### A Bill to Revise the Bank Act.

### IF IT CAN BE DONE

### PURCHASE IS SUBJECT TO ORDER OF PARLIAMENT.

### The Grievances of Hon. George E. Foster are Set at Rest—A Separate Proclamation For Canada—May be New Cabinet Minister.

Special to the Whig.  
Ottawa, Feb. 15.—In the House of Commons, yesterday, Hon. George E. Foster questioned the government as to whether the decennial revision of the bank act would be made this session.

Hon. Mr. Fielding replied that officials of the finance department were engaged in preparing a revision of the act. As there was a great deal of business now before the house, he thought a short delay would work no hardship. However, the bill would be introduced very shortly.

Hon. George E. Foster complained that the government had actually purchased the cruiser Niobe, without consulting parliament or securing an appropriation for the purpose.

He was told by Sir Wilfrid Laurier that the negotiations were not yet completed, and that the correspondence would show the purchase to be subject to the approval of parliament. Mr. Foster inquired whether Mr. Fielding had ascertained if Canada would enjoy the benefit of the minimum tariff of the United States. He had observed that Great Britain and Germany had been admitted to the minimum tariff, but not the latter's colonies.

Mr. Fielding replied that Canada would not be included with Great Britain. A separate proclamation respecting the dominion would probably be made by the United States.

Gerald White (North Renfrew) moved his resolution calling for the production of all documents relating to the construction of the proposed Georgian Bay canal. Mr. White spoke from shortly after 3 p.m. until the six o'clock recess, and continued for an hour after the house reassembled at eight o'clock. His speech was mainly composed of extracts from reports and documents and others in connection with the canal project.

James Arthur (Parry Sound) followed.

It is expected that before the end of the week Sir Wilfrid Laurier will announce the first of the cabinet changes which are impending. As previously announced, Hon. L. P. Brodeur's illness is so serious that he cannot contemplate a return to public life at any early date, and just as soon as he can be moved he will go south for a six months' rest.

Hon. Raoul Dandurand, former speaker of the senate, has been offered the portfolio of marine and fisheries, which will include the control of the new Canadian navy, but he has shown no disposition to undertake these onerous duties. It is probable, however, that before the week is out, he will be announced as Mr. Brodeur's successor.

It may be taken for granted that the navy will be placed in the hands of a French-Canadian minister, for obvious reasons, and the strongest men within the political ring are Mr. Dandurand and Hon. Rodolphe Lemieux. The latter, it is said, would not be averse to the portfolio of marine and fisheries, but radical changes in the cabinet, unless absolutely necessary, are not favored by the prime minister during the parliamentary session, and it may be that the general shuffle in the cabinet, which is impending, may be delayed until the recess.

### Mrs. David Beatty is Popular.

London, Feb. 15.—Mrs. David Beatty, daughter of the late Marshall Field, of Chicago, is one of the most popular hostesses in Great Britain. She was formerly the wife of Arthur Tree, who died in 1901. She then married Capt. David Beatty, of the British navy. The couple are neighbors of King Edward, who holds them in very high esteem. Capt. Beatty is regarded by the admiralty as one of the most capable officers in the service.

### Robertson Bros.

## A SILLY FOOL.

### Thought it Illegal to Disturb Hanging Man.

Cleveland, Feb. 15.—A misconception of American law on the part of Otto Pich gave John Zahour, his father-in-law, ten minutes extra in which to die.

Pich found the old man hanging in the pantry of his home and keeping himself away from the wall by pushing on a shelf. He was still alive and active. Pich had heard that it was illegal for anyone but the coroner to disturb a hanging man and he left at once in search of somebody who could summon that official. Meeting a policeman, he explained the case to him.

The officer made a quick run to the Zahour home and succeeded in cutting the father-in-law down before life was extinct. Zahour died in an ambulance, however, on the way to a hospital.

