

Easily Tired Exhausted DOES THIS DESCRIBE YOUR CASE?—THEN READ THIS LETTER ABOUT Dr. Chase's Nerve Food.

The accompanying letter describes so well the condition of a person whose nerves are weak and exhausted that little need be said.

The danger of such a state of health is sometimes overlooked by persons who do not realize that the next step is some form of paralysis which leaves one helpless in mind and body.

Mrs. Edward Schwartz, Lashburn, Que., writes:—"It is a pleasure to let you know how I was benefited by Dr. Chase's Nerve Food. I was run down and weak, unable to do any housework, was easily tired and exhausted, lacked energy and ambition, was very nervous, easily irritated, could not concentrate the thoughts, hands and feet were cold, I could not sleep, had frequent headaches and dizzy palpitation of the heart.

"Nervous prostration was my trouble, but Dr. Chase's Nerve Food cured it all and I cannot find words to express my thankfulness for this wonderful medicine."

The results achieved by Dr. Chase's Nerve Food are often more wonderful than words can tell. In cases such as this patient, persistent treatment is necessary, but you are encouraged by steady and natural improvement until the cure is thorough and complete.

There is a satisfaction in knowing that each and every dose is bound to be of at least some benefit in rebuilding the wasted nervous system.

Dr. A. W. Chase's Nerve Food, 50c. a box, 6 for \$2.50, all dealers, or Edmanston, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Receipts.

SITTING ON THE LID.
The revelations in the public life of some people are fast showing the obliquity of the political parties. For over two weeks the New York legislature has been enquiring into the scandals that affect two members—Allds and Conger—and the circle of influence has been spreading out until it affects a number of others and the honor and rectitude of the assembly.

While this enquiry is going on another shock was felt, and as a result of the democratic quarrel in the state committee, "Fingay Connors," of Buffalo, has been chairman of this committee, and when it was intimated that he had to go he "boiled over," and charged that the state democratic leaders were crooks by choice and inclination.

The way seemed to be open for a general house-cleaning, but it was barred by the chairman of the state committee. The body politic may be exceedingly rotten—the complete exposure of the parties might bring about at least a temporary regeneration—but the party will not permit it. Metaphorically speaking, the republicans in the house are sitting on the lid and the odours of rank corruption are not allowed to escape.

A REFORM IN SIGHT.
Just how it is to be accomplished is not quite clear, but there will be many, perhaps most people, who will applaud the proposition that the Central prison shall be made more than a place of detention. The prisoners on the great farm which has been purchased near Guelph—will be required to earn their own living, and in some measure contribute to the living of their families.

It is one of the saddest things of which the courts have had experience, that the wives and children of some offenders have to suffer with him, and suffer as he does not, because of his crime. He is deprived of his liberty, it is true. He is cut off from the companionship he should appreciate, and the comforts of the home. But he is in warm quarters, and he is fed. He does not skip a meal, though his dependants may go hungry and starve.

The province is contemplating a new departure in prison life and fare. The men who go to the Central prison hereafter will be expected to work in some remunerative way. The question of paying them, or their families, is under advisement. If this scheme can be evolved and successfully operated the better day for which some people have hoped so long will be at hand. Prisons will be as reformatories as now and without the terrors and penalties which imprisonment now involves.

DOING A SPLENDID WORK.
The Salvation Army will not suffer by the criticism which it has received in connection with its prison rescue work. The Ontario government has been making a grant to it, and, except as has been taken. Why? Has it a competitor? Is there any other religious body or organization which is seeking to help the fallen and by sympathetic and effective plans? If so it deserves the same treatment, and the government will, no doubt, take recognition of the fact.

The prisons and the jails would not be filled, and by an increasing population, if the men and women had the training which is their due. A touching case came before the police magistrate of Toronto a few days ago. It was that of a young woman who had been reared in a home bereft of moral influence. The mother was an abandoned woman, and she had no ambition for her daughter, save that she should follow in the same downward course. She fell from grace, this young woman. What was more natural or likely? She came before the magistrate.

Then a lawyer, who had, under the gracious influence of the church, imbibed Christian grace and feeling, pleaded for the woman. He was read her record. He was told of her wretched home, and he asked if the sins of the mother were to be visited upon the daughter. Was she not to have one fair chance? There might be hope and salvation for her under different conditions. An officer of the Salvation Army was present—strange how these people will follow the erring ones and offer them the balm of kindly advice—and she was willing to take the offender, and nurture and care for her. And the court consented.

