis, the receipts should double, or from 78 wells, after deducting cost of same, we should have \$678,242.48 value in oil.

The estimate is based on this actual production, and can be verified at any time. The stock is now selling at 75c per share, but will be advanced to \$1 per share in a short time. We recommend its purchase as a money-maker.

The Company not only owns these properties, but has ten good silver prospects in the Gowganda region on which all the Government work has been done and development is being conservatively advanced on one of the Company's claims known as MR. 2471.

The Company's object is not in any one branch of mining, but is a general development plan of mining propositions. It is being operated on conservative lines.

### Y. P. S. C. E. RALLY

FINE GATHERING HELD IN COOKE'S CHURCH.

Rev. C. J. L. Bates Delivered Fine Address, Dealing With Work in Japan—Calvary Church Won Banner for the Best Attendance of Members at Rally.

There was a good attendance at the rally of the Young People's Societies, of the local union, held on Monday night, in Cooke's church. H. W. Newman, the president, occupied the chair, and Rev. C. A. Sykes conducted the devotional exercises.

After the business part of the meeting was concluded, the members listened to a fine address, delivered by Rev. C. J. L. Bates, who has been engaged in missionary work in Japan. The banner, presented each year, to the society having the best attendance at the rally, was, this year, awarded to the society at Calvary church, in a very keen competition. Last year, the banner was won by Brock Street society.

In a brief address, at the opening of the meeting, Mr. Newman referred to the forming of the local union of the different societies, twenty years ago, and referred to its usefulness. He paid a warm tribute to the work of the executive of 1909. During last year executive the union had undertaken the question of the early closing of the stores on Saturday night, and although the early closing had not been brought about, it has awakened interest, and there was now a tendency towards shorter hours for the clerks, and he felt sure that good would follow. The president also took occasion to thank the city pastors for their kind assistance, in the work of the union.

Arthur Craig favored with a fine solo, at the close of the president's remarks. Then followed reports of the secretary and the treasurer, and both were of a most encouraging nature. The year was reported as a most successful one, with the organization strong and vigorous. The treasurer reported a balance on hand of \$21.11. The organist, Mr. Aiken, gave an encouraging statement. All the reports were adopted.

After the reports the Princess street quartette favored with a fine selection, and afterwards, there was the roll call of the different societies, when the attendance of the different societies was reported.

### THE CITY COUNCIL

REDUCED LIQUOR LICENSES AND LAUNDRY TAX.

Ald. Carson Wants Water Tower Covered—Ald. Armstrong Thinks That City Should not Have to Buy Sydenham Lane.

The city council had a two-hour session last evening. One-third of the time was occupied over very minor matters. There was cordial agreement upon the important questions before the meeting. The tavern liquor licenses were ordered reduced from twenty-eight to twenty-five, and the laundry tax was reduced from fifty to twenty-five dollars.

In attendance at the meeting were: Mayor Couper, and Alds. Armstrong, Bailey, Carson, Craig, Clugston, Elliott, Givens, Graham, Hauser, Hart, Harrison, Hoag, Kent, McAnn, McCarthy, McCarthy, McKay, Rigney, Robertson.

These communications were referred to committees: Percy D. Lyman, secretary Kingston Poultry, Pigeon and Pet Stock Association, asking for a grant of \$40. William Aird, asking remission of income tax. Alexander Laird, president Children's Aid Society, asking for a grant of \$100.

Ontario Municipal Association, re-establishing of institutions for care of indigent consumptives. J. E. Clark, auditor, Catarauqui Bridge company, submitting statement for year 1909.

Donald Guthrie, inspector registry office, re lack of accommodation in city registry office. E. J. Reid, secretary Board of Trade, re building statistics. Robert E. Wilson, applying for position of plumbing inspector.

### A MOTHER'S ANXIOUS TIME.

Promptness Saved her Child

"My daughter was in the last term of her High school when I noticed that her little cough had been hanging on, even in spite of the warm weather. Looking at her anxiously, for a few days she grew pale and a lot thinner. It seemed as though I hadn't noticed it all long ago, but, yes, I noticed it long before, but I was so busy that I was not watching her. What an awful risk for parents to take! Of course, I didn't tell her how anxious I was, but I watched the effect of Ferrozene with the utmost anxiety. My girl seemed to slow to improve, and the first two weeks seemed like a year. By this time not even the first box of Ferrozene had been used up, still she had greatly improved appetite, and her progress after that was splendid. When the weather improved, she walked a lot and gained steadily in vigor and weight. The hacking cough disappeared, and with it every trace of weakness. I know of no tonic so nourishing, strength-giving, so beneficial for growing girls, as 'Ferrozene'.

Not only for girls, but for all who are weak, tired, pale, run down and in depressed spirits—there is no more certain way to win back vigorous health so speedily than by taking 'Ferrozene'.

It is a well known fact that fortunes accumulated by wealthy people have not been made by allowing money to draw 3 per cent. They have placed various sums in what might be termed gilt-edge speculations. By this we mean investments that have a solid basis of worth, ones which cannot possibly under any circumstances lose all the money invested, this being the first factor. The next thing considered was the choice amongst this class of security for the one which would afford the greatest profit per dollar invested. The largest fortunes have been made by investments in

Gold Mining, Silver Mining, Copper Mining, Oil Producing, Real Estate, Manufacturing, Patents

There are dozens of propositions submitted to investors constantly in each of these lines. More than three-quarters of them, however, lack the essential fact of having a solid base to start from.

### THE CITY COUNCIL

REDUCED LIQUOR LICENSES AND LAUNDRY TAX.

Ald. Carson Wants Water Tower Covered—Ald. Armstrong Thinks That City Should not Have to Buy Sydenham Lane.