## FOR PUBLIC WORKS.

### Appropriations For Improving Harbors.

Washington, Feb. 15.—New York state comes in for a substantial share of the \$42,355,276 provided for waterway projects throughout the country in the rivers and harbors appropriation bill, which was reported to the house by the committee on rivers and harbors.

Among the amounts specified is \$125,000 for Oswego harbor. Charlotte harbor gets \$71,680, while Great South Bay and Little South Bay harbors will receive \$36,000 each. An expenditure of \$37,400 is provided for Buffalo harbor. There is an item \$36,000 for the continuance of work on the breakwater at Cape Vincent. This amount is all that can be used to advantage this year.

## QUITE CORDIAL.

### Great Applause When Prelates Shook Hands.

Special to the Whig.  
Montreal, Feb. 15.—A striking example of the existing entente cordiale was seen at the inaugural meeting of the new city council, late Monday afternoon. Bishop Farthing and Archbishop Bruchesi were in attendance. The two great heads of the churches in Montreal, sat opposite each other on either side of the city clerk's table. A formal recognition had been exchanged, but before Mayor Guerin took his seat he conducted Bishop Farthing to the archbishop, and the two great church men shook hands cordially.

The introduction was greeted by great applause from the aldermen and many distinguished guests present.

## Japs Claim Eddy Idea.

Boston, Feb. 15.—Christian Scientists are discussing the claim by Prof. Yoshikazu Okamura of Tokyo, that the keynote of Mrs. Mary Baker Eddy's doctrine was simply transplanted from Japan. The Japanese scholar made his claim in a lecture before the Lowell institute. "We had in our ancient religions the fundamentals of Christian Science," he said. "In the latter part of the eighth century there was a strong belief current in Japan that all suffering was ascribable to the discord of the four elements of nature, and at one time the people became superstitious as to believe that all physical disease was curable by purely spiritual means. Thus Christian Science owes its real beginning to Japan."

## Wooden "Tombstones" Burn.

New York, Feb. 15.—City firemen are still talking of the freak fire among the "marble" tombstones of the Holy Trinity cemetery, Brooklyn, which destroyed a row of monuments and was well on its way to set fire to the entire burial place when discovered by a small boy and an alarm turned in. The firemen found that the "marble" monuments were in reality frames of wood, which had been treated with some preparation that looked like marble and granite. Four hundred dollars worth of the "tombstones" had been destroyed.

## Gets Wrong Body For Burial.

Chicago, Feb. 15.—Because the country morgue keeper gave him the wrong body to bury when he was about to lay his brother's remains in the grave, Bartolomeo Costello has filed with the county board a bill for \$45. The mistake of the morgue keeper, he said, forced him to hold two funerals, and the bill covers the expenses of the first, or wrong one. Costello told the county board that he was forced to pay a double bill for church services and pall-bearers, and that in addition, he lost two days instead of one.

## Woman to Boss Police.

Chicago, Feb. 15.—Vested with almost the same powers as the chief himself, Miss Kate J. Adams, will rule over the 2,000 Chicago bluecoats. Miss Adams has been appointed secretary to the chief. She will rank as a lieutenant. She will have the power of arrest. She will wear a five-pointed nickel-plated star. She will question all policemen and others who seek an audience with the chief and learn the nature of their business. She will have the power to give orders to sergeants and patrolmen.

## Beat Head Against Cell Door.

Windsor, Ont., Feb. 15.—When Frederick J. Stroyens was defeated in his violent attempt to quit the police station, he did not settle down resignedly. Instead he tried to commit suicide in his cell.

On Sunday morning, he was heard trying to batter his brains out against the cell door. A physician was brought and found the man lying in a pool of blood. Stroyens, however, will likely recover and will be deported.

A man attempted to force his way into the royal palace at Stuttgart, Wurtemberg, and was arrested. It was presumed that he intended to attack King William.

## THE CHANGES

### That Are Announced in British Cabinet.

### HERBERT SAMUEL IN

### HE WILL FILL POSTMASTER-GENERAL PORTFOLIO.

### A Safe Seat Will Likely be Found For Him in Lancashire—Some of the Other Changes That Have Been Agreed Upon—The Standing of Parties.

