

ORDERED TO HOSPITAL FOR OPERATION FOR ACUTE INDIGESTION—DID NOT GO AND WAS CURED BY Dr. Chase's Kidney-Liver Pills.

A medicine that will save one from a surgical operation must be worth while. The doctors seem to have made the common mistake of dosing the stomach when the real source of trouble was with the liver and kidneys. Anyway Dr. Chase's Kidney and Liver Pills made a complete cure and here is the record: Mrs. F. J. Bacon, Baldwin's Mills, Ont., writes: "I was very sick and the doctors said I must go to the hospital for a surgical operation. I had acute indigestion and the liver and kidneys did not act. I did not want to undergo an operation, so I began the use of Dr. Chase's Kidney and Liver Pills and have used them ever since. "I am feeling well now and doing my own work for a family of seven. I think there is no equal for acute indigestion and liver and kidney troubles such as I had and they and nothing else made me well again. There is no medicine I like half so well, for this old wonder for me." The real serious cases of indigestion almost always have their location in the bowels and can only be reached by making the liver and kidneys active. No medicine regulates the liver, kidneys and bowels so nicely and so promptly as do Dr. Chase's Kidney and Liver Pills. One pill a dose, 25c. a box, all dealers, or Edmondson, Bates & Co., Toronto. Do not be satisfied with a substitute or you will be disappointed.

We are specialists in that Branch Order for LUMBER AND BUILDER'S SUPPLIES S. ANGLIN & CO. Phone 66. Bay and Wellington Sts.

Daily Whig.

A QUESTION OF FINANCING. An alderman has been passing out the financial heresy that the electric plant does not require a depreciation account, that as the debenture and interest debt is being wiped out the need of a depreciation fund is made to disappear. The man may be in error, but he is not a fool. It is not a new and unique idea of a depreciation account, or he is confounding it with a sinking fund. A depreciation account represents the appropriation of a certain and reasonable sum from the earnings for contingent purposes. There is wear and tear going on all the while. There are accidents and repairs. There is the expenditure, limited but continual, which keeps the plant up to the condition where it may do the best service. All this expenditure must be met out of the depreciation fund. The sinking fund—if it exists—or the debenture and interest account requires no explanation. It is just what its name implies. It represents an annual payment on capital account, or an annual appropriation and saving of the annual amounts that at the end of so many years will wipe out or liquidate the debt. Not a dollar of the debenture money, or the interest, can be diverted to the payment of contingencies. Without a depreciation account there is no help for it, in the event of contingencies, but to borrow from the bank, at current rates of interest, the money that is necessary, and to carry it along until the amount is large enough to cover with a debenture. Is this what any one would call good financing?

LANGUAGE OF THE PRESS. The liberal press has been guarded in its comments upon the Foster-Macdonald libel case. The main point was that a liberal writer had been called to account for publishing a statement which he believed to be true, which he said was founded upon the report of a parliamentary commission, and which indicated that Mr. Foster was not eligible for election to a seat in the House of Commons. The editor of the Globe was held under the circumstances, to have uttered a libel for which he was asked damages, and to the extent of \$50,000. The man who seeks such a large sum, as a balm for his injured feelings, and gets a verdict against him with costs, has an experience that is far from exhilarating. Mr. Foster is going to appeal the case. He is not satisfied with the verdict, or with some of the proceedings which led up to it. It is important, therefore, to note how the party press regards the case. The Toronto News, conservative, does not see how the jury could "reach any other conclusion." Our contemporary regards it as useless "to shut one's eyes to the fact that his (Foster's) position is seriously prejudiced and his influence greatly impaired by the insurance investigation, and the legal action which has just closed with a judgment substantially in favor of his assailant." The Toronto Telegram, conservative, considers that the jury had nothing to do with the question of good or bad faith. "The fault charged against Mr. Foster," says the Telegram, "is not and never was a virtue. It would have been a public misfortune if a jury had called evil good, at the bidding of a partisan prejudice, or outraged the liberty of the press by protecting Mr. Foster against the criticism which he has invited by his own mistakes." Mr. Foster has not many sympathizers in his defeat, and it is not remarkable. He has little, if any, sympathy with others. He is a dour man, and happy only—if he is happy then—when he is cynical or censorious.

