

Gains 30 Pounds In 30 Days

Remarkable Result of the New Flesh-Building Protone, in Many Cases of Run-Down Men and Women.

Prove It Yourself By Sending Coupon Below For A Free 50c Package.

"By George, I never saw anything like the effects of that new treatment, Protone, for the building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer, and almost everything else you could think of, but without result. I had been thin for years, and began to think it was natural for me to be that way. Finally I read about the remarkable successes brought about by the use of Protone, so I decided to try it myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just 30 pounds during the last month and never felt stronger or more 'nervy' in my life."

Any Man or Woman Who Is Thin Can Recover Normal Weight By The Remarkable New Treatment—Protone.

Without result. I had been thin for years, and began to think it was natural for me to be that way. Finally I read about the remarkable successes brought about by the use of Protone, so I decided to try it myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just 30 pounds during the last month and never felt stronger or more 'nervy' in my life."

FREE PROTONE COUPON.
It will cost you nothing to prove the remarkable effects of this treatment. The Protone Company will send to anyone a free 50c package of Protone if they will fill out this coupon and help cover postage and packing, and as evidence of good faith with full instructions to prove that it does the work. They will also send full instructions and their book on "Why You Are Thin," free of charge, giving facts which will probably astonish you.
If you want to put on more flesh fill out the following coupon to-day. Free 50c packages can only be had by writing direct to Detroit.

LOGICAL ECZEMA CURE ENDORSED BY PHYSICIANS

Dr. R. A. Folkerts, of Duluth, Minn., tells of his success in treating patients with D.D.D. Prescription:
"There was a man here suffering from eczema for the last fourteen years, and I applied the D.D.D. treatment. I also applied it to a man of West Duluth, Minn., who has been suffering with Eczema in his feet, and the second treatment in both cases cleared the skin almost absolutely. The first application is a balm, and its soothing effect is beyond expression. I shall never be without it, and shall use it among my patients altogether."
No matter how terribly you suffer from eczema, salt rheum, ringworm, etc., you will feel instantly soothed and the itch allayed at once when a few drops of this compound of oil of wintergreen, thymol, glycerine, etc., is applied. The cures all seem to be permanent.
For free trial bottle of D.D.D. Prescription write to the D.D.D. Laboratory, Department K.W., 23 Jordan St., Toronto.
For sale by all druggists.

All Hands Point to Home

as the happiest spot on earth, but in order to enjoy it properly it must be YOUR OWN HOME—not the landlord's property. Every man can have a home of his own if he goes the right way about it, and we can show him the right way. We have plenty of desirable properties which can be bought as cheaply as if you were paying rent. Let us show you.

SWALLOWED IN CITY

HOW EASY IT IS TO ESCAPE DETECTION.

Cohen-de Janon Episode—Thought Hunted by Best Detectives, They Were Lost for Two Weeks—Dr. Cook a Notable Example—Not so Easy in Europe.

Such a rule in the United States would have led to the detection of Miss De Janon and Cohen much quicker, for they avoided the hotels for the double reason that they knew they would be increasing the likelihood of being caught, and also because their money would not permit them to pay the heavy bills.

Dr. Cook, branded by the scientists of Denmark with being a faker, furnishes another remarkable case of being able to disappear.

It is hard to think of a face that is any better known than that of the Brooklyn doctor.

When he announced his discovery of the North Pole, newspapers made a wild scurry to get what photographs of him there were in existence.

When he made his sensational return to the civilized world, he was everywhere the prey of the snap-shooter.

In Denmark they photographed him side by side with the king, in the United States he was pictured with a garland of flowers over his shoulders, he was photographed in hotels, in automobiles, and everywhere that he chanced to show himself no matter how briefly.

Moreover, Dr. Cook lectured and facing audiences of thousands, gave the world a chance to get a most excellent idea of what he looked like.