London, Feb. 15.—The following cabinet appointments were announced last night.

Secretary for the Home Department—Winston Spencer Churchill.  
President of the Board of Trade—Sydney Buxton.  
Chancellor of the Duchy of Lancaster—J. A. Pease.

Postmaster General—Herbert Samuel. J. A. Pease, the chief liberal whip, was defeated at the general elections, but it is expected a safe seat will be found for him in Lancashire.

Herbert Louis Samuel has lately been under secretary of state for the home office.

So far no indication has been given whether the budget, or the restrictions of the powers of the House of Lords, will receive precedence but the liberal press expresses confidence that a solution of the difficulty has been found and that the government will manage to tide over the crisis.

The cabinet was in session for more than three hours, yesterday, and as his is unusual it gave rise to a report that important ministerial changes were being considered. Undoubtedly the parliamentary programme was discussed at length but nothing is known as yet as to the decision if any was reached.

The last election return is in. It is from the Islands of Orkney and Shetland. The figures show that J. C. Watson, liberal, received 4,117 votes and Benseley, unionist, 994. In the last election the liberal candidate polled 1,837 and the unionist 1,021 so there is a change in representation. The final standing of the parties is as follows: Liberals, 275; Conservatives, 173; Irish Nationalists, 52; Laborites, 40.

## A Quaint Ceremony.

London, Feb. 15.—Whether it is decided to deal first with the House of Lords or with the budget, the new House of Commons, which meets today, must do one thing before it deals with anything else. It must elect a speaker. Until there is a speaker, duly elected, in the chair, no body has the right to call upon anybody else to propose anything.

The ceremony of election is quaint. The clerk of the house rises and points in solemn silence to some person of weight and eminence, who rises and proposes the name of the martyr on whom both parties have previously agreed. The clerk then points to another member, who seconds the nomination. The house then unanimously calls the chosen man to the chair.

Wearing court dress and a bob wig, the speaker then rises and acknowledges the honor done him and, conducted to the chair by his proposer and seconder, standing on the platform upon which the chair is placed, he again expresses his thanks, and then retires to assume the full bottomed wig, and the robes of the fully elected speaker.

His first duty is to go on the House of Lords and inform the lord clerk of his existence and ask for the king's approbation. That being obtained, he solemnly claims "all the ancient and undoubted rights" of the commons, and in particular that they may at all times have access to the king whenever occasion may require, and that "all their proceedings may receive the most favorable construction." This procedure has obtained since the reign of Henry VIII.

## Killed by Cutting Teeth.

Columbus, Ohio, Feb. 15.—Cutting seven teeth in one day Richard Stevenson, ten-month-old son of the late Rev. W. C. Stevenson, died, yesterday, after an illness of two days. The boy had cut five in all, when, on Friday last, he cut seven in a few hours. The brain was affected.

## Dr. Cook Discovered.

Valdivia, Chili, Feb. 15.—Frederick A. Cook, the explorer, and his wife arrived here, yesterday, on board the German steamer Ostris, having taken a cabin at Medvedev. Dr. Cook traveled under the name of T. Craig. He and his wife sailed north to-day. He declined to be interviewed.

## Legless and Armless Baby Born in Hamilton.

Hamilton, Ont., Feb. 15.—Doctors are much interested in a case at the Maternity Hospital, where a woman gave birth to a child without arms or legs. The hospital doctors say that the mother of the child bore three other children, all of them perfectly formed. They are at a loss to account for the strange event that occurred yesterday, and the mother had no accident or mental shock that would explain it. She was an exceptionally hard-working woman, however, and this is the only reason the doctors can attribute. They say the child is getting along nicely to-day and has a good chance of living. The father is a laborer.