The labour leader in the legislature questioned whether the money given by the people for Army purposes was applied as some supposed. The sus-

picion is not well founded. The Army is proud of its practical Christianity. It is doing what the churches are not doing, and it is to be warmly commended.

THE MAD DOG SCARE.
The report that one dog has gone mad in the city—that it suddenly developed rabies and had to be destroyed—is enough to make some people timid and to look askance at every dog they see at large. The order has gone forth that all the dogs in the Tete du Pont barracks must be removed or done away with, that there will be no danger of madness among the barrack pets. The cause of this order is not apparent. Its existence, however, is sufficient to cause some alarm.

The western towns and cities have been protected by the general order that no dogs will be permitted at large that are not muzzled. In Kingston a similar proceeding may be authorized by the council in the interest of the public safety. An instruction to the police to the effect that the police must shoot every dog found upon the street unmuzzled, may lead to an important discovery, namely, that the city is being overrun with vagrant curs. Only a small percentage of the dogs in the city are taxed or tagged, and hence the special danger which Col. Massie pointed out in a recent issue of the Whig. One mad dog would transmit the rabies to scores of others, and with lamentable results.

It is time the dog tax by-law was enforced. The dogs untagged or unmuzzled should be trapped, impounded or shot. The assessor, in making his rounds, misses the ownership of many of them. He cannot find out who has an interest in some of the dogs that pass before him when he is making his rounds. He does not see others, for with the coming of the assessor, book in hand, some precious pups go into retirement and remain in it until the civic official has disappeared.

EDITORIAL NOTES.
American educators are using moving pictures in the teaching of impressive lessons. Great people, surely.

Goldwin Smith is not so well, and all Canada hears the news regretfully. No man could live more deeply in the affections of the people.

The British politicians have abandoned the war scare. The Canadian politicians, of the R. L. Borden type, continue it. What is the inference?

Pasteurization does not affect milk or the doctors of Toronto would not prescribe it, and the public charities would not be supplied with it. If milk is a food, it should be absolutely pure.

But for the Lemieux Act the Canadian trainmen would join in the great railway strike, now affecting many thousands of people in the United States. And still there are some people who say the act is no good.

The suffragettes of France are not willing to fight or win their way into the use of the franchise. They are going to buy the right to vote, and the average man of France may be willing to sell his birthright for a mess of pottage.

If pure milk is so essential to the health, eye and the life, of thousands of children annually, the people should see that it is supplied. When Canadians are as rigid in their inspection as the Germans, they will get pure foods, and refuse the impure.

The expected has happened. Joseph Martin, M.P., is after the British government, which he was elected to support, because it does not at once make war upon the lords. Mr. Martin is not happy unless he is engaged in some revolution. He will be more troublesome to the liberals generally than any opponent.

A Very Severe Test.
When the constitution is neglected, indigestion, sleeplessness and nervousness will surely follow. A tonic is then needed, and the proper medicine to take is Wade's Iron Tonic Pills. They build up the system, improve the appetite and strengthen the nerves. Price 25 cents, at McLeod's Drug Stores.

Died on Road.
Odessa, Feb. 23.—William Gilchrist, of Napanee, was found dead on the road about three miles east of Napanee, this morning. He had been walking and apoplexy is the supposed cause. He was a house carpenter and about seventy years old.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

President Taft, speaking at Newark, said the actual cost for engineering and construction of Panama canal would be \$297,000,000.

A company has been formed to build docks at Victoria to cost \$1,000,000.

Suddenly Expired.
Ogdensburg, N.Y., Feb. 24.—William G. McLean, a promising young man, died of consumption, after a long illness. Among those who called to see him was a young lady to whom he had been engaged. She had hardly left the house when the young man was suddenly taken with a heavy hemorrhage and expired. He was twenty-six years of age.

Extra Good Value.
Prevost, Brock street, gives the choice of any piece of tweed in his window, a suit made to order, for \$18. Guarantees good fit and trimming.

Watertown, N.Y., reports over 26 cases of measles there and the disease is rapidly spreading.

MAN RUINED BY WHISKEY.
A Gananoque Resident Will be Placed in the Asylum.
Gananoque, Feb. 24.—Edward Gagnon, crazed with drink, became violent at his home on Tuesday, and had to be taken in charge by the police and placed in the cells, when efforts will be made to have him committed to the Eastern hospital for treatment.