THE PARTY'S "AT HOME." The government of Ontario and its supporters in the legislature have had a heart-to-heart talk upon two very important subjects—the sessional indemnity and the license law. The members of the government had their salaries raised so that they might meet the higher cost of living last year, and the members thought that their turn should come this year. Perhaps they expected the premier to call them into his office and whisper in their ears as Hon. Mr. Hanna is said to have whispered during a session of one of the committees in the ear of its chairman. If so, they were disappointed and it was only when some one suggested that the party meet for special purposes that they got off the thoughts that lay very heavily upon the heart. Even then the occasion was barren of re-

sults. The supplementary estimates had been brought down, and nothing could be done, practically. "Educationally," some progress was made, of course. Then Mr. Hanna's plan of putting the administration of the license department under one central board was introduced and discussed. This was the solution of the difficulty when the Star's commission revealed the scandals of the liquor and license parties of Toronto. These scandals were the result of political interference, and the slogan of the Whitney party, in the election and in opposition was "no politics in the license department." And there will be politics in the business still. The administration has the support of the liquor party, and it is not desired that anything should be done to lose or antagonize it. So the matter goes over until the members consult with their friends at home. Which means that the central license board will never really take shape or power. The local boards must be allowed the exercise of the influence that make for votes.

EDITORIAL NOTES. The city property committee may as well abandon, at once, the idea of providing accommodation for the board of education in the city hall. There is no money and no sense in the scheme. There is need of more school accommodation. Why cannot the old high school be turned to account? It is not being used by Queen's College for educational purposes, and it is only loaned for college uses. The property is the city's. A further raid upon the water works funds is contemplated. One alderman talks of taking legal proceedings which will establish the right of the city to take, seize, grab or steal the earnings of the water plant. He must be looking for popularity! The members of the local legislature think their sessional indemnity should be at least \$1,500. It is now \$1,000. The party should have made the ministerial salaries and sessional indemnities part of the same scheme. Then everything would have gone. Le Devoir has now fallen upon the governor-general and assails him as an ultra-imperialist. Earl Grey will not deny his imperial tendencies. Indeed, it would be remarkable if he denied them. But why he should be abused by the nationalist press in consequence is the marvel of the day. Mrs. Hoodless, of Hamilton, who died suddenly while addressing a woman's meeting in Toronto, was the originator of the domestic science teaching in Kingston. She came here and led in the campaign which ended in the founding of the cooking classes. The political muzzle is advocated as the way of shutting off the talk that is ruining the conservative party. If the demands of the Montreal leaders are respected the muzzles will be put into use at once, and one of them will be worn by the member for Frontenac. With all its luck in revenue, thanks to the generosity of the federal government, the British Columbia government has a deficit of \$700,000 for the last year. And yet the premier, in a railway deal, has committed the province to a liability of \$43,000,000. But a trifle like that does not bother the rising young statesman, Hon. Richard McBride. Mr. Patten, "the wheat king," has retired from business with \$12,000,000 to \$15,000,000. He is going abroad for rest and recreation. He will visit the art galleries, of course, and perhaps occasionally, when he forgets himself, he may step into the stock exchanges. The shouts of the bulls and bears will be to him more exhilarating than champagne. Rascality's Increasing. Ottawa Journal. The Ottawa district churches were certainly unlucky Sunday. In one a clergyman had his coat and wraps stolen, a girl at confession had her purse taken, another girl lost her muff, while a gang of roughs heaved some rocks through the window of another sacred edifice. Hunger and want may excuse, or at any rate, explain the first three thefts, the last is pure vandalism of the kind that can offer not the shadow of an excuse. Serious Results Follow. Cold, clammy hands and feet, and pains in the back result from impoverished blood. Serious consequences follow neglect. Wade's Iron Tonic Pills make new, rich blood, tone up the system, add vitality to wasting tissues and strengthen weak nerves. Price, 25c., at McLeod's Drug Stores. There is now a possibility that the new mining camp at Porcupine will some day in the future be served by the T. & N. O. railway. One thing comforting about the inevitable is that there is no use worrying over it.

NEWS OF THE WORLD OCCURRENCES RECOUNTED IN BRIEF FORM.

Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered. A general strike of French railway employees is threatened. James Woods, secretary of the Quebec Harbor Commission, dropped dead. The Hudson river is eighteen feet above its normal level, at Albany, N.Y. John Devine, a well-known resident of Watertown, N.Y., died, Tuesday night. He had been ill for some time. The wife and child of E. H. Dingman perished in a fire that destroyed the family dwelling at Enthwistle, Alberta. The mineral production of Canada last year was a little over \$90,000,000 in value. Cobalt mines are credited with \$13,000,000. The establishment of a Methodist college at Regina was authorized at a meeting of a special committee of the Methodist church. The Ontario government will impose a tax on American and foreign hunters and trappers who come into Ontario for the shooting and trapping season. The Great Lakes and St. Lawrence Improvement Association, meeting in Toronto, argued that work on the deepening of the Welland canal commence at once. The Presbyterian church, Plessis, N.Y., was sold at public auction for \$180. The old church will be torn down and the timbers used in building a barn. A deputation from the Canadian boards of trade and municipalities asked Sir Wilfrid Laurier to proceed with construction of the Georgian Bay canal. A young guillemot, or sea pigeon, was caught at East Canaan, N.H. The species is one of the northern seabirds allied to the auk, and is rarely found so far south. Jose Domingo de Obaldia, president of Panama, died from heart disease on Tuesday. He had been sick only since last Friday. The new president will be Dr. C. A. Mendoza. Following an operation, Anna, wife of Edwin B. Clark, of No. 822 Ann street, Watertown, N.Y., died, Tuesday afternoon at the age of forty-eight years. She had lived there twenty-one years. A gift of \$7,000 from Lord Strathcona to Chief Inspector James L. Hughes, to be used to provide tunics for the Toronto public school cadets, has been forwarded in the form of a check. A bill is before the senate, at Washington, to incorporate the Rockefeller Foundation, which is intended to administer, for the benefit of humanity, a large part of the wealth of John D. Rockefeller. The C.P.R. station agent at Woodstock, N.B., was fined \$50 for having liquor in a freight shed in a Scott act county. Two barrels marked groceries were found to contain liquor. Under the law the railway agent is liable. Miss Mildred Carter, daughter of United States minister to the Balkan States, John Ridgeley Carter, is about to become the wife of Viscount Acheson, son of the Countess of Gosford. The wedding will take place in Chapel Royal in St. James' palace, London. Ice jams and rains to-day added to the dangers of the Genesee Valley floods. The country from Mount Morris to Dansville is under six feet of water, and the rise continues steadily. The country near the junction of the Genesee river and the Canaseroga Creek, is under water and abandoned.

SHE HAD THIS SORE. For Four Long Years—Zam-Buk Healed It. You can't equal Zam-Buk for sores of all kinds, whether recent or of long standing. This is the opinion of Mrs. Wilson, 110 Wickson avenue, Toronto. Mrs. Wilson says: "About four years ago a sore spot appeared on the right side of my face, just above the angle of the jaw. This spot increased in size until it became about half an inch in diameter, and very troublesome. I went to a doctor, from whom at different times during fifteen years I had received treatment, but the ointment I got did not have any good effect on the sore. I had it cauterized, tried poultices and all kinds of salves, but it was no good. This continued for four years, at the present time the only trace of it is a small patch of skin a little whiter than the surrounding tissue. If Zam-Buk can heal a sore of this kind, which had defied all treatment for four years, I am sure it must be a thing needed in scores of homes." Try Zam-Buk for eczema, ulcers, sores, bad leg, varicose ulcers, skin eruptions, face spots, baby's rashes, inflamed places, piles, blood-poisoning and all skin injuries and diseases. 50c. all druggists and stores, or post free from Zam-Buk Co., Toronto, for price list. Refuse "just as good" and imitations.

John D. Rockefeller, Jr., has resigned as a director of the United States Steel Corporation. The holding of stocks in the company by members of his family is not sufficiently large to justify his giving any time or attention to the affairs of the corporation. U. S. Postmaster-General Hitchcock has issued a statement in which he says that one-cent letter postage could be established if second-class rates were raised to cover the cost of transportation. Russia's wheat crop of 783,000,000 bushels for 1909 was the largest ever produced by any country for a single year. Twelve square feet of the "gold sod," upon which President Taft is to stand when he talks to the members of the Irish Fellowship Club, Chicago, on March 17th, will be placed on board the liner St. Louis when she touches at Queenstown next Thursday. The Canada Foundry company, Toronto, has advanced wages by five per cent. The immensely valuable property belonging to S. H. Jones at the north-east corner of Yonge and King streets, Toronto, has been sold to Henry Smith Osher, K.C., as acting for some unknown parties for \$740,000. At this time last year the steel car builders had orders for 60,000 cars. This year orders have amounted to 160,000.

NEWS OF THE WORLD

Are You on the Lookout for GOOD PLUMBING? Turn your steps in our direction and your search ends. Our experience of many years, and our constant effort to be strictly modern in our ideas, preclude the possibility of your making a mistake. DAVID HALL, 66 Brock St. Phone No. 335.

Royal Food Suits Every Taste and is positively unequalled as a giver of strength and sustaining energy to CHILDREN, INVALIDS, CONValescents, and all persons of weak digestion.