## BACK TO FARM.

### Missouri's Chief Executive Will Raise Stock.

Jefferson City, Mo., Feb. 15.—Gov. Hadley, like Chancellor Day, will join the back-to-the-farm movement when the first blizzard arrives. He purchased a 120-acre farm to-day and says that just as soon as the public schools close he will move his family to it and live there until the fall. The policy he intends to pursue as long as he remains in the executive chair.

The governor talks very earnestly about his farm, from which he will make daily trips to his office in an automobile. He will raise stock and poultry and devote his spare time to scientific farming, as taught by the agricultural college at Columbia. He starts his agricultural venture with three horses, two cows, two calves and eleven hogs.

## STIRS UP A ROW.

### Prof. Macnaughton Talks Very Frankly.

Montreal, Feb. 14.—Rev. John Macnaughton, professor of classics, at McGill, and formerly of Queen's, is bringing fire on his head with the publication of his recent utterances in the way of higher criticism.

In a paper, remarkable for its frankness, Prof. Macnaughton has discussed "The Person Jesus," and keenly criticized the viewpoint of the solemn saint of the labyrinthine ash heap. He further declares the story of Bethlehem to be but the dream of a poet.

In consequence of the conflicting accounts of the birth of Jesus, Prof. Macnaughton's advice is to renounce all attempts to get any detailed story of the birth.

## MUST PAY THEIR FINES.

### Gananoque Police Court Debtors Must Cough up on Once.

Gananoque, Feb. 15.—H. Dempster, on a charge of drunkenness was taxed two dollars and costs. David Thomson, on a similar charge was let go. Information has been laid against G. McDonald and F. Perman for being drunk and disorderly and the case will be given a hearing at an early date.

The police magistrate has issued orders to the chief constable to have all persons having unpaid fines standing against them to appear at once and settle and thereby save further trouble.

The work of decorating the interior of Grace church has been completed, and adds very much to the appearance. The walls have been tinted a buff color with pale green trimmings. J. L'Amage, of Kingston was in town yesterday. The Misses H. McCalpin and C. Clow, King street spent the past few days with Springfield friends. Clifford Britton, New York, spent the past few days here left for home yesterday.

## NURSE'S SKULL FRACTURED.

### Graduate of a Montreal Hospital Injured.

Calgary, Feb. 15.—While on her way from Calgary to attend a case near Claresholm, Miss Scott, a nurse, living here, had her skull fractured in a runaway accident and is not expected to recover. Miss Scott is a graduate of the Women's Hospital, Montreal, and very recently joined the staff in Calgary.

## WITCHCRAFT SLEW CHILDREN.

Reading, Pa., Feb. 15.—That seven of the twenty children of Mr. and Mrs. Frederick Carl, of this city, died as the result of witchcraft, was the startling statement made by the parents. A daughter, twenty-eight years of age, died and was buried last week. The majority of the children died when quite young.

## To Help the Problem.

Spokane, Wash., Feb. 15.—David Brown, president of the Hazelwood company, of Spokane, operating dairy plants at Portland, Ore., Walla Walla, North Yakima and Spokane, Wash., and Caldwell, Idaho, doing a year's business of more than \$2,000,000, offers his plant for any period from ninety days to a year to assist the federal government in solving the problem of the cost of living.

## Agree Upon Arbitrator.

London, Feb. 15.—It is understood that the United States and Venezuela governments have agreed upon the Earl of Desart, who represented Great Britain in the international North Sea enquiry commission, at Paris, in 1905, to be the third arbitrator in their disputes submitted to the Hague.

## Frankly Taken Up.

Spokane, Wash., Feb. 15.—Frederick Depuett, United States land office commissioner, has given out a decision that 1,340 acres of land in the south half of the Colville Indian reservation, north-west of Spokane, must be returned as Indian property, having been fraudulently taken up as mineral land.

The victims were members of the Princeton and the administrators of their estates are seeking damage amounting to about \$50,000.

Deaths Ascribed to Woman's Demonic Arts.

Reading, Pa., Feb. 15.—That seven of the twenty children of Mr. and Mrs. Frederick Carl, of this city, died as the result of witchcraft, was the startling statement made by the parents. A daughter, twenty-eight years of age, died and was buried last week. The majority of the children died when quite young.

