THE WHIG, 77th YEAR

DAILY BRITISH WHIG, published at 306-310 King Street, Kingston, Ontario, at \$6 per year. Editions at 2.30 and 4 o'clock p.m.

The British Whig Publishing Co., Ltd. EDW. J. B. PENNE, Managing Director.

TORONTO OFFICE. Suite 19 and 20, Queen City Chambers, 32 Church St., Toronto, H. E. Smallpeice, J. P., representative.

Daily Whig.

THE EVIL SHOULD GO.

Parliament, and its committee, should make short work of the schemes of men to protect the gambling that now accompanies the racing meetings. The evidence of men whose duty brings them into contact with the unfortunate victims of the gambling spirit should be regarded as conclusive.

The minister of agriculture gave some startling testimony when he said that on one occasion he came into contact, at the hotel of a progressive city, with the gamblers at a race meeting, and he would not have liked to meet them in the dark.

Why do the managers of the racing meetings ask for leniency or compromise? They do not base the success of the races upon what they will make from the bookmakers, surely? If in a single season Toronto's contribution to the gambling fraternity is \$9,000,000, there must be some awful work done at the races, and the marvel is that public opinion has so long tolerated it.

BOARD OF EDUCATION.

The board of education had its inaugural meeting for 1910 on Wednesday evening, and elected Dr. Richardson its chairman. The position carries with it honour and responsibility, and it will be occupied this year by one who has given considerable attention to educational matters.

The board will ask the Education Department to restore to the School Act the option clause by which it may proceed to business each year immediately after the council has selected its representatives. This option permitted the inaugural meeting about the middle of January, and a session at this early date was a very great advantage.

EDITORIAL NOTES.

The bankers who are now serving terms in the penitentiary, for various "irregularities," can tell how effective is bank inspection as it is now conducted.

COLONIAL NAVY YARDS.

Watson Griffin's idea, as expressed in the Canadian Century, is that the future of Britain depends upon her navy, and that it should be maintained by navy yards operated in England, Canada and Australia.

The experience of the United States and Spain is not forgotten. These nations were fairly matched, so far as tonnage is concerned, but the Spanish ships of war were outclassed, and they had but little show against the newer type of battleship.

What a waste of money this involves! Millions and millions of it in battleships and cruisers and submarines that will presently represent a past dispensation, its hopes and aims and ambitions.

yards are not established in a year or in two, and if the supremacy of the sea has to be settled in the next three or four years, according to some prophecy, Canada and Australia, by their yards, will hardly contribute to the fleet.

The alleged emergency of the day is the sole argument in favour of a money gift, and to the extent of a Dreadnought to Britain. But what about the later statements of the press, based on the confessions of political campaigners, that they worked the war scare to the utmost for political reasons.

HARD TIMES PREDICTED.

The strike of the people, and especially of the working classes, against the current cost of meat, may cause a temporary perturbation of business, but it will not amount to much. It will not bring about any radical or sustained change in the prices of food.

The current idea appears to be that there is something amiss somewhere, that some untoward agencies are at work against the people—and the people's interest, and that it must be fought, or resisted, or amended, or disposed of. Some think there is a scarcity of food. Others hold that the meat barons are putting on the screws.

The law of supply and demand probably regulates the situation. If the goods were abundant, and the market glutted, the prices would be low enough. There is no use in scolding the farmer because he wants all he can get for his crops.

The machinery of commerce developed by science has brought all the farmers of the world into direct competition. The ships which have been carrying out manufactured products have been bringing back food for the city workers, thus depriving the home farmer of some of the advantage of prosperity.

Students of economics have noticed the trend of events and written about them. They point to the fact that the cities and towns are being crowded, and that the growing population is not producing food. This tendency will increase and with results which are evident in the poverty and distress of the day.

The grafters in Montreal have suffered a complete rout. When the people undertake the work of purification they generally make a complete job of it.

The intercolonial railway under a commission seems to be a success. The surplus of the ten months—over \$600,000—is the best evidence of good management.