The board of works recommended the acceptance of the following tenders for supplies required for the year, the said tenders being the lowest: Grates, F. Tracy; hardware, J. Corbett; lumber, S. Anglin & Co.; rubble stone, Edward McFadden. Adopted.

Ald. Harrison suggested to the fire committee that red lights be placed over the fire alarm boxes, so that they could be seen at night. It was found very difficult to locate the boxes in cases of fire. Ald. Hoag, said that last Saturday night, it was ten minutes before an alarm could be sent in from the corner of Alfred and Elm streets, as the people didn't know where the fire telegraph box was.

Ald. Graham objected to the purchase of twelve smoke protectors recommended among other things by the fire committee. He didn't think that number were needed. A halt should be called to the way the fire department was being conducted. He understood that \$20,000 was wanted for it this year.

Ald. Carson said that the smoke protectors were needed, and he would hold up both hands for them. He knew from experience the value of them.

The Finance Report. The finance committee made these recommendations: That the account of the Grand Trunk Railway company for the city's share of the land in connection with the subway, amounting to \$168.92, be paid.

### THE CITY COUNCIL

REDUCED LIQUOR LICENSES AND LAUNDRY TAX.

Ald. Carson Wants Water Tower Covered—Ald. Armstrong Thinks That City Should not Have to Buy Sydenham Lane.

Other Business. Ald. Givens presented for a first reading a by-law regarding the fixing of limits for pigeries in the city. By-laws were passed amending the laundry by-law and to reduce the tavern liquor licenses from 28 to 25.

Ald. Elliott suggested that the matter be referred to the waterworks committee. Ald. Carson followed the suggestion and the question goes to Ald. Craig's committee.

Ald. Armstrong moved that the city solicitor be instructed to report as to whether the original deed granting the land between Johnston and Brock streets to the Roman Catholic Episcopal corporation did not contain a clause reserving a street allowance where Sydenham street is to be extended. Ald. Armstrong said he understood it did. He wanted a report on the matter because the city might be saved \$5,000 on the purchase of the street land if it is now buying. His motion was adopted.

The Portrait. Oscar Hammett, at a studio ten in New York, told a story about a beautiful young woman who is a famous portrait painter.

Waterworks' Intake Pipe. Ald. Kent asked Ald. Craig what was being done in regard to the waterworks intake pipe in view of the water supply being reported contaminated.

### THE CITY COUNCIL

REDUCED LIQUOR LICENSES AND LAUNDRY TAX.

Ald. Carson Wants Water Tower Covered—Ald. Armstrong Thinks That City Should not Have to Buy Sydenham Lane.

Ald. Craig said the tank was cleaned out regularly. It was last cleaned in October, and very little sediment was found. The tank interior was also painted.

Ald. Graham held that a covering over the water tank would only draw all kinds of birds to the place. The discussion ended when Ald. Carson said he would bring in a motion later on.

Ald. Givens presented for a first reading a by-law regarding the fixing of limits for pigeries in the city. By-laws were passed amending the laundry by-law and to reduce the tavern liquor licenses from 28 to 25.

Ald. Armstrong moved that the city solicitor be instructed to report as to whether the original deed granting the land between Johnston and Brock streets to the Roman Catholic Episcopal corporation did not contain a clause reserving a street allowance where Sydenham street is to be extended.

The Portrait. Oscar Hammett, at a studio ten in New York, told a story about a beautiful young woman who is a famous portrait painter.

### COBALT

We recommend the purchase of Cobalt Lake, Little Nipissing, Beaver and Temiskaming for higher prices. We have constantly called your attention to the slight, but sure, advance in Cobalt Lake and Little Nipissing. You can make money by getting into these now. La Rose should sell around \$4 per share. Kerr Lake will advance again. The Cobalt camp shipped 15 per cent. of the world's entire silver output last year. Right-of-Way has struck another good vein. This stock should be bought around the present price of 70c per share. The next dividend is almost due.

### NEW YORK MARKETS

Splendid opportunities are constantly afforded clients for making money quickly in New York stocks. Conservatism must be exercised. We advise the sale of May wheat. We are constantly watching the New York market for opportunities for money making. If you will open an account with us from \$500.00 upwards, we can show you substantial profits from month to month, and we will not overload any account with more than that account can stand. By this we mean keeping in reserve sufficient money to protect all transactions.

### UNITED TYPEWRITER CO., LTD.

"NO MATTER WHAT TYPEWRITER YOU USE IS THE UNDERWOOD." THIS PREDICTION HAS BEEN FILLED IN THOUSANDS OF CASES.

### PIMPLES

"I tried all kinds of blood remedies, which failed to do me any good, but I have found the right thing at last. My face was full of pimples and black heads. After taking 'Cacorets' they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend 'Cacorets'." Fred G. Whitten 76 Elm St., Newark, N.J.

### NEVER WEAR SOILED KIDS

A mistake to go out anywhere with soiled-looking kid gloves. No need for it with our facilities for cleaning kids, both inside and outside.

### R. PARKER & CO.,

Dyers and Cleaners, 69 Princess St., Kingston, Ont.

### COOK'S COTTON ROOT COMPOUND

"I've got Ulcers on my legs, and my feet are so sore that I can't walk. I've tried everything, but nothing has done any good. I've heard of Cook's Cotton Root Compound, and I've bought it, and I've used it, and I'm all right now. I can walk and I can sleep. I'm so glad that I found this compound. I'm going to give it to my friends, and I'm going to tell them about it. I'm so glad that I found this compound. I'm going to give it to my friends, and I'm going to tell them about it."

### Wah Long's Laundry

Files Cured in 8 to 14 Days. Pain Dismissed—Guaranteed to cure.