Yet in spite of all this, he was able to drop out of the world's sight for months, and just at a time when the imputation of faking put upon him by the scientists of Copenhagen made people most anxious to see him.

John D. Rockefeller furnished another remarkable case.

During the investigation of the Standard Oil Trust a few years ago, he was badly wanted for the testimony.

Yet the richest man in the world had no difficulty in getting out of sight for six weeks making as good a job of the process as though he were the vilest street wretch whom nobody knew or gave the second look to.

Process servers and detectives were on his trail, his various houses were watched, and every known means of search employed, but it was not until John D. decided that he was ready to come to the scene again that he was located.

Gideon W. Marsh, president of the Keystone bank, Philadelphia, defaulted some 20 years ago, and got away before the police could get him.

His description was sent everywhere, and the best police talent of the country spent its energy trying to locate him, but knew only failure for its pains.

Marsh wandered all over the country. He was everywhere. He experienced all kinds of misery and finally voluntarily gave himself up to justice when he read in a newspaper that a distinguished citizen of his own city had advised him to come back, serve his sentence, and make a new start in life when the ends of justice had been satisfied. He had escaped detection for ten years.

Marsh is now serving his sentence. John Armstrong (Shanley), detained in a lunatic asylum, escaped and for eight months evaded the officers of the law till he could formulate a case, and reach his friends, through whom he eventually demonstrated that he was sane, and entitled to his liberty.

Shanley is the former husband of Amelia Rives, Charles Ross, kidnaped when a boy, three decades ago, was never found, although his father Christian Ross, who died a couple of years ago, spent a fortune trying to find some trace of him.

ABDIE BEN ADHEM.
Wilbur D. Nesbit in Life.
Abdie Ben Adhem (pretty as you please, and dressed as neatly as one ever sees). One day was absent when her friends began to turn such absent ones beneath their scan.

"She hasn't" vowed one, and sadly "She hasn't" another with a shudder.

"I've heard that so and so and so and so," said a third.

Declared and all cried, "Well, upon my word!"

And so in half an hour poor Abdie's fame as well as reputation and once honored name were known to tatters, and his friends were woe-stricken.

She was the sort by whom fool men were snared.

And that if they were she they'd have more pride than to give cause for rumors undeni-

In fact, they came to the conclusion that Miss Ben Adhem should not be held in their friendship as she once had been.

But that she should be spurned with glances keen.

And that while some reports might not be true.

Of course, a person never really knew.

even if they only stay for a day, must report the fact to the police. Only visitors, staying as guests, are immune from the regulation on reporting. Every person who pays for sneller must have his name registered.

Such a rule in the United States would have led to the detection of Miss De Janon and Cohen much quicker, for they avoided the hotels for the double reason that they knew they would be increasing the likelihood of being caught, and also because their money would not permit them to pay the heavy bills.

CANADA LIFE'S

Most Successful Year.

LARGE GAIN IN SURPLUS—BUSINESS INCREASED—EXPENSES DECREASED.

The Directors' Report submitted at the Annual Meeting of the Canada Life yesterday was as follows:—
The Directors have pleasure in submitting their 63rd Annual Report showing the transactions of the Company for the past year, and setting forth the financial position as at 31st December, 1909.

The Year's Business. Applications to the number of 5,117 for assurances of \$12,198,814 were received during the year, and the new policies paid for totalled \$10,139,434.00, an increase over the new business paid for in 1908, which in turn was greater than that of 1907. It is very gratifying to note that the Canadian business has again shown a substantial increase. The business from the United Kingdom compared favorably with that of last year, while the business from the United States has been well maintained. The total business in force now amounts to \$124,772,856, the increase for the year being over \$4,000,000.

The Income and Payments. The income for the year was \$5,697,319.59, being larger by \$361,277.05 than that of 1908. The payments to policyholders totalled \$2,032,332.16. Notwithstanding the constantly increasing volume of business transacted, the expenses of management decreased in 1909, as compared with those of the previous year. A similar reduction in the expenses of management was reported a year ago, the decrease in each year being not only in percentage but in actual amount.