The parents have never been ill a single day, while their children wasted almost to skeletons. Attending physicians said several of the children were afflicted with marasmus, a wasting of the flesh without any fever or apparent disease, while a "powwow" doctors declared that the little ones were bewitched by an aged woman. Several of the children in their illness scratched their mother on the neck and face, screamed for hours and manifested other queer symptoms until they died.

### Helped Women Home—Is Viciously Assaulted.

Hamilton, Ont., Feb. 15.—Henry Brandt paid dearly for his act of chivalry and good Samaritanism performed Saturday. He saw a lady fall on the slippery sidewalk, and at once rushed and picked her up and took her home.

As he was taking the woman, a foreigner, up the steps of the house where she boarded, Brandt alleges that a man named Malvie came out and kicked him down the steps and badly assaulted him. The woman also fared badly in the mix-up and is in a bad condition.

Malvie was charged with aggravated assault and sent up for trial. The motive for the assault is not yet known.

## SEARCH ABANDONED

### For the Naval Tug Nima—Looking After Derelict.

Boston, Mass., Feb. 15.—The government, to-day, took the first step in abandoning search for the naval tug Nima, missing ten days. All belief that the little craft may yet be aloft or that her thirty-two men are alive has been given up. The speedy recall of the vessels on the search, was expected after the revenue cutter, Grisham, was taken from her cruise for the Nima, and detailed to hunt down a derelict which lies in the path of shipping in Massachusetts Bay. The derelict is a two-masted schooner and the belief is that her crew went to the bottom when she capsized in the snow storm gale.

## CLOSED HIS MOUTH.

### Might Say Something and be Sorry After.

Los Angeles, Feb. 15.—Becoming possessed of an idea that he might make some remark for which he would be sorry later, Vernon T. Bennett, a retired missionary, closed his mouth with safety pins. He had pushed three pins through his lips and snapped them when found by his wife.

At the receiving hospital Bennett would not give any explanation except he thought this was a good method of keeping from talking.

A certificate charging him with insanity was filed.

## AT BROOKLYN BRIDGE

### The Lives of Many Passengers Were Imperilled.

New York, Feb. 15.—An L train, on the Lexington avenue line, jumped the tracks at the New York end of the Brooklyn bridge, early to-day, and imperilled the lives of hundreds of passengers. Many were cut and bruised by flying glass and the entire elevated system on the bridge was suspended at an angle of forty-five degrees over the promenade being held from falling only by a light guard-rail which threatened to break any moment.

## Heiress to Million.

Portland, Ore., Feb. 15.—Mrs. Mary Booth, more than sixty years old, for years a teacher in the local Chinese mission, now finds herself heiress to \$1,000,000, property and money to this amount having been willed her by George B. Nelson, of Springfield, Mass., who died a few years ago. Mr. Nelson left a \$6,000,000 estate.

H. C. Kigg, an attorney, who became interested in Mrs. Booth's story, and who worked on the case for a contingent fee, will receive \$470,000.

Nelson was the coachman of Mrs. Emma G. Vinton, widow of Edward Bliss Vinton, and after her death he will leave her entire fortune to Mrs. Booth.

Mrs. Booth was Mrs. Vinton's sister, and Nelson, always friendly to her, made her one of his heirs.

## Rounding Up Wild Horses.

Spokane, Wash., Feb. 15.—Two thousand wild horses, scattered over an area of 100 miles in length and forty miles in width, in the hills and valleys of Grant county, Wash., are being rounded up for Thomas Peeger and William Thorpe, of Ephrata, to be sold in Dakota, Montana and other western points. Johnny Smith, chief Buckaroo of the riders, says the work will occupy from thirty or thirty-five days. The best horses in the bunch will be sent to the ranches in Montana and North Dakota and South Dakota to be broken for polo and will then be shipped to New York, Boston, Chicago and other points, where they command high prices.