Mr. Studholme, Hamilton, labour member, acknowledges no leader or boss. He may be occasionally lonesome but he is chirpy and contented, and he is always doing something.

Mr. Hanna must not suppose that the three-fifths clause in the option law is less popular because the petitions regarding it are fewer. The

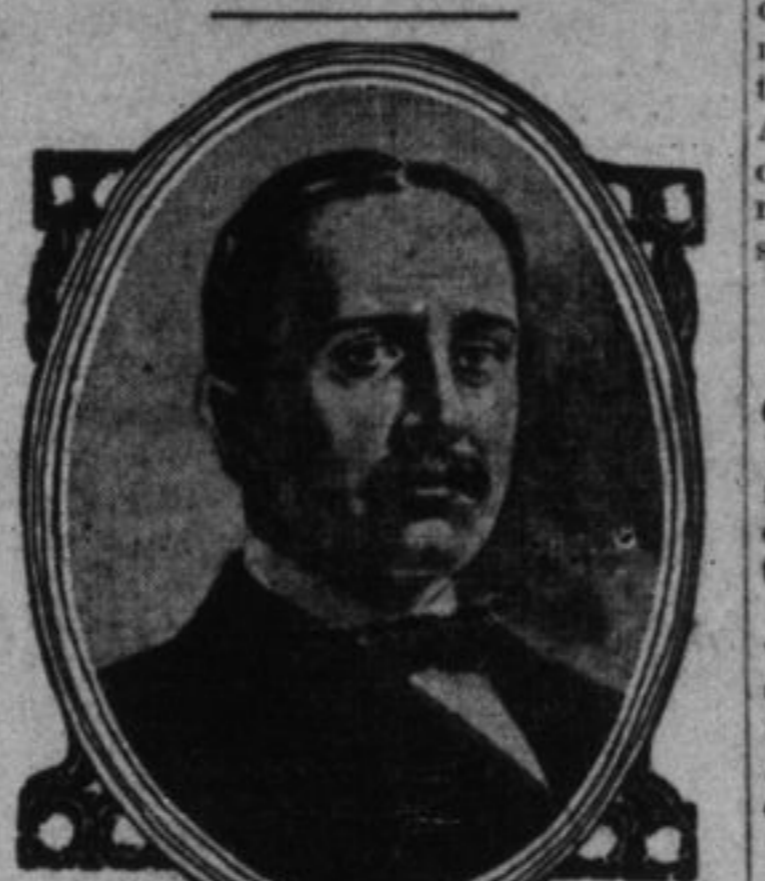

people are simply tired asking the government for what it has so tartly refused.

Col. Hughes, M.P., objects to Canada being called a nation when it is simply a part of the British dominions. It is a nation within an empire.

In the address of the lieutenant-governor of Ontario it is declared to be necessary that something should be done to correct the cost of living. But the matter comes "within the purview of the federal government and parliament."

Forty millions of dollars have been lost by shareholders in Canadian banks since 1865," announces the Ottawa Journal. A mighty good reason why there should be bank inspection from the outside, as Mr. McLeod, of the Bank of Nova Scotia, has recommended.

If the liberal leader of the opposition in Ontario had to stand the jibes of the leader of the opposition in the federal house, because he accepted a salary, he would be happier without it. Mr. Borden does not act like the ally or servant of the government, but that is the insinuation every little while.

J. OGDEN ARMSTRONG, Chicago, who is interested in the matter against whom several states have made strikes.

HAVE SOLD STEAMER.

The Davis Dry Dock company have just closed a contract with W. H. Argue, of Parry Sound, for the new seventy-six foot by sixteen foot passenger steamer which was launched last fall, and which is now being completed.

The machinery consists of one of the Davis water tube boilers, allowed a working pressure of 250 pounds a square inch and a fore and aft compound engine with cylinders 7 inch and 14 inch by 10 inch stroke, driving a propeller wheel four feet in diameter.

The hull is of a peculiar type known as tunnel bottom. It draws three feet of water forward, and four feet aft. This will enable the owner of the steamer to make landings at wherever where it would be impossible to go with a deep draught steamer.