Quite a large number were in attendance at the raffle for a fine new ship, owned by Charles Ward, Water street. P. B. Whiteley, agent for the T.I.R. Co., was the fortunate winner.

A large sleigh load of young people drove down to the home of Mr. and Mrs. W. J. Landon, Melcombe, on Tuesday evening, and were royally entertained.

Thomas Fields, one of the principals in the asphyxiation at the Parmenter & Bullock Co.'s works on Tuesday, was so far recovered as to be out on the street yesterday afternoon. Miss Round, the other victim, is still taken in to her home.

George Topping, an elderly, residing for some time past, on First street, shipped their household effects to Deseronto on Tuesday. Mr. Topping having secured a situation on a dredge there. Mr. Topping filled the position of engineer on the steamer Wherowee, and also on the Mississippi last season.

Miss Mary Honan, trained nurse, of Chicago city hospital, spending the past fortnight with her mother, Mrs. John Honan, Taylor, has returned to the Windy City to resume her duties.

Mrs. T. D. Middleton, King street, is spending a few days in Toronto. W. B. Carrol, Main street, spent Tuesday in Brockville. G. Scott, Stone street, spent a few days during the past week with friends in the rear of the town.

Mrs. Sly, Taylor, is spending a few days with her son, Wellington street. Mrs. William Carpenter, Charles street, is spending a short time with Lansdowne friends.

SERIOUS KITCHEN ACCIDENT.
What Zam-Buk Saved a Lady at Stratford, Ont.
Mrs. Fredk. Bryant, of 169 Railway Ave., Stratford, spent dollars trying to get well, but failed, until she tried Zam-Buk. It was this way: "I was in my kitchen preparing supper," she says, "when I upset some boiling water. It fell upon my foot, scalding it badly. Next day the skin came off the foot, and it was so painful I could not walk. I treated it, but instead of getting better it got worse, and finally I had to take to my bed. I was laid up for nine weeks, and in that time I tried all manner of so-called remedies. I had embrocations, dozens of salves, I think, and lotions, but the scald developed into a running sore. I was about beaten by it, when a friend advised me to try Zam-Buk, and I did so. A few applications had the effect of soothing the pain, and giving me what I had not had for weeks—a little ease. I persevered with Zam-Buk, and day by day the running sore seemed to get less inflamed and less painful, as the Zam-Buk drew away the poison and reduced the inflammation. In a very short time healing commenced, and rapidly continued until the sore was completely healed. I would hardly have believed that any preparation could have done for me what Zam-Buk did, and I shall never be without a supply in the house." When you have a scald, a burn, a skin sore, an ulcer, or any skin trouble or injury, try Zam-Buk. Made from the purest of herbal essences, it may be regarded as nature's own healer. Eczema, cold-sores, cracked and chapped hands, children's rashes, chilblains, all yield to its soothing, healing influence. It also eases the agony of piles. All drug-cases and stores, 50 cents box, or post free from Zam-Buk Co., Toronto, for price.

MANOEUVRES SCARE NATIVES.
Filipinos Think Mimic War Means Invasion.
Manila, Feb. 24.—The natives in the vicinity of the place, where the military manoeuvres are being carried on, have become terrified, and some Negritos and Filipinos, in hill villages are fleeing in wild alarm. Others are seeking protection from the military.

Despite the fullest warnings that were sent out in all directions that the manoeuvres did not mean war of any kind many of the ignorant natives are sure it is a Japanese invasion of the islands and are very much frightened.

MAKES HAIR GROW

G. W. Mahood Has an Invigorator That Makes Hair Grow in Abundantly or Money Back.
If your hair is thinning out gradually it won't be long before the bald spot appears.
The time to take care of the hair is when you have hair to take care of. For thin, falling hair the best remedy known to mankind is Parisian Sage. It is compounded on scientific principles and furnishes to the hair root a nourishment that acts quickly and promptly and causes the hair to grow.
But remember this: It kills the dandruff germ, the pest that appropriates all the natural nourishment that should go to the hair root.
Parisian Sage is sold by G. W. Mahood under a positive guarantee to banish dandruff, stop falling hair and itching scalp in two weeks or money back.
It gives to women's hair a lustre and radiance that is most fascinating and causes it to grow abundantly.
Parisian Sage is now sold in every first-class town in Canada. A large, generous bottle costs 50 cents, and the girl with auburn hair is on every bottle.