The Assets. The total assets now stand at \$39,686,063.57, having increased in 1909 by \$2,972,948.33, the greatest gain in any year in the Company's history. The assets of the Company are increasing at the rate of nearly \$10,000.00 for each business day of the year, and the safe and profitable investment of these rapidly growing funds is a serious responsibility which receives the constant care of the Directors.

The Surplus. The increase in surplus reported a year ago of \$1,060,000 was up to that time the largest in the Company's history. The Directors are able to announce an even larger gain for 1909, the increase for the year being \$1,195,125, bringing the total Surplus over all liabilities up to \$3,322,764.65. Such a result could only be attained by a strict adherence to those principles of management which long experience has shown to be the essentials of success, namely, judicious economy in expenditures, prudent investment of funds and skilful selection of risks.

Allotment of Profits. The Directors are gratified to be able to announce that the surplus (included in the above) earned on quinquennial dividend policies issued prior to 1900 enables them to declare a bonus upon such policies as follows:—

Upon life policies a reversionary bonus addition of 1¼ per cent. per annum upon the sum assured, amounting to \$62.50 per \$1,000.00 of assurance (or its equivalent value in cash or reduction of premiums to policyholders so electing); upon endowment assurances the bonus addition will be not less than \$50.00 for the quinquennium for each \$1,000.00 of assurance, payable at the end of the endowment period or prior death (or the equivalent of such bonus addition in cash or premium reduction to policyholders so electing).

The profits now declared on these policies are on a cash basis from 30 per cent. to 40 per cent. greater than at the previous quinquennial division in 1905, when over \$1,000,000.00 was allotted to such policies. As illustrating this, attention is drawn to the following actual examples from life policies, taken at random and showing the profits now declared, on a cash basis. The table also shows the large increase in profits now declared over those of the two previous quinquennial divisions:—

CASH PROFITS

Quinquennial Year.	Policy No. 64329 Issued 1895	Policy No. 30637 Issued 1885	Policy No. 17135 Issued 1875	Policy No. 4972 Issued 1865	Policy No. 1514 Issued 1854
1900	\$164.50	\$215.50	\$224.50	\$229.00	265.00
1905	205.50	334.20	345.50	351.20	394.80
1910	367.00	453.00	467.10	474.10	521.20

Basis for illustration in each case \$10.00.

The Directors confidently anticipate that this announcement will be received with general satisfaction by many persons who will share in the large amount of profits to be distributed on these policies.

Quinquennial dividend policies issued since 1900 receive their allotment of profits each five years from the date of issue, upon their premium due date in place of the fixed date (as at 31st December) for older policies. The premium rates and reserves for such policies are on a different basis from that for policies issued prior to 1900. For these more recent policies as well as deferred dividend policies a modified form of the Contribution System of allocation of profits has been adopted by the Company, and under this system the profits will vary with the plan of assurance and duration of the policy, as well as with the age of the assured.

The amount of surplus now to be allotted to quinquennial and maturing deferred dividend policies will, it is expected, exceed \$2,000,000.

Our work is so well in hand that the Profit Certificates on all policies now entitled to participate will be mailed on this occasion at an earlier date than formerly.

Retirement of Directors. The following Directors retire by rotation:—Kenneth MacKenzie, Esq., Frank Sanderson, LL.D., Hon. Robert Jaffray, Adam Brown, Esq., and E. R. Wood, Esq., the first two representing the policyholders and the last three representing the shareholders, all of whom are eligible for re-election.

It is with pleasure that the Directors again record their appreciation of the efficiency and zeal with which the officers, staff and field representatives have performed their respective duties.
Toronto, January 31st, 1910.
GEO. A. COX, President.

Financial Statement

Condensed From the 63rd Annual Report as at the 1st of January, 1910.