B.A. Hotel Arrivals.

George King, Cornwall; Connor Meehan, F. S. Quinn, A. W. Whittaker, H. T. Murrich, Henry Davis, A. E. Jones, A. W. Barnards, Toronto, U. G. Rutledge and wife Winnipeg; Mrs. Dr. Forrell, Mrs. Lytle, Mrs. M. Spafford, Sydneyham; E. M. Hiscocks, W. E. Meggs, Gananoque; S. E. Lowe, Verona; W. R. Sparrow, R. Osgoode, A. H. Hough, James Powell, W. G. Davidson, P. Panneton, G. T. Hanson, Montreal; Fred. S. Crosby, St. John, N.B.; T. B. Parkinson, London; E. R. Machum, St. John, N.B.; W. G. Warren, Mount Forest; N. R. Turner, Prescott.

Scaly Skins Made Smooth. All scaly and eruptive skin diseases are hard to cure unless the right remedy is used. The remedy that is positively guaranteed to cure is Wade's Ointment.

It relieves at once and thoroughly cures eczema (salt rheum), old sores, bed sores, piles, catarrh, dandruff and all scaly or itching eruptions of skin. In big boxes, 25c., at J. B. McLeod's Drug Store, corner King and Brock streets (Wade's old stand), and corner Princess and Montreal streets.

Says He Wasn't Smuggler. M. Carkey, principal Montreal street, says that he entirely disbelieves the report that Hing Chong, the Chinese laundryman, who suicided, was a smuggler of Celestials into the United States. He says that Hing scarcely ever left his laundry. He worked hard from 4 a.m. till 11 p.m., and was a model resident.

Catholics Under Stars and Stripes. Milwaukee, Wis., Feb. 3.—There are 22,587,079 Catholics under the United States flag, according to advance sheets of the official Catholic directory published in Milwaukee.

Sir James Whitney says that the three-fifths clause in the local option liquor law will not be repealed.

ZAM-BUK CURES PILES.

Evidence From All Sources Supports Its Claim.

There are so many so-called "remedies" for piles that sufferers are often at a loss what to try. Piles are caused by distension of the hemorrhoid veins, and the tissue becomes highly inflamed, dry and sore.

George Harris, of Virden, Man., says: "I suffered acutely from piles, but I am glad to say Zam-Buk gave me ease and brought about ultimate cure."

Mrs. S. Cooke, 468 Pacific avenue, Winnipeg, says: "A month ago I was cured by Zam-Buk of a bad attack of bleeding piles, to which I had been subject for a long time."

Wherever there is inflammation or ulceration, there Zam-Buk should be applied. It heals ulcers, abscesses, festering sores, cold cracks, scalp sores, cuts, burns, scalds, bruises and all irritated, inflamed or diseased conditions of the skin and subjacent tissue.

Fears Bad Effects.

London, Feb. 3.—The Manchester Guardian, discussing the Canadian Navy Bill, says plainly that it satisfies neither party, and fears its effect upon Canada's relations with the United States. It says: "If Canada begins to build a navy, which might conceivably be used against objects of American policy, we must live to see transplanted into America the European malady of competitive armaments."

Lands in Washington and Oregon to the extent of 250,000 acres are included in an irrigation project embodying 450,000 acres, which will be launched at the expense of more than \$15,000,000 during 1910.

Eleanor Brown, alias Molly Booker, a colored woman wanted in Bloomington, Ill., for the murder of her mistress, was arrested at Winnipeg. The city of Toronto is being sued for damages over an infectious disease case.

SCOTT'S EMULSION

is a wonderful food-medicine for all ages of mankind.

For the delicate, sickly babe; the pale, anemic boy or girl; the thin, tired man or woman; for the aged and infirm.

To all it gives rich, red blood; firm, healthy flesh; strong nerves and muscles; it gives resistance, endurance, and often prevents serious illness.

Send for name of agent and this ad. for our beautiful Banting Bank and Child's Book. Each book contains a bottle of Scott's Emulsion. SCOTT & BOWNE 126 Wellington St. W. TORONTO
